StandardAero – A Global Leader in the Highly Attractive Aerospace Engine Aftermarket Sector

We believe that we are the world’s largest independent, pure-play provider of aerospace engine aftermarket services for fixed and rotary wing aircraft, serving the commercial, military and business aviation end markets. We provide a comprehensive suite of critical, value-added aftermarket solutions, including scheduled and unscheduled engine maintenance, repair and overhaul, engine component repair, on-wing and field service support, asset management and engineering solutions. We serve a crucial role in the engine aftermarket value chain, connecting engine original equipment manufacturers (“OEMs”) with aircraft operators through our aftermarket services, maintaining longstanding relationships with both. We command a leading reputation that is based upon our strong track record of safety, reliability and operational performance built over our more than 100 years of successful operations in the aerospace aftermarket.

Our business consists of an attractive mix of end markets, customers and engine platforms. Our revenue is highly diversified across the commercial, military and business aviation end markets. We believe this diversification provides us with significant resiliency, while affording us the ability to take advantage of new business opportunities that arise. In addition, diversification across engine OEMs and platforms reduces our exposure to idiosyncratic events that may impact demand related to a specific aircraft or engine type.

Within our markets, we hold leadership positions on most of the engine platforms we serve, with an estimated 80% of our Engine Services sales in 2023 from engine platforms where we hold #1 or #2 positions globally. Our platform portfolio consists of a healthy mix of mature, growth and next generation programs and includes many of the engines that power the world’s most prevalent aircraft. For example, we provide support for the CFM56, which powers the Boeing 737NG and Airbus A320ceo family narrowbody aircraft and currently has the largest installed base of any engine platform, the LEAP-1A/-1B, which power the next generation of narrowbody aircraft and are expected to become the most widely fielded platform family in the world by the early 2030s, and the CF34, which powers many of the world’s most utilized regional jets. On several platforms, we hold contracts directly with the OEM that designates us as the primary or sole outsourced provider of maintenance services for the engine. Furthermore, with approximately 77% of our revenue in the year ended December 31, 2023 derived from long-term contractual agreements, our financial profile is characterized by a significant amount of predictable, recurring revenue supported by the highly regulated nature of aircraft engine maintenance requirements.

We are also one of the largest independent engine component repair platforms globally, providing services to commercial aerospace, military, land and marine and oil and gas end markets. We have made substantial investments in our Component Repair Services business, which provides attractive margins, significant growth opportunities and synergies with our Engine Services business. The following charts detail our business mix for the year ended December 31, 2023:

(1) For a discussion of Segment Adjusted EBITDA, see “Management’s Discussion and Analysis of Financial Condition and Results of Operations — Segment Results” and Note 24 and Note 18, “Segment information” to our audited consolidated financial statements and unaudited condensed interim consolidated financial statements, respectively, included elsewhere in this prospectus.

Core to our strategy is our positioning as an OEM-aligned and independent service provider of aftermarket services. Our OEM-aligned strategy, coupled with our scale and service performance, entrenches us as a trusted and preferred partner to every major OEM, including GE Aerospace, CFM International, Pratt & Whitney, Rolls-Royce, Honeywell and Safran. We hold long-term OEM licenses and authorizations to provide aftermarket support for all of the engine platforms that we service, and we believe we have a 100% historical success rate on the OEM licenses and authorizations we sought to retain upon their expiration. Our status as an independent services provider, not affiliated with any single OEM or airline operator, provides us with diversification and enhances the value proposition that we can offer to customers. These factors are critical drivers of our ability to cultivate decades-long relationships with many of our approximately 5,000 customers globally.

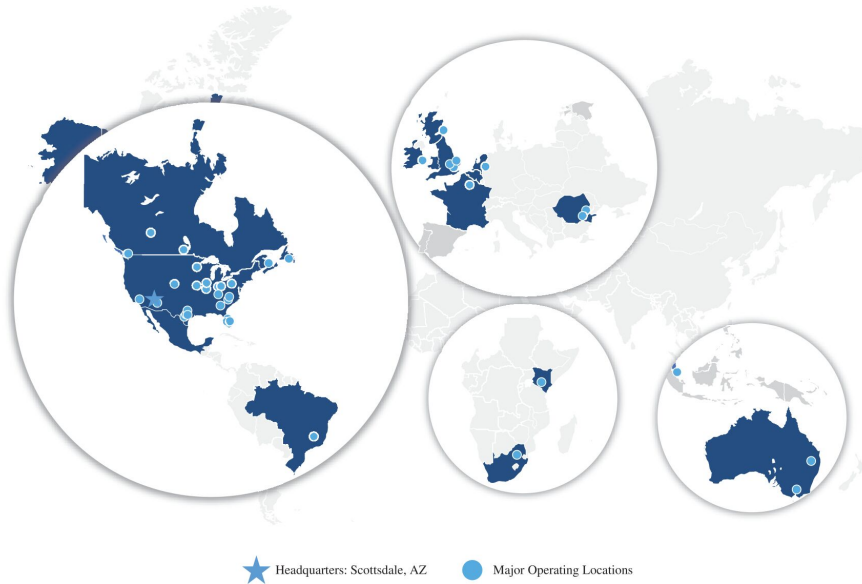

The engine aftermarket solutions we provide are mission-critical to our customers’ flight operations and our OEM partners’ businesses. Furthermore, aerospace engine maintenance is highly specialized and requires significant investment over years to obtain the necessary infrastructure, tooling and skilled engineering expertise. New entrants must obtain extensive approvals and certifications from government regulators and OEMs, who award licenses and authorizations for each engine platform separately. As of June 30, 2024, we operate with OEM licenses and authorizations to perform critical maintenance and overhaul work on over 40 key engine platforms. These licenses and authorizations typically provide us with preferred access to OEM parts and technical information, OEM warranty support and use of the OEM name in marketing and create the foundation for the sharing of closely guarded intellectual property as well as market and customer insights.

The following table summarizes select key customers and platforms across our businesses:

As of June 30, 2024, we employed approximately 7,300 people across over 50 facilities around the globe. We believe our scaled, global footprint is well-aligned to the global nature of our OEM partners and aircraft operator customers and positions us well to win business and support growing global demand for our aerospace engine maintenance services.

The following map details our facilities and highlights the global nature of our business reach and operational footprint:

For the year ended December 31, 2023, we generated revenue of \$4,563.3 million (reflecting a 10.0% increase from \$4,150.5 million for the year ended December 31, 2022), net loss of \$35.1 million (reflecting a 67.1% increase from \$21.0 million for the year ended December 31, 2022) and Adjusted EBITDA of \$561.1 million (reflecting a 18.0% increase from \$475.4 million for the year ended December 31, 2022). For the six months ended June 30, 2024, we generated revenue of \$2,582.9 million (reflecting a 12.0% increase from \$2,306.1 million for the six months ended June 30, 2023), net income of \$8.6 million (from a net loss of \$12.6 million for the six months ended June 30, 2023) and Adjusted EBITDA of \$336.0 million (reflecting a 15.2% increase from \$291.7 million for the six months ended June 30, 2023). Our history of net losses is mainly due to our substantial historical indebtedness as a private company, which as of June 30, 2024 totaled \$3,275.7 million. As a result of our substantial indebtedness, a significant amount of our cash flows is required to pay interest and principal on our outstanding indebtedness.

Given the nature of engine maintenance and the structure of certain of our agreements, a significant portion of our costs of sales consists of new OEM materials that are included in the engines we service and are often passed through to end customers at minimal or no mark-up, impacting our reported margins.

Our value creation strategy includes a combination of organic growth initiatives on our existing platforms, pursuit of new platform programs, and investment in value-accretive acquisitions. For our existing business, we focus on developing new capabilities and on ways to continuously improve operational performance to enhance our competitiveness, accelerate growth and increase margins. Over the last five years, we have invested to significantly expand our engine component repair services business, which enjoys higher margins than and is synergistic with our engine services business. We have also invested to expand our capacity and competitiveness on the CFM56 platform, the largest engine platform in the world today, including establishing a new CFM56-dedicated Center of Excellence facility in Dallas, Texas to service the growing demand on that platform.

Another significant pillar to our growth is the expansion into new engine platforms that create value for us and for our customers. Since 2016, we have been awarded licenses and authorizations and established capabilities on eight new platforms across our end markets. Most notably, in March 2023 we became the first and only independent aftermarket service provider in North America to join CFM International Inc.'s ("CFM") authorized service network for the LEAP-1A and LEAP-1B engines through the award of a long-term CFM Branded Service Agreement ("CBSA"). The LEAP-1A and LEAP-1B engines power the Airbus A320neo family and the Boeing 737MAX series aircraft, respectively, and are expected to become by far the largest engine platform family in the world, accounting for over 35% share of the world's installed base of engines by 2033. We are one of only five total CBSA holders in the world, one of two global independent service providers, and the only independent service provider in the Americas with such a CBSA, which affords us significant competitive benefits and support from CFM, as well as the ability to develop and provide additional component repair on the engines that we service and to external parties. The CBSA has the potential to be the largest award in the Company's history, and we believe it positions us to achieve above-market growth as LEAP engines experience a significant ramp up in demand over the next decade and beyond.

Alongside this organic investment, over the past seven years we have successfully completed 11 strategic acquisitions. Our disciplined approach to evaluating and executing M&A focuses on companies that add strategic engine platforms, new capabilities and intellectual property, and reach into targeted customers and geographies where we have an opportunity to accelerate the growth and financial performance of the combined businesses. We have a proven playbook for integrating new acquisitions and achieving significant synergies, which has enabled us to acquire businesses at attractive valuations on a post-synergy basis. We operate in highly fragmented markets, which has historically provided ample acquisition opportunities to grow and enhance our platform and achieve compounding returns. On August 23, 2024, we completed our most recent acquisition through our purchase of Aero Turbine Inc. ("Aero Turbine"), a provider of engine component repair and other value-added engine aftermarket services for U.S. and international customers. The acquisition was funded with borrowings under the ABL Credit Facility, which was repaid on September 6, 2024 with incremental borrowings from the 2024 Term Loan B-1 Facility and the 2024 Term Loan B-2 Facility. Aero Turbine adds highly complementary component repair and source approval request ("SAR") capabilities on strategic military platforms and generated revenues and net income of \$70.1 million and \$14.3 million, respectively, during the year ended December 31, 2023. We expect to report Aero Turbine within our Component Repair Services segment.

The Market for Engine Aftermarket Services

The global aerospace industry, spanning the commercial, military and business aviation sectors, has historically achieved growth in excess of GDP growth driven by secular tailwinds such as globalization, growing middle-class populations and wealth, increasing demand for leisure travel, growth in corporate earnings and technological advancements in aviation that make air travel more accessible.

Given this strong growth trajectory, a robust aerospace aftermarket is critical to support the global aircraft fleet. The aerospace aftermarket accounts for a significant portion of the total aerospace market and is expected to total over \$250 billion in 2024. Within the aftermarket, one of the most crucial and fastest growing sub-segments is engine aftermarket services, which accounts for approximately 45% of the commercial aerospace aftermarket. The engine is one of the most expensive and critical components of an aircraft, requiring service at regular intervals to meet regulatory mandates and sustain required performance. As a result, aftermarket services for the engine require specialized expertise and advanced technology to ensure the reliability and efficiency of aerospace operations.

Engine aftermarket services include routine inspections and scheduled and unscheduled maintenance, repairs and overhauls to keep engines in optimal conditions. OEMs and regulatory bodies, including the FAA, set

guidelines and regulatory requirements for engines to be considered airworthy, and engine aftermarket services tend to be highly predictable based on the utilization of an engine and the length of its time in service. Aircraft engines generally have a lifespan of 30 to 40+ years, during which they undergo multiple major maintenance events, referred to as shop visits, providing long and recurring revenue streams for aftermarket providers.

The engine services aftermarket has three types of participants: service divisions of engine OEMs, independent service providers and airline captive maintenance divisions. The main engine OEMs include GE Aerospace, CFM International, Pratt & Whitney, Rolls-Royce, Honeywell and Safran. While typically the focus of engine OEMs is to build new engines, produce spare parts for existing engines and develop next-generation platforms, OEMs also have divisions that provide service on their own engine platforms in order to support the installed base and generate technical insight into the performance of their engine models, particularly early in the platform lifecycle. Independent service providers like StandardAero are not affiliated with any one OEM or airline, are able to work on a wide range of engine platforms for many different customers and play a critical role in the ecosystem. Certain independent service providers receive authorizations to support specific engine platforms by the OEMs, who rely on them to build out a strong aftermarket network to support fleet customers. Some large commercial airlines, such as Delta, United and Lufthansa, maintain in-house service divisions that primarily focus on supporting aircraft and engine platforms flown by the affiliated airline. The majority of airlines do not have captive engine maintenance capabilities and depend upon third-party service providers for support.

Engine component repair services is a specialized and critical segment within the broader aerospace engine aftermarket. During the engine overhaul process, engines are disassembled into modules and piece parts that are then inspected. Damaged engine parts are then either replaced with new parts or repaired depending on the condition of the part and whether a repair is possible. Those repairs are either performed by the engine overhaul provider itself or outsourced to a specialized repair provider depending on the complexity of the repair and whether the overhaul provider has the necessary capability, equipment and intellectual property to perform the repair. We believe that demand for component repair services generally will grow in line with the broader engine aftermarket over the long-term. Part repairs often can be delivered more quickly than and at a significant discount to a new replacement engine part, resulting in a reduction in both cost and turnaround time for an engine overhaul and thereby creating value pricing opportunities that represent upside to market growth. The landscape of engine component repair providers is highly fragmented and includes the engine OEMs, airline captive maintenance operations and independent service providers. Often the most sophisticated and technically complex repairs are performed by the OEMs or certain independent service providers, like StandardAero, who are specifically authorized by the OEMs to perform them.

We primarily compete across three end markets within the engine aftermarket industry: commercial, military and helicopter, and business aviation.

Global commercial air traffic grew at a 5.6% CAGR over the last 40 years as well as over the 10 years ending in 2019 (prior to the COVID-19 pandemic), representing approximately twice the rate of global GDP growth over that timeframe. The global air traffic sector has demonstrated strong resiliency over the years, given that from 1978 through 2023 it only declined five times year-over-year and has never declined in consecutive years. The secular growth in air travel demand is expected to continue, driving the number of aircraft in service to increase by a 3.5% CAGR from 2023-2042, supported by record commercial aircraft OEM backlog levels. Additionally, the average age for the commercial fleet has increased to approximately 12 years in 2023 versus approximately 10 years in the early 2010s, and a slower than expected schedule of OEM deliveries has extended the average life of the existing fleet and increased the associated requirements for maintenance services. Approximately 9,000 shop visits and engine overhauls are anticipated in 2024, as the aviation sector gears up for an era of extended asset lives. Further, much of the maintenance that was deferred during the COVID-19 pandemic is coming due and can no longer be delayed, supporting additional growth in the aftermarket. Engine aftermarket services demand is also expected to increase materially through the remainder of the decade with a wave of upcoming shop visits, which is a function of a large number of engines delivered in the 2010s continuing to age and entering prime maintenance periods. For example, the CFM56 engine platform, which represents the

largest engine platform fleet today with over 19,000 engines in-service as of June 2024, of which approximately 45% have yet to have experienced their first heavy shop visit, is expected to see significant growth in scheduled maintenance over the next several years. Additionally, many LEAP-1A/-1B engines, which were first delivered in 2016, have only recently started coming in for their first maintenance events. The LEAP platform is poised to become the largest engine platform globally (expected to comprise approximately 30,000 engines, representing over 35% of global fleet by 2033). As these new engines are introduced into the market, they will enter predictable and recurring maintenance cycles, boosting demand for engine aftermarket services.

In the military and helicopter end market, ongoing geopolitical tensions continue to drive significant defense investment. The global military aviation aftermarket is projected to grow by approximately 2-3% in 2024 with the U.S. accounting for approximately 40% of global military spend. Amid evolving security challenges, aftermarket service providers are critical to ensuring readiness of defense forces globally. Sustainment remains a priority for the U.S. Department of Defense, with mission-readiness rates of military aircraft at record low levels of approximately 55%, as of the most recent study by the U.S. Government Accountability Office. Additionally, the COVID-19 pandemic and uncertain budgetary environments caused delays to the modernization of military aircraft fleets, resulting in a globally aging military aircraft fleet that requires higher levels of maintenance and an influx of aircraft upgrades and life extension programs.

In the business aviation end market, the COVID-19 pandemic accelerated a shift to private aviation, initially triggered by health and safety concerns and limited availability of commercial flights. While demand for private air travel has grown over the past five years (2023 business jet flight operations were 15% higher than 2019), aircraft manufacturing has not kept pace, with the global business jet fleet growing only 7% during that time. As a result, fleet utilization has increased significantly and the market has shifted from private aircraft towards charter and fractional aircraft owned by fleet operators, with fractional and charter flights representing 59% of U.S. business jet flights 2023 (up from 48% in 2010). The surge in activity and overall demand for business aviation has driven strong backlogs and production outlooks at the business jet OEMs, with deliveries estimated to grow approximately 20% by 2027, which underpins an outlook for sustained long term growth of the fleet. This strong fleet growth is expected to drive a continued increase in demand for business jet engine maintenance services.

Challenges

Our business is subject to a number of risks inherent to the commercial, military and helicopter, and business aviation end markets, including, among others, supply chain delays, which have in recent years impacted the availability of parts and ultimately engine throughput across all of our end markets and can cause significant production and delivery delays to any new or expanded product or engine platforms and affect our ability to provide aftermarket support and services to our customers; decreases in budget, spending or outsourcing by our military end users; and increased costs of labor, equipment, raw materials, freight and utilities due to inflation, which we have experienced in recent years. Any number of these and other factors could impact our business, and there is no guarantee that our historical performance will be predictive of future operational and financial performance. For a description of the challenges we have faced and continue to face and the risks and limitations that may prevent us from achieving our business objectives or that may adversely affect our business, financial condition, results of operations, cash flows and prospects, see “Cautionary Note Regarding Forward-Looking Statements,” “—Summary of Risk Factors,” “Risk Factors” and “Management’s Discussion and Analysis of Financial Condition and Results of Operations—Key Factors and Trends Affecting Our Business” included elsewhere in this prospectus.

Our Competitive Strengths

We believe the following strengths differentiate us from our competitors, enable us to profitably grow our leading positions in each of our end markets and drive our continued success.

Leading Independent Pure-Play Service Provider with Strategic Focus on the Aerospace Engine Aftermarket

Within the broader aerospace market, we are strategically focused on the aerospace engine aftermarket, which we believe is the largest and most attractive vertical of the aerospace aftermarket, characterized by its long tail of predictable and recurring revenue, as well as high technical complexity that affords significant competitive advantages and higher levels of profitability to scaled, capable and reputable providers. We believe that we are the largest independent, pure-play engine aftermarket services provider in the world. We provide critical aftermarket support to many of the most prolific engine platforms for fixed and rotary wing aircraft in the commercial, military and business aviation end markets. Our comprehensive suite of services includes scheduled and unscheduled engine maintenance, repair and overhaul, engine component repair, on-wing and field service support, asset management and engineering solutions. Our primary competitors include in-house service divisions of airlines, engine OEMs and other third-party service providers for whom engine aftermarket services is only a portion of their business, and we believe we are able to utilize our pure-play focus to guide our strategy and resources to best position our business to succeed within our attractive vertical.

Scaled Presence and World-Class Capabilities Built Through Decades of Investment

We believe our leading position in the aerospace industry is underpinned by our exceptional track record of past performance, our scaled global footprint and the extensive procedures and expertise we have developed and implemented over decades to ensure safety and reliability throughout our operations. Performing aerospace engine maintenance requires highly specialized technical expertise and is often supported by deep intellectual property and significant investment of time and resources to secure the necessary infrastructure, tooling and skilled engineering know-how. New entrants must obtain approvals and certifications from OEMs, customers and government regulators and must develop and demonstrate conformity with sophisticated production, quality and materials tracking systems. Additionally, OEM services authorizations are often difficult to obtain and require advanced technological capabilities, experience-based industry knowledge and substantial capital investment, and are typically awarded by OEMs for each engine platform separately. As of June 2024, we operate over 50 facilities with 54 test cells globally, which would require substantial capital investment to replicate. We employ approximately 7,300 highly skilled employees and maintain OEM licenses and authorizations that allow us to service over 40 distinct engine platforms. Furthermore, our extensive engine component repair capabilities allow us to reduce turnaround times and costs for customers, significantly enhancing our value proposition.

Longstanding Customer Relationships with Leading, Entrenched Positions on Critical Engine Platforms

Efficient completion of maintenance and repairs in a comprehensive and timely manner is a significant focus of aircraft operators and OEMs alike. Over our 100+ year history, we have developed multi-decade relationships with hundreds of customers, which include the largest global and regional aircraft operators across the commercial, military and helicopter, and business aviation end markets. We believe these customers choose StandardAero due to our exemplary track record of safety, quality, high reliability, performance and knowledgeable technical support.

We maintain equally strong relationships with and are a trusted partner to every top aerospace engine OEM, including GE Aerospace, CFM International, Pratt & Whitney, Rolls-Royce, Honeywell and have obtained long-term OEM licenses and authorizations to provide aftermarket support for all of the engine platforms that we service. These licenses and authorizations provide us access to OEM technical data, technical support and training, and often favorable commercial terms. Once awarded, we believe we have a 100% historical success rate on the OEM licenses and authorizations we sought to retain upon their expiration.

We have leveraged our relationships, track record and scale to build market leading positions on the platforms that we service. We estimate that 80% of our Engine Services sales in 2023 were derived from our work on engine platforms where we hold #1 or #2 positions globally. Additionally, we hold exclusive or semi-exclusive licenses directly with the OEM as the only independent service provider in North America officially

authorized to service a number of our platforms, including the Rolls-Royce RB211-535, AE 1107, AE 2100 and AE 3007 and the Honeywell HTF7000, and are the only independent service provider in the Americas to hold an official CBSA license from CFM International on the LEAP-1A and LEAP-1B engines.

Our deep customer relationships, supported by long-term contractual agreements, also underpin the visibility and growth of our business model. For the year ended December 31, 2023, approximately 77% of our revenue was derived from long-term contractual agreements. Of our remaining transactional business, a significant portion stems from repeat customers or single aircraft operators who don't have the scale or sophistication to enter into long-term service agreements with third parties. We believe our highly responsive customer and technical support, quality work, track record of consistent on-time delivery and post-overhaul product reliability have driven exceptional customer retention.

Proven Playbook to Capture and Execute New Platform Opportunities

We have a strong track record of successfully cultivating or acquiring access to new platforms, customers and geographies. Since 2016, we have been awarded OEM licenses and authorizations for eight unique engine programs and have developed approximately 2,500 new component repairs. Once awarded, we have a proven process to complete necessary industrialization and induct engines at what we believe to be industry leading efficiency. In October 2023, we received FAA Operations Specifications approval for our new LEAP engine line, six months after receiving our CBSA license and three months ahead of schedule. In 2021, after receiving a major new platform award for the J85 engine from the US Air Force ("USAF"), we rapidly stood-up a dedicated team at our San Antonio facility and correlated USAF "Gold" rated J85 test cells within 10 months of our initial contract award. We believe our commercial excellence culture coupled with our predictive analytics model will enable an approximate 25% increase in time on wing for the J85 engine and a significant increase in throughput of engines each month. This proven track record of successful operation and execution provides us significant credibility with OEMs when discussing new platforms. We remain in constant dialogue with every major OEM and continuously evaluate our pipeline for attractive new engine platform industrialization opportunities.

Resilient Business Model Highly Diversified Across Segments of the Aerospace Engine Aftermarket

We are focused on the aerospace engine aftermarket, which is highly resilient and driven by strict OEM and regulatory requirements for the inspection and maintenance of aircraft engines across their well-defined lifecycle phases. The complex and recurring nature of our engine repair work on behalf of our customers precipitates the use of long-term contracts to secure slot availability and pricing terms, which further contributes to the predictable and recurring nature of our revenue.

In addition, our business is well diversified across commercial, military and business aviation markets. We operate with OEM licenses and authorizations that allow us to service over 40 engine platforms, with the largest engine platform accounting for over 10% of our Engine Services revenue in both the six months ended June 30, 2024 and the year ended December 31, 2023. We maintain a strong reputation with all OEMs, longstanding relationships with a large and diverse customer base and leading market positions on most platforms that we service, all of which contribute to the stability of our business model. Our business is further insulated by our flexible cost structure, which allows us to scale up and down our operations to reflect market demand. Our primary expenses are comprised of engine materials (a significant portion of which is pure passthrough with minimal mark-up) and value-added labor, both of which are variable and provide through-the-cycle margin protection. The resiliency of our well-diversified business was on full display during the COVID-19 pandemic.

Ability to Execute and Integrate Acquisitions in a Highly Fragmented Industry

We maintain a rigorous approach to M&A and actively maintain a robust pipeline of actionable opportunities. We expect our disciplined acquisition strategy and integration playbook will continue to be a key driver in growing our revenue by expanding our capabilities, engine platforms and geographic footprint. Complementing our organic growth, we have completed 11 value-enhancing acquisitions since 2017, each

expanding our reach through the addition of new engine platforms, customers, capabilities, or geographies. Most recently, on August 23, 2024, we acquired Aero Turbine, a provider of engine component repair and other value-added engine aftermarket services that adds highly complementary component repair and SAR capabilities and expertise on strategic military platforms.

Premier Management Team with a Track Record of Success

Our premier management team, led by Chief Executive Officer & Chairman Russell Ford, has extensive managerial, operational and financial experience. Our leadership team has a proven track record of expanding our portfolio of aeroengine aftermarket programs and capabilities, strengthening our relationships with key OEMs and customers, implementing operational initiatives to drive lower costs for our customers and increasing profitability for our shareholders. We believe our established culture of safety and continuous improvement, our track record of operational success and our clearly defined strategy for organic and inorganic-driven growth position us for significant further earnings growth.

Our Growth Strategies

Our core strategy is to continue to build on our position as the leading independent, pure-play engine aftermarket services provider for commercial, military and business aircraft with best-in-class component repair capabilities. Our continued success in driving above-market growth across each of these end markets is built upon the following strategies:

Leverage Strategic Investments to Capitalize on Market Tailwinds and Capture Share on High-Growth Platforms

We have invested significantly to expand our capacity and build out our core engine maintenance capabilities. We believe this investment will enable us not only to meet the robust demand growth expected in the aerospace engine aftermarket but also to capture share on the engine platforms that we serve, particularly the CFM56-7B and the LEAP-1A/-1B. The CFM56 is the most prolific engine platform in the world today, with over 19,000 engines in service powering all Boeing 737NG and approximately 60% of Airbus A320ceo family of aircraft. We have invested over \$100 million since 2022 to expand our capabilities and more than double our shop visit capacity on the CFM56-7B engine through a new greenfield CFM56 Center of Excellence in Dallas, Texas. These investments have positioned us to capture significant share on the CFM56 platform as maintenance events visits are expected to significantly ramp into 2025 and beyond. We are currently investing over \$100 million to position ourselves as a leader on the growing LEAP-1A/-1B platform which is expected to overtake the CFM56 as the world's most widely fielded engine platform over the next decade and account for over 35% the global installed base by 2033. We believe we are uniquely positioned to capture outsized share on this high-growth platform as the only independent CBSA license holder in the Americas.

In addition, we have invested over \$500 million since 2017 to scale our Component Repair Services business into one of the largest independent engine component repair businesses worldwide, developing approximately 2,000 new repairs and significantly expanding our capability offering organically and through targeted acquisitions. We plan to continue leveraging our component repair expertise to strengthen the value proposition of our Engine Services business by reducing costs and improving turnaround times while also growing third-party repair sales which are highly accretive to our overall enterprise. We believe we are in the early innings of realizing the growth potential of these recent strategic investments.

Execute on Identified Performance Excellence Initiatives

Continuous improvement is fundamental to our business model and our corporate culture. We frequently review opportunities to deliver our quality repair services at a lower total cost to our customers, improve our

shop visit turnaround times and drive increased profitability. We have identified opportunities to advance these goals through increased insourcing of our external repair spend, a systematic and formalized adoption of value-based pricing, increased utilization of Used Serviceable Material (“USM”) and other strategic sourcing initiatives. We expect these performance enhancement initiatives and similar actions will continue to drive improved profitability and outcomes for our customers.

Capitalize on OEM Relationships to Win New Engine Programs

We believe there is large and growing demand for the engine aftermarket and engine component repair services we provide. This growth will enable us to leverage our reputation as a trusted partner and independent industry leader to enter into new authorizations with OEMs on future engine programs. We engage regularly in dialogue with OEMs and evaluate each licensing opportunity in a disciplined and differentiated manner. Our approach is focused on ensuring high conviction of generating an attractive return on our investment with a structured new platform introduction process to mitigate execution risk. Since 2016, we have been awarded licenses and authorizations for eight engine programs. We intend to continue to leverage our premier reputation and credibility with OEMs to continue to grow the number of engine platforms that we service, further diversifying our sources of revenue and profitability.

Drive Additional Value Creation Through M&A

M&A is a core tenant of our value creation playbook. We maintain a robust pipeline of M&A opportunities, evaluate dozens of potential acquisitions each year and have completed 11 highly complementary acquisitions since 2017. Through these acquisitions, we have successfully added new platforms, customers, capabilities and intellectual property and have expanded our geographic footprint. We have a systematic integration process that we employ to support our track record of successful integration, seamless onboarding of new facilities, customers and engine programs and realization of significant synergies with our existing business. We believe our markets are highly fragmented with many attractive opportunities for continued acquisitions. We also believe that our market presence, scale and expertise in establishing and executing engine aftermarket services makes us an attractive joint venture partner, particularly in emerging markets which require capital and expertise to capitalize on significant growth opportunities. We intend to continue to pursue growth via M&A, evaluating each opportunity within our existing strategic framework, with focus on long-term equity value appreciation.

The non-GAAP financial measures presented in this prospectus are supplemental measures of our performance that we believe help investors understand our financial condition and operating results and assess our future prospects. We believe that presenting these non-GAAP financial measures, in addition to the corresponding GAAP financial measures, are important supplemental measures that exclude non-cash or other items that may not be indicative of or are unrelated to our core operating results and the overall health of our company. Please refer to “Management’s Discussion and Analysis of Financial Condition and Results of Operations— Key Performance Indicators and Non-GAAP Financial Measures” for an explanation on why we use these non-GAAP financial measures, their definitions, their limitations and reconciliations to their nearest GAAP financial measure.
- (2) Segment Adjusted EBITDA is the Company’s segment measure of profit or loss as defined by ASC 280. Segment Adjusted EBITDA for each respective segment does not include unallocated corporate costs. For additional information regarding Segment Adjusted EBITDA, see Note 24 and Note 18, “Segment

- (3) We define Adjusted EBITDA as net income (loss) before interest expense, income tax expense (benefit), depreciation and amortization, further adjusted for certain non-cash items that we may record each period, as well as non-recurring items such as acquisition costs, integration and severance costs, refinance fees, business transformation costs and other discrete expenses, when applicable. We believe that Adjusted EBITDA is an important metric for management and investors as it removes the impact of items that we do not believe are indicative of our core operating results or the overall health of our company and allows for consistent comparison of our operating results over time and relative to our peers.
- (4) We define Adjusted EBITDA Margin as Adjusted EBITDA divided by total revenue. We believe that Adjusted EBITDA Margin is an important metric for management and investors as it removes the impact of items that we do not believe are indicative of our core operating results or the overall health of our company and allows for consistent comparison of our operating results over time and relative to our peers.

RISK FACTORS

An investment in our common stock involves a high degree of risk. You should carefully consider the risks described below and the other information contained in this prospectus, including our consolidated financial statements and the related notes included elsewhere in this prospectus before deciding whether to purchase shares of our common stock. The occurrence of any of the events or developments described below could adversely affect our business, results of operations, financial condition and prospects. In such an event, the market price of our common stock could decline, and you may lose all or part of your investment. Additional risks and uncertainties not presently known to us or that we currently believe are not material may also impair our business, results of operations, financial condition and prospects. The risks discussed below also contain forward-looking statements, and our actual results may differ materially from those discussed in these forward-looking statements. See “Cautionary Note Regarding Forward-Looking Statements.”

Risks Related to Our Business and Industry

We are affected by factors that adversely impact the commercial and business aviation industries.

As a provider of aftermarket services to the commercial and business aviation industries, we are greatly affected by the overall impact of U.S. and global macroeconomic conditions on those industries. The commercial and business aviation industries are historically cyclical and have been negatively affected in the past by geopolitical events, such as ongoing wars and conflicts (including in Ukraine and the Gaza strip and surrounding areas), terrorism, weather related events, acts of God, natural disasters, pandemics, disruption to fuel and oil production and supply shortages, high fuel and oil prices, environmental concerns (including climate change), lack of capital, inflationary pressures and conditions, economic sanctions, labor market shortages and weak economic conditions. The impact of instability and disruptions in the global financial markets has led, and may in the future lead, our customers to reduce domestic or international flight capacity. In addition, certain of our customers have in the past been impacted by tight credit markets and high interest rates, which has limited their ability to buy and finance parts, services, engines and aircraft.

A reduction in flight activity of aircraft and changes in customer travel patterns both in the United States and abroad has resulted in and may continue to result in reduced demand for aftermarket services, which we experienced during the height of the COVID-19 pandemic in 2020 and 2021. A deteriorating airline environment may also result in commercial airlines deciding to retire some of the aircraft that use engine platforms that we service, excess capacity in the aftermarket and increased competition for aftermarket service work and additional airline bankruptcies, and in such circumstances, we may not be able to fully collect outstanding accounts receivable. Reduced demand from customers caused by economic conditions, including tight credit conditions and customer bankruptcies, may adversely impact our financial condition or results of operations. In addition, weak national and local economic conditions, or changes in owner or operator fees or taxes by the Federal Aviation Administration (the “FAA”) or tax incentives by the U.S. Internal Revenue Service (the “IRS”), may contribute to a decline in the demand for business jet transportation, and thus would reduce the requirements for aftermarket services in the business aviation industry.

In addition, an increase in energy costs and the price of fuel could result in additional pressure on the operating costs of airlines and business jet operators, which comprise a substantial portion of our customers. The market for fuel is inherently volatile and is subject to, among other things, changes in government policy on fuel production, changes in tax policy related to fuel, fluctuations in the global supply of crude oil and disruptions in oil production or delivery caused by hostility in oil-producing areas. In addition, airlines and business jet operators are sometimes unable to pass on increases in fuel prices to customers by increasing fares or fees due to the competitive nature of the aviation industry, and this compounds the pressure on operating costs, and in turn, airlines’ and business jet operators’ ability to do business with us.

We are also subject to the risk that action by the FAA or any other regulatory authority could restrict or limit the utilization of aircraft with the engine platforms that we service or on the use of the engine platforms that we service, which could reduce demand for our services.

[Table of Contents](#)

Our business, financial condition, results of operations and prospects have been and may continue to be adversely affected by these and other similar events that impact the commercial and business aviation industries.

Decreases in budget, spending or outsourcing by our military end-users could result in a reduction in the amount of services we provide to the various agencies and buying organizations of the U.S. government, which would materially reduce our revenue and adversely affect our business, results of operations and financial condition.

A portion of our revenue is derived from contracts, directly or indirectly, with the U.S. military that are subject to U.S. government contracting rules and regulations. A decline in the level of operational activity of the U.S. military or decreases in budget, spending or outsourcing by the U.S. military end-users could adversely affect our business, results of operations and financial condition. The demand for our aftermarket services in the military market is significantly dependent upon government budget trends, particularly the U.S. Department of Defense (“DoD”) budget. Services to our military end-users accounted for approximately \$899.2 million, or 19.6%, of our revenue for the year ended December 31, 2023 and approximately \$529.8 million, or 21%, of our revenue for the six months ended June 30, 2024. U.S. federal law currently prevents U.S. military departments and agencies from using more than 50% of their funding for depot-level maintenance of core assets of outsourced work without a waiver from the Secretary of Defense, which impacts the size of the overall market for our services. Additionally, the retirement of mature aircraft from the U.S. military may decrease the need for our aftermarket services. Defense spending by United States, Canadian, European and other governments worldwide has fluctuated in recent years, at times resulting in reduced demand for our services. Growth in revenue to our military customers depends upon continued outsourcing by military end-users of certain aftermarket service functions to the civil industrial base.

Companies engaged in supplying defense-related equipment and services to U.S. government agencies, whether through direct contracts with the U.S. government or as a subcontractor to customers contracting with the U.S. government, are subject to business risks specific to the defense industry. Our supply of products to the U.S. government is subject to such unique risks largely beyond our control. Our operations may be adversely affected due to an unexpected termination or modification of a significant contract by the government or a higher-tier contractor, including for non-performance or for convenience; a change in the government’s procurement priorities for any reason, including as a result of elections or failure to pass budget or appropriations statutes; a reduction in the volume of contracts or subcontracts awarded to us; or substantial cost overruns. For instance, the terms of defense contracts with the U.S. government generally permit the government or a higher-tier contractor to terminate or modify contracts partially or completely, with or without cause, at any time. We also face the risk that the U.S. government may unilaterally suspend or debar our customers, the prime contractor with whom we subcontract, or us from new contracts in the event of any alleged violations of procurement laws or regulations or for a lack of responsibility. Furthermore, the U.S. government retains discretion to revoke required security clearances. In addition, our subcontracts may be terminated or we may be required to renegotiate terms of our military contracts if the U.S. government threatens to terminate the contract of a primary contractor through whom we provide services. If we fail to renegotiate with the primary contractor, we and the primary contractor may lose all of our business related to such contract. Also, some of the tooling, equipment and materials we use in providing aftermarket services to the U.S. military are provided to us under the terms of contracts with the U.S. government or a prime contractor. If we were unable to use these government-furnished tooling, equipment and materials, we could be required to incur significant capital investment to fulfill our obligations under such contracts and could adversely affect our business, results of operations and financial condition.

In addition, DoD budgets could be negatively impacted by several factors, including, but not limited to, a change in defense spending policy as a result of the presidential election or otherwise, the U.S. government’s budget deficits, spending priorities (e.g., shifting funds to assist Ukraine in the Russia and Ukraine conflict or to assist Israel or appropriating budget to new development programs away from sustainment and maintenance of existing programs), the cost of sustaining the U.S. military presence internationally and possible political pressure to reduce U.S. government military spending, each of which could cause the DoD budget to remain

[Table of Contents](#)

unchanged or to decline. While current world tensions—including the conflicts in Ukraine and the Gaza strip and surrounding areas—are driving short-term spending increases, if future military spending declines, is redirected away from markets in which we operate or aircraft in which our services are used, or if military outsourcing decreases or ceases, our business results of operations and financial condition would be materially adversely affected. Additionally, unlike civil aviation, military organizations have discretion over their own maintenance regimens. Military aviation end-users may elect to reduce aftermarket service spending by lengthening the time between required overhaul for certain engines, which could adversely affect our business, results of operations and financial condition.

The U.S. government may review our costs and performance on their contracts, as well as conduct periodic audits of our accounting and general business practices. Based on the results of such audits, the U.S. government may adjust our contract-related costs and fees, including allocated indirect costs. In addition, under U.S. government purchasing regulations, some of our costs, including most financing costs, portions of research and development costs and certain marketing expenses may not be reimbursable under U.S. government contracts.

We depend on certain component parts and material suppliers for our engine repair and overhaul operations, and any supply chain disruptions or loss of key suppliers could adversely affect our business, results of operations and financial condition.

Our business depends on maintaining a sufficient supply of parts, components and raw materials to meet our customers' demands and maintain the operation of our business and services. Global supply chain and labor markets are continuing to experience high levels of disruption, including recent disruption caused by attacks on commercial vessels in the Red Sea, causing significant materials and parts shortages, as well as delivery delays, labor shortages, distribution issues, energy cost increases and price increases. Current geopolitical conditions, including sanctions and other trade restrictive actions and strained intercountry relations, are contributing to these issues. These issues could lead to significant supplier performance failures and delays. Disruptions to our supply chain and business operations, or to our suppliers' supply chains and business operations, could have adverse effects on our ability to provide aftermarket support and services to our customers and, thus, could adversely affect our business, results of operations and financial condition.

In particular, we source the materials, parts and components for our business from material suppliers and OEMs. Our authorizations from OEMs often require that we purchase component parts from the OEMs or their designated distributors. Our business, therefore, could be adversely impacted by factors affecting our OEMs and other suppliers (such as the destruction of our suppliers' facilities or their distribution infrastructure, including damage or disruption by external factors, including wars or other conflicts, terrorism, weather-related events (including due to climate change), acts of God, natural disasters or other similar events, a work stoppage or strike by our suppliers' employees or the failure of our suppliers to provide materials of the requisite quality), or by increased costs of such raw materials or components if we were unable to pass along such price increases to our customers.

For the six months ended June 30, 2024 and the year ended December 31, 2023, our four largest parts suppliers, which consisted of OEMs, accounted for a substantial majority of our total parts purchases. If we were to lose a key supplier or were unable to obtain the same levels or quality of deliveries from these suppliers and were unable to supplement those purchases with products obtained from other suppliers, it could adversely affect our business, results of operations and financial condition. In addition, if our key suppliers increase the prices of their products, it would negatively affect our operating results if we were not able to pass these price increases through to our customers, which could lead to decreased sales, profit margins and earnings.

In recent years, we have experienced supply chain delays from our key suppliers that impacted the availability of parts and materials and ultimately engine repair and overhaul throughput across all of our end markets. Any significant prolonged disruption or future delays could adversely affect our business, results of operations and financial condition. Because we strive to limit the volume of raw materials and component parts

[Table of Contents](#)

on hand, our business could be adversely affected if we were unable to obtain raw materials and components from our suppliers when we need them, in the quantities we require to operate our business or on favorable terms. Although we may identify alternative suppliers, or alternative raw materials or component parts, this could require substantial time to implement, particularly if it involves the lengthy and expensive aviation authority and OEM certification processes associated with aerospace products, which could prevent efficient replacement of a supplier, raw material or component part, and our ability to supply parts to our customers when needed could be impaired, which in turn could adversely impact our production timelines, fulfillment of customer contracts, revenue, profitability and reputation.

In addition, supply chain disruptions could cause significant production and delivery delays to any new or expanded product or engine platforms, such as providing aftermarket services to the LEAP platform and expanding aftermarket services on the CFM56 platform. Execution and implementation of new or expanded platforms, like the new LEAP platform and expanded CFM56 platform, depends in part on our suppliers having access to the materials and skilled labor they require and making timely deliveries to us. Any such disruptions to our supply chain and business operations, or to our suppliers' supply chains and business operations, could have adverse effects on our ability to provide aftermarket support and services to our customers and, thus, could adversely affect our business, results of operations and financial condition.

Inflation has adversely affected us and may continue to adversely affect us by increasing our costs beyond what we can recover through price increases.

Inflation has adversely affected us in recent years by increasing our costs of labor, equipment, raw materials, freight and utilities. We strive to offset these items by price increases, operating improvements and other cost-saving initiatives and through contractual provisions that allow us to pass along material and other cost increases to customers. In certain end markets, implementing price increases may be difficult and there is no assurance that we will be successful. From time to time, we may encounter difficulties in obtaining certain raw materials or components necessary for production due to supply chain constraints and logistical challenges, which may also negatively impact the pricing of materials and components sourced or used in our services.

Future outbreaks and infectious diseases could adversely affect our business, results of operations and financial condition.

While the overall demand for commercial air travel has significantly recovered from the effects of the COVID-19 pandemic, the impact of future outbreaks, health concerns and infectious diseases could pose a threat to the commercial aviation industry, including our business and operations. Public health crises, including a resurgence of the COVID-19 pandemic (including through any new variant strains of the underlying virus), a new health epidemic or similar outbreak or other negative developments associated with the pandemic or outbreak (e.g., restrictive government policies or mandates), could disrupt supply chains, adversely affect the number of new commercial jet deliveries and the utilization of commercial and business aviation engines that we service and hinder or reverse the commercial flight activity recovery, leading to decreased worldwide commercial activity and a reduced demand for airline passenger and cargo services. Reduced flight activity negatively impacts the demand for our aftermarket services, and any prolonged reduction could materially and adversely affect our business, operating results and financial condition.

Moreover, prolonged pandemics, epidemics and similar outbreaks, or the threat thereof, could result in worker absences, lower productivity, voluntary or involuntary closure of our offices and facilities, travel restrictions for our employees and other disruptions to our business, including disruptions which are unanticipated or unknown at this time. Any of these could adversely affect our business, financial condition or results of operations.

Our ability to predict and respond to future changes resulting from potential health crises is uncertain. Even after a public health crisis subsides, there may be long-term effects on our business and the business of our

customers, suppliers, vendors and other business partners, in economies in which we operate that could severely disrupt our operations and could adversely affect our business, results of operations and financial condition. As we cannot predict the duration, scope or severity of future public health crises, the negative financial impact to our results cannot be reasonably estimated and could be material.

Competition in our business is intense given the market in which we participate and the range of services that we provide within that market.

We operate in a highly competitive global industry and compete against a number of companies. Competitors in our product lines are both U.S. and foreign companies and range in size from divisions of large public corporations to small privately-held entities. Our primary competitors include the service divisions of OEMs, other independent aftermarket service providers, in certain cases the in-house maintenance services divisions of the commercial airlines and U.S. and foreign militaries, and engine component repair specialists. Certain characteristics of these competitors are as follows:

Service divisions of OEMs. The service divisions of OEMs, including GE Aerospace, CFM International, Pratt & Whitney, Rolls Royce, Honeywell and Safran, traditionally hold a sizeable aftermarket service market share on newer platforms, in order to support the installed base and generate technical insight into the performance of their engine models, which is particularly important early in the platform lifecycle. Service divisions of OEMs compete on the basis of their affiliations with OEMs, which may give them design authority, brand recognition, strong and long-term customer relationships beginning with the original sale of the engines, the ability to adapt more quickly to customer requirements involving technical specification changes, a diverse product and service base, significant financial resources, control over certification and control over sources and pricing of approved parts. OEMs may in the future attempt to perform a greater portion of the repair and overhaul services related to the engines they manufacture themselves or change the pricing or level of work scopes that we receive or have access to.

Other independent aftermarket service providers. Independent service providers like us are not affiliated with any one OEM or airline and are able to work on a wide range of engine platforms for many different customers. Most of the independent service providers of engine repair and overhaul services that compete with us, including MTU Aero Engines, ST Engineering Aerospace (“ST Aerospace”), SR Technics Switzerland AG (“SR Technics”), OGMA Indústria Aeronáutica de Portugal (“OGMA”) and Duncan Aviation, also operate under authorizations from OEMs. We also compete with independent service providers that do not have authorization from the OEMs or hold limited approvals or licensing agreements from the OEMs that only allow for the repair of certain engines or components. Independent service providers who currently do not compete with us may decide or attempt to provide services on engines that we currently service and for which they may or may not have OEM authorization. These competitors and potential competitors may have strong and long-term customer relationships and greater financial resources than us.

In-house maintenance service divisions of the commercial airlines. While recently there has been an increasing trend among commercial carriers to outsource engine aftermarket services, some of the large commercial airlines globally maintain in-house divisions, some of which provide services externally to third-party customers. In-house divisions have several competitive advantages over us, including captive engine fleets, leverage over OEMs and access to parts discounts via their captive airline, and may have greater financial resources than us.

U.S. and foreign militaries. The U.S. military has active aftermarket services facilities and activates new facilities from time to time, which displaces business that we might otherwise compete for. To protect national interests and foster job creation and national capability development, many foreign militaries also actively operate existing aftermarket services facilities and activate new facilities from time to time, which displaces business that we might otherwise compete for.

[Table of Contents](#)

Engine component repair specialists. The engine component repair market is highly fragmented with many providers and varying levels of scale and breadth of capabilities. Within this market, we face competitors including scaled providers of component repairs such as HEICO, as well as a number of smaller, specialized repair providers that may focus on a limited number of components or platforms. Some of these competitors may have greater financial and other resources than we do.

We believe that providers of aftermarket services have traditionally competed on the basis of price, quality and the ability to perform repairs and overhauls efficiently. Developing and maintaining a competitive advantage will require continued investments in technology and innovation, engineering, operations, customer service and sales and marketing. We may not have sufficient resources to make the necessary investments and we may not be able to compete effectively. Furthermore, our business, results of operations and financial condition may be materially adversely affected by changes in the competitive environment, including any intensification of competition, which could lead to a loss of business and a decline in our margins.

Loss of an OEM authorization or license could negatively impact our ability to service an engine platform and damage our competitive advantage in such platform's market.

OEMs grant participants in the aftermarket services sector authorizations or licenses to perform repair and overhaul services on the engines they manufacture. We currently have OEM authorizations or licenses for all of the engine platforms that we service. Any loss, revocation, suspension or non-renewal of an OEM authorization or license could negatively impact our ability to service certain engine platforms and significantly impact our competitive advantage in the market for that platform. For example, any loss or non-renewal of an OEM authorization or license could impact our competitiveness within a market by changing the pace at which we go to market and restricting us from benefits like discounts on parts, technical information, OEM warranty support and use of the OEM name in marketing. In addition, many of our OEM contracts that provide us the authorization or licenses contain provisions requiring consent to certain change of control transactions that have historically required and may in the future require us to pay significant fees in order to obtain such consent. If such consent is not obtained, these provisions may result in such contracts being terminated if there is such a change in control, resulting in a potential loss of revenue. In addition, these provisions may act as a deterrent to any attempt by a third party to acquire us.

A portion of our revenue is generated from engine platforms that are mature and for which the installed base is flat or declining. If we are unable to offset the resulting declines in revenue as engines are retired, then our business, results of operations and financial condition would be adversely affected.

The long-term prospects of our business depend in part on the size of the installed base across the engine platforms we service. A portion of our revenue is generated from engine platforms that are mature and for which the installed base is flat or declining. In addition, certain airlines operate new fleet types and/or newer generation aircraft and we may not have contractual arrangements to service these aircraft, nor technicians trained and certified to perform the required aftermarket services on such aircraft.

If we are unable to offset any declining installed base with price increases, market share gains or services for new or additional platforms, or if such new or additional platforms are not used as widely or at as high a rate as the engines that we currently service, then our business, results of operations and financial condition would be adversely affected.

A significant portion of our revenue is derived from a small number of customers.

We have derived, and may continue to derive, a significant portion of our revenue from a small number of customers. When all subsidiaries and divisions of a single parent are regarded as a single customer, for the six months ended June 30, 2024 and 2023, our top four OEM customers accounted for approximately 41% and 43% of our revenue, respectively. For the years ended December 31, 2023, 2022 and 2021, our top four OEM customers accounted for approximately 43%, 45% and 49% of our revenue, respectively. We cannot assure you that these customers will continue to contract with us on terms currently in effect or other terms which are

[Table of Contents](#)

favorable but not currently in effect, or whether they will elect to contract with our competitors or attempt to perform the services themselves. We are party to a number of long-term contracts with each of our top customers, with such contracts typically covering specific engine platforms or certain aspects of our relationship with the customer. Some of these customers have the right to terminate certain contracts without penalty with advance written notice. These contracts generally do not include any minimum purchase requirements for the customers and were made in the ordinary course of business. As a result, these customers could stop purchasing our services, reduce or defer the need for our services or request reduced pricing structures at any time. We may therefore need to adapt our pricing strategies in response to a customer who may seek concessions in return for its continued or increased business. In addition, a macroeconomic downturn or any other cause of consolidation in the commercial, military and business aviation industries or among our other customers could significantly increase the market share and bargaining power of a limited number of customers and give them significant additional leverage to negotiate more favorable terms and place greater demands on us. The loss of any of these customers, if not offset by revenue from new or other existing customers, or any inability of any customer to pay amounts as and when due, could adversely affect our business, results of operations and financial condition. A significant portion of our revenue from commercial, military and business aviation customers is derived from services we provide on behalf of OEMs as a subcontractor and authorized provider for services the OEMs provide to their customers. As a result, we could be adversely affected by changes in demand by OEMs or OEMs' customers or by a loss or non-renewal of an OEM authorization for any of our platforms.

Aircraft engine OEMs, including GE Aerospace, CFM International, Rolls-Royce, Honeywell, Pratt & Whitney and Safran in addition to providing authorizations to service the engines they manufacture, are also significant customers as a result of subcontracting aftermarket services to us for contracts they have with their end customers. Our business, results of operations and financial condition could be adversely affected if these OEMs modify pricing, modify work scope requirements or reduce the volume of engines subcontracted to us, either because of decreased demand by their end users or because of an increase in the volume of aftermarket services provided directly by the OEMs. In addition, our business could be adversely affected if these OEMs or their end customers provide their own aftermarket services or engage other aftermarket service providers to subcontract for their services. Further, our business, results of operations and financial condition would be adversely affected if our relationships with the customers for whom we provide services as a subcontractor are reduced or discontinued.

In addition, many of our customer contracts are complex and contain provisions that could cause us to incur penalties, be liable for liquidated or actual damages and incur unanticipated expenses with respect to the timely delivery, functionality, deployment, operation and durability of our products and services. Any such penalties, damages or expenses could adversely affect our business, results of operations and financial condition.

We do not have volume commitments with our customers and, therefore, do not have guaranteed future sales.

Although we have long-term contracts with many of our customers, the majority of our contracts with these customers do not have volume commitments and, therefore, do not have guaranteed levels of future sales. Many of those customers may terminate the contracts on short notice and, in most cases, our customers have not committed to buy any minimum quantity of our products. In addition, in certain cases, we must anticipate the future volume of orders based upon the historic purchasing patterns of customers and upon our discussions with customers as to their anticipated future requirements, and this anticipated future volume of orders may not materialize.

The prices that we charge under our fixed-price contracts are predetermined and we bear the risk that our costs or lead time may exceed our estimates.

From time to time, we enter into multi-year, fixed-price contracts (including fixed-price arrangements based on engine utilization) with some of our customers, in which we have agreed to service engines for a price determined based on then-existing engine maintenance and usage data. In a fixed-price contract, we realize all

the benefit or detriment resulting from any decreases or increases in the costs of servicing these products, with a greater risk to the costs in a high inflationary environment, which we are experiencing now.

Several factors may cause the costs that we incur in fulfilling these contracts to vary substantially from original estimates, including the actual condition of the customers' engine fleet and our ability to inspect the condition of the customers' aircraft prior to bidding. Many of our contracts do not permit us to recover the entirety of increases in raw material prices, taxes or labor costs. In addition, for our fixed-price arrangements based on engine utilization, the timing of payments from our customers may not coincide with the timing of costs incurred to perform the maintenance services under these agreements. In such cases, our cash flow and liquidity may be negatively impacted to the extent we incur significant costs in advance of the scheduled payments for such maintenance services.

Damage to our reputation or the reputation of other parties in the aerospace industry could hurt our business.

Damage to our reputation can cause significant harm to our business and prospects. Harm to our reputation can rise from numerous sources, including, among others, litigation or regulatory outcomes, compliance failures, quality escapes, cybersecurity breaches and unethical behavior. Negative publicity about us, whether or not true, may also result in harm to our prospects.

In addition, damage to the reputation of other parties in the aerospace industry, including OEMs and commercial airlines, could harm our business. If the reputation of the commercial airline industry is damaged, the need for our services in the commercial airline industry could be reduced, which would adversely affect our business, results of operations and financial condition.

Our operations depend on our facilities, which are subject to physical and other risks that could disrupt our business.

The facilities at which we provide services could be damaged or disrupted by external factors, including wars or other conflicts, terrorism, weather-related events (including due to climate change), acts of God, natural disasters or other similar events. These could result in potential damage to our physical assets as well as disruptions in production activities. Moreover, we are vulnerable to damage from other types of disasters, including power loss, grid failures, fire, explosions, floods, communications failures, technological disruptions and similar events. Disruptions could also occur due to health-related outbreaks and crises, cyber attacks, computer or equipment malfunction (accidental or intentional), operator error or process failures. Any of these events could result in prolonged interruption of our business. Any disruption resulting from these events could cause significant delays in service and shipments of engines and the loss of sales and customers. Should insurance and other risk transfer mechanisms be inadequate to recover all costs and compensate us for any of these events, it could adversely affect our business, results of operations and financial condition.

Implementing new or expanded platforms, products and services and keeping pace with technological or process developments in our industries may require significant capital and operational risk.

The commercial, military and business aviation industries are constantly undergoing development and change, and it is likely that new products, platforms, equipment, digital tools and methods which are more advanced, will be introduced in the future. We may need to make significant expenditures to fund and implement new or expanded platforms, such as the new LEAP platform and expansion of the CFM56 platform, and purchase new equipment.

New or expanded platforms with new technologies typically carry risks associated with design responsibility, development of new production tools, hiring and training of qualified personnel, increased capital and funding commitments, ability to meet customer specifications, delivery schedules and unique contractual requirements, supplier performance, subcontractor performance, ability of the customer to meet its contractual obligations to us, and our ability to accurately estimate costs associated with such platforms. We may face

[Table of Contents](#)

financial risks in connection with new or expanded platforms or technologies if we are not able to reduce the costs of these products over time, through experience and other measures, including the introduction of new designs, technologies, manufacturing methods and suppliers. In addition, any new or expanded platform may not generate sufficient demand or may experience technological problems or significant delays in the regulatory certification or manufacturing and delivery schedule. If we were unable to perform our obligations under new or expanded platforms to the customer's satisfaction or expectations or manufacture products at our estimated costs, if we were to experience unexpected fluctuations in raw material prices or other fluctuations in supplier costs leading to cost overruns, if we were unable to successfully perform under revised design and manufacturing plans or successfully and equitably resolve claims and assertions, or if a new or expanded platform in which we had made a significant investment was terminated or experienced weak demand, delays or technological problems, our business, financial condition and results of operations could be adversely affected. This risk includes the potential for default, quality problems or failure to meet contractual requirements and could result in low margin or forward loss contracts, and the risk of having to write-off inventory or contract assets if they were deemed to be unrecoverable over the life of the platform. In addition, beginning new work on existing platforms carries risks associated with the transfer of technology, knowledge and tooling. Any of the foregoing risks or expenditures could adversely affect our business, results of operations and financial condition.

To perform on new or expanded platforms, we may be required to construct or acquire new facilities, requiring additional up-front investment costs. In the case of significant platform delays and/or platform cancellations, we could be required to bear certain unrecoverable construction and maintenance costs and incur potential impairment charges for the new facilities. We also may need to expend additional resources to determine an alternate revenue generating use for the facilities. Likewise, significant delays in the construction or acquisition of a plant site could impact production schedules.

In addition, we may need to make significant expenditures to keep pace with new technological or process developments in our industries. Technological development and expenditures pose a number of challenges and risks, including the following:

- we may not be able to successfully protect the proprietary interests we have in our aftermarket services and component and accessory repair processes;
- as OEMs continue to develop and improve jet engines and aircraft components, we may not be able to repair parts that perform as well as those offered by OEMs or we may not be able to profitably sell our aftermarket services at lower prices than the OEMs;
- we may need to expend significant capital to (i) purchase new equipment and machines, (ii) train employees in new methods of servicing engines, components or parts and (iii) fund the research and development of new platforms; and
- development by our competitors of patents or methodologies that preclude us from providing aftermarket services could adversely affect our business, financial condition and results of operations.

In addition, we may not be able to successfully develop new products, equipment or methods of repair and overhaul service, and the failure to do so could adversely affect our business, financial condition and results of operations.

Acquisitions, joint ventures, business combinations and inorganic investments may prove risky for us.

In the past we have pursued, and in the future we expect to continue to pursue, acquisitions, joint ventures, business combinations or inorganic investments involving us or any of our subsidiaries that we believe may present opportunities to enhance our market position, extend our technological capabilities, realize significant synergies, operating expense reductions or overhead cost savings or otherwise benefit our stockholders. This strategy will depend in part on whether any suitable acquisition candidates or other business combination opportunities are available at acceptable valuations and upon advantageous or acceptable terms and conditions, and our ability to finance the purchase consideration of any acquisitions. However, we may not be able to find

[Table of Contents](#)

suitable acquisition candidates to purchase or may be unable to acquire desired businesses or assets on economically acceptable terms or may be unable to receive necessary regulatory approvals or support. In addition, we may not be able to raise the capital necessary to fund future acquisitions. Because we may actively pursue a number of opportunities simultaneously, we may encounter unforeseen expenses, complications and delays, including regulatory complications or difficulties in employing sufficient staff and maintaining operational and management oversight.

Any such acquisition, joint venture, business combination or inorganic investment that we pursue or complete could present a variety of risks, including:

- the incurrence of any debt or contingent liabilities and an increase in interest and amortization expenses or periodic impairment charges related to goodwill and other intangible assets as well as significant charges relating to integration costs;
- our failure to discover liabilities of the acquired company for which we may be responsible as a successor owner or operator despite any investigation we make before the acquisition, including potential exposure to regulatory sanctions resulting from an acquisition target's previous activities;
- unanticipated costs, expenses or other liabilities, including as a result of an acquisition target's violation of applicable laws, such as the U.S. Foreign Corrupt Practices Act ("FCPA") or similar anti-bribery laws in non-U.S. jurisdictions, as well as post-closing asset impairment charges, expenses associated with eliminating duplicate facilities, litigation and other liabilities;
- our inability to integrate the operations, technology and internal controls and retain and assimilate personnel of the acquired company;
- our failure to realize the degree or timing of benefits we anticipate when we first enter into a transaction;
- the diversion of management's attention from our core operations as they attend to any transactional or business integration issues that may arise;
- our inability to exit or wind down any unfavorable joint ventures on acceptable terms or without additional concessions to our joint venture partners;
- our loss of key personnel of the acquired company; and
- our becoming subject to material liabilities as a result of failure to negotiate adequate indemnification rights.

Any of the foregoing could adversely affect our business, results of operations and financial condition. In addition, accounting requirements relating to business combinations, including the requirement to expense certain acquisition costs as incurred, may cause us to incur greater earnings volatility and generally lower earnings during periods in which we acquire new businesses.

Risks Related to Financial and Accounting Matters

We have identified material weaknesses in our internal control over financial reporting. If our remediation of such material weaknesses is not effective, or if we experience additional material weaknesses or otherwise fail to design and maintain effective internal control over financial reporting, our ability to accurately and effectively report our financial condition and results of operations in a timely manner or comply with applicable laws and regulations could be impaired, which may adversely affect investor confidence in us, subject us to litigation or significant financial or other penalties, and, as a result, affect the value of our common stock and our financial condition.

As a previously privately held company, we are not currently subject to Section 404 of the Sarbanes-Oxley Act, however, in connection with the preparation of the registration statement of which this prospectus forms a

[Table of Contents](#)

part, we identified material weaknesses related to three main areas: (i) our control environment; (ii) our control activities; and (iii) our information technology (“IT”) general controls. A material weakness is a deficiency, or combination of deficiencies, in internal control over financial reporting such that there is a reasonable possibility that a material misstatement of our annual or interim consolidated financial statements will not be prevented or detected on a timely basis. We did not formally design or maintain an effective control environment commensurate with the financial reporting requirements of a public company and we did not have the necessary business processes, systems, personnel and related internal controls necessary to satisfy the accounting and financial reporting requirements of a public company. This contributed to the following material weaknesses:

- Control environment: We did not have sufficient resources with an appropriate level of knowledge and experience in establishing controls or maintaining adequate written policies and procedures for accounting and financial reporting under SEC rules.
- Control activities: We did not formalize the design of certain controls related to the period-end reporting process and significant account balances. This includes ensuring that there is adequate documented evidence of a sufficient level of management review over complex estimates and judgmental areas of accounting and financial reporting.
- IT general controls: We lacked or did not consistently operate certain controls designed to maintain the integrity of user access, program change management and segregation of duties that would ensure proper implementation, operation and oversight of certain IT applications and data.

Management is committed to implementing changes to our internal control over financial reporting to ensure that the control deficiencies that contributed to the material weaknesses are remediated. To address our material weaknesses, we are now in the process of planning to implement measures designed to improve our internal control over financial reporting and remediate the control deficiencies that led to the material weaknesses. These measures include (i) hiring additional accounting and IT personnel to ensure the effectiveness of our processes and controls; (ii) formalizing the design and implementation of our financial control environment, including the establishment of formal accounting policies and procedures and financial reporting controls; and (iii) improving the design and testing of IT controls for IT systems that are relevant to the preparation of our financial statements.

While we believe these actions will contribute to the remediation of the material weaknesses we have identified, we have not completed the corrective processes, procedures and related evaluation or remediation that we believe are necessary. We cannot assure you that the measures we have taken to date, and that we are continuing to implement, will be sufficient to remediate the material weaknesses we have identified or to avoid the identification of additional material weaknesses in the future. If the steps we take do not remediate the material weaknesses in a timely manner, or we identify new material weaknesses in the future, there could continue to be a reasonable possibility that these control deficiencies or others could result in a material misstatement of our annual or interim consolidated financial statements that would not be prevented or detected on a timely basis, any of which could diminish investor confidence in us and cause a decline in the price of our common stock.

If, when required in the future, we are unable to assert that our internal control over financial reporting is effective, or if our independent registered public accounting firm is unable to express an unqualified opinion as to the effectiveness of our internal control over financial reporting, we may be unable to maintain compliance with securities law requirements regarding timely filing of periodic reports in addition to applicable stock exchange listing requirements, investors may lose confidence in the accuracy and completeness of our financial reports, the market price of our common stock could be adversely affected, and we could become subject to litigation or investigations by the stock exchange on which our securities are listed, the SEC, or other regulatory authorities, which could require additional financial and management resources.

Our reported financial results may be adversely affected by changes in GAAP.

GAAP is subject to interpretation by the Financial Accounting Standards Board (“FASB”), the SEC and various bodies formed to promulgate and interpret appropriate accounting principles. The accounting for our business is complex and is subject to change based on the evolution of our business model, interpretations of relevant accounting principles, enforcement of existing or new regulations and changes in SEC or other agency policies, rules, regulations and interpretations of accounting regulations. These complexities and other revisions to accounting standards could lead to a delay in the preparation and dissemination of our financial statements. Changes to our business model and accounting methods, principles or interpretations could result in significant changes to our financial statements, including changes in revenue and expenses in any period, or in certain categories of revenue and expenses moving to different periods and may result in materially different financial results and may also require that we change how we process, analyze and report financial information and our financial reporting controls. In some cases, we could be required to apply a new or revised standard retroactively, resulting in restating prior period publicly released financial statements.

If our estimates or judgments relating to our critical accounting policies prove to be incorrect, our results of operations could be adversely affected.

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the amounts reported in our consolidated financial statements and accompanying notes appearing elsewhere in this prospectus. We base our estimates on historical experience and on various other assumptions that we believe to be reasonable under the circumstances, as provided in the section titled “Management’s Discussion and Analysis of Financial Condition and Results of Operations—Critical Accounting Estimates.” The results of these estimates form the basis for making judgments about the carrying values of assets, liabilities and equity and the amount of revenue and expenses. Significant estimates and judgments involve: determining the appropriate revenue recognition over time for our contracts, assessments of the fair value of assets acquired and liabilities assumed in business combinations, goodwill and other long-lived asset impairment assessments, provisions required for estimated inventory obsolescence or unmarketable inventory and valuation allowances required against deferred tax assets. Our results of operations may be adversely affected if our assumptions change or if actual circumstances differ from those in our assumptions, which could cause our results of operations to fall below the expectations of securities analysts and investors, resulting in a decline in the market price of our common stock.

We may be subject to risks relating to changes in our tax rates or exposure to additional income tax liabilities.

We are subject to income taxes in the United States and various non-U.S. jurisdictions. Our domestic and international tax liabilities are dependent upon the location of earnings among these different jurisdictions. Our future results of operations could be adversely affected by changes in our effective tax rate as a result of changes in the mix of earnings in countries with differing statutory tax rates, changes in the valuation of deferred tax assets, challenges by tax authorities or changes in tax laws or regulations. From time to time, changes in tax laws or regulations may be proposed or enacted that could adversely affect our overall tax liability. There can be no assurance that changes in tax laws or regulations, both within the United States and the other jurisdictions in which we operate, such as the proposed 15% global minimum tax under the Organisation for Economic Co-operation and Development Pillar Two, Global Anti-Base Erosion Rules (the “Pillar Two Rules”), will not materially and adversely affect our effective tax rate, tax payments, financial condition and results of operations. As of December 31, 2023, among the material jurisdictions in which we operate, only the United Kingdom and France have enacted legislation adopting the Pillar Two Rules, effective in 2024.

In addition, the amount of income taxes paid by us is subject to potential future audits by U.S. federal, state and local tax authorities and by non-U.S. tax authorities. If an audit results in an assessment, future financial results may include unfavorable adjustments to our tax liabilities, which could adversely affect our business, results of operations and financial condition.

We are dependent upon continued availability of financing to manage our business and to execute our business strategy, and additional financing may not be available on terms acceptable to us.

Our ability to manage our business and to execute our business strategy is dependent, in part, on the continued availability of debt and equity capital. We intend to continue to make investments to execute our business strategy and may require additional funds for such development. In addition, our business and operations may consume resources faster than we anticipate. In the future, we may need to raise additional funds to execute our business strategy through the issuance of new equity securities, debt or a combination of both. Access to the debt and equity capital markets may be limited by various factors, including the condition of overall credit markets, general economic factors, interest rates, bank failures, the state of the aviation industry, our level of indebtedness, our financial performance and credit ratings. These events may have an adverse effect on us. In the event of a market downturn, our results of operations could be adversely affected by those factors in many ways, including making it more difficult for us to raise funds if necessary, and our stock price may decline. In addition, debt and equity capital may not continue to be available to us on favorable terms, or at all, particularly due to our substantial indebtedness. See “—Risks Related to Our Indebtedness—Our substantial indebtedness could adversely affect our financial condition, limit our ability to raise additional capital to fund our operations and prevent us from fulfilling our obligations under our indebtedness.” Our inability to obtain financing on favorable terms, fund our capital requirements or invest in future growth opportunities could adversely affect our business, results of operations and financial condition.

Risks Related to Information Technology, Intellectual Property and Cybersecurity

If we or our third-party partners fail to protect Confidential Information and/or experience data security incidents, there may be damage to our brand and reputation, material financial penalties and legal liability, which would materially adversely affect our business, results of operations and financial condition.

We rely on computer systems, hardware, software, technology infrastructure and online sites and networks for both internal and external operations that are critical to our business (collectively, “IT Systems”). We own and manage some of these IT Systems but also rely on third parties for a range of IT Systems and related products and services, including but not limited to cloud computing and SaaS services. We and certain of our vendors and other third-party partners collect, maintain and process data about our customers, employees, vendors, business partners and others, as well as proprietary information belonging to our business, our customers, business partners and others, such as trade secrets (collectively, “Confidential Information”).

Like other companies, we regularly experience cyber-based attacks. Cybersecurity threats are continuously evolving and include, but are not limited to, both attacks on our IT Systems and attacks on the IT systems of our customers, suppliers, subcontractors and other third parties with whom we do business routinely, both on premises and in the cloud, attempting to gain unauthorized access to our confidential, proprietary, or otherwise protected information, regulated data, or information relating to our employees, customers and other third parties, or to disrupt our systems or the systems of third parties. Numerous and evolving cybersecurity risks that threaten the confidentiality, integrity and availability of our IT Systems and Confidential Information, including from diverse threat actors, such as state-sponsored organizations, opportunistic hackers and hacktivists, particularly those adverse to the security interests of the United States and its allies, which target us and other defense contractors, as well as through diverse attack vectors, such as social engineering/phishing, malware (including ransomware), malfeasance by insiders, human or technological error, and as a result of malicious code embedded in open-source software, or misconfigurations, “bugs” or other vulnerabilities in commercial software that is integrated into our (or our suppliers’ or service providers’) IT systems, products or services. Cyberattacks are expected to accelerate on a global basis in frequency and magnitude as threat actors are becoming increasingly sophisticated in using techniques and tools—including artificial intelligence—that circumvent security controls, evade detection and remove forensic evidence. Due to the evolving threat landscape, we and our third-party suppliers and vendors may be unable to detect, investigate, remediate or recover from future attacks or incidents, or to avoid a material adverse impact to our IT Systems, Confidential Information or business.

[Table of Contents](#)

While we have taken steps towards implementing a cybersecurity risk management program and processes, there can also be no assurance that such program and processes we implement, including policies, controls or procedures, will be fully implemented, complied with or effective in protecting our IT Systems and Confidential Information. In some cases, we must rely on the safeguards put in place by our customers, suppliers, subcontractors and other third parties to protect against and report cyber threats and attacks. Because we make extensive use of third-party suppliers and vendors, such as cloud services and SaaS platforms that support our internal and customer-facing operations, successful cyberattacks that disrupt or result in unauthorized access to third-party IT Systems can materially impact our operations and financial results. Any integration of artificial intelligence in our or any third party's operations, products or services is expected to pose new or unknown cybersecurity risks and challenges. In addition, as a result of the rapid pace of technological change, we and our customers, suppliers, subcontractors and other third parties with whom we conduct business continue to rely on legacy systems and software, which can be more vulnerable to cyber threats and attacks. Moreover, in light of our acquisition and business combinations strategy, we have acquired and continue to acquire companies with cybersecurity vulnerabilities, unsophisticated security measures and/or legacy technology equipment and software, which exposes us to significant cybersecurity, operational and financial risks. Further, remote and hybrid working arrangements at our company (and at many third-party providers) also increase cybersecurity risks due to the challenges associated with managing remote computing assets and security vulnerabilities that are present in many non-corporate and home networks. As a result, given the unpredictability, nature and scope of cyberattacks, it is possible that we are unable to defend against all cyberattacks, that potential vulnerabilities could go undetected and persist in the environment for an extended period, or that we may otherwise be unable to mitigate customer losses and other potential consequences of these attacks.

Further, the sophistication, availability and use of artificial intelligence by threat actors present an increased level of risk. As a result, we and certain of our third-party providers regularly experience cyberattacks and other incidents, and we expect to continue to experience more frequent and increasingly advanced cyberattacks in varying degrees. We cannot guarantee that these will not have a material impact on our operations or financial results. Additionally, in some cases, we must rely on the safeguards put in place by our customers, suppliers, vendors and other third parties to protect against and report cyberattacks. We could potentially be subject to production downtimes, operational delays, other detrimental impacts on our operations or ability to provide products and services to our customers, the compromise of our IT Systems or Confidential Information, misappropriation, destruction or corruption of data, security breaches, other manipulation or improper use of our or third-party systems, networks or products, financial losses from remedial actions, loss of business, or potential liability, penalties, fines and/or damage to our reputation. Any of these could have a material adverse effect on our competitive position, results of operations, financial condition or liquidity. Due to the evolving nature of such risks, the impact of any potential incident cannot be predicted. Any adverse impact to the availability, integrity or confidentiality of our IT Systems or Confidential Information can result in legal claims or proceedings (such as class actions), regulatory investigations and enforcement actions, fines and penalties, negative reputational impacts that cause us to lose existing or future customers, and/or significant incident response, system restoration or remediation and future compliance costs. Any or all of the foregoing could adversely affect our business, results of operations and financial condition. Finally, we cannot guarantee that any costs and liabilities incurred in relation to an attack or incident will be covered by our existing insurance policies or that applicable insurance will be available to us in the future on economically reasonable terms or at all.

In addition, we are subject to domestic and international cybersecurity-related laws and regulations, alongside government, customer and other cyber and security requirements. The scope and breadth of these requirements have expanded our compliance obligations, and cybersecurity regulatory enforcement activity has grown. We expect the regulatory environment and compliance requirements, including the application and interpretation of such requirements, to continue to evolve, and staying apace with these regulatory changes could require us, our suppliers and our business partners to modify existing practices, increase operational and compliance expenditures, and incur new or additional information technology and product development expenses. Given that compliance with such requirements and regulatory changes can take time, it is possible that our practices may not at all times comply fully or partially with all applicable requirements. For example, certain

[Table of Contents](#)

of the Company's contracts are subject to the Cyber security and IT controls requirements of Defense Federal Acquisition Regulation Supplement ("DFARS") for the protection of "covered defense information" (as that term is defined in DFARS 252.204-7012). Additionally, as a contractor to the DoD, we must comply with the controls outlined in the National Institute of Standards and Technology Special Publication 800-171, its assessment reporting requirements and/or the DoD's specific agency cybersecurity requirements.

Furthermore, based on the timeline developed by the ongoing U.S. government federal rulemaking, we anticipate we will become subject to enhanced requirements, including potential Cybersecurity Maturity Model Certification ("CMMC") assessments and/or certifications in late 2024 or 2025. Depending on the U.S. DoD agency and type of contract, we might be required to receive specific third-party cybersecurity certifications to be eligible for contract awards. Any failure to comply with these requirements could restrict our ability to bid for, be awarded and/or perform on DoD contracts. The DoD expects that all new contracts will be required to comply with the CMMC by 2026, and initial requests for information and for proposal have already begun. To the extent we, or our subcontractors or other third parties on whom we rely, are unable to achieve certification in advance of contract awards that specify the requirement, we may be unable to bid on contract awards or follow-on awards for existing work with the DoD, which could materially and adversely affect our results of operations, financial condition, business and prospects. We will also be required to go through a recertification process periodically, which may increase our costs of compliance relating to such certification and may cause operational delays. In addition, any obligations that may be imposed on us under the CMMC may be different from or in addition to those otherwise required by applicable laws and regulations, which may cause additional expense for compliance. Further, as a United Kingdom government contractor, we are required to demonstrate our Cyber Essentials Certification on an annual basis. Due to our current contracts with the Australian Government, we must also comply with the eight cybersecurity controls outlined by the Australian Cyber Security Center (ACSC) Essential Eight framework. Actual or perceived non-compliance with such requirements could result in reputational, litigation and financial risks, losses and liabilities under our current contracts and adversely impact the prospects for certain new ones.

Compliance with ever evolving federal, state and foreign laws relating to the handling of information about individuals involves significant expenditure and resources, and any failure by us or our vendors to comply may result in significant liability, negative publicity and/or an erosion of trust, which could adversely affect our business, results of operations and financial condition.

We receive, store, handle, transmit, use and otherwise process business information and information related to individuals, including from and about actual and prospective customers, as well as our employees and vendors. We also depend on a number of third-party vendors in relation to the operation of our business, a number of which process data on our behalf and have access to our information systems.

We and our vendors are subject to a variety of federal, state and foreign data privacy laws, rules, regulations, industry standards and other requirements, including those that apply generally to the handling of information about individuals, and those that are specific to certain industries, sectors, contexts, or locations. These requirements, and their application, interpretation and amendment are constantly evolving and developing. For example, in the United States, the Federal Trade Commission and state regulators enforce a variety of data privacy issues, such as promises made in privacy policies or failures to appropriately protect information about individuals, as unfair or deceptive acts or practices in or affecting commerce in violation of the Federal Trade Commission Act or similar state laws. In addition, certain states have adopted new or modified privacy and security laws and regulations that may apply to our business. For example, the California Consumer Privacy Act ("CCPA") requires covered businesses that process personal information of California residents (including residents acting in an employment and business-to-business capacity) to, among other things: provide certain disclosures to California residents regarding the business's collection, use and disclosure of personal information; receive and respond to requests from California residents to access, delete and correct their personal information, or to opt-out of certain disclosures of their personal information; and enter into specific contractual provisions with service providers that process California resident personal information on the business's behalf.

[Table of Contents](#)

The enactment of the CCPA has prompted a wave of similar laws in other states in the United States, and there also remains interest in greater regulation regarding the processing of personal information at the federal level as well, which creates a patchwork of overlapping but different state laws. As we have expanded, and may continue to expand, our international presence, we are and may become subject to additional laws relating to the processing of information in countries in which we operate and have customers, including Australia, Brazil, Canada, the European Union, Singapore, South Africa and the United Kingdom. Personal information is increasingly subject to regulation in these and other jurisdictions in which we operate, and the requirements can be more restrictive and rigorous than those in the United States.

In particular, we are subject to data protection laws in Europe including the General Data Protection Regulation 2016/679 and the United Kingdom General Data Protection Regulation and Data Protection Act of 2018 (collectively, the “GDPR”), which impose stringent data protection obligations for processors and controllers of personal data with the risk of enforcement action, civil claims (including class actions), significant penalties or requirements for us to cease or change how we process personal data and conduct our business.

Amongst other things, the GDPR regulates cross-border transfers of personal information out of the European Economic Area and the United Kingdom. European case law and guidance have imposed additional onerous requirements in relation to data transfers, and we expect the existing legal complexity and uncertainty regarding international personal data transfers to continue. In particular, we expect international transfers from the European Union and the United Kingdom to continue to be subject to enhanced scrutiny by regulators. As regulatory guidance and the enforcement landscape develops, we could suffer additional costs, complaints and/or regulatory investigations or fines, or if we are otherwise unable to transfer personal data between and among countries and regions in which we operate, it could affect the manner in which we provide our services, the geographical location or segregation of our relevant systems and operations, and could adversely affect our business, financial condition and results of operations.

Applicable requirements regarding data privacy and the processing of information in the United States, Europe and other jurisdictions, and the application and interpretation of such requirements, are continuously evolving and subject to potentially differing interpretations, which increases the complexity of compliance and has required, and may require in the future, us to modify our practices, implement a variety of compliance measures, and incur compliance-related costs and expenses. It is also possible that we could become subject to a regulatory inquiry or investigation, and be required to take additional compliance steps or incur costs in remediating any identified issues. We are currently in the process of developing and updating our policies, procedures and data transfer mechanisms in accordance with requirements under applicable data privacy and protection laws and regulations. Additionally, as these requirements may be inconsistent from one jurisdiction to another or conflict with other rules or our practices, our practices may not have complied or may not comply in the future with all such laws, regulations, requirements and obligations.

Moreover, it is possible that new laws, regulations and other requirements, or amendments to or changes in interpretations of existing laws, regulations and other requirements, may require us to incur significant costs, implement new processes, or change our handling of information and business operations. In addition, any failure, or perceived failure, by us to comply with any U.S. federal, state or foreign privacy, processing of personal information, consumer protection or e-marketing related laws, regulations, standards or other requirements to which we may be subject or other legal obligations relating to these matters, any regulatory inquiry, or any significant data breach, could adversely affect our reputation, brand and business, result in claims, investigations, proceedings or actions against us by individuals, consumer rights groups, private and public customers, governmental regulatory entities or others or other penalties or liabilities, or require us to change our operations and/or cease using certain data sets. We could incur significant costs in responding to any inquiries or investigating and defending such claims, investigations, proceedings or actions and, if found liable, pay significant damages or fines or be required to make changes to our business. Further, these proceedings and any subsequent adverse outcomes may subject us to significant negative publicity and an erosion of trust. If any of these events were to occur, our business, results of operations and financial condition could be adversely affected.

A disruption of our IT Systems and capabilities could lead to business disruption and could harm our reputation and result in financial penalty and legal liabilities, which would reduce our revenue and have a material adverse effect on our business, financial condition and results of operations.

Our business operations are reliant on our IT Systems and any interruption may impair our ability to provide our services to our customers. In addition to potential disruptions to our IT Systems from cyber-attacks and cybersecurity incidents, we also face potential disruptions resulting from equipment failures, shutdowns, power outages, human errors and other events, including disruptions experienced by service providers and other third parties. We may also experience disruptions during the implementation, upgrade or subsequent operation of our IT Systems, including supporting the legacy systems of acquired companies. Moreover, as we transition to new systems, our ability to timely mitigate, manage and patch vulnerabilities related to legacy systems and related legacy third-party technologies could impact security as well as our day-to-day operations. As a result, upgrades to our IT Systems may be expensive undertakings, may not be successful and/or could be abandoned. Additionally, if such upgraded IT Systems fail to operate or are unable to support our growth, our business operations could be severely disrupted, and we could be required to make significant additional expenditures to remedy any such failure.

We could also encounter threats to our physical security, including our facilities and personnel, and threats from workplace violence, civil unrest, terrorism, or similar acts, any of which could disrupt our IT Systems and business. Our business, and the business of our suppliers, subcontractors, service providers and customers, could be disrupted by public health crises, such as pandemics and epidemics, and governmental, business and individual actions taken in response, damaging weather or other acts of nature, or other events outside our control. The impact of any such disruptions is difficult to predict, but could lead to operational delays and detrimental impacts on our operations, diversion of management's attention and resources or loss of business.

Any of these developments could have a material and adverse effect on our business, financial condition and results of operations.

If we are unable to maintain, protect or enforce our rights in our proprietary technology, brands or other intellectual property, our competitive advantage, business, financial condition and results of operations could be harmed.

Our success is dependent, in part, upon protecting our intellectual property rights, including those in our brands and our proprietary know-how and technology. We rely on a combination of trademark, patent, trade secret, copyright and other intellectual property laws as well as contractual arrangements to establish and protect our intellectual property rights. While it is our policy to protect and defend our rights to our intellectual property, we cannot predict whether the measures that we have taken will be adequate to prevent infringement, misappropriation, dilution or other violations of our intellectual property rights, or that we will be able to successfully enforce our rights. Our failure to obtain or maintain adequate protection of our intellectual property rights for any reason could result in an adverse effect on our business, financial condition and results of operations.

We rely on our trademarks and trade names to distinguish our services from the services of our competitors, and have registered or applied to register our key trademarks. We cannot assure you that our trademark applications will be approved. Third parties may also oppose our trademark applications, or otherwise challenge our use of the trademarks. In the event that our trademarks are successfully challenged, we could be forced to rebrand our services, which could result in loss of brand recognition, and could require us to devote resources advertising and marketing new brands. Further, we cannot assure you that competitors will not infringe our trademarks, or that we will have adequate resources to enforce our trademarks.

While software and other of our proprietary works may be protected under copyright law, we have not registered any copyrights in these works, and instead, we primarily rely on protecting our software as a trade

[Table of Contents](#)

secret. In order to bring a copyright infringement lawsuit in the United States, the copyright must first be registered. In addition, certain of our proprietary technologies were developed under contracts with the U.S. government under which the U.S. government retains certain license rights to such technologies. Accordingly, although we may be able to pursue federal and state remedies for trade secret misappropriation, the remedies and damages available to us under U.S. copyright laws for unauthorized use of our software may be limited.

Although we attempt to protect certain of our proprietary technologies by entering into confidentiality agreements with our employees, consultants and others who have access to such technologies and information, these agreements may be breached, and we cannot guarantee that we will have sufficient remedies in the event of the agreements are breached. Furthermore, trade secret laws do not prevent our competitors from independently developing technologies that are substantially equivalent or superior to ours. Accordingly, despite our efforts to maintain these technologies as trade secrets, we cannot guarantee that others will not independently develop technologies with the same or similar functions to any proprietary technology we rely on to conduct our business and differentiate ourselves from our competitors. Policing unauthorized use of our know-how, technology and intellectual property is difficult, costly, time-consuming and may not be effective. Third parties may knowingly or unknowingly infringe our proprietary rights. We may be required to spend significant resources to monitor and enforce our intellectual property rights. Any litigation could be expensive to resolve, be time consuming and divert management's attention, and may not ultimately be resolved in our favor. Furthermore, if we bring a claim to enforce our intellectual property rights against an alleged infringer, the alleged infringer may bring counterclaims challenging the validity, enforceability or scope of our intellectual property rights, and if any such counterclaims are successful, we could lose valuable intellectual property rights. Any of these events could seriously harm our business.

We rely on OEM authorizations and licenses in order to provide certain of our repair and overhaul services for engine platforms. Our breach of any of these licenses may result in their termination or expose us to financial liability or legal claims and could require us to cease using the OEM technology or technical information. Our loss of such licenses or inability to license such rights in future may result in a loss of competitive advantage, decrease in our revenue or increase in our operating expenses or otherwise adversely affect our business, financial condition and results of operations.

If third parties claim that we infringe upon their intellectual property rights, our operations could be adversely affected.

We may become subject to claims that we infringe, misappropriate or otherwise violate the intellectual property rights of others. Even if we believe these claims are without merit, any claim of infringement, misappropriation or other violation could cause us to incur substantial costs defending against the claim and could distract management and other personnel from other business. Any successful claim of infringement against us could require us to pay substantial monetary damages, require us to seek licenses of intellectual property from third parties or prevent us from using certain trademarks and require us to rebrand our services. Any licensing or royalty agreements, if required, may not be available on commercially reasonable terms or at all. Any of the foregoing could have a negative impact on our business, financial condition and results of operations.

Risks Related to Government Regulation and Litigation

We will not be able to operate our business if we fail to comply with or obtain and maintain the necessary regulatory approvals.

We operate in a highly regulated industry, subject to regulation under a wide variety of U.S. federal and state and non-U.S. laws, regulations and policies that require ongoing compliance efforts. We need a number of regulatory approvals to perform the services that we provide. In addition, most of our authorizations with OEMs terminate at the option of the OEM if we fail to obtain or maintain necessary regulatory approvals or fail to comply with applicable regulations.

[Table of Contents](#)

Failure to obtain, maintain or comply with regulatory approvals, or the costs associated with obtaining, maintaining or complying with any such regulatory approvals, could adversely affect our business, results of operations and financial condition. Regulatory authorities monitoring our performance and products include the FAA in the United States, the European Union Aviation Safety Agency, the U.K. Civil Aviation Authority, Transport Canada and others. Certain of these regulatory authorities require, among other things, that we:

- periodically undergo extensive inspections and audits of our facilities and practices;
- obtain and maintain certifications from regulatory authorities to provide service for commercially operated aircraft engines; and
- obtain and maintain recognized quality approvals, such as AS9110 (the standard for repair stations).

The DoD, the Canadian military and most other military organizations to which we provide services similarly require us to comply with all applicable government regulations when servicing their equipment and may conduct reviews similar to those conducted by civil regulatory authorities. We are also subject to U.S. Department of Commerce, U.S. Department of Treasury and U.S. Department of State regulations and other governmental trade regulations including regulations that govern citizenship and nationality that can increase costs and add to the complexity of doing business with aerospace and defense products.

We must comply with various laws and regulations relating to the export of products, services and technology and the economic and trade sanctions and other laws and regulations imposed, administered and enforced by the United States and other countries having jurisdiction over our operations. In the United States, these laws include, among others, the U.S. Export Administration Regulations (“EAR”) administered by the U.S. Department of Commerce, the U.S. Department of Labor, the Bureau of Industry and Security, the International Traffic in Arms Regulations (“ITAR”) administered by the U.S. Department of State, the Directorate of Defense Trade Controls (“DDTC”) and the economic and financial sanctions and trade embargoes administered by the U.S. Department of the Treasury, Office of Foreign Assets Control (“OFAC”) or the U.S. Department of State. Certain of our products have military or strategic applications and are on the munitions list of the ITAR, or represent so-called “dual use” items governed by the EAR. As a result, these products require individual validated licenses in order to be exported to certain jurisdictions. In addition, we must maintain a registration with DDTC under the ITAR. Sanctions laws and regulations, including those administered by OFAC, generally prohibit (unless authorized by relevant authorities) transactions or other business with certain countries or territories and individuals and entities that are targeted by sanctions, including those areas subject to U.S. trade embargoes (currently Cuba, Iran, Syria, North Korea, the Crimea region of Ukraine, the so-called Donetsk People’s Republic and the so-called Luhansk People’s Republic) and individuals and entities listed on OFAC’s Specially Designated Nationals and Blocked Persons List, as well as similar lists maintained by relevant regulators. Any failures to comply with these export controls and sanctions laws and regulations could result in civil or criminal penalties, fines, investigations, adverse publicity and restrictions on our ability to export our products, and repeat failures could carry more significant penalties, including the loss of export privileges. Any changes in export controls or sanctions or laws or regulations may further restrict the export of our products or the services that we may provide. Any restrictions on the export of our products or product lines, or on the services that we provide, could adversely affect our business, results of operations and financial condition.

In addition, we may become subject to new governmental regulations if we expand our business into new countries or sell new products or services. The imposition of new, different or more stringent regulations could also materially adversely affect us because we might be unable to comply with them or compliance may require significant additional expenditures. Our inability or other failure to comply with the applicable laws of the countries in which we do business could result in fines and penalties being imposed by foreign governments or the U.S. government. Additionally, non-compliance with laws could result in OEM contract terminations or non-renewals or the loss of contracts or suspension or debarment from contracting with the U.S. government, any or all of which could adversely affect our business, results of operations and financial condition.

Our operations outside of North America are exposed to various risks, which could adversely affect our business, results of operations and financial condition.

Our business is subject to certain risks associated with doing business internationally. Most of our operations are in North America, but we also have operations in other markets and may, in the future, expand organically or through acquisition into additional markets. We have a presence in many different countries, with facilities in 11 countries. Revenue from our customers outside of the United States and Canada represented approximately 30% and 29% of our total revenue for the six months ended June 30, 2024 and the year ended December 31, 2023, respectively.

International operations are subject to many additional risks, including:

- the burden of complying with multiple and possibly conflicting laws and any unexpected changes in regulatory requirements;
- exchange controls, import and export restrictions and tariffs and other trade protection measures;
- political risks, including risks of loss due to civil disturbances, acts of terrorism, acts of war, guerilla activities and insurrection;
- unstable economic, financial and market conditions and increased expenses as a result of inflation, or higher interest rates; and
- potentially adverse tax consequences from changes in tax laws, requirements relating to withholding taxes on remittances and other payments by subsidiaries and restrictions on our ability to repatriate dividends from our subsidiaries.

Furthermore, we have global operations and are subject to laws and regulations, such as the FCPA, the U.K. Bribery Act and similar worldwide anti-bribery laws, which generally prohibit companies and their employees, agents and contractors from directly or indirectly making improper corrupt payments to government officials (and, under some laws, to private counterparties) for the purpose of obtaining or retaining business or an unfair business advantage. As an issuer, we are also subject to the FCPA's books and records and internal controls provisions. Although we have implemented what we believe to be reasonable policies and procedures to promote compliance with applicable anti-bribery laws, we cannot guarantee that our employees and agents will comply with these policies or laws. Investigations of non-compliance can be disruptive and costly, and failure to comply with these laws could subject us to civil and criminal penalties that could adversely affect our business, results of operations and financial conditions.

We are monitoring the ongoing conflicts between Israel and Hamas and between Russia and Ukraine and the related export controls and financial and economic sanctions imposed on certain industry sectors, including the aviation sector, and parties in Russia by the United States, the United Kingdom, the European Union and others. Although the conflicts have not, nor are expected to, have a direct material adverse impact on our business, the implications of the Israel and Hamas and Russia and Ukraine conflicts in the short-term and long-term are difficult to predict at this time. Factors such as increased energy costs, the availability of certain raw materials for engine components, parts and accessories, embargoes on flights from certain airlines, sanctions on certain individuals and companies, and the stability of certain customers could impact the global economy and aviation sector.

Any one of these factors could materially adversely affect our sales of products or services to international customers, which could materially adversely affect our business, results of operations and financial condition.

We are subject to environmental, health and safety laws and regulations, violations of which could result in substantial costs, liabilities and impacts to our business and operations.

Our operations are subject to federal, state and local laws and regulations relating to the environment and health and safety in the United States and in the foreign jurisdictions in which we operate, including those

[Table of Contents](#)

relating to the generation, storage, treatment, disposal handling, use and transportation of hazardous materials, emissions and discharges to air, soil and water, remediation of contaminated soil and ground water, occupational health and safety and other environmental matters. Environmental laws and regulations may require that we investigate and remediate the release or disposal of materials at sites associated with past and present operations or sites to which we have transported wastes. We have incurred and will likely continue to incur liabilities under various government statutes for the cleanup of pollutants previously released into the environment. While we do not anticipate that compliance with current environmental, health and safety laws and regulations, or any payments we may be required to make for cleanup liabilities, will adversely affect our business, results of operations and financial condition, these laws and regulations are becoming increasingly stringent, which may make compliance with such requirements more difficult or costly in the future or otherwise adversely affect our operations.

Certain environmental laws and regulations also impose strict joint and several liability for contamination or releases of hazardous substances or petroleum on former and current owners and operators of real property and in connection with third-party sites where parties have disposed wastes. These environmental laws can impose cleanup responsibility and liability without regard to whether the owner or operator knew of or caused the contamination or release. The liability under these laws has been interpreted to be strict, joint and several unless the harm is divisible and there is a reasonable basis for allocation of the responsibility. Historical contamination is known or suspected to exist at certain of our facilities. Certain of our facilities contain or have contained asbestos and lead based paint. Under some circumstances, we could be held responsible for cleaning up contamination at or emanating from our facilities, including facilities that we have sold or transferred to other companies, or at or emanating from waste disposal sites we use or have used in the past. We could also be held liable for any damages resulting from our workforce's occupational exposure to such contamination, including harmful agents associated with the engines and other equipment we service, and we may be required to manage, remove, remediate or abate hazardous conditions at our facilities, such as asbestos and lead based paint. It is possible that such environmental liabilities and other costs could materially adversely affect our business, results of operations and financial condition.

Such laws and regulations require us to obtain, maintain and renew environmental permits, licenses and approvals from governmental authorities. The regulatory environment relating to such permits, authorizations and approvals is uncertain and there can be no assurance that all permits, authorizations and/or approvals can or will be obtained. These authorities can modify or revoke such permits and can enforce compliance with environmental laws, regulations and permits by issuing orders and assessing fines. We incur capital and operating costs to comply with such laws, regulations and permits. We cannot assure you that regulators will not successfully challenge our compliance or require us to expend significant amounts to comply with applicable environmental laws or otherwise adversely affect our business, results of operations and financial condition.

Many U.S. laws governing environmental matters include criminal provisions. If we were convicted of a violation of the federal Clean Air Act or Clean Water Act, the facility or facilities involved in the violation would be ineligible to be used in performing any U.S. government contract we are awarded, until the Environmental Protection Agency thereafter certifies that the condition giving rise to the violation has been corrected.

Additionally, we expect to be impacted by laws or regulations imposed in response to concerns over climate change, including laws or regulations imposing disclosure requirements. For example, the SEC adopted rules that will require companies to provide certain climate-related disclosures, although the SEC has issued an order to stay the rules pending the outcome of litigation challenging the rules. While we are still assessing the scope and impact of this rule given how recently it was adopted, we anticipate that these rules, to the extent they ultimately go into effect, as well as other climate-related regulation and legislation, may require us to incur significant additional costs to comply, including the implementation of significant additional internal controls, processes and procedures regarding matters that have not been subject to such controls in the past, and impose increased oversight obligations on our management and board of directors. Changing expectations and requirements concerning climate change, including with respect to greenhouse gas emissions, could subject us to additional costs and restrictions, including compliance costs and increased energy and raw materials costs.

The strategic priorities and financial performance of our business are subject to market and other dynamics related to efforts to reduce greenhouse gas emissions, which can pose risks in addition to opportunities.

Given the nature of our business and the industries we serve, we must anticipate and respond to market, technological, regulatory and other changes driven by broader trends related to greenhouse gas emission reduction efforts in response to climate change and energy security concerns. These changes present risks for our business, which provides services to customers in the aviation sector that have historically been carbon intensive, and we expect will remain important to efforts globally to lower greenhouse gas emissions. In the aerospace industry, greenhouse gas emission reduction over time may require a combination of continued technological innovation in the fuel efficiency of engines, expanded use of sustainable aviation fuels and the further development of hybrid-electric and electric flight and hydrogen-based aviation technologies. The risk of insufficient availability of low carbon fuels (such as sustainable aviation fuels or hydrogen) may compromise the pace and degree of emission reduction within the aviation sector. Our success in advancing greenhouse gas emission reduction objectives across our business will depend in part on the actions of governments, regulators and other market participants to invest in infrastructure, create appropriate market incentives and to otherwise support the development of new technologies. The process of developing new high-technology products and enhancing existing products to mitigate climate change is often complex, costly and uncertain, and we may pursue strategies or make investments that do not prove to be commercially successful in the time frames expected or at all.

A failure by us or other industry participants to invest successfully in these technological developments, or to adequately position our businesses to benefit from the growth in adoption of new technologies, could adversely affect our competitive position, business, ability to attract and retain talent, results of operations, cash flows and financial condition. In addition, we face increasing expectations from many customers, suppliers, governments, regulators, investors, banks and project financiers regarding the roles that the private sector and individual companies play in decarbonization, which can result in additional costs and pose reputational or other risks for companies like ours that serve carbon-intensive industries based on the progress that we make over time in reducing emissions from our operations, products or services and achieving our publicly announced ambitions. We anticipate that we will continue to need to make investments in new technologies and capabilities and devote additional management and other resources in response to the foregoing expectations, and we may not realize the anticipated benefits of those investments and actions. Trends related to the global energy transition and decarbonization will affect the relative competitiveness of different types of service offerings within and across our business. Important factors that could impact our business include the pace of technological developments and related cost considerations, the levels of economic growth in different markets around the world and the adoption and pace of implementation of climate change-related policies (such as carbon taxes, cap and trade regimes, increased efficiency standards, greenhouse gas emission reduction targets or commitments, incentives or mandates for particular types of energy or policies that impact the availability of financing for certain types of projects) at the national and sub-national levels or by customers, investors or other private actors.

Environmental, social and governance (“ESG”) matters may adversely impact our business and reputation.

Investors, employees, customers, governmental and regulatory bodies and other stakeholders are increasingly judging companies’ performance on a variety of ESG matters, among other topics, which are increasingly considered to contribute to the long-term sustainability of companies’ performance. A variety of organizations measure the performance of companies on ESG topics, and the results of these assessments are widely publicized. In addition, investment in funds that specialize in companies that perform well in such assessments are increasingly popular, and major institutional investors have publicly emphasized the importance of ESG measures to their investment decisions with some relying on proprietary or third party ESG ratings to measure the performance of companies on ESG parameters. Topics taken into account in such assessments include, among others, climate change, environmental impacts, diversity, equity and inclusion, human and labor rights, responsible sourcing, the role of the board of directors in supervising various ESG issues and broader governance issues.

[Table of Contents](#)

In addition, various regulatory authorities have imposed, and may continue to impose, mandatory substantive and/or disclosure requirements with respect to ESG matters. For example, the SEC adopted rules that will require companies to provide certain climate-related disclosures; although the SEC has issued an order to stay the rules pending the outcome of litigation challenging the rules. We may also be subject to, or indirectly impacted by, the requirements of the European Union Corporate Sustainability Reporting Directive (and its implementing laws and regulations) and other European Union directives or European Union and European Union member state regulations, various disclosure requirements (such as information on greenhouse gas emissions, climate risks, use of offsets and emissions reduction claims) from the State of California and the International Sustainability Standards Board sustainability and climate disclosure standards, among other regulations or requirements. We may be impacted by carbon taxes implemented in the future across our operating jurisdictions, as well as our suppliers, which might increase operational costs and procurements costs, negatively impacting our business. Any of the foregoing may require us to make additional investments in facilities and equipment, require us to incur additional costs for the collection of data and/or preparation of disclosures and associated internal controls, may impact the availability and cost of key raw materials used in the production of our products, and, in turn, may adversely affect our business, results of operations and financial condition. Moreover, these requirements may not always be uniform across jurisdictions, which may result in increased complexity, and cost, for compliance. Additionally, many of our suppliers, customers and business partners may be subject to similar requirements, which may augment or create additional risks, including risks that may not be known to us.

In light of regulators' and other stakeholders' increased focus on ESG matters, there can be no certainty that we will manage such issues successfully, or that we will successfully meet society's expectations as to our proper role or our own ESG goals and values. This could lead to risk of litigation or reputational damage relating to our ESG policies or performance. As we continue to focus on developing ESG practices, and as investor and other stakeholder expectations, voluntary and regulatory ESG disclosure standards and policies continue to evolve, we have made disclosures in these areas. Such disclosures may reflect aspirational goals, targets and other expectations and assumptions, which are necessarily uncertain and may not be realized. Failure to realize (or timely achieve progress on) such aspirational goals and targets could adversely affect our access to capital or expose us to reputational or litigation risks or otherwise adversely affect our business, results of operations and financial condition.

If we fail to comply with government procurement laws and regulations, we could lose business and be liable for various penalties or sanctions.

We must comply with laws and regulations relating to the formation, administration and performance of government contracts. In the United States, these laws and regulations include the Federal Acquisition Regulation, Defense Federal Acquisition Regulation Supplement, the Truthful Cost or Pricing Data Act (formerly known as the Truth in Negotiations Act ("TINA")), Cost Accounting Standards, laws, regulations and orders restricting the use and dissemination of classified information and safeguarding of contractor information systems, and U.S. export control laws, regulations and orders relating to the export of certain products and technical information.

For example, under some of our U.S. government contracts, we are subject to TINA and under this act, the U.S. government may, in certain circumstances, obtain certified (or uncertified) cost or pricing data from contractors as a means of verifying that prices are reasonable. Moreover, some of our contracts are subject to the National Industrial Security Program Operating Manual which specifies the requirements for the protection of classified information released or disclosed in connection with classified U.S. government contracts.

In addition, we are subject to U.S. government inquiries and investigations, including periodic audits of costs that we determine are reimbursable under government contracts. U.S. government agencies routinely audit government contractors, including us, to review performance under contracts, cost structure and compliance with applicable laws, regulations and standards, as well as the adequacy of and compliance with internal control

[Table of Contents](#)

systems and policies, including the contractor's purchasing, property, estimating, compensation and management information systems. Moreover, certain costs, including certain financing costs, portions of research and development costs, lobbying expenses, certain types of legal expenses and certain marketing expenses related to the preparation of bids and proposals and certain other costs, are not allowed for direct or indirect reimbursement under cost-reimbursement contracts (or for pricing purposes under TINA). Any costs found to be unallowable, unreasonable, misclassified or inaccurately allocated to a specific contract are not reimbursable, and to the extent already reimbursed, must be refunded. In addition, any inadequacies in our systems and policies could result in payments being withheld, penalties and reduced future business.

U.S. government rules allow contracting officers to impose contractual withholdings at no less than certain minimum levels if a contracting officer determines that one or more of a contractor's business systems have one or more significant deficiencies. If a contracting officer were to impose such a withholding on us or even on a prime contractor where we are the subcontractor, it would increase the risk that we would not be paid in full or paid timely. If future audit adjustments exceed our estimates, our profitability could be adversely affected.

If a government audit, inquiry or investigation uncovers improper or illegal activities, we could be subject to criminal or civil penalties or administrative sanctions, including contract termination, breach of contract actions including related damages, fines, forfeiture of fees, suspension of payment, civil false claims allegations (which can include civil penalties and treble damages) and suspension or debarment from doing business with government agencies, any of which could materially adversely affect our reputation, business, results of operations and financial condition.

We may be subject to periodic litigation and regulatory proceedings, which may adversely affect our business and financial performance.

From time to time, we are involved in lawsuits and regulatory actions brought or threatened against us in the ordinary course of business. These actions and proceedings may involve claims for, among other things, compensation for alleged personal injury, workers' compensation, employment discrimination, breach of contract or property damage. In addition, we may be subject to class action lawsuits, including those involving allegations of violations of consumer product statutes or the Fair Labor Standards Act and state wage and hour laws. Due to the inherent uncertainties of litigation, we cannot accurately predict the ultimate outcome of any such actions or proceedings. The outcome of litigation, particularly class action lawsuits and regulatory actions, is difficult to assess or quantify, as plaintiffs may seek recovery of very large or indeterminate amounts in these types of lawsuits, and the magnitude of the potential loss may remain unknown for substantial periods of time. In addition, plaintiffs in many types of actions may seek punitive damages, civil penalties, consequential damages or other losses, or injunctive or declaratory relief. These proceedings could result in substantial cost and may require us to devote substantial resources to defend ourselves. The ultimate resolution of these matters through settlement, mediation, or court judgment could have a material impact on our business, results of operations and financial condition.

We may face large liability claims, which could adversely affect our business, results of operations and financial condition.

Our operations expose us to potential liabilities for personal injury, death or property damage as a result of a failure or malfunction of an engine or aircraft for which we have provided services, or should have provided services. In addition, many factors beyond our control could lead to liability claims, including:

- the failure of an aircraft on which an engine for which we provided services has been installed;
- the failure of a component supplied by a vendor or the OEM that we installed in an engine or aircraft;
- the reliability and skills of the operators of our customers' aircraft; and
- the type and amount of maintenance on aircraft and component systems performed by our customers.

[Table of Contents](#)

In addition, a malfunction or crash of an aircraft for which we have provided services, or should have provided services, could damage our reputation for quality products. We believe our customers consider safety and reliability as key criteria in selecting an aftermarket service provider. If a malfunction or crash were to be caused by an engine, component or part that we serviced, or if we were to otherwise fail to maintain a satisfactory record of safety and reliability, our ability to retain and attract customers may be materially adversely affected.

We have obtained insurance coverage with respect to these types of liabilities. However, any liability not covered by insurance or for which third-party indemnification is not available could require us to dedicate a substantial portion of our cash flows to make payments on these liabilities. Some of our service contracts do not limit our liability or provide for indemnification by our clients against losses arising from parts or work provided to us by the clients. We may incur significant expenses in the course of defending against such claims. Adequate insurance may not be available in the future or may be available only on unacceptable terms. We are also subject to warranty claims for which our reserves may prove to be inadequate.

Risks Related to Management and Employees

We are dependent on our senior management team and highly trained and qualified employees, and any work stoppage, difficulty hiring similar employees, retention issues or ineffective succession planning may materially adversely affect our business, results of operations and financial condition.

Our services are complicated, highly engineered and involve sophisticated technologies with related complex manufacturing and integration processes. Our continued success depends on the services of our senior management team and on our ability to attract and retain highly trained and qualified managerial and technical personnel experienced in the various operations of our businesses. Historically, there has been substantial competition for skilled personnel in the aerospace aftermarket services industry, and we could be adversely affected by a shortage of skilled employees. Competition for qualified technical personnel is intense, and we have, at times, found it difficult to attract and retain skilled personnel for our operations. We may not be able to fill new positions or vacancies created by expansion or turnover or attract and retain qualified personnel. We cannot be assured that we can continue to hire, train and retain qualified employees at current wage rates since we operate in a competitive labor market, and there are currently significant inflationary and other pressures on wages. Loss of the services of these employees could materially adversely affect our operations.

Although we believe that our relations with our employees are satisfactory, we cannot assure that we will be able to negotiate a satisfactory renewal of collective bargaining agreements or that our employee relations will remain stable. Any work stoppage or disruption could materially and adversely affect our ability to provide services to our customers.

In addition, our success depends in part on our ability to attract and motivate our senior management and key employees. Achieving this objective may be difficult due to a variety of factors, including fluctuations in economic and industry conditions, competitors' hiring practices, and the effectiveness of our compensation and benefits programs. Competition for qualified skilled management can be intense. If we are unable to effectively provide for the succession of senior management and other key personnel, our business, results of operations, cash flows and financial condition may be adversely affected. Failure to attract or retain highly qualified personnel could adversely affect our business, results of operations and financial condition.

To the extent that we lose experienced personnel, it is essential that we successfully manage the transfer of critical knowledge from those personnel, especially those who hold a significant amount of institutional knowledge about our IT Systems and operation of our business. In light of our acquisition and business combinations strategy, we have acquired and continue to acquire companies with cybersecurity vulnerabilities, unsophisticated security measures and/or legacy technology equipment and software, in which only certain key personnel possess the legacy knowledge required for maintaining such systems. As a result, the loss of personnel who maintain such knowledge could seriously harm our ability to successfully implement, manage and upgrade our IT Systems in the future, which would have an adverse effect on our business.

If we face labor shortages or increased labor costs, our results of operations and our growth could be adversely affected.

Labor is a significant component of the cost of operating our business. Our ability to meet labor needs while controlling labor costs is subject to external factors, such as employment levels, prevailing wage rates, inflation, minimum wage legislation, changing demographics, health and other insurance costs and governmental labor and employment requirements. In the event of increasing wage rates, if we fail to increase our wages competitively, the quality of our workforce could decline, while increasing our wages could cause our earnings to decrease. If we face labor shortages or increased labor costs because of increased competition for employees from our competitors and other industries, higher employee-turnover rates, increases in the federal- or state-mandated minimum wage, inflation, change in exempt and non-exempt status, or other employee benefit costs (including costs associated with health insurance coverage or workers' compensation insurance), our operating expenses could increase and our business, results of operations and financial condition could be adversely affected.

We have underfunded pension plan liabilities. We will require current and future operating cash flow to fund these shortfalls. We have no assurance that we will generate sufficient cash flow to satisfy these obligations.

We maintain defined benefit pension plans covering employees who meet age and service requirements. Assets available to fund the pension obligations of our two U.K. defined benefit plans as of December 31, 2023 were \$71.6 million, or \$4.1 million less than the measured pension benefit obligation on a GAAP basis. See Note 17, "Employee benefit plans," to our audited consolidated financial statements included elsewhere in this prospectus for a description of our defined benefit pension plans. In the event we need to make additional cash contributions to these plans, this will divert resources from our operations and may adversely affect our business, results of operations and financial condition.

The requirements of being a public company may strain our resources, increase our costs, divert management's attention, and affect our ability to attract and retain executive management and qualified board members.

As a public company, we will be subject to the reporting requirements of the Exchange Act, the listing standards of the NYSE, and other applicable securities rules and regulations. In addition, the Sarbanes-Oxley Act and the Dodd-Frank Wall Street Reform have imposed various requirements on public companies. We expect that the requirements of these rules and regulations will continue to increase our legal, accounting and financial compliance costs, some of which we did not previously incur, and make some activities more difficult, time-consuming and costly, and place significant strain on our management, personnel, systems and resources. For example, we expect these rules and regulations to make it more difficult and more expensive for us to obtain director and officer liability insurance, and we may be required to incur additional costs to maintain the same or similar coverage. Furthermore, several members of our management team have limited, if any, prior experience running a public company, interacting with public company investors and complying with the increasingly complex laws pertaining to public companies. For example, the Exchange Act requires, among other things, that we file annual, quarterly and current reports with respect to our business and results of operations. As a result of the complexity involved in complying with the rules and regulations applicable to public companies, our management's attention may be diverted from other business concerns, which could adversely affect our business, results of operations and financial condition. Although we have already hired additional employees to assist us in complying with these requirements, we may need to hire more employees in the future or engage outside consultants, which will increase our operating expenses.

In addition, changing laws, regulations and standards relating to corporate governance and public disclosure are creating uncertainty for public companies, increasing legal and financial compliance costs and making some activities more time-consuming. These laws, regulations and standards are subject to varying interpretations, in many cases due to their lack of specificity, and, as a result, their application in practice may evolve over time as new guidance is provided by regulatory and governing bodies. This could result in continuing uncertainty

[Table of Contents](#)

regarding compliance matters and higher costs necessitated by ongoing revisions to disclosure and governance practices. We intend to invest substantial resources to comply with evolving laws, regulations and standards, and this investment may result in increased general and administrative expense and a diversion of management's time and attention from business operations to compliance activities. If our efforts to comply with new laws, regulations and standards differ from the activities intended by regulatory or governing bodies due to ambiguities related to their application and practice, regulatory authorities may initiate legal proceedings against us and our business may be harmed. We also expect that being a public company that is subject to these new rules and regulations will make it more expensive for us to obtain director and officer liability insurance, and we may be required to accept reduced coverage or incur substantially higher costs to obtain coverage. These factors could also make it more difficult for us to attract and retain qualified members of our board of directors, particularly members who can serve on our audit committee and compensation committee, and qualified executive officers.

As a result of the disclosure obligations required of a public company, our business and financial condition will become more visible, which may result in an increased risk of threatened or actual litigation, including by competitors and other third parties. If such claims are successful, our business, results of operations and financial condition would be adversely affected, and even if the claims do not result in litigation or are resolved in our favor, these claims, and the time and resources necessary to resolve them, would divert the resources of our management and harm our business, results of operations and financial condition.

Risks Related to Our Indebtedness

Our substantial indebtedness could adversely affect our financial condition, limit our ability to raise additional capital to fund our operations and prevent us from fulfilling our obligations under our indebtedness.

We have a significant amount of indebtedness. As a result of our substantial indebtedness, a significant amount of our cash flows will be required to pay interest and principal on our outstanding indebtedness, and we may not generate sufficient cash flows from operations or have future borrowings available under the ABL Credit Facility or the 2023 Revolving Credit Facility to enable us to repay our indebtedness or to fund our other liquidity needs. As of June 30, 2024, we had total indebtedness outstanding of \$3,275.7 million, including \$475.5 million of Senior Notes outstanding, \$1,988.5 million of 2024 Term B-1 Loans outstanding under the Credit Agreement and \$766.7 million of 2024 Term B-2 Loans outstanding under the Credit Agreement, and we had availability under the 2023 Revolving Credit Facility of \$150.0 million (of which up to \$75.0 million is available for the issuance of letters of credit), and availability under the ABL Credit Facility of up to \$400.0 million (without giving effect to approximately \$75.0 million drawn under the ABL Credit Facility or \$18.6 million of letters of credit issued under the ABL Credit Facility). See "Capitalization" and "Description of Certain Indebtedness."

Subject to the limits contained in the Credit Agreement, the ABL Credit Agreement, the Indenture and our other debt instruments, we may incur substantial additional debt from time to time to finance working capital, capital expenditures, investments or acquisitions or for other purposes. If we do so, the risks related to our high level of debt would further increase. Specifically, our high level of debt could have important consequences to you, including:

- making it more difficult for us to satisfy our obligations under the Credit Agreement, the ABL Credit Agreement, the Indenture and our other debt agreements, and if we fail to comply with these obligations, an event of default could result;
- limiting our ability to obtain additional financing to fund future working capital, capital expenditures, investments or acquisitions or other general corporate requirements;
- requiring a substantial portion of our cash flows to be dedicated to debt service payments instead of other purposes, thereby reducing the amount of cash flows available for working capital, capital expenditures, investments or acquisitions and other general corporate purposes;

[Table of Contents](#)

- increasing our vulnerability to general adverse economic and market conditions, including inflation and rising interest rates;
- exposing us to the risk of increased interest rates as certain of our borrowings, including borrowings under the Senior Secured Credit Facilities, are at variable rates of interest;
- limiting our flexibility in planning for and reacting to changes in the markets in which we compete and to changing business and economic conditions;
- restricting us from making strategic acquisitions or causing us to make non-strategic divestitures in order to generate cash proceeds necessary to satisfy our debt obligations;
- impairing our ability to obtain additional financing in the future;
- preventing us from raising the funds necessary to repurchase all Senior Notes tendered to us upon the occurrence of certain changes of control, which failure to repurchase would constitute an event of default under the Indenture;
- placing us at a disadvantage compared to other, less leveraged competitors and affecting our ability to compete; and
- increasing our cost of borrowing or limiting our ability to refinance indebtedness.

The occurrence of any one of these events could adversely affect our business, results of operations and financial condition and ability to satisfy our obligations in respect of our outstanding debt.

Despite our level of indebtedness, we and our subsidiaries may still incur substantially more debt. This could further exacerbate the risks to our financial condition described above and impair our ability to operate our business.

As of June 30, 2024, we had total indebtedness outstanding of \$3,275.7 million, including \$475.5 million of Senior Notes outstanding, \$1,988.5 million of 2024 Term B-1 Loans outstanding under the Credit Agreement and \$766.7 million of 2024 Term B-2 Loans outstanding under the Credit Agreement, and we had availability under the 2023 Revolving Credit Facility of \$150.0 million (of which up to \$75.0 million is available for the issuance of letters of credit), and availability under the ABL Credit Facility of up to \$400.0 million (without giving effect to approximately \$75.0 million drawn under the ABL Credit Facility or \$18.6 million of letters of credit issued under the ABL Credit Facility). However, we and our subsidiaries may incur significant additional indebtedness in the future. Although the Indenture, the Credit Agreement and the ABL Credit Agreement contain restrictions on the incurrence of additional indebtedness, these restrictions are subject to a number of qualifications and exceptions, including with respect to our ability to incur additional indebtedness. The additional indebtedness we may incur in compliance with these restrictions could be substantial. These restrictions also will not prevent us from incurring obligations that do not constitute indebtedness (including, among others, trade payables and other expenses incurred in the ordinary course of business). Additionally, pursuant to the Senior Secured Credit Facilities, we have the option to raise incremental term loans, to increase the 2023 Revolving Credit Facility commitments and increase the ABL Credit Facility commitments by certain amounts. If new debt is added to our current debt levels, the related risks that we now face would increase. See “Description of Certain Indebtedness.”

We may not be able to generate sufficient cash flows from operations to service all of our indebtedness and may be forced to take other actions to satisfy our obligations under our indebtedness, which may not be successful.

Our inability to generate sufficient cash flows to satisfy our debt obligations, or to refinance our indebtedness on commercially reasonable terms or at all, would materially and adversely affect our business, financial position and results of operations and our ability to satisfy our debt obligations. Additionally, if we cannot make scheduled payments on our debt, we will be in default under the Credit Agreement, the ABL Credit

[Table of Contents](#)

Agreement and the Indenture. Such a default, if not cured or waived, may allow the creditors to accelerate the related debt and may result in the acceleration of any other debt that is subject to an applicable cross-acceleration or cross-default provision. In addition, an event of default under the Credit Agreement or the ABL Credit Agreement would permit the lenders under the Senior Secured Credit Facilities to terminate all commitments to extend further credit under the Senior Secured Credit Facilities. Furthermore, if we were unable to repay the amounts due and payable under the Senior Secured Credit Facilities, those lenders could proceed against the collateral securing such indebtedness, including our available cash. In the event our lenders or holders of the Senior Notes accelerate the repayment of our borrowings, we and our subsidiaries may not have sufficient assets to repay that indebtedness.

Our ability to make scheduled payments on or refinance our debt obligations depends on our financial condition and operating performance, which are subject to prevailing economic and competitive conditions and to financial, business, legislative, regulatory and other factors beyond our control. We may be unable to maintain a level of cash flows from operations sufficient to permit us to pay the principal, premium, if any, and interest on our indebtedness.

If our cash flows and capital resources are insufficient to meet our operating needs and fund our debt service obligations, we could face substantial liquidity problems and could be forced to reduce or delay investments and capital expenditures or to dispose of material assets or operations, seek additional debt or equity capital or restructure or refinance our indebtedness. Additionally, we may not be able to obtain loans or other financing on commercially reasonable terms or at all. Even if successful, those alternative actions may not allow us to meet our operating needs or our scheduled debt service obligations. The Credit Agreement, the ABL Credit Agreement and the Indenture restrict our ability to dispose of assets and use the proceeds from such dispositions and may also restrict our ability to raise debt or equity capital to be used to repay other indebtedness when it becomes due. Because of these restrictions, we may not be able to consummate those dispositions or to obtain proceeds in an amount sufficient to meet any debt service obligations then due.

Additionally, the Credit Agreement, the ABL Credit Agreement and the Indenture permit us to pay certain dividends or make other restricted payments in the future, subject to certain limitations. Any dividends or other restricted payments would reduce our cash available to service our debt and the related risks that we now face would increase. See “Description of Certain Indebtedness.”

The terms of the Credit Agreement, the ABL Credit Agreement and the Indenture impose restrictions that may limit our current and future operating flexibility, particularly our ability to respond to changes in the economy or our industry or to take certain actions, which could harm our long-term interests and may limit our ability to make payments on our indebtedness.

The Credit Agreement, the ABL Credit Agreement and the Indenture contain a number of restrictive covenants that impose significant operating and financial restrictions on us and limit our ability to engage in acts that may be in our long-term best interest, including restrictions on our ability and the ability of our subsidiaries to:

- incur additional indebtedness, guarantee indebtedness or issue disqualified stock;
- pay dividends on, redeem or repurchase stock or make other distributions in respect of capital stock and make other restricted payments;
- prepay, redeem or repurchase certain debt;
- issue certain preferred stock or similar equity securities;
- make loans, acquisitions and investments;
- transfer, lease, dispose of or sell certain assets;
- create or permit to exist certain liens;

[Table of Contents](#)

- enter into certain transactions with affiliates;
- consolidate, merge, sell or otherwise dispose of all or substantially all of our assets;
- agree to dividend or other payment restrictions affecting our restricted subsidiaries; and
- designate restricted and unrestricted subsidiaries.

As a result of all of these restrictions, we may be:

- limited in how we conduct our business;
- unable to raise additional debt or equity financing to operate during general economic or business downturns; or
- unable to compete effectively or to take advantage of new business opportunities.

These restrictions might hinder our ability to grow in accordance with our strategies. These covenants could materially and adversely affect our ability to finance our future operations or capital needs. Furthermore, they may restrict our ability to expand, pursue our business strategies and otherwise conduct our business. Our ability to comply with these covenants may be affected by circumstances and events beyond our control, such as prevailing economic conditions, pandemics or epidemics and changes in regulations, and we cannot assure you that we will be able to comply with such covenants. These restrictions also limit our ability to obtain future financings to withstand a future downturn in our business or the economy in general. In addition, complying with these covenants may also cause us to take actions that are not favorable to you and may make it more difficult for us to successfully execute our business strategy and compete against companies that are not subject to such restrictions.

In addition, our ability to borrow under the ABL Credit Facility is limited by a borrowing base and may be restricted by the agreements governing our indebtedness. Under certain circumstances, the ABL Credit Facility requires us to comply with a minimum fixed charge coverage ratio and may require us to reduce debt or take other actions in order to comply with this ratio. See “Description of Certain Indebtedness.” Moreover, the ABL Credit Facility provides discretion to the agent bank acting on behalf of the lenders to impose additional availability and other reserves, which could materially impair the amount of borrowings that would otherwise be available to us. There can be no assurance that the agent bank will not impose such reserves or, were it to do so, that the resulting impact of this action would not materially and adversely impair our liquidity.

A breach of the covenants under the Credit Agreement, the ABL Credit Agreement or the Indenture could result in an event of default under the applicable indebtedness. Such a default, if not cured or waived, may allow the creditors to accelerate the related debt and may result in the acceleration of any other debt that is subject to an applicable cross-acceleration or cross-default provision. In addition, an event of default under the Credit Agreement or the ABL Credit Agreement would permit the lenders under the Senior Secured Credit Facilities to terminate all commitments to extend further credit under the Senior Secured Credit Facilities. Furthermore, if we were unable to repay the amounts due and payable under the Senior Secured Credit Facilities, those lenders could proceed against the collateral securing such indebtedness, including our available cash. In the event our lenders or holders of the Senior Notes accelerate the repayment of our borrowings, we and our subsidiaries may not have sufficient assets to repay that indebtedness.

Our variable rate indebtedness subjects us to interest rate risk, which could cause our debt service obligations to increase significantly.

Borrowings under the Senior Secured Credit Facilities are at variable rates of interest and expose us to interest rate risk. If interest rates increase, our debt service obligations on the variable rate indebtedness will increase even though the amount borrowed may remain the same, and our net income and cash flows, including cash available for servicing our indebtedness, will correspondingly decrease. As of June 30, 2024, assuming that

[Table of Contents](#)

the 2023 Revolving Credit Facility and the ABL Credit Facility are fully drawn, each 1 percentage point change in interest rates would result in a change of approximately \$33.1 million in annual interest expense on the indebtedness under the Senior Secured Credit Facilities. We have entered into, and may in the future enter into, interest rate swaps that involve the exchange of floating for fixed rate interest payments in order to reduce interest rate volatility. However, it is possible that we will not maintain interest rate swaps with respect to any of our variable rate indebtedness. Alternatively, any swaps we have entered into, or may enter into in the future, may not fully or effectively mitigate our interest rate risk.

We are a holding company with no operations and may not have access to sufficient cash to meet our financial obligations.

We are a holding company and have limited direct operations. Our most significant assets are the equity interests we directly and indirectly hold in our subsidiaries. As a result, we are dependent upon dividends and other payments from our subsidiaries to generate the funds necessary to meet our outstanding debt service and other obligations and such dividends may be restricted by law or the instruments governing our indebtedness, including the Credit Agreement, the ABL Credit Agreement, the Indenture or other agreements of our subsidiaries. Our subsidiaries may not generate sufficient cash from operations to enable us to make principal and interest payments on our indebtedness. In addition, our subsidiaries are separate and distinct legal entities and any payments on dividends, distributions, loans or advances to us by our subsidiaries could be subject to legal and contractual restrictions on dividends. In addition, payments to us by our subsidiaries will be contingent upon our subsidiaries' earnings. Additionally, we may be limited in our ability to cause any future joint ventures under which our subsidiaries distribute their earnings to us. Subject to certain qualifications, our subsidiaries are permitted under the terms of our indebtedness, to incur additional indebtedness that may restrict payments from those subsidiaries to us. We cannot assure you that agreements governing the current and future indebtedness of our subsidiaries will permit those subsidiaries to provide us with sufficient cash to fund our financial obligations.

Risks Related to this Offering and Ownership of Our Common Stock

No market currently exists for our common stock, and an active, liquid trading market for our common stock may not develop, which may cause our common stock to trade at a discount from the initial offering price and make it difficult for you to sell the shares of common stock you purchase.

Prior to this offering, there has not been a public market for our common stock. We cannot predict the extent to which investor interest in us will lead to the development of a trading market on the NYSE or otherwise or how active and liquid that market may become. If an active and liquid trading market does not develop or continue, you may have difficulty selling any of the shares of common stock that you purchase. The initial public offering price for our common stock has been determined by negotiations between us and the underwriters and may not be indicative of prices that will prevail in the open market following this offering. The market price of our common stock may decline below the initial offering price, and you may not be able to sell our common stock at or above the price you paid in this offering, or at all.

Our share price may change significantly following this offering, and you may not be able to resell our common stock at or above the price you paid or at all, and you could lose all or part of your investment as a result.

The trading price of our common stock is likely to be volatile. The stock market has experienced extreme volatility. This volatility often has been unrelated or disproportionate to the operating performance of particular companies. We and the underwriters have negotiated to determine the initial public offering price. You may not be able to resell your common stock at or above the initial public offering price due to a number of factors such as those listed in other portions of this "Risk Factors" section and the following:

- results of operations that vary from the expectations of securities analysts and investors;
- results of operations that vary from those of our competitors;

[Table of Contents](#)

- changes in expectations as to our future financial performance and growth, including financial estimates and investment recommendations by securities analysts and investors;
- changes in the perception of our brand or industry;
- declines in the market prices of stocks generally;
- strategic actions by us or our competitors;
- announcements by us or our competitors of significant contracts, new products, acquisitions, joint marketing relationships, joint ventures, other strategic relationships or capital commitments;
- changes in general economic or market conditions or trends in our industry or markets;
- changes in business or regulatory conditions;
- additions or departures of key management personnel;
- future sales of our common stock or other securities by us or our existing stockholders, or the perception of such future sales;
- investor perceptions of the investment opportunity associated with our common stock relative to other investment alternatives;
- the public's response to press releases or other public announcements by us or third parties, including our filings with the SEC;
- announcements relating to litigation;
- guidance, if any, that we provide to the public, any changes in this guidance or our failure to meet this guidance;
- the development and sustainability of an active trading market for our common stock;
- changes in accounting principles; and
- other events or factors, including those resulting from natural disasters, pandemics, epidemics, war, acts of terrorism or responses to these events.

These broad market and industry fluctuations may materially adversely affect the market price of our common stock, regardless of our actual operating performance. In addition, price volatility may be greater if the public float and trading volume of our common stock are low.

In the past, following periods of market volatility, stockholders have instituted securities class action litigation. If we were to become involved in securities litigation, it could have a substantial cost and divert resources and the attention of executive management from our business regardless of the outcome of such litigation.

We are controlled by Carlyle, whose interests in our business may be different than yours.

Following this offering, Carlyle will own approximately _____ % of our common stock (or _____ % if the underwriters exercise their option to purchase additional shares in full). Pursuant to the Stockholders Agreement, following this offering, Carlyle will initially have the right to designate eight of our nine directors and will continue to have the right to designate a majority of our directors until it owns less than 25% of our outstanding shares of common stock. See "Certain Relationships and Related Party Transactions." As a result, Carlyle or its nominees to the board of directors will have the ability to control the appointment of our management, the entering into of mergers, sales of substantially all of our assets and other extraordinary transactions and influence amendments to our certificate of incorporation. So long as Carlyle continues to own a majority of our common stock, they will have the ability to control the vote in any election of directors and will

[Table of Contents](#)

have the ability to prevent any transaction that requires stockholder approval regardless of whether others believe the transaction is in our best interests. In any of these matters, the interests of Carlyle may differ from or conflict with the interests of our other stockholders. Moreover, this concentration of stock ownership may also adversely affect the trading price for our common stock to the extent investors perceive disadvantages in owning stock of a company with a controlling stockholder. In addition, since Carlyle will continue to own approximately % of our common stock (or % if the underwriters exercise their option to purchase additional shares in full), the price of our common stock may be volatile due to a smaller public float.

We have historically paid Carlyle an annual fee for certain advisory and consulting services pursuant to an advisory agreement. See “Certain Relationships and Related Party Transactions.” In addition, Carlyle is in the business of making investments in companies and may, from time to time, acquire interests in businesses that directly or indirectly compete with our business, as well as businesses that are significant existing or potential customers. Carlyle may acquire or seek to acquire assets that we seek to acquire and, as a result, those acquisition opportunities may not be available to us or may be more expensive for us to pursue.

After completion of this offering, Carlyle will continue to own a majority of our common stock. As a result, we will be a “controlled company” within the meaning of the corporate governance standards of the NYSE and the rules of the SEC. Under these rules, a company of which more than 50% of the voting power is held by an individual, group or another company is a “controlled company” and may elect not to comply with certain corporate governance requirements, including:

- the requirement that a majority of our board of directors consist of “independent directors” as defined under the rules of the NYSE;
- the requirement that we have a compensation committee that is composed entirely of directors who meet the NYSE independence standards for compensation committee members and that we adopt with a written charter addressing the committee’s purpose and responsibilities;
- the requirement that our director nominations be made, or recommended to our full board of directors, by our independent directors or by a nominations committee that consists entirely of independent directors and that we adopt a written charter or board resolution addressing the nominations process; and
- the requirement for an annual performance evaluation of the nominating and corporate governance and compensation committees.

We may rely on some or all of these exemptions for so long as we remain a “controlled company.” As a result, in the future, our board of directors and those committees may have more directors who do not meet the NYSE’s independence standards than they would if those standards were to apply. The independence standards are intended to ensure that directors who meet those standards are free of any conflicting interest that could influence their actions as directors. Accordingly, you may not have the same protections afforded to stockholders of companies that are subject to all of the corporate governance requirements of the NYSE.

You will incur immediate and substantial dilution in the net tangible book value of the common stock you purchase in this offering.

The initial public offering price of our common stock is higher than the pro forma net tangible book value per share of outstanding common stock prior to completion of this offering. Based on our pro forma net tangible book value as of June 30, 2024 (which assumes the completion of the Restructuring Transactions) and upon the issuance and sale of shares of common stock by us at an assumed initial public offering price of \$ per share, which is the midpoint of the price range set forth on the cover page of this prospectus, if you purchase our common stock in this offering, you will suffer immediate dilution of approximately \$ per share. Dilution is the amount by which the offering price paid by purchasers of our common stock in this offering will exceed the net tangible book value per share of our common stock upon completion of this offering. If the underwriters exercise their option to purchase additional shares of common stock, you will

[Table of Contents](#)

experience further dilution. Additionally, a total of _____ shares of common stock have initially been reserved for future issuance under the 2024 Plan, and _____ shares of common stock have initially been reserved for future issuance under the ESPP. You may experience additional dilution upon future equity issuances, the vesting of restricted stock units or the exercise of stock options to purchase shares of common stock granted to our directors, officers and employees under our current and future stock incentive plans, including the 2024 Plan and the ESPP. See “Dilution.”

Future sales, or the perception of future sales, by us or our existing stockholders in the public market following this offering could cause the market price for our common stock to decline.

After this offering, the sale of our common stock in the public market, or the perception that such sales could occur, could harm the prevailing market price of our common stock. These sales, or the possibility that these sales may occur, also might make it more difficult for us to sell equity securities in the future at a time and at a price that we deem appropriate.

Upon consummation of this offering, we will have a total of _____ shares of common stock outstanding (or _____ shares of common stock if the underwriters exercise in full their option to purchase additional shares of common stock). All shares sold in this offering will be freely tradable without restriction or further registration under the Securities Act, except for any common stock held by our affiliates, as that term is defined under Rule 144 of the Securities Act (“Rule 144”), including certain of our directors, executive officers and other affiliates (including Carlyle), which may be sold only in compliance with the limitations described in “Shares Eligible for Future Sale.”

The _____ shares of common stock held by Carlyle, GIC and certain of our directors, officers, employees and other stockholders immediately following the consummation of this offering will represent approximately _____ % of our total outstanding common stock following this offering (or _____ %, if the underwriters exercise in full their option to purchase additional shares of common stock), based on the number of shares of common stock outstanding as of _____, 2024. Such shares of common stock will be “restricted securities” within the meaning of Rule 144 and subject to certain restrictions on resale following the consummation of this offering. Restricted securities may be sold in the public market only if they are registered under the Securities Act or are sold pursuant to an exemption from registration such as Rule 144, as described in “Shares Eligible for Future Sale.”

In connection with this offering, we expect that we, our directors and executive officers and holders of substantially all of our common stock prior to this offering will agree with the underwriters, subject to certain exceptions, not to dispose of or hedge any of our or their common stock or securities convertible into or exchangeable for common stock during the period from the date of this prospectus continuing through the date that is _____ days after the date of this prospectus, except with the prior written consent of certain representatives of the underwriters. See “Underwriting (Conflicts of Interest)” for a description of these lock-up agreements.

Upon the expiration of the contractual lock-up agreements pertaining to this offering, up to an additional _____ shares of common stock will be eligible for sale in the public market, all of which are held by directors, executive officers, employees, former employees, existing investors and other affiliates and will be subject to volume, manner of sale and other limitations under Rule 144. Following completion of this offering, common stock covered by registration rights would represent approximately _____ % of our outstanding shares of common stock (or _____ %, if the underwriters exercise in full their option to purchase additional shares of common stock). Registration of any of these outstanding shares of common stock would result in such shares becoming freely tradable without compliance with Rule 144 upon effectiveness of the registration statement. See “Shares Eligible for Future Sale.”

As restrictions on resale end or if these stockholders exercise their registration rights, the market price of our common stock could drop significantly if the holders of these shares sell them or are perceived by the market as

[Table of Contents](#)

intending to sell them. These factors could also make it more difficult for us to raise additional funds through future offerings of our common stock or other securities.

In addition, our shares of common stock reserved for future issuance under the 2024 Plan and the ESPP will become eligible for sale in the public market once those shares are issued, subject to provisions relating to various vesting agreements, lock-up agreements and Rule 144, as applicable.

In the future, we may also issue our securities in connection with investments or acquisitions. The amount of our common stock issued in connection with an investment or acquisition could constitute a material portion of our then-outstanding common stock. Any issuance of additional securities in connection with investments or acquisitions may result in additional dilution to you and the securities issued may have rights that are senior to our common stock.

Our ability to raise capital in the future may be limited.

We have historically funded our operations since our founding primarily through debt financings and cash generated from our operations. We intend to continue to make investments to support our growth and may require additional funds for such development, and additionally, our business and operations may consume resources faster than we anticipate. In the future, we may need to raise additional funds through the issuance of new equity securities, debt or a combination of both. Additional financing may not be available on favorable terms, or at all. If adequate funds are not available on acceptable terms, we may be unable to fund our capital requirements or invest in future growth opportunities. In particular, macroeconomic factors, including interest rate increases and bank failures have caused disruption in the credit and financial markets in the United States and worldwide, which may reduce our ability to access capital and negatively affect our liquidity in the future. If we are unable to obtain adequate financing or financing on terms satisfactory to us, our ability to develop our offerings, support our business growth, and respond to business challenges could be significantly impaired, and our business may be adversely affected.

If we issue new debt securities, the debt holders would have rights senior to common stockholders to make claims on our assets, and any debt financing we secure may have higher interest rates and could restrict our operations, including our ability to pay dividends on our common stock. Furthermore, if we issue additional equity securities, existing stockholders will experience dilution, and the new equity securities could have rights senior to those of our common stock. Because our decision to issue securities in any future offering will depend on market conditions and other factors beyond our control, we cannot predict or estimate the amount, timing or nature of our future offerings. Thus, our stockholders bear the risk of our future securities offerings reducing the market price of our common stock and diluting their interest.

If securities analysts do not publish research or reports about our business or if they downgrade our common stock or our industry, or if there is any fluctuation in our credit rating, the price of our common stock and trading volume could decline.

The trading market for our common stock will rely in part on the research and reports that industry or financial analysts publish about us or our business or industry. We do not control these analysts. Furthermore, if one or more of the analysts who do cover us downgrade our common stock or our industry, or the stock of any of our competitors, or publish inaccurate or unfavorable research about our business or industry, the price of our common stock could decline. If one or more of these analysts ceases coverage of us or fails to publish reports on us regularly, we could lose visibility in the market, which in turn could cause the price of our common stock or trading volume to decline.

Additionally, any fluctuation in the credit rating of us or our subsidiaries may impact our ability to access debt markets in the future or increase our cost of future debt, which could have a material adverse effect on our operations and financial condition, which in return, may adversely affect the trading price of shares of our common stock.

[Table of Contents](#)

Some provisions of our charter documents and Delaware law may have anti-takeover effects that could discourage an acquisition of us by others, even if an acquisition would be beneficial to our stockholders, and may prevent attempts by our stockholders to replace or remove our current management.

Provisions in our amended and restated certificate of incorporation and our amended and restated bylaws, as well as provisions of the Delaware General Corporation Law (the “DGCL”), could make it more difficult for a third party to acquire us or increase the cost of acquiring us, even if doing so would benefit our stockholders, including transactions in which stockholders might otherwise receive a premium for their shares. These provisions include:

- establishing a classified board of directors such that not all members of the board are elected at one time;
- allowing the total number of directors to be determined exclusively (subject to the rights of holders of any series of preferred stock to elect additional directors) by resolution of our board of directors and granting to our board the sole power (subject to the rights of holders of any series of preferred stock or rights granted pursuant to the Stockholders Agreement) to fill any vacancy on the board;
- limiting the ability of stockholders to remove directors without cause;
- authorizing the issuance of “blank check” preferred stock by our board of directors, without further stockholder approval, to thwart a takeover attempt;
- prohibiting stockholder action by written consent (and, thus, requiring that all stockholder actions be taken at a meeting of our stockholders) if Carlyle ceases to beneficially own at least 40% of the voting power of our common stock;
- eliminating the ability of stockholders to call a special meeting of stockholders, except that a special meeting of stockholders may be called by the board of directors or the chairperson of the board of directors at the request of Carlyle for so long as Carlyle beneficially owns at least 40% of the voting power of our common stock;
- establishing advance notice requirements for nominations for election to the board of directors or for proposing matters that can be acted upon at annual stockholder meetings; and
- requiring the approval of the holders of at least two-thirds of the voting power of all outstanding stock entitled to vote thereon, voting together as a single class, to amend or repeal our amended and restated certificate of incorporation or amended and restated bylaws if Carlyle ceases to beneficially own at least 40% of the voting power of our common stock.

Section 203 of the DGCL prohibits a publicly held Delaware corporation from engaging in a business combination with an interested stockholder, generally a person, individually or together with any other interested stockholder, who owns or within the last three years has owned 15% of our voting stock, unless the business combination is approved in a prescribed manner. We have elected to opt out of Section 203 of the DGCL; however, our amended and restated certificate of incorporation will contain a provision that is of similar effect, except that it will exempt from its scope Carlyle, and any of its direct or indirect transferees and any group as to which such persons or entities are a party, as described under “Description of Capital Stock—Anti-Takeover Effects of Provisions of Our Amended and Restated Certificate of Incorporation, Our Amended and Restated Bylaws and Delaware Law—Business Combinations.”

In addition, following this offering, Carlyle will initially have the right to designate eight of our nine directors and will continue to have the right to designate a majority of our directors until it owns less than 25% of our outstanding shares of common stock.

These provisions could discourage, delay or prevent a transaction involving a change in control of the Company. They could also discourage proxy contests and make it more difficult for you and other stockholders to elect directors of your choosing and cause us to take corporate actions other than those you desire.

Our board of directors will be authorized to issue and designate shares of our preferred stock in additional series without stockholder approval.

Our amended and restated certificate of incorporation will authorize our board of directors, without the approval of our stockholders, to issue shares of our preferred stock, subject to limitations prescribed by applicable law, rules and regulations and the provisions of our amended and restated certificate of incorporation, as shares of preferred stock in series, to establish from time to time the number of shares to be included in each such series and to fix the designation, powers, preferences, and rights of the shares of each such series, and the qualifications, limitations, or restrictions thereof. The powers, preferences, and rights of these additional series of preferred stock may be senior to or on parity with our common stock, which may reduce its value.

Our amended and restated certificate of incorporation will contain a provision renouncing our interest and expectancy in certain corporate opportunities.

Our amended and restated certificate of incorporation will provide that, to the fullest extent permitted by law, none of Carlyle or any of its affiliates or any director who is not employed by us (including any non-employee director who serves as one of our officers in both his director and officer capacities) or his or her affiliates will have any duty to refrain from (i) engaging in a corporate opportunity in the same or similar lines of business in which we or our affiliates now engage or propose to engage or (ii) otherwise competing with us or our affiliates. In addition, to the fullest extent permitted by law, in the event that Carlyle or any non-employee director acquires knowledge of a potential transaction or other business opportunity which may be a corporate opportunity for itself or himself or its or his affiliates or for us or our affiliates, such person will have no duty to communicate or offer such transaction or business opportunity to us or any of our affiliates and they may take any such opportunity for themselves or offer it to another person or entity. For example, a director of our company who also serves as an officer, director, employee, agent, stockholder, member, partner or affiliate of Carlyle or its affiliates, or any of their respective portfolio companies or affiliated funds may pursue certain acquisitions or other opportunities that may be complementary to our business and, as a result, such acquisition or other opportunities may not be available to us. These potential conflicts of interest could have a material adverse effect on our business, financial condition, results of operations or prospects if attractive corporate opportunities are allocated by Carlyle to itself or its affiliates or its respective portfolio companies or affiliated funds instead of to us.

We currently do not intend to declare dividends on our common stock in the foreseeable future and, as a result, your only opportunity to achieve a return on your investment is if the price of our common stock appreciates.

We currently do not expect to declare any dividends on our common stock in the foreseeable future. Instead, we anticipate that all of our earnings in the foreseeable future will be used to support our operations and to finance the growth and development of our business. Any determination to declare or pay dividends in the future will be at the discretion of our board of directors, subject to applicable laws and dependent upon a number of factors, including our earnings, capital requirements and overall financial conditions. In addition, because we are a holding company, our ability to pay dividends on our common stock may be limited by restrictions on our ability to obtain sufficient funds through dividends from subsidiaries, including restrictions under the covenants of the Credit Agreement, the ABL Credit Agreement and the Indenture, and may be further restricted by the terms of any future debt or preferred securities. Accordingly, your only opportunity to achieve a return on your investment in the Company may be if the market price of our common stock appreciates and you sell your common stock at a profit. The market price for our common stock may never exceed, and may fall below, the price that you pay for such common stock.

Our amended and restated certificate of incorporation and our amended and restated bylaws will provide that the Court of Chancery of the State of Delaware or federal district courts of the United States will be sole and exclusive forum for certain types of lawsuit, which could limit our stockholders' ability to obtain a favorable judicial forum for disputes with us, our directors, officers or employees.

Our amended and restated certificate of incorporation and amended and restated bylaws will require, to the fullest extent permitted by law, that (i) any derivative action or proceeding brought on our behalf, (ii) any action

[Table of Contents](#)

asserting a claim of breach of a fiduciary duty owed to us or our stockholders by any of our directors, officers, employees or agents, (iii) any action asserting a claim against us arising pursuant to any provision of the DGCL or our amended and restated certificate of incorporation or our amended and restated bylaws, or (iv) any action asserting a claim against us that is governed by the internal affairs doctrine will have to be brought only in the Court of Chancery of the State of Delaware (or the federal district court for the District of Delaware or other state courts of the State of Delaware if the Court of Chancery in the State of Delaware does not have jurisdiction). Our amended and restated certificate of incorporation and amended and restated bylaws will also require that the federal district courts of the United States of America will be the exclusive forum for the resolution of any complaint asserting a cause of action arising under the Securities Act; however, there is uncertainty as to whether a court would enforce such provision, and investors cannot waive compliance with federal securities laws and the rules and regulations thereunder. These provisions would not apply to any suits brought to enforce any liability or duty created by the Exchange Act, or any other claim for which the federal courts of the United States have exclusive jurisdiction, subject to applicable law.

The choice of forum provisions may limit a stockholder's ability to bring a claim in a judicial forum that it finds favorable for disputes with us or any of our current or former directors, officers, other employees, agents, or stockholders, which may discourage such claims against us or any of our current or former directors, officers, other employees, agents, or stockholders and result in increased costs for investors to bring such a claim. We believe these provisions may benefit us by providing increased consistency in the application of the DGCL and federal securities laws by chancellors and judges, as applicable, particularly experienced in resolving corporate disputes, efficient administration of cases on a more expedited schedule relative to other forums, and protection against the burdens of multi-forum litigation. If a court were to find the choice of forum provision contained in our amended and restated certificate of incorporation or our amended and restated bylaws to be inapplicable or unenforceable in an action, we may incur additional costs associated with resolving such action in other jurisdictions, which could adversely affect our business, results of operations, financial condition and prospects.

Our ability to use our net operating loss carryforwards and certain other tax attributes may become subject to limitation.

As of December 31, 2023, we had U.S. federal disallowed interest expense carryforwards under Section 163(j) of the U.S. Internal Revenue Code of 1986, as amended (the "Code"), of approximately \$734.1 million (\$163.7 million tax effected). Our ability to utilize our disallowed interest expense carryforwards (the "Tax Attributes") may become limited under Section 382 of the Code. The limitation applies if we experience an "ownership change," which is generally defined as a greater than 50 percentage point change (by value) in the ownership of our equity by certain stockholders over a rolling three-year period. The amount of the annual limitation is generally equal to the product of the applicable long-term tax exempt-rate (as published by the IRS for the month in which the "ownership change" occurred) and the value of our outstanding stock immediately prior to the "ownership change." If we have a net unrealized built-in gain in our assets immediately prior to the "ownership change," the annual limitation may be increased as certain gains are, or are treated as, recognized during the five-year period beginning on the date of the "ownership change."

We currently do not expect to undergo an "ownership change" due to this offering, and even if we were to experience an "ownership change" due to this offering, our ability to use our Tax Attributes to offset our taxable income may not be significantly limited. However, we may undergo an "ownership change" due to future transactions in our stock, which may be outside of our control, and we cannot predict whether any future "ownership change" would result in a significant limitation on our ability to use our Tax Attributes to offset our taxable income and adversely affect our future cash flows.

Uncertainties in the interpretation and application of existing, new and proposed tax laws and regulations could materially affect our tax obligations and effective tax rate.

The tax laws to which we are subject or under which we operate are unsettled and may be subject to significant change. The issuance of additional guidance related to existing or future tax laws, or changes to tax

[Table of Contents](#)

laws or regulations proposed or implemented by the current or a future U.S. presidential administration, Congress or taxing authorities in other jurisdictions, including jurisdictions outside of the United States, could materially affect our tax obligations and effective tax rate. To the extent that such changes have a negative impact on us, including as a result of related uncertainty, these changes may adversely impact our business, financial condition, results of operations and cash flows.

The amount of taxes we pay in different jurisdictions depends on the application of the tax laws of various jurisdictions, including the United States, to our international business activities, tax rates, new or revised tax laws, or interpretations of tax laws and policies, and our ability to operate our business in a manner consistent with our corporate structure and intercompany arrangements. The taxing authorities of the jurisdictions in which we operate may challenge our methodologies for pricing intercompany transactions pursuant to our intercompany arrangements or disagree with our determinations as to the income and expenses attributable to specific jurisdictions. If such a challenge or disagreement were to occur, and our position was not sustained, we could be required to pay additional taxes, interest and penalties, which could result in one-time tax charges, higher effective tax rates, reduced cash flows and lower overall profitability of our operations. Our financial statements could fail to reflect adequate reserves to cover such a contingency. Similarly, a taxing authority could assert that we are subject to tax in a jurisdiction where we believe we have not established a taxable connection, often referred to as a “permanent establishment” under international tax treaties, and such an assertion, if successful, could increase our expected tax liability in one or more jurisdictions.

USE OF PROCEEDS

We estimate that the net proceeds to us from our sale of _____ shares of common stock in this offering will be approximately \$ _____ million (or \$ _____ million if the underwriters fully exercise their option to purchase additional shares), based on the assumed initial public offering price of \$ _____ per share, which is the midpoint of the price range set forth on the cover page of this prospectus, and after deducting underwriting discounts and estimated offering expenses payable by us.

We intend to use the net proceeds from this offering to repay certain indebtedness and for general corporate purposes.

Each \$1.00 increase (decrease) in the assumed initial public offering price of \$ _____ per share, which is the midpoint of the price range set forth on the cover page of this prospectus, would increase (decrease) the net proceeds to us from this offering by \$ _____ million, assuming the number of shares of common stock offered by us, as set forth on the cover page of this prospectus, remains the same and after deducting the assumed underwriting discounts and commissions and estimated offering expenses payable by us. Each increase (decrease) of _____ shares of common stock from the expected number of shares of common stock to be sold by us in this offering, assuming no change in the assumed initial public offering price per ordinary share, which is the midpoint of the price range set forth on the cover page of this prospectus, would increase (decrease) our net proceeds from this offering by \$ _____ million.

The information discussed above is illustrative only and will be adjusted based on the actual initial public offering price and other terms of this offering determined at pricing.

DIVIDEND POLICY

We do not currently expect to pay any cash dividends on our common stock for the foreseeable future. Instead, we anticipate that all of our earnings in the foreseeable future will be used to support our operations and to finance the growth and development of our business. Any determination to declare or pay dividends in the future will be at the discretion of our board of directors and will depend upon our results of operations, cash requirements, financial condition, contractual restrictions, restrictions imposed by applicable laws and other factors that our board of directors may deem relevant. Upon completion of the offering, we will continue to be controlled by Carlyle, who will have the ability to nominate a majority of the members of our board of directors and therefore control the payment of dividends. See “Risk Factors—Risks Related to this Offering and Ownership of Our Common Stock—We are controlled by Carlyle, whose interests in our business may be different than yours.”

In addition, our business is conducted through our subsidiaries. Dividends, distributions and other payments from, and cash generated by, our subsidiaries will be our principal sources of cash to repay indebtedness, fund operations and pay dividends. Accordingly, our ability to pay dividends to our stockholders is dependent on the earnings and distributions of funds from our subsidiaries. The covenants in the Credit Agreement, the ABL Credit Agreement and the Indenture significantly restrict the ability of our subsidiaries to pay dividends or otherwise transfer assets to us. See “Management’s Discussion and Analysis of Financial Condition and Results of Operations—Liquidity and Capital Resources” and “Risk Factors—Risks Related to this Offering and Ownership of Our Common Stock—We currently do not intend to declare dividends on our common stock in the foreseeable future and, as a result, your only opportunity to achieve a return on your investment is if the price of our common stock appreciates.”

Each \$1.00 increase (decrease) in the assumed initial public offering price of \$ _____ per share, which is the midpoint of the price range set forth on the cover page of this prospectus, would increase (decrease) our total stockholders' equity and total capitalization by \$ _____ million (assuming the number of shares offered by us remains the same). Each increase (decrease) of _____ shares in the number of shares we are offering would increase (decrease) each of cash and cash equivalents, additional paid-in capital, total stockholders' equity and total capitalization by \$ _____, assuming the assumed initial public offering price of \$ _____ per share (the midpoint of the price range set forth on the cover of this prospectus) remains the same, and after deducting underwriting discounts and commissions and estimated offering expenses payable by us. The pro forma as adjusted information is illustrative only, and will depend on the actual initial public offering price, number of shares offered and other terms of this offering determined at pricing.

The number of shares of common stock to be outstanding after this offering excludes:

- _____ shares of common stock that will become available for future issuance under the 2024 Plan, which will become effective in connection with the completion of this offering; and
- _____ shares of common stock that will become available for future issuance under the ESPP, which will become effective in connection with the completion of this offering.

DILUTION

If you invest in our common stock in this offering, your ownership interest in us will be diluted to the extent of the difference between the initial public offering price per share of common stock and the net tangible book value per share of common stock as adjusted to give effect to this offering. Dilution results from the fact that the per share offering price of the share is substantially in excess of the book value per share of common stock attributable to the common stock held by existing stockholders.

Our pro forma net tangible book value as of June 30, 2024, which assumes the completion of the Restructuring Transactions, was approximately \$ _____ or \$ _____ per share of common stock. We calculate net tangible book value per share by taking the amount of our total tangible assets, reduced by the amount of our total liabilities, and then dividing that amount by the total number of shares of common stock outstanding.

After giving effect to our sale of the shares of our common stock in this offering at an assumed initial public offering price of \$ _____ per share of common stock, which is the midpoint of the price range set forth on the cover page of this prospectus, and after deducting underwriting discounts and commissions and estimated offering expenses payable by us and after giving effect to the application of the net proceeds from this offering as described under "Use of Proceeds," our pro forma as adjusted net tangible book value as of June 30, 2024, assuming the completion of the Restructuring Transactions, would have been \$ _____ million, or \$ _____ per share of common stock. This amount represents an immediate increase in pro forma net tangible book value of \$ _____ per share of common stock to existing stockholders and an immediate dilution of \$ _____ per share of common stock to new investors purchasing shares of common stock in this offering at the initial public offering price.

The following table illustrates this dilution on a per share basis:

Assumed initial public offering price per share of our common stock	\$ _____
Pro forma net tangible book value per share as of June 30, 2024	\$ _____
Increase in pro forma net tangible book value per share attributable to new investors purchasing shares in this offering	_____
Pro forma as adjusted net tangible book value per share of our common stock after giving effect to this offering	\$ _____
Dilution per share of our common stock to new investors in this offering	\$ _____

Dilution is determined by subtracting pro forma as adjusted net tangible book value per share of common stock after giving effect to this offering, from the initial public offering price per share of common stock.

The following table summarizes, as of June 30, 2024, on a pro forma basis assuming the completion of the Restructuring Transactions, the differences between the number of shares of common stock purchased from us, the total consideration paid to us, and the average price per share paid by existing stockholders and by new investors. As the table shows, new investors purchasing common stock in this offering will pay an average price per share substantially higher than our existing stockholders paid. The table below is based on _____ shares of common stock outstanding immediately after the consummation of this offering and does not give effect to shares of common stock issuable upon exercise of outstanding options to purchase our common stock outstanding as of June 30, 2024 and shares of common stock reserved for future issuance under the 2024 Plan and the ESPP.

[Table of Contents](#)

A total of _____ shares of common stock have been reserved for future issuance under the 2024 Plan and a total of _____ shares of common stock have been reserved for future issuance under the ESPP. The table below is based on an assumed initial public offering price of \$ _____ per share, which is the midpoint of the price range set forth on the cover page.

	<u>Shares Purchased</u>		<u>Total Consideration</u>		<u>Average Price</u>
	<u>Number</u>	<u>Percent</u>	<u>Amount</u>	<u>Percent</u>	<u>Per Share</u>
Existing stockholders		%	\$	%	\$
New investors					
Total		%	\$	%	\$

If the underwriters were to fully exercise the underwriters' option to purchase _____ additional shares of common stock, the percentage of common stock held by existing stockholders would be _____ % and the percentage of common stock held by new investors would be _____ %.

Assuming the number of shares offered by us, as set forth on the cover page of this prospectus, remains the same, excluding assumed underwriting discounts and estimated commissions and offering expenses payable by us, each \$ 1.00 increase (decrease) in the assumed initial public offering price of \$ _____ per share, which is the midpoint of the price range set forth on the cover page of this prospectus, would increase (decrease) total consideration paid by new investors and total consideration paid by all stockholders by approximately \$ _____ million. We may also increase or decrease the number of shares we are offering. Assuming the assumed initial public offering price of \$ _____ per share remains the same, after deducting underwriting discounts and commissions, each increase (decrease) of _____ shares in the number of shares we are offering would increase (decrease) our pro forma as adjusted net tangible book value by \$ _____ per share, and would decrease (increase) dilution to new investors purchasing shares in this offering by \$ _____ per share.

Overview

We believe that we are the world's largest independent, pure-play provider of aerospace engine aftermarket services for fixed and rotary wing aircraft, serving the commercial, military and business aviation end markets. We provide a comprehensive suite of critical, value-added aftermarket solutions, including scheduled and unscheduled engine maintenance, repair and overhaul, engine component repair, on-wing and field service support, asset management and engineering solutions. We serve a crucial role in the engine aftermarket value chain, connecting engine OEMs with aircraft operators through our aftermarket services, maintaining longstanding relationships with both. We command a leading reputation that is based upon our strong track record of safety, reliability and operational performance built over our more than 100 years of successful operations in the aerospace aftermarket.

We manage our business in line with our service offerings with our reportable segments being Engine Services and Component Repair Services.

Our Engine Services segment provides a full suite of aftermarket services, including maintenance, repair and overhaul, on-wing and field service support, asset management, and engineering and related solutions to customers in the commercial aerospace, military and helicopter, and business aviation end markets. Revenue in the Engine Services segment is primarily derived from the repair and overhaul of a wide variety of gas turbine engines and auxiliary power units that power fixed and rotary wing aircraft. We also provide complementary maintenance, repair, upgrade and other related services for airframes and avionics systems in the business aviation and helicopter end markets. Cost of revenue consists primarily of cost of materials, direct labor and overhead.

Our Component Repair Services segment provides engine component and accessory repairs to the commercial aerospace, military and other end markets. Revenue in the Component Repair Services segment is derived from the engine piece part and accessory repairs that we perform, repair development engineering and other related services, and some engine new part manufacturing. Cost of revenue consists primarily of cost of materials, direct labor and overhead.

Key Factors and Trends Affecting Our Business

Manufacturer specifications, government regulations and military maintenance regimens generally require that aircraft and engines undergo aftermarket servicing at regular intervals or upon the occurrence of certain events during the serviceable life of each asset. As a result, the aggregate volume of services required for any particular engine platform is a function of four factors: (i) the number of aircraft and engines in operation (the "installed base"), (ii) the age of the installed base, (iii) the reliability of the installed base and (iv) the utilization rate of the installed base.

[Table of Contents](#)

The number of aircraft in operation and the utilization of those aircraft are generally tied to global air travel over the long-term, which has historically grown in excess of GDP driven by secular tailwinds such as globalization, rising middle class population and wealth, increasing demand for leisure travel, growth in corporate earnings and e-commerce and technological advancements in aviation. Global commercial air traffic grew at a rate of 5.6% per annum over the last 40 years representing approximately twice the rate of global GDP growth over that timeframe. This secular growth in air travel demand is expected to continue, driving the number of aircraft in service to increase by a 3.5% CAGR from 2023-2042.

The age and utilization of the existing installed base have increased as supply chain issues and regulatory constraints delay the delivery of new aircraft. Consequently, the average age for the commercial fleet has increased to approximately 12 years in 2023 versus approximately 10 years in the early 2010s, and a slower than expected schedule of OEM deliveries has extended the average life of the existing fleet and increased the associated requirements for maintenance services. Further, much of the maintenance that was deferred during the COVID-19 pandemic as operators sought to reduce costs is coming due and can no longer be delayed, supporting additional growth in the aftermarket.

Engine aftermarket services demand is also expected to further increase through the remainder of the decade due to upcoming shop visits resulting from a large number of engines delivered in the 2010s continuing to age and entering prime maintenance periods. For example, the CFM56 engine platform, which represents the largest engine platform fleet today, is expected to see significant growth in scheduled maintenance over the next several years. Additionally, many LEAP-1A/-1B engines, which were first delivered in 2016, have only recently started coming in for their first maintenance events. The LEAP engine platform, which powers the latest generation of narrowbody aircraft, is poised to become the largest engine platform globally and expected to represent over 35% of global fleet by 2033. As these new engines are introduced into the market, they are expected to enter predictable and recurring maintenance cycles, boosting demand for engine aftermarket services.

In the military and helicopter end market, ongoing geopolitical tensions continue to drive significant defense investment. The global military aviation aftermarket is projected to grow by approximately 2-3% in 2024 with the U.S. accounting for approximately 40% of global military spend. Amid evolving security challenges, aftermarket service providers are critical to ensuring readiness of defense forces globally. Additionally, the COVID-19 pandemic and uncertain budgetary environments caused delays to the modernization of military aircraft fleets, resulting in a globally aging military aircraft fleet that requires higher levels of maintenance and an influx of aircraft upgrades and life extension programs.

In the business aviation end market, the COVID-19 pandemic accelerated a structural shift to private aviation for many air travelers, initially triggered by health and safety concerns and limited availability of commercial flights and bolstered by customer preference, expansion of affordable private aviation options in the market and post-pandemic increases in wealth and high net worth individuals. The surge in flight activity and overall demand for business aviation has driven strong backlogs and production outlooks at the business jet OEMs and underpin an outlook for sustained long term growth of the fleet. This strong fleet growth is expected to drive a continued increase in demand for business jet engine maintenance services.

While the recent supply chain disruptions across our end markets are causing older aircraft and engines to remain in service longer and increasing their maintenance demand, our business also depends on maintaining a sufficient supply of parts, components and raw materials to meet the requirements of our customers. In recent years, we have experienced supply chain delays that impacted the availability of parts and ultimately engine throughput across all of our end markets. Any disruption to our supply chain and business operations, or to our suppliers' supply chains and business operations, could have adverse effects on our ability to provide aftermarket support to our customers timely and efficiently and may increase our working capital as we wait for parts for the engines we service. Any such disruptions could adversely affect our business, results of operations and financial condition. See "Risk Factors—Risks Related to Our Business and Industry—We depend on certain component parts and material suppliers for our engine repair and overhaul operations, and any supply chain disruptions or loss of key suppliers could adversely affect our business, results of operations and financial condition."

Key Factors Affecting the Comparability of Our Results of Operations

Our results have been affected by, and may in the future be affected by, the following factors, which must be understood in order to assess the comparability of our period-to-period financial performance and condition.

Business Combinations

To continue to grow our business, we are continually acquiring and investing in companies that share our common goal towards providing the market with aftermarket services across multiple engine platforms. During the three years ended December 31, 2023 and subsequent to that date, we acquired the following entities:

On August 23, 2024, we acquired Aero Turbine, a provider of engine component repair and other value-added engine aftermarket services for U.S. and international customers. The acquisition was funded with borrowings under the ABL Credit Facility, which was repaid on September 6, 2024 with incremental borrowings from the 2024 Term Loan B-1 Facility and the 2024 Term Loan B-2 Facility. For the year ended December 31, 2023, Aero Turbine generated revenue of \$70.1 million and net income of \$14.3 million.

On February 2, 2023, we acquired 100% of the shares of Western Jet Aviation, Inc. (“Western Jet”) for a purchase price of approximately \$32.7 million. Western Jet is a certified repair station for business jet maintenance, specializing in Gulfstream aircraft, with locations in Van Nuys, California and Opa Locka, Florida. The acquisition expanded the geographic presence of our business to the U.S. West Coast in the business aviation end market, as well as added new capacity and capabilities on many popular business aviation aircraft.

On May 12, 2022, we acquired 100% of EB Airfoils LLC and Electron Beam Development, LLC (“EB Airfoils”), for total consideration of \$19.7 million. EB Airfoils is a provider of component repairs, specializing in aerospace engine fan blades, compressor blades and guide vanes.

On December 30, 2021, we acquired 100% of PTS Aviation, LLC (“PTS Aviation”), for total consideration of \$12.7 million. PTS Aviation primarily procures and sells engine parts. The acquisition significantly enhanced our expertise in procuring used serviceable material for key engine platforms, particularly the CFM International CFM56 engine.

On October 5, 2021, we acquired the remaining 59.2% ownership interest in Asian Surface Technologies Pte. Ltd. that we did not own for a purchase price of \$4.2 million. The acquisition solidified our component repair presence in the Asia-Pacific region.

On July 1, 2021, we completed the acquisition of Signature Aviation’s Engine Repair and Overhaul business (“Signature ERO”), for total consideration of \$226.2 million. The Signature ERO acquisition significantly expanded our capabilities and capacity for providing engine aftermarket services on general aviation, regional and helicopter engines, added new business aviation platforms to our portfolio, expanded our component repair capabilities and added new parts distribution channels and mobile field services for our combined customers worldwide.

Public Company Expenses

We have incurred, and expect to continue to incur, certain non-recurring professional fees and other expenses as part of our transition to becoming a public company. As a public company, we will be implementing additional procedures and processes for the purpose of addressing the standards and requirements applicable to public companies. In particular, we expect our accounting, legal and personnel-related expenses and directors’ and officers’ insurance costs to increase as we establish more comprehensive compliance and governance functions, establish, maintain and review internal controls over financial reporting in accordance with the Sarbanes-Oxley Act and prepare and distribute periodic reports in accordance with SEC rules. Our financial statements following this offering will reflect the impact of these expenses. See “Risk Factors—Risks Related to Management and Employees—The requirements of being a public company may strain our resources, increase our costs, divert management’s attention, and affect our ability to attract and retain executive management and qualified board members.”

Key Performance Indicators and Non-GAAP Financial Measures

We use certain non-GAAP key performance indicators to evaluate our business operations, including Adjusted EBITDA and Adjusted EBITDA Margin.

The non-GAAP financial measures presented in this prospectus are supplemental measures of our performance that we believe help investors understand our financial condition and operating results and assess our future prospects. We believe that presenting these non-GAAP financial measures, in addition to the corresponding GAAP financial measures, are important supplemental measures that exclude non-cash or other items that may not be indicative of or are unrelated to our core operating results and the overall health of our company. We believe that these non-GAAP financial measures provide investors greater transparency to the information used by management for its operational decision-making and allow investors to see our results “through the eyes of management.” We further believe that providing this information assists our investors in understanding our operating performance and the methodology used by management to evaluate and measure such performance. When read in conjunction with our GAAP results, these non-GAAP financial measures provide a baseline for analyzing trends in our underlying businesses and can be used by management as one basis for financial, operational and planning decisions. Finally, these measures are often used by analysts and other interested parties to evaluate companies in our industry.

Management recognizes that these non-GAAP financial measures have limitations, including that they may be calculated differently by other companies or may be used under different circumstances or for different purposes, thereby affecting their comparability from company to company. In order to compensate for these and the other limitations discussed below, management does not consider these measures in isolation from or as alternatives to the comparable financial measures determined in accordance with GAAP. Readers should review the reconciliations below and should not rely on any single financial measure to evaluate our business. The reasons we use these non-GAAP financial measures and the reconciliations to their most directly comparable GAAP financial measures follow.

Adjusted EBITDA and Adjusted EBITDA Margin

We define Adjusted EBITDA as net income (loss) before interest expense, income tax expense (benefit), depreciation and amortization, further adjusted for certain non-cash items that we may record each period, as well as non-recurring items such as acquisition costs, integration and severance costs, refinance fees, business transformation costs and other discrete expenses, when applicable. We define Adjusted EBITDA Margin as Adjusted EBITDA divided by revenue. We believe that Adjusted EBITDA and Adjusted EBITDA Margin are important metrics for management and investors as they remove the impact of items that we do not believe are indicative of our core operating results or the overall health of our company and allows for consistent comparison of our operating results over time and relative to our peers.

Key Components of Results of Operations

The following discussion provides a brief description of certain items that appear in our consolidated financial statements and the general factors that impact these items.

Revenue

Revenue consists of gross sales principally resulting from the engine and component repair services that we perform for commercial, military and business aviation fixed wing and rotary wing aircraft engines, as well as aeroderivative engines for the land and marine and other markets. Within these end markets, our Engine Services segment primarily provides a variety of value-added services in support of the maintenance, repair, testing and recertification of aerospace and aeroderivative engines. Our Component Repair Services segment supports commercial aerospace, military aerospace, business aviation, land and marine and other markets with engine piece part repair and accessory repair.

Cost of revenue

Cost of revenue primarily consists of direct costs required to provide our services. These costs include the cost of materials, direct labor for inspection and disassembly, assembly and repair, rental engines, subcontracted services and overhead costs directly related to the performance of aftermarket services. Overhead costs include the cost of our facilities, engineering, quality and production management, including indirect labor supporting production, depreciation of equipment and facilities and amortization of the costs associated with OEM authorizations and licenses. The cost of materials accounts for the largest portion of our cost of revenue.

Selling, general and administrative expense

SG&A expense primarily consists of expenses related to the selling of our services to our customers and maintaining a global sales support network, including salaries of our direct sales force. General costs to support the administrative requirements of the business such as finance, accounting, information technology, human resources and general management are also included.

Amortization of intangible assets

Intangible assets are amortized over the estimated useful life for customer relationships, trademarks and technology and other assets.

Acquisition costs

Acquisition costs primarily consist of professional service fees and other third-party costs incurred as part of the transaction process. Acquisition costs do not include any cost associated with the issuance of debt as these are capitalized and amortized over the term of the debt.

[Table of Contents](#)

Interest expense

Interest expense primarily consists of interest on our debt obligations, including the amortization of debt discount and deferred finance charges. Interest expense also includes the portion of the gain or loss on our interest-rate swap and interest-rate cap agreements that is reclassified into earnings.

Income tax expense (benefit)

Our provision for income tax expense (benefit) is based on permanent book/tax differences and statutory tax rates in the various jurisdictions in which we operate. Significant estimates and judgments are required in determining the provision for income taxes.

Results of Operations

Comparison of the Six Months Ended June 30, 2024 and 2023

The following table sets forth our consolidated statements of operations data for the six months ended June 30, 2024 and 2023:

Revenue. Revenue increased \$276.8 million, or 12%, to \$2,582.9 million for the six months ended June 30, 2024 from \$2,306.1 million for the six months ended June 30, 2023. Revenue increased primarily as a result of growth across each of our commercial aerospace, business aviation and other end markets. The increase in revenue generated from our commercial aerospace end market of \$275.2 million, or 22%, to \$1,509.8 million for the six months ended June 30, 2024 from \$1,234.6 million for the six months ended June 30, 2023 was primarily driven by the increases in higher engine and component usage and maintenance demand as well as additional market share capture on certain engine platforms we service. The increase in revenue generated from our business aviation end market of \$19.1 million, or 4%, to \$526.2 million from \$507.1 million for the six months ended June 30, 2023 was primarily attributable to the demand strength on the platforms that we service. These increases were partially offset by a decrease in our military and helicopter end market of \$19.1 million, or 4%, to \$469.3 million for the six months ended June 30, 2024, compared to the same period of 2023, primarily attributable to the temporary grounding of the US Navy's V-22 Osprey fleet.

Cost of revenue. Cost of revenue increased \$236.7 million, or 12%, to \$2,216.9 million for the six months ended June 30, 2024 from \$1,980.2 million for the six months ended June 30, 2023, as a result of the growth in

our volumes that increased related material and direct labor expenses as well as increased expense in other overhead costs directly related to the performance of aftermarket services. The following table sets forth our total cost of revenue for the six months ended June 30, 2024 and 2023:

	<u>Six Months Ended June 30,</u>	
	<u>2024</u>	<u>2023</u>

Labor	450.4	401.8
Other	165.5	155.2
Total cost of revenue	<u>\$ 2,216.9</u>	<u>\$ 1,980.2</u>

Selling, general and administrative expense. SG&A expense was \$108.8 million and \$95.2 million for the six months ended June 30, 2024 and 2023, respectively, and was 4.2% and 4.1% of total revenue for each of the six months ended June 30, 2024 and 2023, respectively. The \$13.6 million increase in SG&A expense was due in large part to a \$7.8 million increase in personnel expenses related to investments made for growth and a \$6.9 million increase in professional fees, partially offset by a \$1.1 million decrease in travel and selling expenses.

Amortization of intangible assets. Amortization of intangible assets was \$46.6 million and \$46.5 for the six months ended June 30, 2024 and 2023, as there were no significant changes in the cost base of intangible assets, including customer relationships, trademarks, technology and other intangible assets.

Acquisition costs. Acquisition costs of \$1.5 million for the six months ended June 30, 2023 were incurred primarily due to the acquisition of Western Jet on February 2, 2023.

Interest expense. Interest expense was \$155.6 million and \$151.3 million for the six months ended June 30, 2024 and 2023, respectively. The weighted average interest rate for the six months ended June 30, 2024 and 2023 was 9.23% and 8.87%, respectively, as the underlying benchmark rates on our floating rate debt instruments continued to rise during 2024, which drove the higher interest expense in the year, along with higher levels of debt outstanding due to increased draws on the ABL Credit Facility. See “—Liquidity and Capital Resources” for further discussion of our debt and financing activities.

Refinancing costs. Refinancing costs of \$4.9 million associated with the amendment of the Credit Agreement in March 2024 were incurred during the six months ended June 30, 2024.

Loss on debt extinguishment. A \$3.6 million loss on debt extinguishment was recorded during six months ended June 30, 2024 due to the write-off of unamortized deferred finance charges and debt discount related to the extinguished portion of the 2023 Term Loan Facilities and redeemed portion of the Senior Notes related to the refinancing activity.

Income tax expense. Income tax expense was \$37.9 million for the six months ended June 30, 2024, as compared to \$47.5 million for the six months ended June 30, 2023, a decrease of \$9.6 million. The decrease was primarily the result of a lower estimated annual effective tax rate driven by increased full year projected earnings.

Revenue. Revenue increased \$412.8 million, or 10%, to \$4,563.3 million for the year ended December 31, 2023 from \$4,150.5 million for the year ended December 31, 2022. Revenue increased as a result of overall growth across each of our commercial aerospace, military and helicopter, and business aviation end markets. The increase in revenue generated from our commercial aerospace end market of \$221.7 million, or 10%, to \$2,471.8 million for the year ended December 31, 2023 from \$2,250.1 million for the year ended December 31, 2022 was primarily driven by the increases in higher engine and component usage and maintenance demand as well as additional market share capture on certain engine platforms we service, which benefited from the continued recovery in commercial air travel demand from the COVID-19 pandemic and pilot shortages that impacted the regional jet markets. The increase in revenue generated from our business aviation end market of \$82.0 million, or 9%, to \$969.0 million and our military and helicopter end market of \$83.6 million, or 10%, to \$968.1 million for the year ended December 31, 2023, compared to the same period of 2022, was primarily attributable to the demand strength on the platforms that we service, resulting in strong growth in both end markets. Those increases were partially offset by ongoing supply chain delays that impacted the availability of parts and ultimately engine throughput across all of our end markets.

Cost of revenue. Cost of revenue increased \$323.2 million, or 9%, to \$3,928 million for the year ended December 31, 2023 from \$3,604.8 million for the year ended December 31, 2022, as a result of the growth in our volumes that increased related material and direct labor expenses as well as increased expense in other overhead costs directly related to the performance of aftermarket services. The following table sets forth our total cost of revenue for the years ended December 31, 2023 and 2022:

[Table of Contents](#)

Selling, general and administrative expense. SG&A expense was \$202.8 million and \$188.1 million for the years ended December 31, 2023 and 2022, respectively, and was 4.5% of revenue for each of the years ended December 31, 2023 and 2022. The \$14.7 million increase in SG&A expense was due in large part to a \$16.6 million increase in personnel and related incentive compensation expense to support continued growth and \$3.0 million increase in travel and marketing expense, offset by \$5.9 million decrease in integration expense, as our Signature ERO acquisition in 2021 is now fully integrated.

Amortization of intangible assets. Amortization of intangible assets was \$93.7 million for the years ended December 31, 2023 and 2022, as there were no significant changes in the cost base of intangible assets, including customer relationships, trademarks, technology and other intangible assets.

Acquisition costs. Acquisition costs of \$1.5 million for the year ended December 31, 2023 were incurred primarily due to the acquisition of Western Jet on February 2, 2023. Acquisition costs of \$1.3 million for the year ended December 31, 2022 were incurred primarily due to the acquisition of EB Airfoils on May 12, 2022.

Interest expense. Interest expense was \$309.6 million and \$243.0 million for the years ended December 31, 2023 and 2022, respectively. The weighted average interest rate for the years ended December 31, 2023 and 2022 was 9.2% and 6.3%, respectively, as the underlying benchmark rates on our floating rate debt instruments continued to rise during 2023, which drove the higher interest expense in the year. See “—Liquidity and Capital Resources” for further discussion of our debt and financing activities.

Refinancing costs. Refinancing costs of \$19.9 million associated with the amendment of the Credit Agreement in August 2023 were incurred during the year ended December 31, 2023.

Loss on debt extinguishment. A \$6.2 million loss on debt extinguishment was recorded during the year ended December 31, 2023, due to the write-off of unamortized deferred finance charges and debt discount related to the extinguished portion of the 2019 Term Loan Facilities and 2021 Term Loan Facility (both defined below) related to the refinancing activity.

Income tax expense. Income tax expense was \$40.2 million for the year ended December 31, 2023, as compared to \$43.0 million for the year ended December 31, 2022, a decrease of \$2.8 million. The decrease was reflective of a reduction in pre-tax income, reducing income taxes expense by \$3.5 million based on the U.S. statutory rate of 21%, offset by other items. The tax expense and corresponding effective tax rate for 2023 and 2022 were high primarily due to a partial valuation allowance recorded against our interest expense carryforward deferred tax asset under Section 163(j) of the Code.

The increase in revenue generated from our commercial aerospace end market of \$464.8 million, or 26%, to \$2,250.1 million for the year ended December 31, 2022 from \$1,785.3 million for the year ended December 31, 2021 was primarily driven by the growth in this end market as a result of the recovery in commercial air travel from the COVID-19 pandemic and related maintenance demand as well as the full year results impact of the Signature ERO acquisition. The increase in revenue generated from our business aviation end market of \$237.3 million, or 37%, to \$887.0 million for the year ended December 31, 2022, compared to the same period of 2021, was primarily due to the full year results impact of the acquisition of Signature ERO, and due to higher demand on the platforms that we service in this end market. The aggregate increase in revenue across end markets attributable to the realization of a full year of revenue from our July 2021 acquisition of Signature ERO was \$271.5 million.

Cost of revenue. Cost of revenue increased \$541.4 million, or 18%, to \$3,604.8 million for the year ended December 31, 2022 from \$3,063.4 million for the year ended December 31, 2021, as a result of the growth in our volumes that increased related material, direct labor and other overhead costs spend as well as increased expenses from the realization of a full year of ownership of Signature ERO. The following table sets forth our cost of revenue for the years ended December 31, 2022 and 2021:

The \$31.7 million increase in SG&A expense was due to \$13.3 million of SG&A

expense associated with the realization of a full year of ownership of Signature ERO, a \$7.3 million increase in marketing and traveling expense as events and travel recovered from the COVID-19 pandemic, a \$5.9 million increase in bad debt expense related to receivables at risk as a result of the Russia-Ukraine conflict and a \$3.6 million increase in personnel and incentive compensation expense.

Amortization of intangible assets. Amortization of intangible assets was \$93.7 million for the year ended December 31, 2022 and \$94.0 million for the year ended December 31, 2021.

Acquisition costs. Acquisition costs of \$1.3 million for the year ended December 31, 2022 were incurred primarily in connection with the acquisition of EB Airfoils on May 12, 2022. Acquisition costs of \$8.4 million for the year ended December 31, 2021 were incurred primarily in connection with the acquisitions of Signature ERO in July 2021 and PTS Aviation in December 2021.

Interest expense. Interest expense was \$243.0 million and \$205.3 million for the years ended December 31, 2022 and 2021, respectively. The weighted average interest rates for the years ended December 31, 2022 and 2021 was 6.3% and 5.8%, respectively as the underlying benchmark rates on our floating rate debt instruments rose during 2022, which drove the higher interest expense in the year. See “—Liquidity and Capital Resources” for further discussion.

Income tax expense (benefit). Income tax expense was \$43.0 million for the year ended December 31, 2022, as compared to a benefit of \$(13.8) million for the year ended December 31, 2021, an increase of \$56.8 million. The increase was primarily the result of the increase in pre-tax income, increasing income taxes expense by \$14.0 million based on the U.S. statutory rate of 21% as well as a change in the U.S. state deferred effective tax rate for the state of Florida as a result of a consolidated return for the year ended December 31, 2021 that resulted in a tax benefit of \$42.8 million. The tax expense and corresponding effective tax rate for 2022 were high primarily due to a partial valuation allowance recorded against our interest expense carryforward deferred tax asset under Section 163(j) of the Code. For 2021, the tax expense and corresponding effective tax rate were lower due to the partial valuation allowance recording being offset by a change in the U.S. state deferred effective tax rate for the State of Florida as a result of a consolidated return.

On February 12, 2020, we (i) incurred an additional \$200.0 million of incremental term loans under the 2019 Term Loan Facilities and (ii) amended and repriced each of the 2019 Term Loan Facilities to, among other things, revise the applicable interest rate margin for (a) loans bearing interest at LIBOR to a range of 3.25% to 3.50% and (b) loans bearing interest at base rate to a range of 2.25% to 2.50%.

On July 1, 2021, we (i) entered into the 2021 Term Loan Facility and (ii) amended the Credit Agreement to replace LIBOR as the reference rate for Pounds Sterling-denominated loans under the 2019 Revolving Credit Facility with a SONIA based rate (subject to a 0.0% floor). The 2021 Term Loan Facility bore interest at a floating rate per annum which could be, at our option, (a) a LIBOR-based rate (subject to a 1.0% floor), plus 5.75% or (b) a base rate (subject to a 2.0% floor) plus an applicable margin of 4.75%.

On December 22, 2022, the Credit Agreement was amended to replace LIBOR as the reference rate for dollar-denominated loans under each of the 2019 Revolving Credit Facility, the 2019 Term Loan Facilities and the 2021 Term Loan Facility with a Term SOFR-based rate, plus a credit spread adjustment of 0.10% (subject to a 1.0% floor).

On May 1, 2023, we amended, refinanced and extended the maturity of the 2019 Revolving Credit Facility due April 4, 2024 to January 2, 2026.

On August 24, 2023, we amended, refinanced and extended the maturity of (i) each of the 2019 Term Loan B-1 Facility and 2021 Term Loan Facility due April 4, 2026, with the 2023 Term Loan B-1 Facility, (ii) the 2019 Term Loan B-2 Facility due April 4, 2026 with the 2023 Term Loan B-2 Facility and (iii) the 2019 Revolving Credit Facility with the 2023 Revolving Credit Facility, maturing on the earlier of (a) May 1, 2028 and (b) a springing maturity date that is 91 days prior to the maturity date applicable to any term loan under the Credit Agreement, unsecured indebtedness or other indebtedness having an aggregate outstanding principal amount of at least \$150.0 million. The 2023 Term Loan Facilities bore interest at a floating rate per annum which could be, at our option, (a) a Term SOFR-based rate (subject to 0.0% floor), plus 3.75% to 4.00% or (b) a base rate (subject to a 1.0% floor) plus an applicable margin of 2.75% to 3.00%.

We used a portion of the 2024 Term Loan Facilities, along with cash on hand, to redeem \$200.0 million of the \$675.5 million aggregate principal amount of outstanding Senior Notes. As part of the financing transaction, the Credit Agreement was also amended (i) to reduce the applicable interest rate margin for loans under the 2024 Term Loan Facilities bearing interest at Term SOFR from 4.00% to 3.50%, (ii) to reduce the applicable interest rate margin for loans under the 2024 Term Loan Facilities bearing interest at base rate from 3.00% to 2.50% and (iii) to replace CDOR as the reference rate for Canadian dollar-denominated loans under the 2023 Revolving Credit Facility, with a Term CORRA-based rate, plus a credit spread adjustment ranging from 0.29547% to 0.32138% (subject to a 0.0% floor).

The Credit Agreement contains customary mandatory prepayment provisions, including the requirement to prepay the 2024 Term Loan Facilities with excess cash flow and with the net cash proceeds of certain asset sales or other asset dispositions, casualty events and issuances of debt securities, in each case, subject to certain customary exceptions. All obligations of Dynasty Acquisition under the Senior Secured Credit Facilities are jointly and severally guaranteed by Dynasty Intermediate Co., Inc. Senior Secured Credit Agreements Covenant Compliance

The 2023 Revolving Credit Facility is subject to a springing financial covenant, which requires us to maintain a maximum consolidated first lien net leverage ratio that is tested quarterly, at the end of any fiscal quarter, when more than 35% of the 2023 Revolving Credit Facility (excluding, among other things, all letters of credit) is utilized on such date.

The ABL Credit Facility is subject to a springing financial covenant, which requires us to maintain a minimum fixed charge coverage ratio that is tested quarterly, (a) as of the last day of the most recently ended fiscal quarter, if excess availability under the ABL Credit Facility at any time is below a threshold equal to the lesser of (i) 10.0% of the aggregate borrowing base under the ABL Credit Facility, (ii) 10.0% of the aggregate commitments under the ABL Credit Facility and (iii) \$30.0 million, and (b) thereafter on the last day of each subsequent fiscal quarter until excess availability exceeds such threshold for 30 consecutive days.

The Senior Secured Credit Agreements contain certain financial reporting covenants that require us to present periodic financial metrics to our lenders. One such financial reporting metric is Consolidated EBITDA as defined in the Senior Secured Credit Agreement. The definition of Consolidated EBITDA utilized for these debt reporting covenants differs from the definition of Adjusted EBITDA presented in this prospectus in that it represents Adjusted EBITDA as further adjusted for certain additional items including, among other things, to give pro forma effect to acquisitions, including resulting synergies, and cost savings. The table below highlights

Table of Contents

the differences between Adjusted EBITDA presented in this prospectus and Consolidated EBITDA presented to our creditors:

<u>Period</u>	<u>Amount</u> <u>(in millions)</u>
Six months ended June 30, 2024	\$ 5.2
Six months ended June 30, 2023	\$ 3.4
Fiscal year ended December 31, 2023	\$ 3.4
Fiscal year ended December 31, 2022	\$ 5.9
Fiscal year ended December 31, 2021	\$ 42.8

Compliance with these covenants is essential to our ability to continue to meet our liquidity needs, as a failure to comply could result in a default under the Senior Secured Credit Agreements and permit the senior lenders to accelerate the maturity of our indebtedness. Such an acceleration of our indebtedness would have a material adverse effect on our liquidity, including our ability to make payments on our other indebtedness and our ability to operate our business.

We are currently in compliance with the covenants in the Senior Secured Credit Agreements.

Six Months Ended June 30, 2024

Net cash used in operating activities for the six months ended June 30, 2024 was \$18.1 million. The factors affecting our operating cash flows for the six months ended June 30, 2024 were our net income of \$8.6 million and non-cash charges of \$96.3 million, partially offset by a net change in our operating assets and liabilities of \$123.0 million. The non-cash charges primarily consisted of \$92.9 million in depreciation and amortization, \$6.7 million in amortization of deferred finance charges and discounts, and \$3.6 million in the loss on debt extinguishment in connection with the amendment of the Credit Agreement for the six months ended June 30, 2024, partially offset by \$6.9 million in deferred income taxes. The increase in accounts receivable, contract assets and inventories was due to increased volume, as well as the timing of billings related to customer contracts and the recognition of revenue from customer contracts which were significantly impacted by industry-wide supply chain challenges that reduced the supply of parts, which delayed throughput of engine shipments. The increase in accounts payable, accrued expenses and other accrued liabilities was primarily related to the timing of invoicing and payments with suppliers.

Net cash used in investing activities for the six months ended June 30, 2024 was \$44.8 million and consisted of \$45.1 million of purchases of property, plant and equipment and rental engines and \$0.2 million for the

[Table of Contents](#)

acquisition of intangible assets, partially offset by proceeds from the disposal of property, plant and equipment and rental engines of \$0.5 million. A significant proportion of our purchases of property, plant and equipment was primarily due to continued investments made to stand up our LEAP-1A and LEAP-1B program and our CFM56 expansion capabilities in Dallas/Fort-Worth.

Net cash provided by financing activities for the six months ended June 30, 2024 of \$65.9 million was primarily related to incremental borrowings from the issuance of the 2024 Term Loan Facilities of \$308.0 million and net draws of \$75.0 million on the ABL Credit Facility, partially offset by the repayment of \$200.0 million of the Senior Notes, the payment of \$115.4 million of long term debt, the repayment of long-term agreements of \$1.3 million and the payment of deferred financial charges of \$0.4 million associated with the refinancing activities.

Six Months Ended June 30, 2023

Net cash used in operating activities for the six months ended June 30, 2023 was \$199.3 million. The factors affecting our operating cash flows for the six months ended June 30, 2023 were our net loss of \$12.6 million and a net change in our operating assets and liabilities of \$287.8 million, partially offset by non-cash charges of \$101.1 million. The non-cash charges primarily consisted of \$98.5 million in depreciation and amortization, \$8.0 million in amortization of deferred finance charges and discounts, \$1.0 million in non-cash lease expense and \$0.4 million in foreign exchange loss, partially offset by \$6.8 million in deferred income taxes. The increase in accounts receivable, contract assets and inventories was due to increased volume, as well as the timing of billings related to customer contracts and the recognition of revenue from customer contracts which were significantly impacted by industry-wide supply chain challenges that reduced the supply of parts, which decreased throughput of engine shipments, offset by a decrease in accounts payable, accrued expenses and other accrued liabilities driven by supply chain delays that impacted throughput of engine shipments.

Net cash used in investing activities for the six months ended June 30, 2023 of \$80.3 million was primarily attributable to the \$31.1 million acquisition of Western Jet on February 2, 2023, the purchases of property, plant and equipment and rental engines in the year of \$21.5 million and the acquisition of intangible assets of \$30.2 million. Net cash used in investing activities was offset by the proceeds from the disposal of property, plant and equipment and rental engines of \$2.4 million.

Net cash provided by financing activities for the six months ended June 30, 2023 of \$204.0 million was primarily attributable to the proceeds from issuance of long-term debt of \$220.0 million under the ABL Credit Facility, partially offset by the repayment of long-term debt of \$12.2 million, payment of deferred financing charges of \$2.0 million and the repayment of long-term agreements of \$1.6 million.

Year Ended December 31, 2023

Net cash provided by operating activities for the year ended December 31, 2023 was \$67.9 million. The factors affecting our operating cash flows during 2023 were our net loss of \$35.1 million and a net change in our operating assets and liabilities of \$99.5 million, partially offset by non-cash charges of \$202.4 million. The non-cash charges primarily consisted of \$197.1 million in depreciation and amortization, \$15.3 million in amortization of deferred finance charges and discounts, \$6.2 million in the loss on debt extinguishment in connection with the amendment of the Credit Agreement during 2023, and \$3.2 million in foreign exchange loss, partially offset by \$19.8 million in deferred income taxes. Improved net working capital performance was driven by better accounts receivable collections and improved payment terms with customers, offset by a decrease in accounts payable, accrued expenses and other accrued liabilities and an increase in inventories and contract assets driven by the volume growth in the business and supply chain delays that impacted throughput of engine shipments.

Net cash used in investing activities for the year ended December 31, 2023 of \$112.9 million was primarily due to investments made to stand up our LEAP-1A and LEAP-1B program, and consisted of \$55.1 million of

[Table of Contents](#)

purchases of property, plant and equipment and rental engines, \$30.2 million for the acquisition of intangible assets and \$31.1 million for the acquisition of Western Jet on February 2, 2023. Net cash used for investment was offset by the proceeds from the disposal of property, plant and equipment and rental engines of \$3.5 million.

Net cash used in financing activities for the year ended December 31, 2023 of \$14.7 million was primarily related to incremental borrowings from the issuance of the 2023 Term Loan Facilities of \$1,479.6 million, partially offset by the repayment of \$1,488.4 million of the 2019 Term Loan Facilities and 2021 Term Loan Facility, the payment of deferred financial charges of \$2.9 million associated with the refinancing activities and the repayment of long-term agreements of \$3.0 million.

Year Ended December 31, 2022

Net cash provided by operating activities for the year ended December 31, 2022 was \$27.3 million. The factors affecting our operating cash flows during 2022 were our net loss of \$21.0 million and a net change in our operating assets and liabilities of \$144.0 million, partially offset by non-cash charges of \$192.2 million. The non-cash charges primarily consisted of \$195.2 million in depreciation and amortization, \$5.8 million in impairment of long-lived assets, \$16.2 million in amortization of deferred finance charges and discounts, \$1.0 million in non-cash lease expense and \$2.9 million in foreign exchange loss, partially offset by \$2.1 million in amortization of loss on derivative instruments and \$26.5 million in deferred income taxes. The increase in accounts receivable, contract assets and inventories was due to increased volume, as well as the timing of billings related to customer contracts and the recognition of revenue from customer contracts which were significantly impacted by industry-wide supply chain challenges that reduced the supply of parts, which decreased throughput of engine shipments. The increase in accounts payable, accrued expenses and other accrued liabilities was primarily related to the timing of invoicing and payments with suppliers.

Net cash used in investing activities for the year ended December 31, 2022 of \$60.8 million was primarily attributable to the \$19.9 million acquisition of EB Airfoils in 2022, the purchases of property, plant and equipment and rental engines in the year of \$41.2 million and the acquisition of intangible assets of \$3.0 million. Net cash used in investing activities was offset by the proceeds from the disposal of property, plant and equipment and rental engines of \$3.3 million.

Net cash used in financing activities for the period ended December 31, 2022 of \$25.8 million was primarily attributable to the proceeds from issuance of long-term debt of \$145.0 million under the ABL Credit Facility, partially offset by the repayment of long-term debt of \$169.3 million, consisting of \$145.0 million repayment for the ABL Credit Facility and \$24.3 million repayment for other debt.

Year Ended December 31, 2021

Net cash provided by operating activities for the year ended December 31, 2021 was \$130.7 million. The factors affecting our operating cash flows during this period were our net loss of \$31.0 million, partially offset by non-cash charges of \$157.7 million and a net change in our operating assets and liabilities of \$4.1 million. The non-cash charges primarily consisted of \$196.4 million in depreciation and amortization, \$15.2 million in amortization of deferred finance charges and discounts, and \$3.0 million in foreign exchange loss, partially offset by \$57.2 million in deferred income taxes. The net cash provided by operating activities was driven by the timing of billings related to customer contracts and the recognition of revenue from customer contracts and the timing of invoicing and payments with suppliers, offset by an increase in inventories driven by the volume growth in the business and supply chain delays that impacted throughput of engine shipments.

Net cash used in investing activities for the year ended December 31, 2021 was \$294.6 million primarily due to the \$221.2 million of cash consideration paid in connection with the acquisition of Signature ERO, \$7.1 million of cash consideration paid in the connection with the acquisition of PTS Aviation, \$4.2 million of cash consideration paid in connection with the acquisition of our remaining stake in Asian Surface Technologies,

[Table of Contents](#)

the acquisition of \$29.2 million of intangible assets and the purchase of property, plant and equipment and rental engines of \$36.5 million. This was partially offset by \$3.6 million in proceeds from the disposal of property, plant and equipment and rental engines.

Net cash provided by financing activities for the year ended December 31, 2021 was \$233.2 million primarily due to \$266.8 million of proceeds from the issuance of debt under the 2021 Term Loan, offset by \$24.4 million in repayment of long-term debt, \$7.1 million in repayment of long-term agreements and \$2.1 million payment of financing fees for the 2021 Term Loan Facility that were deferred.

Critical Accounting Estimates

Our accounting estimates discussed below are important to the presentation of our results of operations and financial condition and require the application of judgment by our management in determining the appropriate assumptions and estimates. These assumptions and estimates are based on our previous experience, trends in the industry, the terms of existing contracts and information available from other outside sources and factors. Adjustments to our financial statements are recorded when our actual experience differs from the expected experience underlying these assumptions. These adjustments could be material if our experience is significantly different from our assumptions and estimates. Below are those policies applied in preparing our financial statements that management believes are the most dependent on the application of estimates and assumptions.

Revenue recognition

Revenue is recognized on contracts with customers for arrangements in which services and pricing are fixed and/or determinable and are generally based on customer purchase orders. We recognize revenue for performance obligations within a customer contract when control of the associated product or service is transferred to the customer. We have three significant types of aftermarket services revenue contracts: fixed price contracts, time and materials contracts and engine utilization contracts. The performance obligations in the contracts can include: (i) repair services and parts/modules embodied and (ii) engine rental revenue.

For these contracts, we recognize revenue over time using input method with revenue being recognized proportionately to costs incurred relative to total expected costs to satisfy the performance obligation. We believe that costs incurred are an appropriate measure of progress towards satisfaction of the performance obligation since this measure reasonably depicts the progress of the work effort. We consider the estimation of total costs to be a critical accounting estimate and require significant judgment. The key assumptions by contract type include in the following:

Fixed price, time and material contracts. Assumptions regarding total costs require significant judgment with regard to materials, labor and overhead costs that are affected by our ability to achieve technical requirements and schedule requirements, as well as our estimation of internal and subcontractor performance and inflation trends. We continually review and update our assumptions based on program performance. Material changes in assumptions may result in positive or negative cumulative catch-up adjustments related to revenue previously recognized.

To determine the revenue recognized at each period end for contracts in progress, we use a portfolio approach by applying an estimated margin by engine platform to the contract costs incurred. The estimated margin by engine platform is based on average historical margins on similar completed contracts. We apply judgment when determining the estimated margin by engine platform, which includes evaluating the appropriateness of using average historical margins by engine platform for completed contracts on similar contracts in progress. Revenue recognized related to open work orders had accumulated costs of \$830.4 million, which resulted in \$933.5 million of our total revenue for the year ended December 31, 2023. A 1% change in the estimated margin by engine platform for open work orders would have resulted in a \$10.5 million change in revenue for the year ended December 31, 2023, which represents 0.2% of total revenue and 3.1% of operating income for the year ended December 31, 2023.

[Table of Contents](#)

Engine utilization contracts. Assumptions regarding total costs require significant judgment with regard to total number of events along with materials, labor and overhead costs that are affected by our ability to achieve technical requirements and schedule requirements, as well as our estimation of internal and subcontractor performance and inflation trends. Revenue recognized under engine utilization contracts represents 4.1% of our revenue for the six months ended June 30, 2024 and 3.9% of our revenue for the year ended December 31, 2023.

Additionally, we estimate the variable consideration of the total contract revenue and costs in our engine utilization contracts. The estimates used are based on our expected value with respect to the customer's utilization of engines during the contract and only recognized to the extent that it is probable that a significant reversal in the amount of cumulative revenue recognized will not occur when the uncertainty associated with the variable consideration is subsequently resolved. As a result, such estimates may be materially impacted by changes in the customer's engine utilization including, as a result of general economic slowdowns, fleet retirements and changes in the customer's agreements. As a significant change in one or more of these estimates could affect the profitability of a contract, estimates are reviewed and updated on a quarterly basis. Revenue and profit in future periods of contract performance is recognized using the adjusted estimate.

Business combinations

When we acquire a business, we allocate the purchase price by recognizing assets acquired and liabilities assumed based on their estimated fair values at acquisition date with any excess of the purchase consideration when compared to the fair value of the net tangible and intangible assets acquired recognized as goodwill. A preliminary fair value is determined once a business is acquired, with the final determination of fair value completed no later than one year from the date of acquisition.

The determination of the estimated fair value of assets acquired and liabilities assumed requires significant judgment and estimates, including the selection of valuation methodologies, estimates of future revenue, costs and cash flows, discount rates, asset lives and selection of comparable companies. We engage the assistance of valuation specialists when necessary in determining the fair value of assets acquired and liabilities assumed in business combinations that required. The determination of the estimated fair value of the inventories is consistent with our inventory accounting policy, including the estimation of obsolescence or unmarketable inventory on a part-by-part basis using aging profiles.

The fair value of the intangible assets is estimated using several valuation methodologies, including income-based or market-based approaches, which represent Level 3 fair value measurements. The value of customer relationships, OEM authorizations, trademarks and technology and other is typically estimated based on a multi-period excess earnings approach. The more significant inputs used in the intangible asset valuation include: (i) future revenue growth rates, (ii) projected gross margins, (iii) the customer attrition rate and (iv) the discount rate. The useful lives are estimated based on the future economic benefit expected to be received from the assets.

Goodwill

Goodwill represents the excess of the purchase price and related costs over the value assigned to net tangible and identifiable assets of businesses acquired and accounted for under the purchase method. Impairment testing of goodwill is performed annually and if there is indication that a triggering event has occurred, such as an operating loss or a significant adverse change in our business. We elected to perform our annual impairment testing as of October 1 of each year. We have the option to first perform a qualitative assessment to determine whether the existence of events or circumstances leads to a determination that it is more likely than not that the fair value is less than its carrying amount. Under the qualitative assessment, management considers relevant events and circumstances including but not limited to macroeconomic conditions, industry and market considerations, overall reporting unit performance and events directly affecting a reporting unit. If we determine that it is not more likely than not, that the carrying value is greater than the fair value, no additional test is required. However, if we conclude otherwise or elect not to perform the qualitative assessment then a

[Table of Contents](#)

quantitative impairment test is performed by comparing the fair value of the reporting unit with its carrying value, including goodwill. Projections used in impairment testing include the use of future cash flow and operating projections, which by their nature, are subjective. Inherent in management's development of cash flow projections are assumptions and estimates, including those related to forecasted revenue growth rates, forecasted operating margins and the weighted average cost of capital. Estimating the fair value of individual reporting units also requires that management make assumptions and estimates regarding future plans and strategies and economic, geopolitical and regulatory conditions. If we determine that the carrying value exceeds the fair value, an impairment to goodwill is recognized equal to the excess, and is limited to the total amount of goodwill allocated to the reporting unit, as a charge in the Consolidated Statements of Operations.

We completed our annual impairment tests during the years ended December 31, 2023, 2022 and 2021 by performing a qualitative analysis and determined that no impairment had occurred.

Inventories

Inventories are recorded at the lower of cost and net realizable value with cost being determined on a first-in first-out basis. Costs include materials, direct labor and an allocation of overhead in the case of work in process. We write down our inventory for estimated obsolescence or unmarketable inventory on a part-by-part basis using aging profiles. Aging profiles are determined based upon inventory age, historical obsolescence trends and assumptions about future demand and market conditions. If actual future demand or market conditions are less favorable than those projected, inventory adjustments may be required. Should future demand or market conditions prove to be different than the estimates, our cost of revenue may increase.

Income taxes

We believe that our accruals for tax liabilities are adequate for all open audit years based on our assessment of many factors including past experience and interpretations of tax law. This assessment relies on estimates and assumptions and may involve a series of complex judgments about future events. To the extent that the final tax outcome of these matters is different than the amounts recorded, such differences will impact income tax expense. Significant judgment is also required in determining any valuation allowance recorded against deferred tax assets. In assessing the need for a valuation allowance, management considers all available evidence including past operating results, estimates of future taxable income and the feasibility of ongoing tax planning strategies. As of June 30, 2024 and December 31, 2023 and 2022, we had a valuation allowance of \$117.0 million, \$94.8 million and \$63.0 million, respectively, recorded against our interest expense carryforward deferred tax asset under Section 163(j) of the Code. In the event that we change our determination as to the amount of deferred tax assets that can be realized, we will adjust our valuation allowance with a corresponding impact to income tax expense in the period in which such determination is made.

In 2021, the Organization for Economic Cooperation and Development ("OECD") released Pillar Two Global Anti-Base Erosion model rules ("Pillar Two Rules"), designed to ensure large corporations are taxed at a minimum rate of 15% in all countries of operation. On June 20, 2024, as part of Bill C-69, Canada enacted its Pillar Two legislation effective January 1, 2024. Canada Bill C-59 was also enacted on June 20, 2024 and included the excessive interest and financing expenses limitation (EIFEL) regime effective for tax years beginning on or after September 30, 2023. Based on the results of our initial Pillar Two and EIFEL analysis, the Company does not expect to incur any additional tax liability under these rules in 2024.

Recent Accounting Pronouncements

See Note 2, "Adoption of New Accounting Standards" to our audited consolidated financial statements included elsewhere in this prospectus for a description of recent accounting pronouncements, if any, including the expected dates of adoption and the anticipated impact on our consolidated financial statements.

Quantitative and Qualitative Disclosures about Market Risk

Market risk is the potential economic loss that may result from adverse changes in the fair value of financial instruments. Our financial results could be impacted by inflation or changes in interest rates or foreign currency exchange rates.

Interest rate risks. The Senior Secured Credit Agreements are subject to interest rate risk. Borrowings under the 2024 Term Loan Facilities bear interest at a floating rate per annum, which can be, at our option, either (a) Term SOFR-based rate, plus a margin of 3.50% or (b) a Base Rate plus a margin of 2.50%. As of June 30, 2024, we had \$2,755.2 million outstanding under the 2024 Term Loan Facilities, bearing interest at variable rates. Each change of 0.125% in interest rates would result in a \$3.4 million change in annual interest expense on term loan borrowings.

Borrowings under the Credit Facilities bear interest at a floating rate per annum, which can be, at our option (a) a Term SOFR-based rate for U.S. Dollar-denominated loans under the Credit Facilities, (b) a EURIBOR-based rate for Euro-denominated loans under the 2023 Revolving Credit Facility; (c) a Term CORRA-based rate for Canadian Dollar-denominated loans under the 2023 Revolving Credit Facility; (d) a SONIA-based rate Pounds Sterling-denominated loans under the 2023 Revolving Credit Facility; and (e) a base rate for U.S. Dollar-denominated loans under the Credit Facilities; each of them at the rates further described under “Description of Certain Indebtedness,” found elsewhere in this prospectus.

The applicable margins for the 2023 Revolving Credit Facility is subject to adjustment based on the Consolidated First Lien Net Leverage Ratio (as defined in the Credit Agreement) as of the preceding fiscal quarter end. As of December 31, 2023 and June 30, 2024 we do not have borrowings outstanding under the 2023 Revolving Credit Facility, bearing interest at variable rates. Although we have not drawn down on our revolving credit facilities in the past, had the 2023 Revolving Credit Facility been fully drawn, each 0.125% change in interest rates would result in a \$0.2 million change in annual interest expense on our 2023 Revolving Credit Facility.

Borrowings under the ABL Credit Facility bear interest at a floating rate per annum, which can be, at our option: (a) a Term SOFR-based rate for U.S. Dollar-denominated loans, (b) a EURIBOR-based rate for Euro-denominated loans, (c) a Term CORRA-based rate for Canadian Dollar-denominated loans, (d) a SONIA-based rate Pounds Sterling-denominated loans, (e) a base rate for U.S. Dollar-denominated loans, (f) a Canadian base rate for U.S. Dollar-denominated loans, and (g) a Canadian prime rate for Canadian Dollar-denominated loans, each of them at the rates further described under “Description of Certain Indebtedness,” found elsewhere in this prospectus.

The applicable margins are based on the average excess availability as of the preceding fiscal quarter end. As of December 31, 2023, we did not have borrowings outstanding under the ABL Credit Facility, bearing interest at variable rates. As of June 30, 2024, we had outstanding \$75.0 million under the ABL Credit Facility, bearing interest at variable rates. Each change of 0.125% in interest rates would result in a \$0.1 million change in annual interest expense on term loan borrowings. Any debt we incur in the future may also bear interest at floating rates.

To manage interest rate risk, we have entered into interest rate swap contracts, effective June 28, 2019, to adjust the amount of total debt that is subject to variable interest rates. The interest rate swaps began with a notional amount of \$1,000.0 million, decreased to \$750.0 million on March 31, 2022, and to \$500.0 million on March 31, 2023, maturing on March 27, 2024. The swaps provide an effective average fixed SOFR rate of 2.41% to limit the exposure against the risk of rising rates. On March 15, 2023, we entered into another interest rate swap contract, effective March 31, 2023 for a notional amount for \$400.0 million. The swap provides an effective fixed SOFR rate of 3.71%, maturing on December 31, 2025. Additionally, we have entered into an interest rate cap contract to limit the exposure against the risk of rising interest rates. The interest rate cap

[Table of Contents](#)

contract, effective on March 31, 2023, provides a capped SOFR rate of 4.45% and matures on September 30, 2025. This interest rate cap contract began with a notional amount of \$500.0 million, increased to \$1,000.0 million on March 31, 2023, and to \$1,500.0 million on March 28, 2024. On November 14, 2023, we entered into another interest rate cap contract, effective September 30, 2025, to continue to limit the exposure of the interest rates on our variable term loans to a capped SOFR rate of 5.00% on a notional amount of \$1,500.0 million, maturing on December 31, 2026.

Inflation risks. Inflation generally affects our costs of labor, equipment, raw materials, freight and utilities. We strive to offset these items by price increases, operating improvements and other cost-saving initiatives and through contractual provisions that allow us to pass along material and other cost increases to customers. In certain end markets, implementing price increases may be difficult and there is no assurance that we will be successful. From time to time, we may encounter difficulties in obtaining certain raw materials or components necessary for production due to supply chain constraints and logistical challenges, which may also negatively impact the pricing of materials and components sourced or used in our services.

Currency risks. Our assets and liabilities in foreign currencies are translated at the period-end rate. Exchange differences arising from this translation are recorded in our consolidated statements of operations. In addition, currency exposures can arise from revenue and purchase transactions denominated in foreign currencies. Generally, transactional currency exposures are naturally hedged (i.e., revenue and expenses are approximately matched), but where appropriate, we may use foreign exchange contracts. Approximately \$79.5 million, or 3.1%, of revenue for the six months ended June 30, 2024, and \$152.9 million, or 3.4%, of revenue for the year ended December 31, 2023 was attributable to non-U.S. Dollar currencies. Gains or losses due to transactions in foreign currencies included in our consolidated statements of operations was a \$0.2 million gain and a \$3.2 million loss for the six months ended June 30, 2024 and the year ended December 31, 2023, respectively. A hypothetical 10% change in the relative value of the U.S. dollar to other currencies during any of the periods presented would not have had a material effect on our consolidated financial statements.

BUSINESS

Our Company

We believe that we are the world’s largest independent, pure-play provider of aerospace engine aftermarket services for fixed and rotary wing aircraft, serving the commercial, military and business aviation end markets. We provide a comprehensive suite of critical, value-added aftermarket solutions, including scheduled and unscheduled engine maintenance, repair and overhaul, engine component repair, on-wing and field service support, asset management and engineering solutions. We serve a crucial role in the engine aftermarket value chain, connecting engine OEMs with aircraft operators through our aftermarket services, maintaining longstanding relationships with both. We command a leading reputation that is based upon our strong track record of safety, reliability and operational performance built over our more than 100 years of successful operations in the aerospace aftermarket.

Our business consists of an attractive mix of end markets, customers and engine platforms. Our revenue is highly diversified across the commercial, military and business aviation end markets. We believe this diversification provides us with significant resiliency, while affording us the ability to take advantage of new business opportunities that arise. In addition, diversification across engine OEMs and platforms reduces our exposure to idiosyncratic events that may impact demand related to a specific aircraft or engine type.

Within our markets, we hold leadership positions on most of the engine platforms we serve, with an estimated 80% of our Engine Services sales in 2023 from engine platforms where we hold #1 or #2 positions globally. Our platform portfolio consists of a healthy mix of mature, growth and next generation programs and includes many of the engines that power the world’s most prevalent aircraft. For example, we provide support for the CFM56, which powers the Boeing 737NG and Airbus A320ceo family narrowbody aircraft and currently has the largest installed base of any engine platform, the LEAP-1A/-1B, which power the next generation of narrowbody aircraft and are expected to become the most widely fielded platform family in the world by the early 2030s, and the CF34, which powers many of the world’s most utilized regional jets. On several platforms, we hold contracts directly with the OEM that designates us as the primary or sole outsourced provider of maintenance services for the engine. Furthermore, with approximately 77% of our revenue in the year ended December 31, 2023 derived from long-term contractual agreements, our financial profile is characterized by a significant amount of predictable, recurring revenue supported by the highly regulated nature of aircraft engine maintenance requirements.

We are also one of the largest independent engine component repair platforms globally, providing services to commercial aerospace, military, land and marine and oil and gas end markets. We have made substantial investments in our Component Repair Services business, which provides attractive margins, significant growth opportunities and synergies with our Engine Services business. The following charts detail our business mix for the year ended December 31, 2023:

(1) For a discussion of Segment Adjusted EBITDA, see “Management’s Discussion and Analysis of Financial Condition and Results of Operations — Segment Results” and Note 24 and Note 18, “Segment information” to our audited consolidated financial statements and unaudited condensed interim consolidated financial statements, respectively, included elsewhere in this prospectus.

Core to our strategy is our positioning as an OEM-aligned and independent provider of aftermarket services. Our OEM-aligned strategy, coupled with our scale and service performance, entrenches us as a trusted and

preferred partner to every major OEM, including GE Aerospace, CFM International, Pratt & Whitney, Rolls-Royce, Honeywell and Safran. We hold long-term OEM licenses and authorizations to provide aftermarket support for all of the engine platforms that we service, and we believe we have a 100% historical success rate on the OEM licenses and authorizations we sought to retain upon their expiration. Our status as an independent services provider, not affiliated with any single OEM or airline operator, provides us with diversification and enhances the value proposition that we can offer to customers. These factors are critical drivers of our ability to cultivate decades-long relationships with many of our approximately 5,000 customers globally.

The engine aftermarket solutions we provide are mission-critical to our customers’ flight operations and our OEM partners’ businesses. Furthermore, aerospace engine maintenance is highly specialized and requires significant investment over years to obtain the necessary infrastructure, tooling and skilled engineering expertise. New entrants must obtain extensive approvals and certifications from government regulators and OEMs, who award licenses and authorizations for each engine platform separately. As of June 30, 2024, we operate with OEM licenses and authorizations to perform critical maintenance and overhaul work on over 40 key engine platforms. These licenses and authorizations typically provide us with preferred access to OEM parts and technical information, OEM warranty support and use of the OEM name in marketing and create the foundation for the sharing of closely guarded intellectual property as well as market and customer insights.

As of June 30, 2024, we employed approximately 7,300 people across over 50 facilities around the globe. We believe our scaled, global footprint is well-aligned to the global nature of our OEM partners and aircraft operator customers and positions us well to win business and support growing global demand for our aerospace engine maintenance services.

Table of Contents

The following map details our facilities and highlights the global nature of our business reach and operational footprint:

For the year ended December 31, 2023, we generated revenue of \$4,563.3 million (reflecting a 10.0% increase from \$4,150.5 million for the year ended December 31, 2022), net loss of \$35.1 million (reflecting a 67.1% increase from \$21.0 million for the year ended December 31, 2022) and Adjusted EBITDA of \$561.1 million (reflecting a 18.0% increase from \$475.4 million for the year ended December 31, 2022). For the six months ended June 30, 2024, we generated revenue of \$2,582.9 million (reflecting a 12.0% increase from \$2,306.1 million for the six months ended June 30, 2023), net income of \$8.6 million (from a net loss of \$12.6 million for the six months ended June 30, 2023) and Adjusted EBITDA of \$336.0 million (reflecting a 15.2% increase from \$ 291.7 million for the six months ended June 30, 2023). Our history of net losses is mainly due to our historical substantial indebtedness as a private company, which as of June 30, 2024 totaled \$3,275.7 million. As a result of our substantial indebtedness, a significant amount of our cash flows is required to pay interest and principal on our outstanding indebtedness.

Given the nature of engine maintenance and the structure of certain of our agreements, a significant portion of our costs of sales consists of new OEM materials that are included in the engines we service and are often passed through to end customers at minimal or no mark-up, impacting our reported margins.

Our value creation strategy includes a combination of organic growth initiatives on our existing platforms, pursuit of new platform programs, and investment in value-accretive acquisitions. For our existing business, we focus on developing new capabilities and on ways to continuously improve operational performance to enhance our competitiveness, accelerate growth and increase margins. Over the last five years, we have invested to significantly expand our engine component repair services business, which enjoys higher margins than and is synergistic with our engine services business. We have also invested to expand our capacity and competitiveness on the CFM56 platform, the largest engine platform in the world today, including establishing a new CFM56-dedicated Center of Excellence facility in Dallas, Texas to service the growing demand on that platform.

[Table of Contents](#)

Another significant pillar to our growth is the expansion into new engine platforms that create value for us and for our customers. Since 2016, we have been awarded licenses and authorizations and established capabilities on eight new platforms across our end markets. Most notably, in March 2023 we became the first and only independent aftermarket service provider in North America to join CFM authorized service network for the LEAP-1A and LEAP-1B engines through the award of a long-term CBSA. The LEAP-1A and LEAP-1B engines power the Airbus A320neo family and the Boeing 737MAX series aircraft, respectively, and are expected to become by far the largest engine platform family in the world, accounting for over 35% share of the world's installed base of engines by 2033. We are one of only five total CBSA holders in the world, one of two global independent service providers, and the only independent service provider in the Americas with such a CBSA, which affords us significant competitive benefits and support from CFM, as well as the ability to develop and provide additional component repair on the engines that we service and to external parties. The CBSA has the potential to be the largest award in the Company's history, and we believe it positions us to achieve above-market growth as LEAP engines experience a significant ramp up in demand over the next decade and beyond.

Alongside this organic investment, over the past seven years we have successfully completed 11 strategic acquisitions. Our disciplined approach to evaluating and executing M&A focuses on companies that add strategic engine platforms, new capabilities and intellectual property, and reach into targeted customers and geographies where we have an opportunity to accelerate the growth and financial performance of the combined businesses. We have a proven playbook for integrating new acquisitions and achieving significant synergies, which has enabled us to acquire businesses at attractive valuations on a post-synergy basis. We operate in highly fragmented markets, which has historically provided ample acquisition opportunities to grow and enhance our platform and achieve compounding returns. On August 23, 2024, we completed our most recent acquisition through our purchase of Aero Turbine, a provider of engine component repair and other value-added engine aftermarket services for U.S. and international customers. The acquisition was funded with borrowings under the ABL Credit Facility, which was repaid on September 6, 2024 with incremental borrowings from the 2024 Term Loan B-1 Facility and the 2024 Term Loan B-2 Facility. Aero Turbine adds highly complementary component repair and SAR capabilities on strategic military platforms and generated revenues and net income of \$70.1 million and \$14.3 million, respectively, during the year ended December 31, 2023. We expect to report Aero Turbine within our Component Repair Services segment.

Our Industry

The global aerospace industry, spanning the commercial, military and business aviation sectors, has historically achieved growth in excess of GDP growth driven by secular tailwinds such as globalization, growing middle-class populations and wealth, increasing demand for leisure travel, growth in corporate earnings and technological advancements in aviation that make air travel more accessible.

Given this strong growth trajectory, a robust aerospace aftermarket is critical to support the global aircraft fleet. The aerospace aftermarket accounts for a significant portion of the total aerospace market and is expected to total over \$250 billion in 2024. Within the aftermarket, one of the most crucial and fastest growing sub-segments is engine aftermarket services, which accounts for approximately 45% of the commercial aerospace aftermarket. The engine is one of the most expensive and critical components of an aircraft, requiring service at regular intervals to meet regulatory mandates and sustain required performance. As a result, aftermarket services for the engine require specialized expertise and advanced technology to ensure the reliability and efficiency of aerospace operations.

Engine aftermarket services include routine inspections and scheduled and unscheduled maintenance, repairs and overhauls to keep engines in optimal conditions. OEMs and regulatory bodies, including the FAA, set guidelines and regulatory requirements for engines to be considered airworthy, and engine aftermarket services tend to be highly predictable based on the utilization of an engine and the length of its time in service. Aircraft engines generally have a lifespan of 30 to 40+ years, during which they undergo multiple major maintenance events, referred to as shop visits, providing long and recurring revenue streams for aftermarket providers.

[Table of Contents](#)

The engine services aftermarket has three types of participants: service divisions of engine OEMs, independent service providers and airline captive maintenance divisions. The main engine OEMs include GE Aerospace, CFM International, Pratt & Whitney, Rolls-Royce, Honeywell and Safran. While typically the focus of engine OEMs is to build new engines, produce spare parts for existing engines and develop next-generation platforms, OEMs also have divisions that provide service on their own engine platforms in order to support the installed base and generate technical insight into the performance of their engine models, particularly early in the platform lifecycle. Independent service providers like StandardAero are not affiliated with any one OEM or airline, are able to work on a wide range of engine platforms for many different customers and play a critical role in the ecosystem. Certain independent service providers receive authorizations to support specific engine platforms by the OEMs, who rely on them to build out a strong aftermarket network to support fleet customers. Some large commercial airlines, such as Delta, United and Lufthansa, maintain in-house service divisions that primarily focus on supporting aircraft and engine platforms flown by the affiliated airline. The majority of airlines do not have captive engine maintenance capabilities and depend upon third-party service providers for support.

Engine component repair services is a specialized and critical segment within the broader aerospace engine aftermarket. During the engine overhaul process, engines are disassembled into modules and piece parts that are then inspected. Damaged engine parts are then either replaced with new parts or repaired depending on the condition of the part and whether a repair is possible. Those repairs are either performed by the engine overhaul provider itself or outsourced to a specialized repair provider depending on the complexity of the repair and whether the overhaul provider has the necessary capability, equipment and intellectual property to perform the repair. We believe that demand for component repair services generally will grow in line with the broader engine aftermarket over the long-term. Part repairs often can be delivered more quickly than and at a significant discount to a new replacement engine part, resulting in a reduction in both cost and turnaround time for an engine overhaul and thereby creating value pricing opportunities that represent upside to market growth. The landscape of engine component repair providers is highly fragmented and includes the engine OEMs, airline captive maintenance operations and independent service providers. Often the most sophisticated and technically complex repairs are performed by the OEMs or certain independent service providers, like StandardAero, who are specifically authorized by the OEMs to perform them.

We primarily compete across three end markets within the engine aftermarket industry: commercial, military and helicopter, and business aviation.

Global commercial air traffic grew at a 5.6% CAGR over the last 40 years as well as over the 10 years ending in 2019 (prior to the COVID-19 pandemic), representing approximately twice the rate of global GDP growth over that timeframe. The global air traffic sector has demonstrated strong resiliency over the years, given that from 1978 through 2023 it only declined five times year-over-year and has never declined in consecutive years. The secular growth in air travel demand is expected to continue, driving the number of aircraft in service to increase by a 3.5% CAGR from 2023-2042, supported by record commercial aircraft OEM backlog levels.

Additionally, the average age for the commercial fleet has increased to approximately 12 years in 2023 versus approximately 10 years in the early 2010s, and a slower than expected schedule of OEM deliveries has extended the average life of the existing fleet and increased the associated requirements for maintenance services. Approximately 9,000 shop visits and engine overhauls are anticipated in 2024, as the aviation sector gears up for an era of extended asset lives. Further, much of the maintenance that was deferred during the COVID-19 pandemic is coming due and can no longer be delayed, supporting additional growth in the aftermarket. Engine aftermarket services demand is also expected to increase materially through the remainder of the decade with a wave of upcoming shop visits, which is a function of a large number of engines delivered in the 2010s continuing to age and entering prime maintenance periods. For example, the CFM56 engine platform, which represents the largest engine platform fleet today with over 19,000 engines in-service as of June 2024, of which approximately 45% have yet to have experienced their first heavy shop visit, is expected to see significant growth in scheduled maintenance over the next several years. Additionally, many LEAP-1A/-1B engines, which were first delivered in 2016, have only recently started coming in for their first maintenance events. The LEAP platform is poised to become the largest engine platform globally (expected to comprise approximately 30,000 engines, representing over 35% of global fleet by 2033). As these new engines are introduced into the market, they will enter predictable and recurring maintenance cycles, boosting demand for engine aftermarket services.

In the military and helicopter end market, ongoing geopolitical tensions continue to drive significant defense investment. The global military aviation aftermarket is projected to grow by approximately 2-3% in 2024 with the U.S. accounting for approximately 40% of global military spend. Amid evolving security challenges, aftermarket service providers are critical to ensuring readiness of defense forces globally. Sustainment remains a priority for the U.S. Department of Defense, with mission-readiness rates of military aircraft at record low levels of approximately 55%, as of the most recent study by the U.S. Government Accountability Office. Additionally, the COVID-19 pandemic and uncertain budgetary environments caused delays to the modernization of military aircraft fleets, resulting in a globally aging military aircraft fleet that requires higher levels of maintenance and an influx of aircraft upgrades and life extension programs.

In the business aviation end market, the COVID-19 pandemic accelerated a shift to private aviation, initially triggered by health and safety concerns and limited availability of commercial flights. While demand for private air travel has grown over the past five years (2023 business jet flight operations were 15% higher than 2019), aircraft manufacturing has not kept pace, with the global business jet fleet growing only 7% during that time. As a result, fleet utilization has increased significantly and the market has shifted from private aircraft towards charter and fractional aircraft owned by fleet operators, with fractional and charter flights representing 59% of U.S. business jet flights 2023 (up from 48% in 2010). The surge in activity and overall demand for business aviation has driven strong backlogs and production outlooks at the business jet OEMs, with deliveries estimated

to grow approximately 20% by 2027, which underpins an outlook for sustained long term growth of the fleet. This strong fleet growth is expected to drive a continued increase in demand for business jet engine maintenance services.

Challenges

Our business is subject to a number of risks inherent to the commercial, military and helicopter, and business aviation end markets, including, among others, supply chain delays, which have in recent years impacted the availability of parts and ultimately engine throughput across all of our end markets and can cause significant production and delivery delays to any new or expanded product or engine platforms and affect our ability to provide aftermarket support and services to our customers; decreases in budget, spending or outsourcing by our military end users; and increased costs of labor, equipment, raw materials, freight and utilities due to inflation, which we have experienced in recent years. Any number of these and other factors could impact our business, and there is no guarantee that our historical performance will be predictive of future operational and financial performance. For a description of the challenges we have faced and continue to face and the risks and limitations that may prevent us from achieving our business objectives or that may adversely affect our business, financial condition, results of operations, cash flows and prospects, see “Cautionary Note Regarding Forward-Looking Statements,” “—Summary of Risk Factors,” “Risk Factors” and “Management’s Discussion and Analysis of Financial Condition and Results of Operations—Key Factors and Trends Affecting Our Business” included elsewhere in this prospectus.

Our Competitive Strengths

We believe the following strengths differentiate us from our competitors, enable us to profitably grow our leading positions in each of our end markets and drive our continued success.

Leading Independent Pure-Play Service Provider with Strategic Focus on the Aerospace Engine Aftermarket

Within the broader aerospace market, we are strategically focused on the aerospace engine aftermarket, which we believe is the largest and most attractive vertical of the aerospace aftermarket, characterized by its long tail of predictable and recurring revenue, as well as high technical complexity that affords significant competitive advantages and higher levels of profitability to scaled, capable and reputable providers. We believe that we are the largest independent, pure-play engine aftermarket services provider in the world. We provide critical aftermarket support to many of the most prolific engine platforms for fixed and rotary wing aircraft in the commercial, military and business aviation end markets. Our comprehensive suite of services includes scheduled and unscheduled engine maintenance, repair and overhaul, engine component repair, on-wing and field service support, asset management and engineering solutions. Our primary competitors include in-house service divisions of airlines, engine OEMs and other third-party service providers for whom engine aftermarket services is only a portion of their business, and we believe we are able to utilize our pure-play focus to guide our strategy and resources to best position our business to succeed within our attractive vertical.

Scaled Presence and World-Class Capabilities Built Through Decades of Investment

We believe our leading position in the aerospace industry is underpinned by our exceptional track record of past performance, our scaled global footprint and the extensive procedures and expertise we have developed and implemented over decades to ensure safety and reliability throughout our operations. Performing aerospace engine maintenance requires highly specialized technical expertise and is often supported by deep intellectual property and significant investment of time and resources to secure the necessary infrastructure, tooling and skilled engineering know-how. New entrants must obtain approvals and certifications from OEMs, customers and government regulators and must develop and demonstrate conformity with sophisticated production, quality and materials tracking systems. Additionally, OEM services authorizations are often difficult to obtain and require advanced technological capabilities, experience-based industry knowledge and substantial capital investment, and are typically awarded by OEMs for each engine platform separately. As of June 2024, we operate over 50

facilities with 54 test cells globally, which would require substantial capital investment to replicate. We employ approximately 7,300 highly skilled employees and maintain OEM licenses and authorizations that allow us to service over 40 distinct engine platforms. Furthermore, our extensive engine component repair capabilities allow us to reduce turnaround times and costs for customers, significantly enhancing our value proposition.

Longstanding Customer Relationships with Leading, Entrenched Positions on Critical Engine Platforms

Efficient completion of maintenance and repairs in a comprehensive and timely manner is a significant focus of aircraft operators and OEMs alike. Over our 100+ year history, we have developed multi-decade relationships with hundreds of customers, which include the largest global and regional aircraft operators across the commercial, military and helicopter, and business aviation end markets. We believe these customers choose StandardAero due to our exemplary track record of safety, quality, high reliability, performance and knowledgeable technical support.

We maintain equally strong relationships with and are a trusted partner to every top aerospace engine OEM, including GE Aerospace, CFM International, Pratt & Whitney, Rolls-Royce, Honeywell and Safran, and have obtained long-term OEM licenses and authorizations to provide aftermarket support for all of the engine platforms that we service. These licenses and authorizations provide us access to OEM technical data, technical support and training, and often favorable commercial terms. Once awarded, we believe we have a 100% historical success rate on the OEM licenses and authorizations we sought to retain upon their expiration.

We have leveraged our relationships, track record and scale to build market leading positions on the platforms that we service. We estimate that 80% of our Engine Services sales in 2023 were derived from our work on engine platforms where we hold #1 or #2 positions globally. Additionally, we hold exclusive or semi-exclusive licenses directly with the OEM as the only independent service provider in North America officially authorized to service a number of our platforms, including the Rolls-Royce RB211-535, AE 1107, AE 2100 and AE 3007 and the Honeywell HTF7000, and are the only independent service provider in the Americas to hold an official CBSA license from CFM International on the LEAP-1A and LEAP-1B engines.

Our deep customer relationships, supported by long-term contractual agreements, also underpin the visibility and growth of our business model. For the year ended December 31, 2023, approximately 77% of our revenue was derived from long-term contractual agreements. Of our remaining transactional business, a significant portion stems from repeat customers or single aircraft operators who don't have the scale or sophistication to enter into long-term service agreements with third parties. We believe our highly responsive customer and technical support, quality work, track record of consistent on-time delivery and post-overhaul product reliability have driven exceptional customer retention.

Proven Playbook to Capture and Execute New Platform Opportunities

We have a strong track record of successfully cultivating or acquiring access to new platforms, customers and geographies. Since 2016, we have been awarded OEM licenses and authorizations for eight unique engine programs and have developed approximately 2,500 new component repairs. Once awarded, we have a proven process to complete necessary industrialization and induct engines at what we believe to be industry leading efficiency. In October 2023, we received FAA Operations Specifications approval for our new LEAP engine line, six months after receiving our CBSA license and three months ahead of schedule. In 2021, after receiving a major new platform award for the J85 engine from the USAF, we rapidly stood-up a dedicated team at our San Antonio facility and correlated USAF "Gold" rated J85 test cells within 10 months of our initial contract award. We believe our commercial excellence culture coupled with our predictive analytics model will enable an approximate 25% increase in time on wing for the J85 engine and a significant increase in throughput of engines each month. This proven track record of successful operation and execution provides us significant credibility with OEMs when discussing new platforms. We remain in constant dialogue with every major OEM and continuously evaluate our pipeline for attractive new engine platform industrialization opportunities.

Resilient Business Model Highly Diversified Across Segments of the Aerospace Engine Aftermarket

We are focused on the aerospace engine aftermarket, which is highly resilient and driven by strict OEM and regulatory requirements for the inspection and maintenance of aircraft engines across their well-defined lifecycle phases. The complex and recurring nature of our engine repair work on behalf of our customers precipitates the use of long-term contracts to secure slot availability and pricing terms, which further contributes to the predictable and recurring nature of our revenue.

In addition, our business is well diversified across commercial, military and business aviation markets. We operate with OEM licenses and authorizations that allow us to service over 40 engine platforms, with the largest engine platform accounting for over 10% of our Engine Services revenue in the year ended December 31, 2023. We maintain a strong reputation with all OEMs, longstanding relationships with a large and diverse customer base and leading market positions on most platforms that we service, all of which contribute to the stability of our business model. Our business is further insulated by our flexible cost structure, which allows us to scale up and down our operations to reflect market demand. Our primary expenses are comprised of engine materials (a significant portion of which is pure passthrough with minimal mark-up) and value-added labor, both of which are variable and provide through-the-cycle margin protection. The resiliency of our well-diversified business was on full display during the COVID-19 pandemic.

Ability to Execute and Integrate Acquisitions in a Highly Fragmented Industry

We maintain a rigorous approach to M&A and actively maintain a robust pipeline of actionable opportunities. We expect our disciplined acquisition strategy and integration playbook will continue to be a key driver in growing our revenue by expanding our capabilities, engine platforms and geographic footprint. Complementing our organic growth, we have completed 11 value-enhancing acquisitions since 2017, each expanding our reach through the addition of new engine platforms, customers, capabilities, or geographies. Most recently, on August 23, 2024, we acquired Aero Turbine, a provider of engine component repair and other value-added engine aftermarket services that adds highly complementary component repair and SAR capabilities and expertise on strategic military platforms.

Premier Management Team with a Track Record of Success

Our premier management team, led by Chief Executive Officer & Chairman Russell Ford, has extensive managerial, operational and financial experience. Our leadership team has a proven track record of expanding our portfolio of aeroengine aftermarket programs and capabilities, strengthening our relationships with key OEMs and customers, implementing operational initiatives to drive lower costs for our customers and increasing profitability for our shareholders. We believe our established culture of safety and continuous improvement, our track record of operational success and our clearly defined strategy for organic and inorganic-driven growth position us for significant further earnings growth.

Our Competitive Strategies

Our core strategy is to continue to build on our position as the leading independent, pure-play engine aftermarket services provider for commercial, military and business aircraft with best-in-class component repair capabilities. Our continued success in driving above-market growth across each of these end markets is built upon the following strategies:

Leverage Strategic Investments to Capitalize on Market Tailwinds and Capture Share on High-Growth Platforms

We have invested significantly to expand our capacity and build out our core engine maintenance capabilities. We believe this investment will enable us not only to meet the robust demand growth expected in the aerospace engine aftermarket but also to capture share on the engine platforms that we serve, particularly the

[Table of Contents](#)

CFM56-7B and the LEAP-1A/-1B. The CFM56 is the most prolific engine platform in the world today, with over 19,000 engines in service powering all Boeing 737NG and approximately 60% of Airbus A320ceo family of aircraft. We have invested over \$100 million since 2022 to expand our capabilities and more than double our shop visit capacity on the CFM56-7B engine through a new greenfield CFM56 Center of Excellence in Dallas, Texas. These investments have positioned us to capture significant share on the CFM56 platform as maintenance events visits are expected to significantly ramp into 2025 and beyond. We are currently investing over \$100 million to position ourselves as a leader on the growing LEAP-1A/-1B platform which is expected to overtake the CFM56 as the world's most widely fielded engine platform over the next decade and account for over 35% the global installed base by 2033. We believe we are uniquely positioned to capture outsized share on this high-growth platform as the only independent CBSA license holder in the Americas.

In addition, we have invested over \$500 million since 2017 to scale our Component Repair Services business into one of the largest independent engine component repair businesses worldwide, developing approximately 2,000 new repairs and significantly expanding our capability offering organically and through targeted acquisitions. We plan to continue leveraging our component repair expertise to strengthen the value proposition of our Engine Services business by reducing costs and improving turnaround times while also growing third-party repair sales which are highly accretive to our overall enterprise. We believe we are in the early innings of realizing the growth potential of these recent strategic investments.

Execute on Identified Performance Excellence Initiatives

Continuous improvement is fundamental to our business model and our corporate culture. We frequently review opportunities to deliver our quality repair services at a lower total cost to our customers, improve our shop visit turnaround times and drive increased profitability. We have identified opportunities to advance these goals through increased insourcing of our external repair spend, a systematic and formalized adoption of value-based pricing, increased utilization of USM and other strategic sourcing initiatives. We expect these performance enhancement initiatives and similar actions will continue to drive improved profitability and outcomes for our customers.

Capitalize on OEM Relationships to Win New Engine Programs

We believe there is large and growing demand for the engine aftermarket and engine component repair services we provide. This growth will enable us to leverage our reputation as a trusted partner and independent industry leader to enter into new authorizations with OEMs on future engine programs. We engage regularly in dialogue with OEMs and evaluate each licensing opportunity in a disciplined and differentiated manner. Our approach is focused on ensuring high conviction of generating an attractive return on our investment with a structured new platform introduction process to mitigate execution risk. Since 2016, we have been awarded licenses and authorizations for eight engine programs. We intend to continue to leverage our premier reputation and credibility with OEMs to continue to grow the number of engine platforms that we service, further diversifying our sources of revenue and profitability.

Drive Additional Value Creation Through M&A

M&A is a core tenant of our value creation playbook. We maintain a robust pipeline of M&A opportunities, evaluate dozens of potential acquisitions each year and have completed 11 highly complementary acquisitions since 2017. Through these acquisitions, we have successfully added new platforms, customers, capabilities and intellectual property and have expanded our geographic footprint. We have a systematic integration process that we employ to support our track record of successful integration, seamless onboarding of new facilities, customers and engine programs and realization of significant synergies with our existing business. We believe our markets are highly fragmented with many attractive opportunities for continued acquisitions. We also believe that our market presence, scale and expertise in establishing and executing engine aftermarket services makes us an attractive joint venture partner, particularly in emerging markets which require capital and expertise to capitalize

[Table of Contents](#)

on significant growth opportunities. We intend to continue to pursue growth via M&A, evaluating each opportunity within our existing strategic framework, with focus on long-term equity value appreciation.

OEM Authorizations and Licenses

Establishing and maintaining relationships with OEMs is an important element of our strategy. OEMs grant certain participants in the engine and airframe services market authorizations or licenses to perform repair and overhaul services on the products they manufacture. Aftermarket service providers that have received OEM authorizations and licenses gain a competitive advantage because they typically receive discounts on parts, access to technical information, OEM warranty support and use of the OEM name in marketing. Obtaining OEM authorizations requires sophisticated technological capabilities, experience-based industry knowledge, highly trained technicians and substantial capital investment. Additionally, the OEMs maintain close commercial control of their authorized maintenance networks and in certain cases grant a limited number of authorizations or licenses. We hold exclusive or semi-exclusive licenses directly with the OEM as the only independent service provider in North America officially authorized to service a number of our platforms, including the Rolls-Royce RB211-535, AE 1107, AE 2100 and AE 3007, the Honeywell HTF7000, and the Safran Arriel, and are the only independent service provider in the Americas to hold an official CBSA license from CFM International on the LEAP-1A and LEAP-1B engines.

We currently have OEM authorization and licenses for all of the engine platforms that we service. These contracts typically require us to pay an authorization fee to the relevant OEM and, in some cases, also require us to pay annual authorization fees and royalties or to fulfill other conditions set by the OEM. In the past, our OEM authorizations or licenses have been renewed or extended at their expiration.

Customers

Our deep customer relationships underpin the long-term visibility and growth of our business model. For the year ended December 31, 2023, approximately 77% of our revenue was derived from customers with whom we have long-term agreements. Of our remaining transactional business, a significant portion stems from repeat customers. We believe our highly responsive customer and technical support, quality work, track record of consistent on-time delivery and post-overhaul product reliability have driven exceptional customer retention.

We service approximately 5,000 customers globally, though we have historically derived, and may continue to derive, a significant portion of our revenue from a small number of customers. When all subsidiaries and divisions of a single parent are regarded as a single customer, for the years ended December 31, 2023, 2022 and 2021, our top four OEM customers accounted for approximately 43%, 45% and 49% of our revenue, respectively. See “Risk Factors—Risks Related to Our Business and Industry—A significant portion of our revenue is derived from a small number of customers.”

Aircraft engine OEMs, in addition to providing authorizations and licenses to service the engines they manufacture, are also significant customers as a result of subcontracting maintenance, repair and overhaul services to us for contracts they have with their end customers. We are party to a number of contracts with each of our top customers, with such contracts typically covering specific engine platforms or certain aspects of our relationship with the customer. The contract term with these customers ranges from one to 30 years, but some of these customers have the right to terminate certain contracts without penalty with advance written notice. These contracts generally do not include any minimum purchase requirements, although some provide requirements for minimum share.

The pricing terms under our contracts vary in part depending on the type of contract. Generally, the types of contracts that we enter into are as follows:

- time and material contracts, where we charge our customers a price based on the specific work to be performed;

- fixed price per maintenance or service event contracts, where pre-negotiated fixed prices are charged for specific services; and
- for a small portion of our business, fixed price per engine hour/cycle contracts, where a flat rate based on engine hours/cycles used is charged for any and all service requirements during the term of the contract.

Competitive Environment

The market for the services that we provide is highly competitive, and competition is based on quality, the ability to perform and deliver on-time and price. Our primary competitors include the service divisions of OEMs, other independent aftermarket service providers, in certain cases the in-house maintenance services divisions of the commercial airlines and U.S. and foreign militaries, and engine component repair specialists. Certain characteristics of our primary competitors are as follows:

- **Service divisions of OEMs.** The service divisions of OEMs, including GE, Aerospace, CFM International, Pratt & Whitney, Rolls Royce and Honeywell, traditionally hold sizeable aftermarket service market share on newer platforms in order to support the installed base and generate technical insight into the performance of their engine models, which is particularly important early in the platform lifecycle. Service divisions of OEMs compete on the basis of their affiliations with OEMs, which may give them design authority, brand recognition, strong and long-term customer relationships beginning with the original sale of the engines, which may include a service agreement, the ability to adapt quickly to customer requirements involving technical specification changes, a diverse product and service base, significant financial resources, control over product certification, control over the pricing catalog for approved new parts and control over sources of approved parts.
- **Other independent aftermarket service providers.** Independent service providers like us are not affiliated with any one OEM or airline, are able to work on a wide range of engine platforms for many different customers, and play a critical role in the ecosystem. Most of the independent service providers of aftermarket services that compete with us, including MTU Aero Engines, ST Aerospace, SR Technics, OGMA and Duncan Aviation, also operate under authorizations from OEMs. We also compete with independent service providers that do not have authorization from the OEMs or hold limited approvals or licensing agreements from the OEMs that only allow for the repair of certain engines or components. These competitors may have strong and long-term customer relationships and greater financial resources than we do.
- **In-house airline maintenance service divisions of the commercial airlines.** While recently there has been a trend among commercial airlines to outsource engine aftermarket services, some of the large commercial airlines maintain in-house service divisions, some of which provide services externally to third-party customers. In-house service divisions primarily focus on supporting aircraft and engine platforms flown by their airline affiliates. While we believe our position as an independent service provider provides many advantages, the airline in-house divisions may have several competitive advantages over us, including captive engine fleets, leverage over OEMs, and access to parts discounts via their captive airline, and may have greater financial resources than us.
- **U.S. and foreign militaries.** Although they outsource a significant portion of aircraft and engine maintenance, the U.S. and many foreign militaries operate maintenance depot facilities in order to sustain mission readiness, protect national interests and foster job creation and national capability development.
- **Engine component repair specialists.** The engine component repair market is highly fragmented with many providers and varying levels of scale and breadth of capabilities. Within this market, we face competitors including scaled providers of component repairs such as HEICO, as well as a number of smaller, specialized repair providers that may focus on a limited number of components or platforms. Some of these competitors may have greater financial and other resources than we do.

Sales and Marketing

We market and sell our services to approximately 5,000 customers.

Sales for our aftermarket services are made through a combination of direct marketing, trade shows, sales personnel and a very limited network of agents or independent representatives where we have insufficient opportunity to justify dedicated sales resources. Actual sales methods vary depending on the particular product line, service offering and customer market. The typical industry structure is for quotes to be requested, and each sector has a pricing and bid team that supports sales in vetting prospects, managing pipeline and formally responding to bid opportunities with quotes or program proposals. The company has a formal Contract Tender Acceptance process for large program bids and new platform opportunities.

Human Capital Resources

As of June 30, 2024 we had approximately 7,300 employees worldwide, which is an increase from approximately 7,000 employees as of June 30, 2023. Of our employees, approximately 54% work in the United States, 27% work in Canada, 10% work in the United Kingdom and 9% work in other locations around the world, including France, Ireland, Singapore, Australia, Romania, Ireland, the Netherlands, South Africa, Brazil and Spain. Our workforce is 100% non-unionized and we are not a party to any collective bargaining agreements, with the sole exception of one legacy agreement in Australia from 2011 that has not been renegotiated. Our employees in Ireland, France and the United Kingdom are included under standard works council arrangements and our employees in the Netherlands are included under the statutory government bargaining unit. These represent approximately 10% of our approximately 7,300 employee workforce consisting of approximately 35 in Australia, 110 in France, 560 in the United Kingdom, 96 in Ireland, and 80 in the Netherlands. Our U.S. and Canadian workforces are 100% union free. Furthermore, we believe that our relations with our employees are strong and we have not experienced a material work stoppage or strike.

Suppliers and Supply of Materials

We depend on certain component parts and material suppliers for our aftermarket services operations. Our authorizations and licenses from OEMs often require that we purchase component parts from the OEMs or their designated distributors. For the six months ended June 30, 2024 and the year ended December 31, 2023, our four largest parts suppliers, which consisted of OEMs, accounted for a substantial majority of our total parts purchases. The loss of any of these key suppliers could have a material adverse effect on our business. We have at times experienced delays in receiving component parts and raw materials from our key suppliers, and any significant future delays could have a material adverse effect on our business and results of operations. If we had to develop alternative sources of supply, our ability to supply parts to our customers when needed could be impaired, business could be lost and margins could be reduced. See “Risk Factors—Risks Related to Our Business and Industry—We depend on certain component parts and material suppliers for our engine repair and overhaul operations, and any supply chain disruptions or loss of key suppliers could adversely affect our business, results of operations and financial condition.”

We select our non-OEM suppliers primarily based on their ability to ensure that their parts are serviceable and traceable to OEM-approved sources, their delivery performance and their ability to help us reduce our total cost of procuring those parts. For quality control, cost and efficiency reasons, we generally purchase supplies only from vendors with whom we have ongoing relationships or who our customers have previously approved. We have qualified second sources or have identified alternate sources for many of our parts supply needs.

Research and Development, Patents, Trademarks and Licenses

Our research and development focuses on new and innovative aftermarket technologies for the engines and aircraft that we service and on enhanced life-cycle offerings to our customers including improvements in engine performance and reliability.

With respect to engine component repairs, we have established dedicated repair cells with specialized equipment and highly trained engineers and technicians to achieve these objectives. An important element of this capability is our designation as an approved design organization as authorized by Transport Canada (as a Design Approval Organization) and the Federal Aviation Administration (“FAA”) (via an Organization Designation Authorization Office (“ODA”)) and our designation as an FAA Designated Engineering Representative (“DER”). These approvals, which are recognized by the international regulatory organizations under bilateral agreements, simplify the approvals of our component repairs. We also work closely with engine OEMs on selected component repairs to gain their formal approvals, commercial support and wider market access. The primary objectives of our component repair development are to provide market differentiation by means of lower cost part replacement options and to increase the value-added content of our engine services offerings. Our ability to remanufacture components has also enabled us to minimize the use of subcontractors, which we believe has helped us to enhance our turn times, quality control and revenue.

Our FAA ODA designation also allows us to approve a broad range of engine and aircraft modification projects across our facilities. Our ODA Supplemental Type Certificate (“STC”) allows us to issue an STC against an aircraft model for which a modification has been completed, as a delegate of the FAA Aircraft Certification Office, authorized to perform certain functions on its behalf.

We have also developed a unique application methodology for fleet maintenance cost management. We offer specialized engineering consulting services to accumulate, classify and analyze fleet maintenance and operations data. We have patents approved for a Reliability Centered Maintenance application for engine fleet management.

We seek to protect our intellectual property through patents, trademarks, registrations, licensing and retention of our know-how. Where we do not own the intellectual property for the applications we develop, we may seek to license the technology.

Governmental Regulation of the Aerospace and Defense Industries

The aerospace and defense industries are highly regulated and the aftermarket services that we provide are required to meet stringent standards. These regulations are imposed by governmental and intergovernmental agencies worldwide, such as the FAA and equivalent government agencies in other countries, and by both aircraft and engine manufacturers’ guidelines. All aircraft, engines and associated components are subject to stipulated maintenance, repair, overhaul and replacement criteria based on certain numbers of flight hours and/or takeoffs and landings. Inspection, maintenance and repair procedures for the various types of engines, airframes and components are prescribed by regulatory authorities and can be performed only by certified repair facilities and/or certified technicians.

Agreements between the FAA and equivalent government agencies typically enable aftermarket services to be performed outside the country of aircraft registration. However, changes to the regulatory structure could result in expense and efforts on our behalf to ensure compliance with all regulatory requirements.

We believe that we have all material licenses and certifications that are required in the jurisdictions in which we operate and that we are in material compliance with the governmental regulations affecting the aerospace and defense industries. See “Risk Factors—Risks Related to Government Regulation and Litigation—We will not be able to operate our business if we fail to comply with or obtain and maintain the necessary regulatory approvals” and “Risk Factors—Risks Related to Government Regulation and Litigation—Our operations outside of North America are exposed to various risks, which could adversely affect our business, results of operations and financial condition.”

Environmental Matters

We are subject to various international, federal, state and local statutes, ordinances, rules and regulations concerning the environment, health and safety. These laws and regulations govern, among other things, the

[Table of Contents](#)

generation, storage, treatment, disposal handling, use and transportation of regulated materials, the emission and discharge of such materials into the environment and the health and safety of our employees. Pursuant to such laws, environmental permits are required for some of our operations. From time to time, federal, state or local agencies may review compliance with environmental permits and other requirements and may levy fines and penalties, among other sanctions, for failure to strictly comply with applicable environmental permits or other requirements, modify, refuse to renew or revoke environmental permits, or impose additional requirements for future compliance as a result of past failures. We believe that we are currently in substantial compliance with environmental laws. We incur capital and operating costs relating to environmental compliance on an ongoing basis. While we do not believe that we will be required under existing environmental laws to expend amounts that would have a material adverse effect on our financial condition or results of operations as a whole, environmental requirements could become more stringent, and could be more strictly enforced in the future, which could increase our costs.

Historical contamination is known or suspected to exist at or about certain of our facilities located on land that has been used for industrial purposes or in facilities that contain or have contained hazardous materials in construction or building materials. Under some circumstances, we could be held responsible for cleaning up contamination at or emanating from our facilities, including facilities that we have sold or transferred to other companies, or emanating from waste disposal sites that we use or have used, regardless of whether we know of or were responsible for such contamination. We could also be held liable for any personal injury or property damage resulting from such contamination or, more generally, from any releases of regulated materials resulting from our activities. Although we have not incurred and currently do not anticipate any material liabilities in connection with environmental or occupational safety and health matters, there can be no assurance that future costs relating to these matters will not have a material adverse effect on our financial condition or results of operations as a whole.

We are implementing a global Environmental Management System (“EMS”) to track, manage and coordinate our environmental risk mitigation and continuous improvement opportunities across our global sites and processes. Over the last 20 years, the Company has expanded the number of sites recognized by certification bodies for ISO 14001 Environmental Management Systems and ISO 45001 Health and Safety Management systems to twenty (20) and three (3), respectively, and we work systematically to increase the number of certified locations. See “Risk Factors—Risks Related to Government Regulation and Litigation—We are subject to environmental, health and safety laws and regulations, violations of which could result in substantial costs, liabilities and impacts to our business and operations” and “Risk Factors—Risks Related to Government Regulation and Litigation—Environmental, social and governance (“ESG”) matters may adversely impact our business and reputation.”

She holds a Juris Doctor from The George Washington University and a Bachelor of Arts in history from the University of Michigan. We believe Ms. Newman is qualified to serve on our board of directors because of her decades of experience in the airline industry.

Stefan Weingartner is an Operating Executive of The Carlyle Group, a private equity firm, where he focuses on the aerospace, defense and government sectors. Prior to joining Carlyle in 2015, Dr. Weingartner was President and Chief Executive Officer of MTU Maintenance and a member of the Executive Board of MTU Aero Engines AG. Prior to that role, Dr. Weingartner held various leadership roles with multiple aerospace companies, including MTU Aero Engines GmbH, EADS Japan Co. Ltd. (now Airbus Group) and Daimler Chrysler Aerospace. He currently serves as a member of the strategic advisory board of Forgital Group and previously served as a member of the board of directors of Sequa Corporation from 2015 to 2022. Dr. Weingartner holds a Ph.D. in engineering from Technical University of Munich, a Master of Science in physics from the Technical University of Munich, an M.B.A. from Edinburgh Business School and a Bachelor of Science in physics from the Technical University of Munich. We believe Mr. Weingartner is qualified to serve on our board of directors because of his technical expertise in physics and engineering, as well as his decades of experience in the aerospace industry.

Composition of the Board of Directors Following this Offering

Our business and affairs are managed under the direction of our board of directors. Our board of directors currently consists of two directors. Following the completion of this offering, we expect our board of directors to initially consist of nine directors (including one vacancy).

[Table of Contents](#)

Mr. Ford is the executive chairperson of our board of directors. As Mr. Ford is not an “independent director,” our board of directors expects to appoint Mr. McElhinney to serve as our lead independent director. The lead independent director’s responsibilities will include, but are not limited to: presiding over all meetings of the board of directors at which the chairperson of the board of directors is not present, including any executive sessions of the independent directors; calling meetings or separate sessions of the independent directors; approving meeting schedules for the board of directors and agendas; approving information sent to the board of directors; acting as the liaison between the independent directors and the Chief Executive Officer and chairperson of the board; and when appropriate, meeting or otherwise communicating with our major stockholders or other constituencies. Our corporate governance guidelines, which we will adopt prior to the completion of this offering, will provide the flexibility for our board of directors to modify our leadership structure in the future as it deems appropriate.

Pursuant to the Stockholders Agreement described under “Certain Relationships and Related Party Transactions—Related Party Transactions—Partnership Agreement and Stockholders Agreement,” Carlyle will initially have the right to designate eight of the nine directors on our board of directors. The number of directors that Carlyle is entitled to designate is subject to maintaining certain ownership thresholds. If Carlyle loses its right to designate any directors pursuant to the terms of the Stockholders Agreement, these positions will be filled by our stockholders in accordance with our amended and restated certificate of incorporation. See “Description of Capital Stock” for more information regarding our amended and restated certificate of incorporation.

In accordance with our amended and restated certificate of incorporation that will be in effect upon the closing of this offering, our board of directors will be divided into three classes with staggered three-year terms. At each annual meeting of stockholders after the initial classification, the successors to the directors whose terms will then expire will be elected to serve from the time of election and qualification until the third annual meeting following their election. Our directors will be divided among three classes as follows:

- the Class I directors will be Messrs. Ford and Clare and Ms. Newman, and their terms will expire at the first meeting of stockholders following the completion of this offering;
- the Class II directors will be Messrs. Brandely and Weingartner and Ms. Masiello, and their terms will expire at the second annual meeting of stockholders following the completion of this offering; and
- the Class III directors will be Messrs. Fujiyama and McElhinney, and their terms will expire at the third annual meeting of stockholders following the completion of this offering.

This classification of our board of directors may have the effect of delaying or preventing changes in control of the Company.

Pursuant to the terms of the Stockholders Agreement, directors nominated by Carlyle may only be removed at the request of Carlyle in accordance with the bylaws of the Company then in effect. In all other cases and at any other time, directors may only be removed for cause by the affirmative vote of the holders of at least a majority of our common stock.

Director Independence and Controlled Company Exception

Pursuant to the corporate governance listing standards of the NYSE, a director employed by us cannot be deemed to be an “independent director.” Each other director will qualify as “independent” only if our board of directors affirmatively determines that he has no material relationship with us, either directly or as a partner, stockholder or officer of an organization that has a relationship with us. Ownership of a significant amount of our common stock, by itself, does not constitute a material relationship.

Our board of directors is expected to affirmatively determine that each of our directors other than Mr. Ford qualifies as “independent” in accordance with the NYSE rules. In making its independence determinations,

[Table of Contents](#)

our board of directors is expected to consider and review all information known to it (including information identified through directors' questionnaires).

After the completion of this offering, Carlyle will continue to beneficially own more than 50% of our common stock and voting power. As a result, we will be a "controlled company" within the meaning of the NYSE corporate governance standards. As a "controlled company," we may elect not to comply with certain corporate governance standards, including the requirements:

- that a majority of our board of directors consist of independent directors;
- that our board of directors have a nominating and corporate governance committee that is composed entirely of independent directors with a written charter addressing the committee's purpose and responsibilities;
- that our board of directors have a compensation committee that is composed entirely of independent directors with a written charter addressing the committee's purpose and responsibilities; and
- for an annual performance evaluation of the nominating and corporate governance committee and compensation committee.

Following this offering, we intend to rely on certain of the exemptions listed above, and we will not have a nominating and corporate governance committee or compensation committee that consists entirely of independent directors and such committees may not be subject to annual performance evaluations. We may also elect to rely on additional exemptions for so long as we remain a "controlled company." As a result, in the future our board of directors and those committees may have more directors who do not meet the NYSE's independence standards than they would if those standards were to apply. The independence standards are intended to ensure that directors who meet those standards are free of any conflicting interest that could influence their actions as directors. Accordingly, you will not have the same protections afforded to stockholders of companies that are subject to all of the corporate governance requirements of the NYSE. In the event that we cease to be a "controlled company" and our common stock continues to be listed on the NYSE, we will be required to comply with these provisions within the applicable transition periods.

Background and Experience of Directors

When considering whether directors and nominees have the experience, qualifications, attributes or skills, taken as a whole, to enable our board of directors to satisfy its oversight responsibilities effectively in light of our business and structure, the board of directors focused primarily on each person's background and experience as reflected in the information discussed in each of the directors' individual biographies set forth above. We believe that our directors provide an appropriate mix of experience and skills relevant to the size and nature of our business. Once appointed, directors serve until their term expires, they resign or they are removed by the stockholders.

Committees of the Board of Directors

Upon consummation of this offering, our board of directors will have the following committees: an audit committee, a compensation committee, a nominating and corporate governance committee and an executive committee. From time to time, our board of directors may also establish any other committees that it deems necessary or desirable.

Our chief executive officer and other executive officers will regularly report to the non-executive directors and the audit, the compensation and the nominating and corporate governance committees to ensure effective and efficient oversight of our activities and to assist in proper risk management and the ongoing evaluation of management controls. We believe that the leadership structure of our board of directors provides appropriate risk oversight of our activities given the controlling interests held by Carlyle.

[Table of Contents](#)

Audit Committee. Upon consummation of this offering, we expect to have an audit committee consisting of Mr. Brandely, as chair, and Mr. Clare and Ms. Masiello. Rule 10A-3 of the Exchange Act requires us to have one independent audit committee member upon the listing of our common stock, a majority of independent directors on our audit committee within 90 days of the effective date of the registration statement of which this prospectus forms a part and an audit committee composed entirely of independent directors within one year of the effective date of the registration statement of which this prospectus forms a part.

Our board of directors has determined that each of Messrs. Brandely and Clare qualifies as an “audit committee financial expert” within the meaning of regulations adopted by the SEC. The audit committee appoints and reviews the qualifications and independence of our independent registered public accounting firm, prepares compensation committee reports to be included in proxy statements filed under SEC rules and reviews the scope of audit and non-audit assignments and related fees, the results of the annual audit, accounting principles used in financial reporting, internal auditing procedures, the adequacy of our internal control procedures, the quality and integrity of our financial statements and investigations into matters related to audit functions. The audit committee is also responsible for overseeing risk management on behalf of our board of directors. See “—Risk Oversight.” Our board of directors will adopt a written charter for the audit committee, which will be available on our website upon the completion of this offering.

Compensation Committee. Upon consummation of this offering, we expect to have a compensation committee consisting of Mr. Brandely, as chair, and Messrs. McElhinney and Weingartner. The principal responsibilities of the compensation committee are to review and approve matters involving executive and director compensation, recommend changes in employee benefit programs, authorize equity and other incentive arrangements, prepare compensation committee reports to be included in proxy statements filed under SEC rules and authorize the Company to enter into employment and other employee-related agreements. Our board of directors will adopt a written charter for the compensation committee, which will be available on our website upon the completion of this offering.

Nominating and Corporate Governance Committee. Upon the consummation of this offering, we expect to have a nominating and corporate governance committee consisting of Mr. Fujiyama, as chair, and Mr. Clare and Ms. Newman. The nominating and corporate governance committee assists our board of directors in identifying individuals qualified to become board members, consistent with criteria approved by our board of directors and in accordance with the terms of the , makes recommendations for nominees for committees, oversees the evaluation of the board of directors and management and develops, recommends to the board of directors and reviews our corporate governance principles. Our board of directors will adopt a written charter for the nominating and corporate governance committee, which will be available on our website upon the completion of this offering.

Executive Committee. Upon the consummation of this offering, we expect to have an executive committee consisting of Mr. Ford, as chair, and Messrs. Fujiyama and Brandely. The executive committee is responsible for exercising the powers of our board of directors between regularly scheduled meetings, including acting upon recommendations of other committees of the board of directors. The executive committee is authorized with all the powers of our board of directors except for certain specifically enumerated powers.

Risk Oversight

Our board of directors will have extensive involvement in the oversight of risk management related to us and our business and accomplishes this oversight primarily through the audit committee. To that end, our audit committee will meet quarterly with our Chief Financial Officer and our independent auditors where it will receive regular updates regarding our management’s assessment of risk exposures including liquidity, credit and operational risks and the process in place to monitor such risks and review results of operations, financial reporting and assessments of internal controls over financial reporting.

Code of Business Conduct and Ethics

Prior to the consummation of this offering, we intend to adopt a code of business conduct and ethics applicable to all of our directors, officers (including our principal executive officer, principal financial officer and principal accounting officer) and employees that addresses legal and ethical issues that may be encountered in carrying out their duties and responsibilities, including the requirement to report any conduct they believe to be a violation of the code of business conduct and ethics. Our code of business conduct and ethics will be available on our website at www.standardaero.com under Investor Relations. The information available on or through our website is not part of this prospectus. If we ever were to amend or waive any provision of our code of business conduct and ethics that applies to our principal executive officer, principal financial officer, principal accounting officer or any person performing similar functions, we intend to satisfy our disclosure obligations with respect to any such waiver or amendment by posting such information on our internet website set forth above rather than by filing a Current Report on Form 8-K.

Compensation Committee Interlocks and Insider Participation

None of our executive officers serves, or in the past year has served, as a member of the board of directors or compensation committee (or other committee performing equivalent functions) of any entity that has one or more executive officers serving on our board of directors or compensation committee. No interlocking relationship exists between any member of our compensation committee (or other committee performing equivalent functions) and any executive, member of the board of directors or member of the compensation committee (or other committee performing equivalent functions) and of any other company. We expect to enter into certain indemnification agreements with our directors and we are party to certain transactions with Carlyle, other stockholders and affiliates thereof as described in "Certain Relationships and Related Party Transactions."

COMPENSATION DISCUSSION AND ANALYSIS

General

In this Compensation Discussion and Analysis (“CD&A”), we provide an overview and analysis of the compensation awarded to or earned by our named executive officers identified in the Summary Compensation Table below (each, an “NEO”) during fiscal year 2023, including the elements of our compensation program for NEOs, material compensation decisions made under that program for fiscal year 2023 and the material factors considered in making those decisions. Where relevant, the discussion below also reflects certain contemplated changes to our compensation structure that we intend to implement in connection with, and contingent upon, the completion of this offering. This discussion may contain forward-looking statements that are based on our current plans, considerations, expectations and determinations regarding future compensation programs. Actual compensation programs that we adopt following the completion of this offering may differ materially from the currently planned programs summarized in this discussion.

Our NEOs for the year ended December 31, 2023, which consist of our principal executive officer, each individual who served as our principal financial officer during 2023, and our three most other highly compensated executive officers for fiscal year 2023, are:

- Russell Ford, Chief Executive Officer;
- Daniel Satterfield, Chief Financial Officer;
- Michael Scott, our former Chief Financial Officer, who retired on January 9, 2023;
- Kim Ashmun, President, Component Repair Services;
- Kerry O’Sullivan, Chief Operating Officer & Senior Vice President, Engineering & Quality; and
- Lewis Prebble, President, Engine Services–Airlines & Fleets.

Executive Compensation Objectives and Philosophy

The key objective in our executive compensation program has been to attract, motivate, and reward leaders who create an inclusive and diverse environment and have the skills and experience necessary to successfully execute on our strategic plan to maximize stockholder value. Our executive compensation program has been designed to:

- Attract and retain talented and experienced executives in a competitive and dynamic market;
- Motivate our NEOs to help our company achieve the best possible financial and operational results;
- Provide reward opportunities consistent with our performance on both a short-term and long-term basis; and
- Align the long-term interests of our NEOs with those of our stockholders.

We strive to set our overall total compensation at a competitive level. Executives may be compensated above or below the targeted market position based on factors such as experience, performance, scope of position and the competitive demand for proven executive talent, as described further below under “—Determination of Executive Compensation.”

In connection with this offering, we are working with Korn Ferry, our compensation consultant, to formalize our post-offering compensation philosophy and implement compensation arrangements that reflect that philosophy. We expect our compensation philosophy to reflect the following general principles:

- Reward performance; attract and retain the right talent;

[Table of Contents](#)

- Align reward to our business objectives and long-term growth; and
- Position the interests of executives with that of shareholders.

Determination of Executive Compensation

Our executive compensation program is administered by the compensation committee, which performs its work in consultation with the board. The compensation of the named executive officers is approved annually by the compensation committee, in consultation with the board. Our Chief Executive Officer typically provides annual recommendations to the compensation committee and discusses with the compensation committee the compensation and performance of our executive officers, other than himself. Our Chief Executive Officer bases his recommendations upon his review (formed both subjectively, and objectively against individually developed goals) of the performance of the executive officers, our overall performance against its applicable corporate goals (as described further below) and his assessment of the officer's contributions to such performance, internal pay equity considerations, his assessment of the competitiveness of the market for each officer's services and an annual self-evaluation performed by each named executive officer. The compensation committee evaluates any recommended compensation adjustments or awards to executive officers and ultimately determines executive compensation. In order to determine the Chief Executive Officer's compensation, the compensation committee reviews the performance of the Chief Executive Officer and determines his compensation without his participation.

As part of our Chief Executive Officer's recommendations to the compensation committee, Mr. Ford took into account advice and data provided by Korn Ferry, which included an analysis of market data (based on public filings) for executive compensation for the companies set forth on Appendix I to this CD&A (the "Reference Group"). Mr. Ford reviewed our NEO compensation against this Reference Group to consider whether our NEO compensation is competitive and sufficient to recruit and retain our NEOs. A large Reference Group was used in order to represent a broad cross-section of companies in engineering-heavy industries, and reflected the types of companies with whom we compete for talent. However, Mr. Ford's took into account business performance, individual performance and market data from Korn Ferry, along with internal equity, in making recommendations.

Elements of Compensation

For fiscal year 2023, the primary elements of our NEOs' compensation and the main objectives of each element were:

- *Base Salary.* Base salary attracts and retains talented executives, recognizes individual roles and responsibilities, and provides stable income;
- *Annual Performance-Based Incentive Compensation.* Annual performance bonuses promote short-term performance objectives and reward executives for their contributions toward achieving those objectives;
- *Equity-Based Compensation.* Equity-based compensation creates an ownership culture among our employees that provides an incentive to contribute to the continued growth and development of our business and aligns interest of executives with those of our stockholders.

We do not currently have, and following the offering we do not expect to have, formal policies relating to the allocation of total compensation among the various elements of our compensation program.

In addition, our NEOs are eligible to participate in our health and welfare programs and in defined contribution retirement plans on the same basis as our other employees. We also maintain severance arrangements, which aid in attracting and retaining executive talent and help executives to remain focused and dedicated.

[Table of Contents](#)

Each of these elements of compensation for 2023 is described further below.

Base Salary

The base salaries of our NEOs are an important part of their total compensation package and are intended to reflect their respective positions, duties and responsibilities. Base salary is a visible and stable fixed component of our compensation program. Base salaries provide our NEOs with a reasonable degree of financial certainty and stability. On a prospective basis, we intend to continue to evaluate the mix of base salary, short-term incentive compensation and long-term incentive compensation to appropriately align the interests of our NEOs with those of our stockholders.

Annually, the compensation committee reviews the base salaries of our executive officers and may, based upon and following receipt of the recommendations of the Chief Executive Officer (other than with respect to their own respective base salaries) and in consultation with the board, adopt certain market-based adjustments to take effect for the remainder of that year.

Based upon these considerations, the compensation committee determined at its early 2023 and early 2024 meetings to increase the annual base salaries of certain named executive officers for 2023 and 2024 as set forth below (in each case, effective as of April 1 of the applicable year). In determining not to increase Mr. Ford's annual base salary in 2023, the compensation committee took into account that his current base salary level was negotiated in 2019 and, at that time, it was contemplated that his base salary rate would not be increased for at least five years. Additionally, because Mr. Satterfield and Ms. Ashmun were recent hires, they did not receive an increase to their annual base salaries in 2023.

The table below sets forth the annual base salaries during 2023 and 2024 for each named executive officer following such determinations.

<u>Name</u>	<u>2023 Annual Base Salary (Pre-Increase) (\$)</u>	<u>2023 Annual Base Salary (Post-Increase) (\$)</u>	<u>2024 Annual Base Salary (Post-Increase) (\$)</u>
Russell Ford	870,000	870,000	960,000
Daniel Satterfield	500,000	500,000	525,000
Michael Scott (1)	530,000	564,000	—
Kim Ashmun	400,000	400,000	420,000
Kerry O'Sullivan	430,000	450,000	450,000
Lewis Prebble	375,000	400,000	425,000

(1) Mr. Scott retired, effective as of January 9, 2023. Amounts for Mr. Scott are shown in Canadian dollars.

Cash Incentive Compensation

We consider annual cash incentive bonuses to be an important component of our total compensation program which provide incentives necessary to retain executive officers. We maintain an Annual Incentive Plan (the “AIP”) pursuant to which each NEO is eligible to receive an annual performance-based cash bonus based on a specified target annual bonus award amount, expressed as a percentage of the NEO’s base salary. In fiscal 2023, our NEOs participated in our annual cash incentive bonus program at the following target percentages of base salary:

Name	Target Percentage (as % of Annual Base Salary)
Russell Ford	125%
Daniel Satterfield	80%
Michael Scott	80%
Kim Ashmun	75%
Kerry O’Sullivan	80%
Lewis Prebble	75%

For 2023, the performance metrics consisted of revenue (10% weighting), Management EBITDA (50% weighting) and operating cash flow (40% weighting). For 2023, our performance results, and the percentage of target bonus earned as a result, were as follows: we achieved \$4,552.1 million of revenue, which was 96.3% of target, \$550 million of Management EBITDA, which was 106.1% of target, and \$382.6 million of operating cash flow, which was 127.3% of target.

“Management EBITDA” is a non-GAAP financial measure that is calculated as (i) Consolidated EBITDA (the calculation of which is described in the section titled “Management’s Discussion and Analysis of Financial Condition and Results of Operations”), less (ii) the amount associated with new contracts, pro forma acquisitions and pro forma acquisition synergies.

The NEOs’ 2023 performance bonuses are set forth in the column entitled “Non-Equity Incentive Plan Compensation” in the “2023 Summary Compensation Table” below. Mr. Scott retired, effective as of January 9, 2023, and consequently did not receive a 2023 performance bonus.

In addition, based on the determination of our Chief Executive Officer, we provided spot bonuses in 2023 to reward performance on particular projects. For 2023, Mr. Satterfield received a spot cash bonus of \$25,000 in recognition of Mr. Satterfield’s significant efforts in preparing our financial statements, Mr. Prebble received a spot cash bonus of \$25,000 in recognition of his efforts in helping us successfully sign certain commercial contracts, Mr. Scott received a spot cash bonus of \$7,941 (expressed in U.S. dollars) in recognition of his tenure with us prior to his retirement and Mr. O’Sullivan received a spot cash bonus of \$20,000 in recognition of his efforts to improve operational performance at our Winnipeg site.

Equity-Based Compensation

We view equity-based compensation as a critical component of our balanced total compensation program. Equity-based compensation creates an ownership culture among our employees that provides an incentive to contribute to the continued growth and development of our business and aligns interest of executives with those of our stockholders. We have historically granted Class B Units in Dynasty Parent Holdings, L.P. (the “Partnership”) and options (“Options”) to purchase our shares of common stock. The Class B Units and Option grants were generally sized to incentivize employees for a number of years following the date of grant.

The Class B Units are intended to constitute “profits interests” for U.S. federal income tax purposes that are intended to allow the holders participate in the increase in value of the Partnership from and after the date of

[Table of Contents](#)

grant of such interests based on the Partnership's ownership of the Company. The Class B Units were granted with a "benchmark amount," which acts similarly to a strike price for a stock option such that the holder will only realize value in excess of such amount.

Class B Units are generally comprised of (i) a time-based component that vests upon a "Liquidity Event" (which does not include the offering), subject generally to continued service through the applicable vesting date and (ii) a performance-based component (the "Performance Units") that vests upon a Liquidity Event (subject generally to continued service) to the extent that certain performance-based objectives (based generally on Management EBITDA and cash flow, or multiple-of-invested capital return hurdles) are attained at the time of the Liquidity Event. The Performance Units are divided into five equal tranches that are each eligible to vest (i) as to 50%, if the Management EBITDA for the applicable year equals or exceeds the applicable Management EBITDA target for such year and (ii) as to 50%, if the cash flow for the applicable year equals or exceeds the applicable cash flow target for such year. The Performance Units also include a "catch-up" vesting feature that can result in an unearned tranche becoming earned in a future year if cumulative performance measured in a subsequent year is exemplary, subject to continued service through a Liquidity Event. Additionally, all outstanding Performance Units that are unearned are eligible to vest if, as of the date of the Liquidity Event, our board or compensation committee determines that a multiple-on-invested-capital return target of 2.5 has been attained, subject to continued service. In connection with the Restructuring Transactions, holders of the Class B Units will receive shares of our common stock on a "value-for-value" basis (taking into account any benchmark amount), and the shares will be subject to the same vesting and other terms and conditions applicable to the Class B Units under the existing award agreements.

A "Liquidity Event" is generally defined to mean either (i) a sale for cash of the equity securities of the Partnership or its successor held, directly or indirectly, by all of the Partnership's Principal Equityholders (which consist of Vencap Holdings (1992) Pte Ltd., Carlyle Partners VII and each of their affiliates to which equity securities are transferred) such that, immediately following such transaction, the total percentage capital interest of the equity securities in the Partnership or its successor held by the Principal Equityholders and their affiliates is, in the aggregate, less than 30% of the total percentage capital interests of the equity securities in the Partnership held as of April 4, 2019 (which was the original investment date of the Principal Securityholders in the Partnership) or (ii) the sale of all or substantially all of the assets of the Partnership or the Partnership and its subsidiaries taken as a whole to a third party.

In 2023, we granted 8,000 Class B Units to Daniel Satterfield and 454 Class B Units to Kim Ashmun. Additionally, in 2019, Mr. Scott, a Canada-based executive, received Options rather than Class B Units, which provide for an opportunity for the holder to participate in the increase in value of the Company from and after the date of grant of such Options (similar to the Class B Units). The Options were granted with vesting conditions that are similar to the Class B Units and consist of a time-based and performance-based component. Mr. Scott forfeited his Options in 2023 following his retirement from us.

We intend to adopt the 2024 Plan in order to facilitate the grant of cash and equity incentives to directors, employees (including our NEOs) and consultants of our company and certain of its affiliates and to enable our company and certain of its affiliates to obtain and retain services of these individuals, which is essential to our long-term success. We expect that the 2024 Plan will be effective on the day prior to the first public trading date of our common stock. For additional information about the 2024 Plan, please see the section titled "—Incentive Compensation Plans" below.

Employee Benefits and Perquisites

We maintain a defined contribution retirement savings plan for our employees, including our NEOs, who satisfy certain eligibility requirements. Our U.S.-based NEOs are eligible to participate in the 401(k) plan on the same terms as other full-time employees. The Code allows eligible employees to defer a portion of their compensation, within prescribed limits, on a pre-tax basis through contributions to the 401(k) plan. Currently, we

match contributions made by participants in the 401(k) plan up to a specified percentage of the employee contributions. Mr. Scott participated in a similar defined contribution retirement plan for Canada-based employees under which we made matching contributions. We believe that providing a vehicle for tax-deferred retirement savings through these plans, and making matching contributions, adds to the overall desirability of our executive compensation package and further incentivizes our employees, including our NEOs, in accordance with our compensation policies.

All of our full-time U.S.-based employees, including our NEOs, are eligible to participate in our health and welfare plans, including medical, dental and vision benefits, medical and dependent care flexible spending accounts, short-term and long-term disability insurance, and life insurance. We also maintain health and welfare plans in which our eligible Canadian employees participate. We believe the benefits described above are necessary and appropriate to provide a competitive compensation package to our NEOs. We also provide a limited number of other benefits to our employees, including a car allowance, wellness program premium credit, and, for Mr. Ford only, supplemental life insurance and reimbursement for one country club initiation fee (together with a tax gross-up) that he is entitled to receive under his employment agreement. None of our other NEOs is entitled to any tax gross-up payment. In considering the appropriateness of these benefits, we have evaluated whether each such benefit is appropriate to assist an individual executive officer in the performance of the executive's duties, to make our executive officers more efficient and effective, and for recruitment, motivation, or retention purposes. All future practices with respect to perquisites or other personal benefits will be approved by the compensation committee.

Severance and Change in Control Arrangements

We are party to employment and offer letter agreements with each of our NEOs who are currently employed, which provide for severance benefits and payments upon certain terminations without cause or resignations for good reason. Our compensation committee believes that these types of arrangements are necessary to attract and retain executive talent and are a customary component of executive compensation. In particular, such arrangements can mitigate a potential disincentive for our NEOs when they are evaluating a potential acquisition of the Company and can encourage retention through the conclusion of the transaction. The payments and benefits provided under our severance and change in control arrangements are designed to be competitive with market practices. A description of these arrangements, as well as information on the estimated payments and benefits that our NEOs would have been eligible to receive as of December 31, 2023, are set forth in “—Executive Compensation Tables—Potential Payments Upon Termination or Change in Control” below.

Other Policies and Considerations

Section 409A. The board and compensation committee takes into account whether components of the compensation for our executive officers will be adversely impacted by the penalty tax imposed by Section 409A of the Code, and aims to structure these components to be compliant with or exempt from Section 409A to avoid such potential adverse tax consequences.

Section 162(m). Section 162(m) of the Code disallows a tax deduction to public companies for compensation in excess of \$1 million paid to “covered employees”, which generally includes all NEOs. While the board and compensation committee may take the deductibility of compensation into account when making compensation decisions, the board and compensation committee will award compensation that it determines to be consistent with the goals of our executive compensation program even if such compensation is not deductible by us.

Clawback Policy. In connection with this offering, we will adopt a compensation recovery policy as required by Rule 10D-1 under the Securities Exchange Act of 1934, as amended, and the applicable listing standards. This policy will provide for the mandatory recovery (subject to limited exceptions) from current and former officers of incentive-based compensation that was erroneously received during the three years preceding

[Table of Contents](#)

the date that we are required to prepare an accounting restatement. The amount required to be recovered will be the excess of the amount of incentive-based compensation received over the amount that otherwise would have been received had it been determined based on the restated financial measure.

Stock Ownership Guidelines. We intend to adopt stock ownership guidelines for our executive officers in connection with this offering.

“Golden Parachute” Payments. Sections 280G and 4999 of the Code provide that certain executive officers and other service providers who are highly compensated or hold significant equity interests may be subject to an excise tax if they receive payments or benefits in connection with a change in control of the Company that exceeds certain prescribed limits, and that we, or a successor, may forfeit a tax deduction on the amounts subject to this additional tax. While the board and compensation committee may take the potential forfeiture of such tax deduction into account when making compensation decisions, it will award compensation that it determines to be consistent with the goals of our executive compensation program even if such compensation is not deductible by us. We do not provide any tax gross-ups to cover excise taxes under Section 4999 in connection with a change in control.

Accounting for Share-Based Compensation. We follow Financial Accounting Standard Board Accounting Standards Codification Topic 718, (“ASC Topic 718”), for our share-based compensation awards. ASC Topic 718 requires companies to measure the compensation expense for all share-based payment awards made to employees and directors, including stock options, based on the grant date “fair value” of these awards. This calculation is performed for accounting purposes and reported in the compensation tables below, even though our NEOs may never realize any value from their awards.

Executive Compensation Tables

2023 Summary Compensation Table

- (1) Amounts reflect the grant-date fair value of Class B Units granted during fiscal 2023 computed in accordance with ASC Topic 718, rather than the amounts paid to or realized by the named individual. The Class B Units awards are most similar to option awards in that they share in equity value appreciation from and after the date of grant. The amount shown herein reflects the vesting at maximum levels of each award of Class B Units that are subject to performance-based vesting conditions. We provide information regarding the assumptions used to calculate the value of all Class B Unit awards made to our NEOs in 2023 in Note 18 to the audited consolidated financial statements included elsewhere in this prospectus.

Grants of Plan-Based Awards in Fiscal 2023

The following table provides supplemental information relating to grants of plan-based awards made during fiscal 2023 to help explain information provided above in our Summary Compensation Table. This table presents information regarding all grants of plan-based awards occurring during fiscal 2023.

Name	Grant Date	Estimated Future Payouts Under Non-Equity Incentive Plan Awards ⁽¹⁾			Estimated Future Payouts Under Equity Incentive Plan Awards ⁽²⁾			All Other Awards: Number of Securities Underlying Options ^(#)	Exercise or Base Price of Awards (\$/Sh) ⁽³⁾	Grant Date Fair Value of Stock and Option Awards (\$) ⁽⁴⁾
		Threshold (\$)	Target (\$)	Maximum (\$)	Threshold (#)	Target (#)	Maximum (#)			
Russell Ford	—	543,750	1,087,500	1,631,250						
Daniel Satterfield	—	200,000	400,000	800,000						
	3/27/2023				400	800	4,000	4,000	—	2,033,360
Michael Scott	—	170,305	340,611	681,222						
Kim Ashmun	—	150,000	300,000	600,000						
	8/3/2023				22.7	45.4	227	227	—	115,393
Kerry O’Sullivan	—	180,000	360,000	720,000						
Lewis Prebble	—	150,000	300,000	600,000						

- (1) Amounts reflect potential payouts under our 2023 AIP. Please see the description of the annual bonus program under “—Cash Incentive Compensation” in the CD&A above and in the section below entitled “—Potential Payments Upon Termination or Change in Control.” Amounts shown for Mr. Scott have been converted from Canadian dollars to U.S. dollars based on the exchange rate (0.7549 Canadian dollars to 1 U.S. dollar) as of December 31, 2023. However, due to his retirement in 2023, Mr. Scott did not receive an annual bonus under our 2023 AIP.
- (2) The Performance Units are eligible to vest upon a Liquidity Event (subject to continued service) to the extent that certain performance metrics are achieved. The Performance Units are divided into five equal tranches that are each eligible to vest (i) as to 50%, if the Management EBITDA for the applicable year equals or exceeds the applicable Management EBITDA target for such year and (ii) as to 50%, if the cash flow for the applicable year equals or exceeds the applicable cash flow target for such year. The Performance Units also include a “catch-up” vesting feature that can result in vesting of an unearned tranche if cumulative performance measured in a subsequent year is exemplary. Furthermore, all outstanding Performance Units that are unearned are eligible to vest if, as of the date of the Liquidity Event, our board or compensation committee determines that a multiple-on-invested-capital return target of 2.5 has been attained. Amount shown in the “threshold” column represents the minimum number of Performance Units that may vest based on performance, and the amount shown in the “maximum” column represents the maximum number of Performance Units that may vest based on performance. The awards of Class B Units do not specify a target level of performance, so amounts shown reflect a representative amount based on performance against the Management EBITDA and cash flow metrics during 2023 (which were attained).
- (3) The Class B Units were issued as “profits interests” for U.S. federal income tax purposes and do not require the payment of an exercise price and do not have an expiration date. Rather, these awards entitle the holder to participate in our future appreciation from and after the date of grant of the applicable Class B Units. Despite this, for purposes of this table, we believe they are most similar economically to stock options. Each Class B Unit is granted with a benchmark amount applicable to such Class B Unit, representing the cumulative distributions that must be made under the Partnership’s limited partnership agreement to the capital interests and previously-issued Class B Units thereunder before the holder is entitled to receive any distributions or payments in respect of such Class B Unit.
- (4) Amounts reflect the grant-date fair value in accordance with ASC Topic 718. We provide information regarding the assumptions used to calculate these values in Note 18 to the audited consolidated financial statements included in this prospectus.

- (2) The portion of the award of Class B Units shown in this column is eligible to vest immediately prior to the date of a Liquidity Event (including the portion of the Class B Units that were subject to performance conditions that were satisfied as of December 31, 2023), subject to the holder’s continuous service through the date of the Liquidity Event.
- (3) The portion of the award of Class B Units shown in this column is eligible to vest immediately prior to the date of a Liquidity Event (subject to the holder’s continuous service through the date of the Liquidity Event) to the extent that certain annual Management EBITDA and cash flow targets are attained, provided that any Class B Units that fail to vest due to the failure to attain such targets shall remain eligible to vest upon the Liquidity Event if the board determines that a multiple-of-invested-capital return of 2.5x has been attained as of the date of such Liquidity Event.

Potential Payments Upon Termination or Change in Control

Each of our current named executive officers has entered into an offer letter or employment agreement, the material terms of which are described below.

Russell Ford

We have entered into an employment agreement (as amended, the “Ford Employment Agreement”) pursuant to which Mr. Ford serves as our chief executive officer. The Ford Employment Agreement entitles him to an annual target bonus opportunity of 125% of his annual base salary (and, in practice, the compensation committee uses 150% of his target bonus as his maximum bonus opportunity). Additionally, Mr. Ford is entitled to business travel benefits, an automobile allowance of \$3,000 per month, reimbursement for a one-time initiation fee for a country club membership (not to exceed \$125,000) and a tax gross-up payment on the initiation fee reimbursement.

If Mr. Ford is terminated by us without “cause” (as defined in the Ford Employment Agreement), then, subject to his continued compliance with restrictive covenants to which he is subject and his timely execution and non-revocation of a release of claims in our favor, he is entitled to receive severance payments and benefits consisting of (i) 18 months of base salary continuation; (ii) a pro rata portion of the bonus he would have earned

[Table of Contents](#)

for the year of termination (based on performance for such year); and (iii) 18 months of continued medical, dental, disability and group term life insurance plan coverage as if he was an active, full-time employee.

The Ford Employment Agreement also contains non-competition and non-solicitation restrictions that last for 24 months post-termination, as well as confidentiality restrictions, provisions related to intellectual property protection and non-disparagement restrictions.

Daniel Satterfield, Kim Ashmun, Kerry O’Sullivan and Lewis Prebble

We have entered into offer letter agreements with Mr. Satterfield, Ms. Ashmun, Mr. O’Sullivan and Mr. Prebble governing their employment with us (the “Executive Offer Letters”). In addition to providing for an annual target bonus opportunity, each of the Executive Offer Letters provides for an automobile allowance of \$24,000 per year. Additionally, the Executive Offer Letter entered into with Mr. Satterfield also provides for an award of Class B Units (which was granted to him in 2023) and a one-time signing bonus of \$165,000, which was paid in 2023 in connection with the commencement of his employment with us and which was subject to repayment if he left our employment within the first year following his start date.

In the event Mr. Satterfield, Ms. Ashmun, Mr. O’Sullivan or Mr. Prebble is terminated by us without “cause” (as defined in the applicable Executive Offer Letter), they are entitled to receive severance payments consisting of 6 months of base salary for Mr. Satterfield, Ms. Ashmun and Mr. Prebble, and 12 months of base salary for Mr. O’Sullivan. In addition, Mr. Satterfield, Ms. Ashmun and Mr. Prebble has agreed to refrain from competing with us for 12 months post-termination and from soliciting our customers or employees for 24 months post-termination, and has also agreed to confidentiality restrictions, provisions related to intellectual property protection and non-disparagement restrictions. Mr. O’Sullivan has agreed to refrain from competing with us for 24 months post-termination (or, if later, the date that he no longer holds any Class B Units or other equity interests in the Partnership) and from soliciting our customers or employees for 24 months post-termination (or, if later, the date that he no longer holds any Class B Units or other equity interests in the Partnership), and has also agreed to confidentiality restrictions, provisions related to intellectual property protection and non-disparagement restrictions.

Estimated Potential Payments

The following table summarizes the payments that would be made to our NEOs upon the occurrence of certain qualifying terminations of employment occurring on December 31, 2023. Amounts shown do not include (i) accrued but unpaid base salary through the date of termination or (ii) other benefits earned or accrued by the NEO during his or her employment that are available to all salaried employees, such as accrued vacation. As noted above, a change in control transaction would not result in the acceleration of outstanding equity awards unless it also constituted a Liquidity Event, and would not otherwise result in payments to our NEOs.

<u>Name</u>	<u>Benefit</u>	<u>Termination Without Cause (\$)</u>
Russell Ford	Cash Severance	1,305,000

Michael Scott retired from our employment, effective January 9, 2023 and is consequently not included in the table above. Upon his retirement, Mr. Scott received his accrued base salary and did not receive any severance payments or benefits, though he received his accrued but unpaid base salary as well as a payment in respect of his unused vacation balance.

2023 Director Compensation

Each of our non-employee directors received an annual cash retainer of \$150,000 for their service as a director, other than Messrs. Brandely, Clare and Fujiyama. The following table contains information concerning the compensation of our non-employee directors in fiscal year 2023.

<u>Name</u>	<u>Fees Earned or Paid in Cash (\$)</u>	<u>Total (\$)</u>

David L. Squier ⁽¹⁾	150,000	150,000
Stefan Weingartner	150,000	150,000

- (1) Ms. Newman and Messrs. McElhinney and Squier elected to receive their annual fees in the form of Class A-2 Units in the Partnership with a grant date value equal to their annual retainer (based on the fair market value of a Class A-2 Unit on the date of grant), which vested in equal quarterly installments during 2023, subject to their continued service on the board. As of December 31, 2023, these Class A-2 Units were fully vested.

The table below shows the aggregate numbers of option awards (exercisable and unexercisable) and unvested stock awards held as of December 31, 2023 by each non-employee director. As of December 31, 2023, Ms. Masiello, Ms. Newman and Messrs. McElhinney and Squier held Class B Units, which, as noted above, we believe to be most similar economically to stock options. These Class B Units are therefore included below under the column entitled “Option Awards Outstanding at 2023 Fiscal Year End.”

Effective upon this offering, we intend to approve and implement a compensation program for our non-employee directors that consists of annual retainer fees and long-term equity awards. The material terms of this program will be described in this prospectus once they are finalized.

Incentive Compensation Plans

The following summarizes the material terms of the 2024 Plan and the ESPP, which will be the long-term incentive compensation plans in which our directors and NEOs will be eligible to participate following the consummation of this offering, subject to the terms and conditions of such plans, and the Dynasty Parent Holdings, L.P. and StandardAero, Inc. 2019 Long-Term Incentive Plan (the “Prior Plan”), under which we have previously made periodic grants of equity and equity-based awards to our directors and NEOs.

2024 Incentive Award Plan

In connection with this offering, we intend to adopt the 2024 Plan, subject to approval by our stockholders, under which we may grant cash and equity incentive awards to eligible service providers in order to attract, motivate and retain the talent for which we compete. The material terms of the 2024 Plan, as it is currently contemplated, are summarized below. Our board of directors is still in the process of developing, approving and implementing the 2024 Plan and, accordingly, this summary is subject to change.

Eligibility and Administration. Our employees, consultants and directors, and employees, directors and consultants of our subsidiaries will be eligible to receive awards under the 2024 Plan. The 2024 Plan will be administered by our board of directors with respect to awards to non-employee directors and by our compensation committee with respect to other participants, each of which may delegate its duties and responsibilities to committees of our directors and/or officers (referred to collectively as the plan administrator below), subject to certain limitations that may be imposed under Section 16 of the Securities Exchange Act of 1934, as amended, or the Exchange Act, and/or stock exchange rules or other laws, as applicable. The plan administrator will have the authority to make all determinations and interpretations under, prescribe all forms for use with, and adopt rules for the administration of, the 2024 Plan, subject to its express terms and conditions. The plan administrator will also set the terms and conditions of all awards under the 2024 Plan, including any vesting and vesting acceleration conditions.

Limitation on Awards and Shares Available. An aggregate of _____ shares of our common stock will initially be available for issuance under the 2024 Plan. No more than _____ shares of common stock may be issued upon the exercise of incentive stock options. Shares issued under the 2024 Plan may be authorized but unissued shares, shares purchased in the open market or treasury shares.

If an award under the 2024 Plan or Prior Plan is forfeited, expires or is settled for cash, any shares subject to such award may, to the extent of such forfeiture, expiration or cash settlement, be used again for new grants under the 2024 Plan. Awards granted under the 2024 Plan upon the assumption of, or in substitution for, awards authorized or outstanding under a qualifying equity plan maintained by an entity with which we enter into a merger or similar corporate transaction will not reduce the shares available for grant under the 2024 Plan.

Awards. The 2024 Plan provides for the grant of stock options, including ISOs, and nonqualified stock options, or NSOs, stock appreciation rights, or SARs, restricted stock, dividend equivalents, restricted stock units, or RSUs, and other stock or cash based awards. Certain awards under the 2024 Plan may constitute or provide for payment of “nonqualified deferred compensation” under Section 409A of the Code. All awards under the 2024 Plan will be set forth in award agreements, which will detail the terms and conditions of awards, including any applicable vesting and payment terms and post-termination exercise limitations. A brief description of each award type follows.

- *Stock Options and SARs.* Stock options provide for the purchase of shares of our common stock in the future. ISOs, by contrast to NSOs, may provide tax deferral beyond exercise and favorable capital gains tax treatment to their holders if certain holding period and other requirements of the Code are satisfied. SARs entitle their holder, upon exercise, to receive from us an amount equal to the appreciation of the shares subject to the award between the grant date and the exercise date. The plan administrator will determine the number of shares covered by each option and SAR, the exercise price of each option and SAR and the

conditions and limitations applicable to the exercise of each option and SAR. The exercise price of a stock option or SAR will not be less than 100% of the fair market value of the underlying share on the grant date, unless otherwise determined by the plan administrator and except with respect to certain substitute awards granted in connection with a corporate transaction. Unless otherwise determined by the plan administrator, the term of a stock option or SAR may not be longer than ten years. Notwithstanding the foregoing, ISOs granted to certain significant stockholders will have an exercise price no less than 110% of the fair market value of the underlying share on the grant date and a term no longer than five years.

- *Restricted Stock and RSUs.* Restricted stock is an award of nontransferable shares of our common stock that remain forfeitable unless and until specified conditions are met and which may be subject to a purchase price. RSUs are contractual promises to deliver shares of our common stock in the future, which may also remain forfeitable unless and until specified conditions are met and may be accompanied by the right to receive the equivalent value of dividends paid on shares of our common stock prior to the delivery of the underlying shares. The plan administrator may provide that the delivery of the shares underlying RSUs will be deferred on a mandatory basis or at the election of the participant. The terms and conditions applicable to restricted stock and RSUs will be determined by the plan administrator, subject to the conditions and limitations contained in the 2024 Plan.

- *Other Stock or Cash Based Awards.* Other stock or cash based awards are awards of cash, fully vested shares of our common stock and other awards valued wholly or partially by referring to, or otherwise based on, shares of our common stock or other property. Other stock or cash based awards may be granted to participants and may also be available as a payment form in the settlement of other awards, as standalone payments and as payment in lieu of compensation to which a participant is otherwise entitled. The plan administrator will determine the terms and conditions of other stock or cash based awards, which may include any purchase price, performance goal, transfer restrictions and vesting conditions.

Performance Criteria. The plan administrator may select performance criteria for an award to establish performance goals for a performance period. Performance criteria under the 2024 Plan may include, but are not limited to, the following: net earnings or losses (either before or after one or more of interest, taxes, depreciation, amortization, and non-cash equity-based compensation expense); gross or net sales or revenue or sales or revenue growth; net income (either before or after taxes) or adjusted net income; profits (including but not limited to gross profits, net profits, profit growth, net operation profit or economic profit), profit return ratios or operating margin; budget or operating earnings (either before or after taxes or before or after allocation of corporate overhead and bonus); cash flow (including operating cash flow and free cash flow or cash flow return on capital); return on assets; return on capital or invested capital; cost of capital; return on stockholders' equity; total stockholder return; return on sales; costs, reductions in costs and cost control measures; expenses; working capital; earnings or loss per share; adjusted earnings or loss per share; price per share or dividends per share (or appreciation in or maintenance of such price or dividends); regulatory achievements or compliance; implementation, completion or attainment of objectives relating to research, development, regulatory, commercial, or strategic milestones or developments; market share; economic value or economic value added models; division, group or corporate financial goals; customer satisfaction/growth; customer service; employee satisfaction; recruitment and maintenance of personnel; human resources management; supervision of litigation and other legal matters; strategic partnerships and transactions; financial ratios (including those measuring liquidity, activity, profitability or leverage); debt levels or reductions; sales-related goals; financing and other capital raising transactions; cash on hand; acquisition activity; investment sourcing activity; and marketing initiatives, any of which may be measured in absolute terms or as compared to any incremental increase or decrease. Such performance goals also may be based solely by reference to the company's performance or the performance of a subsidiary, division, business segment or business unit of the company or a subsidiary, or based upon performance relative to performance of other companies or upon comparisons of any of the indicators of performance relative to performance of other companies. When determining performance goals, the plan administrator may provide for exclusion of the impact of an event or occurrence which the plan administrator determines should appropriately be excluded, including, without limitation, non-recurring charges or events, acquisitions or divestitures, changes in the corporate or capital structure, events unrelated to the business or

outside of the control of management, foreign exchange considerations, and legal, regulatory, tax or accounting changes.

Certain Transactions. In connection with certain corporate transactions and events affecting our common stock, including a change in control, or change in any applicable laws or accounting principles, the plan administrator has broad discretion to take action under the 2024 Plan to prevent the dilution or enlargement of intended benefits, facilitate the transaction or event or give effect to the change in applicable laws or accounting principles. This includes canceling awards for cash or property, accelerating the vesting of awards, providing for the assumption or substitution of awards by a successor entity, adjusting the number and type of shares subject to outstanding awards and/or with respect to which awards may be granted under the 2024 Plan and replacing or terminating awards under the 2024 Plan. In addition, in the event of certain non-reciprocal transactions with our stockholders, the plan administrator will make equitable adjustments to awards outstanding under the 2024 Plan as it deems appropriate to reflect the transaction. Individual award agreements may provide for additional accelerated vesting and payment provisions.

Provisions of the 2024 Plan Relating to Director Compensation. The 2024 Plan provides that the plan administrator may establish compensation for non-employee directors from time to time subject to the 2024 Plan's limitations. In connection with this offering, we intend to approve and implement a compensation program for our non-employee directors, which is described above under the heading "2023 Director Compensation." Our board of directors or its authorized committee may modify the non-employee director compensation program from time to time in the exercise of its business judgment, taking into account such factors, circumstances and considerations as it shall deem relevant from time to time, provided that the sum of any cash compensation or other compensation and the grant date fair value of any equity awards granted under the 2024 Plan as compensation for services as a non-employee director during any fiscal year may not exceed \$1,000,000 in the fiscal year of the non-employee director's initial service and \$750,000 in any other fiscal year. The plan administrator may make exceptions to this limit for individual non-employee directors in extraordinary circumstances, as the plan administrator may determine in its discretion, subject to the limitations in the 2024 Plan.

Foreign Participants, Claw-Back Provisions, Transferability, and Participant Payments. The plan administrator may modify awards granted to participants who are foreign nationals or employed outside the United States or establish subplans or procedures to address differences in laws, rules, regulations or customs of such foreign jurisdictions. All awards will be subject to any company claw-back policy as set forth in such claw-back policy or the applicable award agreement. Except as the plan administrator may determine or provide in an award agreement, awards under the 2024 Plan are generally non-transferrable, except by will or the laws of descent and distribution, or, subject to the plan administrator's consent, pursuant to a domestic relations order, and are generally exercisable only by the participant. With regard to tax withholding obligations arising in connection with awards under the 2024 Plan and exercise price obligations arising in connection with the exercise of stock options under the 2024 Plan, the plan administrator may, in its discretion, accept cash, wire transfer or check, shares of our common stock that meet specified conditions, a promissory note, a "market sell order," such other consideration as the plan administrator deems suitable or any combination of the foregoing.

Plan Amendment and Termination. Our board of directors may amend or terminate the 2024 Plan at any time; however, no amendment, other than an amendment that increases the number of shares available under the 2024 Plan, may materially and adversely affect an award outstanding under the 2024 Plan without the consent of the affected participant, and stockholder approval will be obtained for any amendment to the extent necessary to comply with applicable laws. Further, the plan administrator may, without the approval of our stockholders, amend any outstanding stock option (including stock options granted under the Prior Plan) or SAR to reduce its price per share. The 2024 Plan will remain in effect until the tenth anniversary of its effective date, unless earlier terminated by our board of directors. No awards may be granted under the 2024 Plan after its termination.

Prior Plan

We maintain the Prior Plan pursuant to which our employees, directors and consultants, and the employees, directors and consultants of our affiliates, are eligible to receive Class A-2 Units or Class B Units in the Partnership or options to purchase shares of common stock of the Company. The purpose of the Prior Plan is to further our growth and success by enabling our employees, directors and consultants, and the employees, directors and consultants of our affiliates, to acquire an equity interest in us, thereby increasing their personal interest in our growth and success and incentivizing outstanding service. The Prior Plan is administered by the board of directors or managers, or a committee thereof, of the Partnership or the Company, as applicable. Class B Units are granted under the Prior Plan with a benchmark amount intended for the Class B Units to qualify as profits interests for U.S. federal income tax purposes. Following the completion of this offering, no new awards will be issued under the Prior Plan.

2024 Employee Stock Purchase Plan

Effective the day prior to the first public trading date of our common stock, we intend to adopt and ask our stockholders to approve the ESPP, the material terms of which are summarized below.

The ESPP is comprised of two distinct components in order to provide increased flexibility to grant options to purchase shares under the ESPP to U.S. and to non-U.S. employees. Specifically, the ESPP authorizes (1) the grant of options to U.S. employees that are intended to qualify for favorable U.S. federal tax treatment under Section 423 of the Code, (the “Section 423 Component”), and (2) the grant of options that are not intended to be tax-qualified under Section 423 of the Code to facilitate participation for employees located outside of the U.S. who do not benefit from favorable U.S. federal tax treatment and to provide flexibility to comply with non-U.S. law and other considerations (the “Non-Section 423 Component”). Where permitted under local law and custom, we expect that the Non-Section 423 Component will generally be operated and administered on terms and conditions similar to the Section 423 Component.

Shares Available for Awards; Administration

A total of _____ shares of our common stock will initially be reserved for issuance under the ESPP, all of which can be granted under the Section 423 Component. Our board of directors or a committee of our board of directors will administer and will have authority to interpret the terms of the ESPP and determine eligibility of participants. We expect that the compensation committee will be the initial administrator of the ESPP.

Eligibility

The ESPP administrator may designate certain of our subsidiaries as participating “designated subsidiaries” in the ESPP and may change these designations from time to time. Employees of us and our designated subsidiaries are eligible to participate in the ESPP if they meet the eligibility requirements under the ESPP established from time to time by the ESPP administrator. Unless otherwise determined by the ESPP administrator, our employees are eligible to participate in the ESPP if they are customarily employed by us or a designated subsidiary for more than 20 hours per week and more than five months in any calendar year. However, an employee may not be granted rights to purchase stock under the ESPP if such employee, immediately after the grant, would own (directly or through attribution) stock possessing 5% or more of the total combined voting power or value of all classes of common stock or other class of stock.

Grant of Rights

Shares will be offered under the ESPP during offering periods. The length of the offering periods under the ESPP will be determined by the plan administrator. Employee payroll deductions will be used to purchase shares on each purchase date during an offering period. The purchase dates for each offering period will be the final

[Table of Contents](#)

trading day in the offering period. Offering periods under the ESPP will commence when determined by the plan administrator. The plan administrator may, in its discretion, modify the terms of future offering periods.

The ESPP permits participants to purchase common stock through payroll deductions of up to a specified percentage of their eligible compensation. The plan administrator will establish a maximum number of shares that may be purchased by a participant during any offering period. In addition, no employee will be permitted to accrue the right to purchase stock under the Section 423 Component at a rate in excess of \$25,000 worth of shares during any calendar year during which such a purchase right is outstanding (based on the fair market value per share of our common stock as of the first day of the offering period). In non-U.S. jurisdictions where participation in the ESPP through payroll deductions is prohibited, the ESPP administrator may provide that an eligible employee may elect to participate through contributions to the participant's account under the ESPP in a form acceptable to the ESPP administrator in lieu of or in addition to payroll deductions.

On the first trading day of each offering period, each participant will automatically be granted an option to purchase shares of our common stock. The option will expire at the end of the applicable offering period and will be exercised at that time to the extent of the payroll deductions accumulated during the offering period. The purchase price of the shares, in the absence of a contrary designation, will be 85% of the lower of the fair market value of our common stock on the first trading day of the offering period or on the purchase date. Participants may voluntarily end their participation in the ESPP at any time during a specified period prior to the end of the applicable offering period and will be paid their accrued payroll deductions that have not yet been used to purchase shares of common stock. Participation in the ESPP ends automatically upon a participant's termination of employment.

A participant may not transfer rights granted under the ESPP other than by will or the laws of descent and distribution, and such rights are generally exercisable only by the participant.

Certain Transactions

In the event of certain non-reciprocal transactions or events affecting our common stock, the plan administrator will make equitable adjustments to the ESPP and outstanding rights. In the event of certain unusual or non-recurring events or transactions, including a change in control, the plan administrator may provide for (1) either the replacement of outstanding rights with other rights or property or termination of outstanding rights in exchange for cash, (2) the assumption or substitution of outstanding rights by the successor or survivor corporation or parent or subsidiary thereof, if any, (3) the adjustment in the number and type of shares of stock subject to outstanding rights, (4) the use of participants' accumulated payroll deductions to purchase stock on a new purchase date prior to the next scheduled purchase date and termination of any rights under ongoing offering periods or (5) the termination of all outstanding rights.

Plan Amendment

The plan administrator may amend, suspend, or terminate the ESPP at any time. However, stockholder approval will be obtained for any amendment that increases the aggregate number or changes the type of shares that may be sold pursuant to rights under the ESPP or changes the corporations or classes of corporations whose employees are eligible to participate in the ESPP.

CERTAIN RELATIONSHIPS AND RELATED PARTY TRANSACTIONS

Our Policy Regarding Related Party Transactions

Our board of directors recognizes the fact that transactions with related persons present a heightened risk of conflicts of interests (or the perception thereof). In connection with this offering, our board of directors intends to adopt a written Related Person Transaction Policy and Procedures, setting forth the policies and procedures for the review and approval or ratification of related person transactions. This policy covers, with certain exceptions set forth in Item 404 of Regulation S-K, any transaction, arrangement, or relationship, or any series of similar transactions, arrangements, or relationships, in which we (including any of our subsidiaries) are, were or will be a participant and a related person has, had or will have a direct or indirect material interest.

Under the policy, the Company's legal team is primarily responsible for developing and implementing processes and procedures to obtain information regarding related persons with respect to potential related person transactions and then determining, based on the facts and circumstances, whether such potential related person transactions do, in fact, constitute related person transactions requiring compliance with the policy. If the Company's legal team determines that a transaction or relationship is a related person transaction requiring compliance with the policy, our general counsel (or his or her designee) is required to present to the audit committee of the board of directors all relevant facts and circumstances relating to the related person transaction. The audit committee must review the relevant facts and circumstances of each related person transaction, including if the transaction is on terms comparable to those that could be obtained in arm's length dealings with an unrelated third party, whether the transaction is inconsistent with the interests of the Company and its stockholders and the extent of the related person's interest in the transaction, taking into account the conflicts of interest and corporate opportunity provisions of our code of business conduct and ethics, and either approve or disapprove the related person transaction. If advance audit committee approval of a related person transaction requiring the audit committee's approval is not feasible, then the transaction may be preliminarily entered into by management upon prior approval of the transaction by the chairperson of the audit committee, subject to ratification of the transaction by the audit committee at the audit committee's next regularly scheduled meeting; provided, that if ratification is not forthcoming, management will make all reasonable efforts to cancel or annul the transaction. If a transaction was not initially recognized as a related person transaction, then upon such recognition the transaction will be presented to the audit committee for ratification at the audit committee's next regularly scheduled meeting; provided, that if ratification is not forthcoming, management will make all reasonable efforts to cancel or annul the transaction. Management will update the audit committee as to any material changes to any approved or ratified related person transaction and will provide a status report at least annually of all then current related person transactions. No director may participate in approval of a related person transaction for which he or she is a related person.

Related Party Transactions

The following is a description of transactions to which we were a party since January 1, 2021 in which the amount involved exceeded or will exceed \$120,000, and in which any of our executive officers, directors or holders of more than 5% of any class of our voting securities, or an affiliate or immediate family member thereof, had or will have a direct or indirect material interest.

The Carlyle Services Agreement will continue in full force and effect for so long as (i) CIM and its Affiliates (as defined in the Carlyle Services Agreement) collectively and beneficially own, directly or indirectly, at least 10% of the outstanding voting securities of Dynasty Acquisition or its parent entity or successor and (ii) an officer, director, employee, associate, or representative of CIM or any of its Affiliates serves as a member of the board of directors or similar governing body of Dynasty Acquisition or its successor or any parent entity or its successor, provided that the Carlyle Services Agreement may be terminated at any time by written notice to Dynasty Acquisition from CIM. For the years ended December 31, 2023, 2022 and 2021, we paid CIM approximately \$2.4 million each year pursuant to the Carlyle Services Agreement. For the six months ended June 30, 2024 we paid CIM approximately \$1.2 million pursuant to the Carlyle Services Agreement

In connection with the Acquisition, on April 4, 2019, Dynasty Acquisition entered into a consulting service agreement (the "Beamer Services Agreement") with Beamer Investment Inc., an affiliate of GIC, pursuant to which Dynasty Acquisition paid Beamer Investment Inc. a one-time fee of approximately \$5.5 million for strategic advisory and consulting, services provided to Dynasty Acquisition in connection with the Acquisition. Pursuant to the Beamer Services Agreement, and subject to certain conditions, Dynasty Acquisition also pays to Beamer Investment Inc. an annual fee of approximately \$0.6 million, payable in quarterly instalments in advance, for the advisory, consulting and other services provided by Beamer Investment Inc. pursuant to the Beamer Services Agreement. Dynasty Acquisition also reimburses Beamer Investment Inc.'s reasonable out-of-pocket expenses incurred in connection with services provided pursuant to the Beamer Services Agreement, and Dynasty Acquisition may pay Beamer Investment Inc. additional fees associated with other future transactions or in consideration of any additional services provided under the Beamer Services Agreement. The Beamer Services Agreement will continue in full force and effect for so long as (i) Beamer Investment Inc. and its Affiliates (as defined in the Beamer Services Agreement) collectively and beneficially own, directly or indirectly, voting securities of Dynasty Acquisition, its successor, any parent entity of Dynasty Acquisition or such successor equal to at least fifty percent (50%) of the voting securities of Dynasty Acquisition that Beamer Investment Inc. and its Affiliates owned on the date of the Beamer Services Agreement, provided that the Beamer Services Agreement may be terminated at any time by written notice to Dynasty Acquisition from Beamer Investment Inc. For the years ended December 31, 2023, 2022 and 2021, we paid Beamer Investment Inc. approximately \$0.6 million each year pursuant to the Beamer Services Agreement. For the six months ended June 30, 2024 we paid Beamer Investment Inc. approximately \$0.3 million pursuant to the Beamer Services Agreement.

Transactions with Carlyle

As consideration for the services provided by Carlyle in connection with the placement of commitments with respect to the 2021 Term Loan Facility, we incurred a placement fee of approximately \$1.4 million for the year ended December 31, 2021. As consideration for the services provided by Carlyle as a lead arranger in connection with the 2023 Term Loan Facilities, we incurred arrangement fees of approximately \$1.2 million for the year ended December 31, 2023. As consideration for the services provided by Carlyle as a lead arranger in connection with the 2024 Term Loan Facilities, during the six months ended June 30, 2024, we incurred arrangement fees of approximately \$1.2 million.

Transactions with Portfolio Companies of Funds Affiliated with Carlyle

Sequa Corporation, through its subsidiary Chromalloy Gas Turbine LLC ("Chromalloy"), a former portfolio company of a fund affiliated with Carlyle that was sold by Carlyle in November 2022, provides us with services for component repair capabilities not performed by us and procures component repair services from us. For the years ended December 31, 2022 and 2021, we paid Chromalloy and its subsidiaries \$2.7 million and \$2.4 million, respectively, and generated revenue from them of \$2.1 million and \$1.5 million, respectively.

[Table of Contents](#)

CFGI, a portfolio company of a fund affiliated with Carlyle, provides consulting services to us in connection with the consummation of this offering. During the six months ended June 30, 2024, we incurred consulting fees to CFGI of approximately \$2.3 million.

Partnership Agreement and Stockholders Agreement

In connection with the Acquisition, on April 4, 2019, Dynasty Parent Holdings, L.P. entered into an Amended and Restated Limited Partnership Agreement (the “Partnership Agreement”) by and among Dynasty General Partner, LLC, as general partner, Carlyle Partners VII, the GIC Investor and other limited partners included therein. The Partnership Agreement contains agreements with respect to, among other things, the election of directors, participation rights in equity and debt offerings, rights and restrictions relating to the issuance or transfer of units, including tag-along rights and drag-along rights, registration rights, preemptive rights, repurchase rights, information rights, indemnification rights, expense reimbursement and corporate governance provisions. The Partnership Agreement sets forth, among other things, the class and type of units held by each unitholder and the respective rights of each unitholder to receive distributions of cash or other property of Dynasty Parent Holdings, L.P.

In connection with this offering, we expect to terminate the Partnership Agreement and enter into the Stockholders Agreement with Carlyle Partners VII, the GIC Investor and certain of our other existing stockholders who are currently party to the Partnership Agreement. Pursuant to the Stockholders Agreement, we expect our board of directors will initially consist of nine directors (including one vacancy), with Carlyle having the right to designate eight of the nine directors. The number of directors that Carlyle is entitled to designate is subject to maintaining certain ownership thresholds. If Carlyle loses its right to designate any directors pursuant to the terms of the Stockholders Agreement, these positions will be filled by our stockholders in accordance with our amended and restated certificate of incorporation. See “Description of Capital Stock” for more information regarding our amended and restated certificate of incorporation.

The Stockholders Agreement will also include provisions pursuant to which we grant Carlyle and the GIC Investor (or, in each case, a permitted transferee or affiliate) the right to cause us, in certain instances, at our expense, to file registration statements under the Securities Act covering resales of our shares of common stock held by Carlyle and the GIC Investor (or, in each case, such permitted transferee or affiliate). The Stockholders Agreement will also include provisions pursuant to which we grant Carlyle, the GIC Investor and certain of our other existing stockholders who are currently party to the Partnership Agreement the right to piggyback on registration statements in certain circumstances. These shares of common stock will represent approximately % of our shares of common stock after this offering, or approximately % if the underwriters exercise their option to purchase additional shares of common stock in full. These shares of common stock also may be sold under Rule 144 under the Securities Act, depending on their holding period and subject to restrictions in the case of shares of common stock held by persons deemed to be our affiliates. The Stockholders Agreement will also require us to indemnify such stockholders in connection with any registrations of our securities and will include provisions relating to, among other things, information rights, expense reimbursement and corporate governance provisions.

Indemnification of Directors and Officers; Directors’ and Officers’ Insurance

Prior to the closing of this offering, we expect to enter into indemnification agreements with each of our executive officers and directors. The indemnification agreements will provide the indemnitees with contractual rights to indemnification, and expense advancement and reimbursement, to the fullest extent permitted under the DGCL, subject to certain exceptions contained in those agreements. See “Description of Capital Stock—Limitations on Liability and Indemnification of Officers and Directors” for additional information. We will also purchase and maintain insurance on behalf of any person who is or was an officer or director of the Company in such person’s official capacity against any liability asserted against and incurred by such person in or arising from that capacity.

[Table of Contents](#)

There is no pending litigation or proceeding naming any of our directors or officers for which indemnification is being sought, and we are not aware of any pending litigation that may result in claims for indemnification by any director or executive officer.

Inssofar as indemnification for liabilities arising under the Securities Act may be permitted to directors, officers and controlling persons of the Company, we have been advised that in the opinion of the SEC such indemnification is against public policy as expressed in the Securities Act and is, therefore, unenforceable.

Employment Agreements

From time to time, we may also enter into other employment or compensation arrangements with senior management or other key employees.

DESCRIPTION OF CAPITAL STOCK

The following descriptions of our capital stock and provisions of our amended and restated certificate of incorporation and our amended and restated bylaws are summaries and are qualified by reference to the amended and restated certificate of incorporation and the amended and restated bylaws, which will be in effect upon consummation of this offering and the forms of which are filed as exhibits to the registration statement of which this prospectus forms a part.

General

Our authorized capital stock following this offering will consist of _____ shares of common stock, par value \$0.01 per share, and _____ shares of preferred stock, par value \$0.01 per share. Unless the board of directors determines otherwise, we will issue all shares of our capital stock in uncertificated form. We urge you to read our amended and restated certificate of incorporation and our amended and restated bylaws.

Common Stock

Our amended and restated certificate of incorporation authorizes a total of _____ shares of common stock. Upon the consummation of this offering, we expect that _____ shares of common stock, or _____ shares of common stock if the underwriters exercise their option to purchase additional shares from us in full, will be issued and outstanding.

Holders of our common stock are entitled to one vote for each share held on all matters submitted to a vote of stockholders and do not have cumulative voting rights. An election of directors by our stockholders shall be determined by a plurality of the votes cast by the stockholders entitled to vote on the election. Holders of common stock are entitled to receive proportionately any dividends as may be declared by our board of directors, subject to any preferential dividend rights of any series of preferred stock that we may designate and issue in the future.

In the event of our liquidation, dissolution or winding up, the holders of common stock are entitled to receive proportionately our net assets available for distribution to stockholders after the payment in full of all debts and other liabilities and subject to the prior rights of any outstanding preferred stock. Holders of common stock have no preemptive, subscription, redemption or conversion rights. There will be no sinking fund provisions applicable to our common stock. The rights, preferences and privileges of holders of common stock are subject to, and may be adversely affected by, the rights of the holders of shares of any series of preferred stock that we may designate and issue in the future.

Preferred Stock

Our amended and restated certificate of incorporation authorizes a total of _____ shares of preferred stock. Upon the closing of this offering, we will have no shares of preferred stock issued or outstanding.

Under the terms of our amended and restated certificate of incorporation, our board of directors is authorized to direct us to issue shares of preferred stock in one or more series without stockholder approval. Our board of directors has the discretion to determine the rights, preferences, privileges and restrictions, including voting rights, dividend rights, conversion rights, redemption privileges and liquidation preferences, of each series of preferred stock.

The purpose of authorizing our board of directors to issue preferred stock and determine its rights and preferences is to eliminate delays associated with a stockholder vote on specific issuances. The issuance of preferred stock, while providing flexibility in connection with possible acquisitions, future financings and other

[Table of Contents](#)

corporate purposes, could have the effect of making it more difficult for a third party to acquire, or could discourage a third party from seeking to acquire, a majority of our outstanding voting stock. We have no present plans to issue any shares of preferred stock.

Authorized but Unissued Shares

The authorized but unissued shares of our common stock and our preferred stock are available for future issuance without stockholder approval, subject to any limitations imposed by the listing standards of the NYSE. These additional shares may be used for a variety of corporate finance transactions, acquisitions and employee benefit plans. The existence of authorized but unissued and unreserved common stock and preferred stock could make it more difficult or discourage an attempt to obtain control of us by means of a proxy contest, tender offer, merger or otherwise.

Stockholders Agreement

In connection with this offering, we expect to enter into the Stockholders Agreement pursuant to which Carlyle will have specified board representation rights, governance rights and other rights. See “Management—Composition of the Board of Directors Following this Offering” and “Certain Relationships and Related Party Transactions—Partnership Agreement and Stockholders Agreement.”

Registration Rights

Upon the closing of this offering, the holders of _____ shares of our common stock, or their transferees, will be entitled to various rights with respect to the registration of these shares under the Securities Act. Registration of these shares under the Securities Act would result in these shares becoming fully tradable without restriction under the Securities Act immediately upon the effectiveness of the registration, except for shares purchased by affiliates. Shares covered by a registration statement will be eligible for sale in the public market upon the expiration or release from the terms of the lock-up agreement. See “Certain Relationships and Related Party Transactions—Partnership Agreement and Stockholders Agreement.”

Exclusive Forum

Our amended and restated certificate of incorporation and our amended and restated bylaws will require, to the fullest extent permitted by law, that (i) any derivative action or proceeding brought on our behalf, (ii) any action asserting a claim of breach of a fiduciary duty owed by any of our directors, officers or other employees to us or our stockholders, (iii) any action asserting a claim against us arising pursuant to any provision of the DGCL or our amended and restated certificate of incorporation or our amended and restated bylaws, or (iv) any action asserting a claim against us governed by the internal affairs doctrine will have to be brought only in the Court of Chancery in the State of Delaware (or the federal district court for the District of Delaware or other state courts of the State of Delaware if the Court of Chancery in the State of Delaware does not have jurisdiction). Our amended and restated certificate of incorporation and amended and restated bylaws will also require that the federal district courts of the United States of America will be the exclusive forum for the resolution of any complaint asserting a cause of action arising under the Securities Act; however, there is uncertainty as to whether a court would enforce such provision, and investors cannot waive compliance with federal securities laws and the rules and regulations thereunder. Although we believe these provisions will benefit us by providing increased consistency in the application of applicable law in the types of lawsuits to which they apply, the provisions may have the effect of discouraging lawsuits against our directors and officers. These provisions would not apply to any suits brought to enforce any liability or duty created by the Exchange Act or any other claim for which the federal courts of the United States have exclusive jurisdiction.

These choice of forum provisions may limit a stockholder’s ability to bring a claim in a judicial forum that it finds favorable for disputes with us or any of our directors, officers, other employees or stockholders, which may

discourage lawsuits with respect to such claims or make such lawsuits more costly for stockholders, although our stockholders will not be deemed to have waived our compliance with federal securities laws and the rules and regulations thereunder.

Conflicts of Interest

Delaware law permits corporations to adopt provisions renouncing any interest or expectancy in certain opportunities that are presented to the corporation or its officers, directors or stockholders. Our amended and restated certificate of incorporation will, to the maximum extent permitted from time to time by Delaware law, renounce any interest or expectancy that we have in, or right to be offered an opportunity to participate in, specified business opportunities that are from time to time presented to our officers, directors or stockholders or their respective affiliates, other than those officers, directors, stockholders or affiliates who are our or our subsidiaries' employees. Our amended and restated certificate of incorporation will provide that, to the fullest extent permitted by law, none of Carlyle or any of its affiliates or any director who is not employed by us (including any non-employee director who serves as one of our officers in both his director and officer capacities) or his or her affiliates will have any duty to refrain from (i) engaging in a corporate opportunity in the same or similar lines of business in which we or our affiliates now engage or propose to engage or (ii) otherwise competing with us or our affiliates. In addition, to the fullest extent permitted by law, in the event that Carlyle or any non-employee director acquires knowledge of a potential transaction or other business opportunity which may be a corporate opportunity for itself or himself or its or his affiliates or for us or our affiliates, such person will have no duty to communicate or offer such transaction or business opportunity to us or any of our affiliates and they may take any such opportunity for themselves or offer it to another person or entity. Our amended and restated certificate of incorporation will not renounce our interest in any business opportunity that is expressly offered to a non-employee director solely in his or her capacity as a director or officer of the Company. To the fullest extent permitted by law, no business opportunity will be deemed to be a potential corporate opportunity for us unless we would be permitted to undertake the opportunity under our amended and restated certificate of incorporation, we have sufficient financial resources to undertake the opportunity and the opportunity would be in line with our business.

Limitations on Liability and Indemnification of Officers and Directors

The DGCL authorizes corporations to limit or eliminate the personal liability of directors to corporations and their stockholders for monetary damages for breaches of directors' fiduciary duties, subject to certain exceptions. Our amended and restated certificate of incorporation includes a provision that eliminates the personal liability of directors for monetary damages for any breach of fiduciary duty as a director, except to the extent such exemption from liability or limitation thereof is not permitted under the DGCL. The effect of these provisions is to eliminate the rights of us and our stockholders, through stockholders' derivative suits on our behalf, to recover monetary damages from a director for breach of fiduciary duty as a director, including breaches resulting from grossly negligent behavior. However, exculpation does not apply to any director if the director has acted in bad faith, knowingly or intentionally violated the law, authorized illegal dividends or redemptions or derived an improper benefit from his or her actions as a director.

Our amended and restated bylaws provide that we must indemnify and advance expenses to our directors and officers to the fullest extent authorized by the DGCL. We also are expressly authorized to carry directors' and officers' liability insurance providing indemnification for our directors, officers and certain employees for some liabilities. We believe that these indemnification and advancement provisions and insurance are useful to attract and retain qualified directors and executive officers.

The limitation of liability, indemnification and advancement provisions in our amended and restated certificate of incorporation and amended and restated bylaws may discourage stockholders from bringing a lawsuit against directors for breach of their fiduciary duty. These provisions also may have the effect of reducing the likelihood of derivative litigation against directors and officers, even though such an action, if successful,

might otherwise benefit us and our stockholders. In addition, your investment may be adversely affected to the extent we pay the costs of settlement and damage awards against directors and officers pursuant to these indemnification provisions.

Prior to the closing of this offering, we expect to enter into indemnification agreements with each of our executive officers and directors. See “Certain Relationships and Related Party Transaction—Indemnification of Directors and Officers; Directors’ and Officers’ Insurance.”

Insofar as indemnification for liabilities arising under the Securities Act may be permitted to directors, officers and controlling persons of the Company, we have been advised that in the opinion of the SEC such indemnification is against public policy as expressed in the Securities Act and is, therefore, unenforceable.

Anti-Takeover Effects of Provisions of Our Amended and Restated Certificate of Incorporation, Our Amended and Restated Bylaws and Delaware Law

Certain provisions of Delaware law and our amended and restated certificate of incorporation and amended and restated bylaws contain provisions that may delay, defer or discourage another party from acquiring control of us. We expect that these provisions, which are summarized below, will discourage coercive takeover practices or inadequate takeover bids. These provisions are also designed to encourage persons seeking to acquire control of us to first negotiate with our board of directors, which we believe may result in an improvement of the terms of any such acquisition in favor of our stockholders. However, they also give our board of directors the power to discourage acquisitions that some stockholders may favor.

Classified Board of Directors

Our amended and restated certificate of incorporation provides that our board of directors is divided into three classes, with the classes as nearly equal in number as possible and, following the expiration of specified initial terms for each class, each class serving three-year staggered terms. As a result, approximately one-third of our directors are expected to be elected each year. Pursuant to the terms of the Stockholders Agreement, directors designated by Carlyle may be removed with or without cause only by the request of Carlyle. In all other cases, our amended and restated certificate of incorporation provides that directors may only be removed from our board of directors for cause by the affirmative vote of at least two-thirds of the voting power of the then outstanding shares of voting stock, following such time as when Carlyle ceases to beneficially own at least 40% of the voting power of our common stock. Prior to that time, any individual director may be removed with or without cause by the affirmative vote of a majority of the confirmed voting power of our common stock. See “Management—Composition of the Board of Directors Following this Offering.” These provisions may have the effect of deferring, delaying or discouraging hostile takeovers, or changes in control of us or our management.

Special Stockholder Meetings

Our amended and restated certificate of incorporation will provide that special meetings of our stockholders may be called at any time only by or at the direction of the board of directors or the chairperson of the board of directors; provided, however, at any time when Carlyle beneficially owns at least 40% in voting power of our common stock entitled to vote generally in the election of directors, special meetings of our stockholders may also be called by the board of directors or the chairperson of the board of directors at the request of Carlyle. Our amended and restated bylaws will prohibit the conduct of any business at a special meeting other than as specified in the notice for such meeting. These provisions may have the effect of deferring, delaying or discouraging hostile takeovers or changes in control of us or our management.

Requirements for Advance Notification of Stockholder Meetings, Director Nominations and Proposals

Our amended and restated bylaws will establish advance notice procedures with respect to stockholder proposals and the nomination of candidates for election as directors, other than nominations made by or at the

direction of the board of directors or a committee of the board of directors. In order for any matter to be properly brought before a meeting of our stockholders, a stockholder will have to comply with advance notice requirements and provide us with certain information. Generally, to be timely, a stockholder's notice must be received at our principal executive offices not less than 90 days nor more than 120 days prior to the first anniversary date of the immediately preceding annual meeting of stockholders. Our amended and restated bylaws will also specify requirements as to the form and content of a stockholder's notice. Our amended and restated bylaws will allow the board of directors and the chairperson of a meeting of the stockholders to adopt rules and regulations for the conduct of meetings, which may have the effect of precluding the conduct of certain business at a meeting if the rules and regulations are not followed. These provisions may also deter, delay or discourage a potential acquirer from conducting a solicitation of proxies to elect the acquirer's own slate of directors or otherwise attempting to influence or obtain control of our company.

Stockholder Action by Written Consent

Pursuant to Section 228 of the DGCL, any action required to be taken at any annual or special meeting of the stockholders may be taken without a meeting, without prior notice and without a vote if a consent or consents in writing, setting forth the action so taken, is signed by the holders of outstanding stock having not less than the minimum number of votes that would be necessary to authorize or take such action at a meeting at which all shares of our stock entitled to vote thereon were present and voted, unless our amended and restated certificate of incorporation provides otherwise. Our amended and restated certificate of incorporation will prohibit stockholder action by written consent (and, thus, will require that all stockholder actions be taken at a meeting of our stockholders) if Carlyle ceases to own at least 40% of the voting power of our common stock entitled to vote generally in the election of directors, other than certain rights that holders of our preferred stock may have to act by written consent.

Approval for Amendment of Certificate of Incorporation and Bylaws

Our amended and restated certificate of incorporation and amended and restated bylaws will provide that the board of directors is expressly authorized to adopt, amend, alter or repeal, in whole or in part, our bylaws without a stockholder vote in any matter not inconsistent with Delaware law or our amended and restated certificate of incorporation. In addition, for as long as Carlyle beneficially owns at least 40% in voting power of the stock of our company entitled to vote generally in the election of directors, any adoption, amendment, alteration or repeal of our bylaws by our stockholders will require the affirmative vote of a majority in voting power of the outstanding shares of our stock present in person or represented by proxy at the meeting of stockholders and entitled to vote on such adoption, amendment, alteration or repeal. At any time when Carlyle beneficially owns less than 40% in voting power of all outstanding shares of the stock of our company entitled to vote generally in the election of directors, any adoption, amendment, alteration or repeal of our bylaws by our stockholders will require the affirmative vote of the holders of at least 66 2/3% in voting power of all the then-outstanding shares of voting stock entitled to vote generally in the election of directors, voting together as a single class.

The DGCL provides generally that the affirmative vote of holders of a majority in voting power of outstanding shares entitled to vote on the matter, voting together as a single class, is required to amend a corporation's certificate of incorporation, unless a corporation's certificate of incorporation requires a greater percentage.

Our amended and restated certificate of incorporation will provide at any time when Carlyle beneficially owns less than 40% of the voting power of our common stock entitled to vote generally in the election of directors, then, in addition to any vote required by applicable law or our amended and restated certificate of incorporation, any amendment, alteration, repeal or rescission of certain provisions of our amended and restated certificate of incorporation, including provisions relating to the size of the board, removal of directors, special meetings, actions by written consent and cumulative voting, shall require the affirmative vote of the holders of at least 66 2/3% in voting power of all the then-outstanding shares of voting stock of our company entitled to vote thereon, voting together as a single class.

Business Combinations

We will opt out of Section 203 of the DGCL; however, our amended and restated certificate of incorporation will contain similar provisions providing that we may not engage in certain “business combinations” with any “interested stockholder” for a three-year period following the time that the stockholder became an interested stockholder, unless:

- prior to such time, our board of directors approved either the business combination or the transaction that resulted in the stockholder becoming an interested stockholder;
- upon consummation of the transaction which resulted in the stockholder becoming an interested stockholder, the interested stockholder owned at least 85% of our voting stock outstanding at the time the transaction commenced, excluding certain shares;
- at or subsequent to that time, the business combination is approved by our board of directors and by the affirmative vote of holders of at least 66 2/3% of our outstanding voting stock that is not owned by the interested stockholder; or
- the stockholder became an interested stockholder inadvertently and (i) as soon as practicable divested itself of sufficient ownership to cease to be an interested stockholder and (ii) had not been an interested stockholder but for the inadvertent acquisition of ownership within three years of the business combination.

Generally, a “business combination” includes a merger, asset or stock sale or other transaction resulting in a financial benefit to the interested stockholder. Subject to certain exceptions, an “interested stockholder” is a person who, together with that person’s affiliates and associates, owns, or within the previous three years owned, 15% or more of our outstanding voting stock. For purposes of this section only, “voting stock” has the meaning given to it in Section 203 of the DGCL.

Under certain circumstances, this provision will make it more difficult for a person who would be an “interested stockholder” to effect various business combinations with our company for a three-year period. This provision may encourage companies interested in acquiring our company to negotiate in advance with our board of directors because the stockholder approval requirement would be avoided if our board of directors approves either the business combination or the transaction which results in the stockholder becoming an interested stockholder. These provisions also may have the effect of preventing changes in our board of directors and may make it more difficult to accomplish transactions that stockholders may otherwise deem to be in their best interests.

Our amended and restated certificate of incorporation will provide that Carlyle, and any of its direct or indirect transferees and any group as to which such persons or entities are a party, does not constitute an “interested stockholder” for purposes of this provision.

The transfer agent and registrar for our common stock will be Computershare Trust Company N.A.

DESCRIPTION OF CERTAIN INDEBTEDNESS

Following is a description of our existing indebtedness. Senior Secured Credit Facilities

In connection with the Acquisition, we entered into our senior secured credit facilities (the “Senior Secured Credit Facilities”), which consist of the Credit Facilities and the ABL Credit Facility (each as defined below).

(i) Credit Facilities

We entered into the Credit Agreement on April 4, 2019, with a group of lenders led by Credit Suisse AG, Cayman Islands Branch, as administrative agent and collateral agent. As of June 30, 2024, our Credit Agreement provides for (i) a senior secured dollar term loan B facility in an original aggregate principal amount of approximately \$1,988.5 million (the “2024 Term Loan B-1 Facility”), (ii) a senior secured dollar term loan B facility in an original aggregate principal amount of approximately \$766.7 million (the “2024 Term Loan B-2 Facility” and, together with the 2024 Term Loan B-1 Facility, the “2024 Term Loan Facilities”) and (iii) a senior secured multicurrency revolving credit facility in an aggregate principal amount of up to \$150.0 million (of which up to \$75.0 million is available for the issuance of letters of credit) (the “2023 Revolving Credit Facility” and, together with the 2024 Term Loan Facilities, the “Credit Facilities”).

On April 4, 2019, we entered into (i) a senior secured dollar term loan B facility due April 4, 2026, in an original aggregate principal amount of \$1,395.0 million (the “2019 Term Loan B-1 Facility”), (ii) a senior secured dollar term loan B facility due April 4, 2026, in an original aggregate principal amount of \$750.0 million (the “2019 Term Loan B-2 Facility” and, together with the 2019 Term Loan B-1 Facility, the “2019 Term Loan Facilities”) and (iii) a senior secured multicurrency revolving credit facility due April 4, 2024, in an aggregate principal amount of up to \$150.0 million (the “2019 Revolving Credit Facility”). The 2019 Term Loan Facilities were used to finance, in part, the Acquisition and to pay fees and expenses related thereto.

On February 12, 2020, we (i) incurred an additional \$200.0 million of senior secured dollar term loans under the 2019 Term Loan Facilities due April 4, 2026 and (ii) amended and repriced each of our 2019 Term Loan Facilities.

On July 1, 2021, we entered into a senior secured dollar term loan B facility due April 4, 2026, in an original aggregate principal amount of \$275.0 million (the “2021 Term Loan Facility”) to fund, in part, an acquisition made by Dynasty Acquisition.

On May 1, 2023, we amended, refinanced and extended the maturity of our 2019 Revolving Credit Facility due April 4, 2024, to January 2, 2026.

On August 24, 2023, we amended, refinanced and extended the maturity of (i) each of our 2019 Term Loan B-1 Facility and 2021 Term Loan Facility due April 4, 2026 with a senior secured dollar term loan B facility due August 24, 2028, in an original aggregate principal amount of \$1,802.5 million (the “2023 Term Loan B-1 Facility”), (ii) our 2019 Term Loan B-2 Facility due April 4, 2026 with a senior secured dollar term loan B facility due August 24, 2028, in an original aggregate principal amount of \$772.5 million (the “2023 Term Loan B-2 Facility” and, together with the 2023 Term Loan B-1 Facility, the “2023 Term Loan Facilities”) and (iii) our 2019 Revolving Credit Facility due January 2, 2026 with the 2023 Revolving Credit Facility.

On March 25, 2024, we amended and refinanced (i) our 2023 Term Loan B-1 Facility due August 24, 2028 with the 2024 Term Loan B-1 Facility and (ii) our 2023 Term Loan B-2 Facility due August 24, 2028 with the 2024 Term Loan B-2 Facility.

[Table of Contents](#)

On September 6, 2024, we incurred (i) approximately \$144.3 million in additional principal amount of senior secured dollar term loans under the 2024 Term Loan B-1 Facility and (ii) approximately \$55.7 million in additional principal amount of senior secured dollar term loans under the 2024 Term Loan B-2 Facility.

The 2024 Term Loan B-1 Facility was incurred by Dynasty Acquisition, and the 2024 Term Loan B-2 Facility was incurred by Standard Aero Limited Standaero Limitee (as successor in interest to 1199169 B.C. Unlimited Liability Company), a British Columbia limited company and wholly-owned indirect subsidiary of Dynasty Acquisition (the “Canadian Borrower” and, together with Dynasty Acquisition, the “Borrowers”). The 2024 Term Loan Facilities mature on August 24, 2028. The 2023 Revolving Credit Facility matures on the earlier of (a) May 1, 2028 and (b) a springing maturity date that is 91 days prior to the maturity date applicable to any term loan under the Credit Agreement, unsecured indebtedness or other indebtedness having an aggregate outstanding principal amount of at least \$150.0 million.

We may use borrowings under our 2023 Revolving Credit Facility to fund working capital, for other general corporate purposes, including permitted acquisitions and other investments, and for any other purpose not prohibited by the Credit Agreement. Our ability to draw under our 2023 Revolving Credit Facility or issue letters of credit thereunder is conditioned upon, among other things, delivery of required notices, accuracy of the representations and warranties contained in the Credit Agreement, and the absence of any default or event of default under our Credit Facilities, subject to certain exceptions.

(A) Interest Rate and Fees

Borrowings under the Credit Facilities bear interest at a floating rate per annum which can be, at our option:

- (a) a Term SOFR-based rate for U.S. Dollar-denominated loans under the Credit Facilities (subject to a 0.00% floor), *plus* an applicable margin ranging from 3.50% to 3.125%;
- (b) a EURIBOR-based rate for Euro-denominated loans under the 2023 Revolving Credit Facility (subject to a 0.00% floor), *plus* an applicable margin ranging from 3.50% to 3.125%;
- (c) a Term CORRA-based rate for Canadian Dollar-denominated loans under the 2023 Revolving Credit Facility (subject to a 0.00% floor), *plus* a credit spread adjustment ranging from 0.29547% to 0.32138% (and subject to a 0.00% floor), *plus* an applicable margin ranging from 3.50% to 3.125%;
- (d) a SONIA-based rate Pounds Sterling-denominated loans under the 2023 Revolving Credit Facility (subject to a 0.00% floor), *plus* an applicable margin ranging from 3.50% to 3.125%; and
- (e) a base rate for U.S. Dollar-denominated loans under the Credit Facilities equal to the sum of (i) the highest of (A) the Federal Funds Rate, *plus* 0.50%, (B) the U.S. “prime rate”, (C) an Term SOFR-based rate for an interest period of one month, *plus* 1.00% and (D) 1.00%, *plus* (ii) an applicable margin from 2.50% to 2.125%.

The applicable margin for the 2023 Revolving Credit Facility is subject to adjustment based on our consolidated first lien net leverage ratio, with one 12.5 basis point ratio-based step down and one 25 basis point ratio-based step down.

In addition, the Credit Agreement provides for a quarterly fee on the daily unused portion of the 2023 Revolving Credit Facility at a rate per annum that is subject to adjustment based on our consolidated first lien net leverage ratio, with one 12.5 basis point ratio-based step down, and certain other customary fees.

(B) Amortization and Prepayments

The 2024 Term Loan Facilities are repayable in quarterly installments in an amount equal to approximately 0.25% of the principal amount (outstanding as of September 6, 2024) of the applicable 2024 Term Loan Facility, with the balance payable on the maturity date thereof. Amounts borrowed under the 2023 Revolving Credit

[Table of Contents](#)

Facility may be repaid and reborrowed from time to time. The 2023 Revolving Credit Facility does not amortize, and the entire outstanding principal amount (if any) of the 2023 Revolving Credit Facility is due and payable on the maturity date thereof.

The Credit Agreement contains customary mandatory prepayment provisions.

(C) Financial and Restrictive Covenants

The Credit Agreement contains a number of customary negative covenants imposing significant restrictions on our business. These restrictions may affect our ability to operate our business and may limit our ability to take advantage of potential business opportunities as they arise. The restrictions these covenants place on us include limitations on our ability to:

- merge or consolidate with other companies;
- incur additional indebtedness;
- grant or incur liens or security interests on assets;
- make acquisitions, loans, advances, or investments;
- pay dividends;
- sell or otherwise transfer assets;
- optionally prepay or modify terms of junior lien or payment subordinated indebtedness;
- enter into certain restrictive agreements; or
- change our fiscal year.

The 2023 Revolving Credit Facility has a springing financial covenant, which requires us to maintain a maximum first lien net leverage ratio, to be tested quarterly at the end of any fiscal quarter when more than 35% of the 2023 Revolving Credit Facility (excluding, among other things, all letters of credit incurred under the 2023 Revolving Credit Facility (whether or not cash collateralized)) is utilized at such date. As of June 30, 2024, Dynasty Acquisition was not required to maintain this ratio under the Credit Agreement. In addition, our Credit Agreement contains a negative covenant restricting certain activities of Holdings.

The Credit Agreement contains customary representations and warranties and customary affirmative covenants, including, but not limited to, delivery of financial and other information to the administrative agent, notice to the administrative agent upon the occurrence of certain material events, annual lender calls (upon request), payment of material taxes and other claims, preservation of existence, maintenance of properties and insurance, compliance with applicable laws and regulations, maintenance of books and records, access to properties and records for inspection by the administrative agent, compliance with environmental laws and regulations, further assurances and provision of additional collateral and guarantees, commercially reasonable efforts to maintain certain ratings, and requirements with respect to changes to our material lines of business and transactions with affiliates.

(D) Events of Default

The Credit Agreement contains customary events of default, subject to certain grace periods and materiality thresholds, including, among other things, failure to make payments when due, noncompliance with covenants, representations and warranties being incorrect or misleading in any material respect when made, defaults under certain other indebtedness, bankruptcy or certain insolvency events, material judgments, invalidity of certain loan documentation, and a “change of control” (as defined in the Credit Agreement).

(ii) ABL Credit Facility

We entered into the ABL Credit Agreement on April 4, 2019, with a group of lenders led by Royal Bank of Canada, as administrative agent and collateral agent. As of June 30, 2024, the ABL Credit Agreement provides for senior secured asset based multicurrency revolving credit facilities in an aggregate principal amount of up to \$400.0 million (of which up to \$75.0 million is available for letters of credit) (the “ABL Credit Facility”), with (i) an aggregate principal amount of up to \$240.0 million available to be borrowed by Dynasty Acquisition in U.S. Dollars or certain alternative currencies (the “U.S. Commitment”) and (ii) an aggregate principal amount of up to \$160.0 million available to be borrowed by the Canadian Borrower in U.S. Dollars or Canadian Dollars (the “Canadian Commitment”), in each case, subject to (a) borrowing base availability under the applicable commitment, (b) reallocation of such amounts between jurisdictions in accordance with the terms of the ABL Credit Agreement and (c) certain sublimits for alternative currencies.

On April 4, 2019, we entered into our ABL Credit Facility due April 4, 2024, in an original aggregate principal amount of up to \$300.0 million, with (i) an aggregate principal amount of up to \$100.0 million available to be borrowed by Dynasty Acquisition under the U.S. Commitment and (ii) an aggregate principal amount of up to \$200.0 million available to be borrowed by the Canadian Borrower under the Canadian Commitment.

On January 10, 2020, we increased the aggregate amount of the U.S. Commitment under our ABL Credit Facility to \$200.0 million.

On May 1, 2023, (i) we amended, repriced and extended the maturity of our ABL Credit Facility and (ii) subsequently reallocated \$40.0 million of the Canadian Commitment thereunder to the U.S. Commitment, increasing the U.S. Commitment to \$240.0 million and reducing the Canadian Commitment to \$160.0 million. The extended ABL Credit Facility matures on the earlier of (a) May 1, 2028, (b) a springing maturity date that is 91 days prior to the maturity date applicable to any term loan under the Credit Agreement, unsecured indebtedness or other indebtedness having an aggregate outstanding principal amount of at least \$150.0 million and (c) the maturity date of our 2023 Revolving Credit Facility (if excess availability under the ABL Credit Facility during the 91-day period prior to the maturity date of the 2023 Revolving Credit Facility is (1) less than the aggregate amount required to repay the 2023 Revolving Credit Facility in full or (2) insufficient to satisfy certain “payment conditions” under our ABL Credit Agreement).

On May 28, 2024, we amended the ABL Credit Facility to replace CDOR as a reference rate for Canadian dollar-denominated loans under the Canadian Commitment, with a Term CORRA-based rate.

We may use borrowings under our ABL Credit Facility to fund working capital, for other general corporate purposes, including permitted acquisitions and other investments, and for any other purpose not prohibited by the ABL Credit Agreement. Our ability to draw under our ABL Credit Facility or issue letters of credit thereunder is conditioned upon, among other things, borrowing base availability under the applicable commitment, delivery of required notices, accuracy of the representations and warranties contained in the ABL Credit Agreement and the absence of any default or event of default under our ABL Credit Facility, subject to certain exceptions.

The ABL Credit Facility is subject to a borrowing base which consists of a U.S. borrowing base and a Canadian borrowing base. The U.S. borrowing base limits the maximum amount that may be borrowed under the U.S. Commitment at any time and is calculated on the basis of Dynasty Acquisition and the other U.S. Loan Parties (as defined below). The Canadian borrowing base limits the maximum amount that may be borrowed under the Canadian Commitment at any time and is calculated on the basis of the Canadian Borrower and the other Canadian Loan Parties (as defined below). The U.S. and Canadian borrowing bases include components based on (i) the sum of (a) 85% of non-investment grade eligible accounts receivable, *plus* (b) 90% of investment grade eligible accounts receivable, *plus* (c) 85% of the net orderly liquidation value of eligible parts inventory, *plus* (d) 85% of the net orderly liquidation value of eligible rental engines, *plus* (e) 85% of the net orderly liquidation value of eligible work in progress inventory, *plus* (f) 100% of eligible unrestricted cash and cash

equivalents (which, with respect to cash, shall be subject to the “control” of the administrative agent or held with one of our lenders under the ABL Credit Facility), in each case, of the applicable Loan Parties (as defined below), subject to customary applicable reserves, limitations and eligibility criteria.

(A) Interest Rate and Fees

Borrowings under the ABL Credit Facility bear interest at a floating rate per annum which can be, at our option:

- (a) a Term SOFR-based rate for U.S. Dollar-denominated loans under the U.S. Commitment or the Canadian Commitment, plus a credit spread adjustment of 0.10% (and subject to a 0.00% floor), *plus* an applicable margin ranging from 2.00% to 1.50%;
- (b) a EURIBOR-based rate for Euro-denominated loans under the U.S. Commitment (subject to a 0.00% floor), *plus* an applicable margin ranging from 2.00% to 1.50%;
- (c) a Term CORRA-based rate for Canadian Dollar-denominated loans under the Canadian Commitment (subject to a 0.00% floor), *plus* an applicable margin ranging from 2.00% to 1.50%;
- (d) a SONIA-based rate Pounds Sterling-denominated loans under the U.S. Commitment (subject to a 0.00% floor), *plus* an applicable margin ranging from 2.00% to 1.50%;
- (e) a base rate for U.S. Dollar-denominated loans under the U.S. Commitment equal to the sum of (i) the highest of (A) the Federal Funds Rate, *plus* 0.50%, (B) the U.S. “prime rate”, (C) an Term SOFR-based rate for an interest period of one month, *plus* 1.00%, and (D) 0.00%, *plus* (ii) an applicable margin ranging from 1.00% to 0.50%;
- (f) a Canadian base rate for U.S. Dollar-denominated loans under the Canadian Commitment equal to the sum of (i) the highest of (A) the base rate announced by Royal Bank of Canada from time to time, (B) the Federal Funds Rate, *plus* 0.50%, (C) a Term SOFR-based rate for an interest period of one month, *plus* 1.00%, and (D) 0.00%, *plus* (ii) an applicable margin ranging from 1.00% to 0.50%; and
- (g) a Canadian prime rate for Canadian Dollar-denominated loans under the Canadian Commitment equal to the sum of (i) the highest of (A) the reference rate announced by Royal Bank of Canada from time to time for Canadian Dollar demand loans in Canada, (B) a Term CORRA-based rate for an interest period of one month, *plus* 1.00%, and (C) 0.00%, *plus* (ii) an applicable margin ranging from 1.00% to 0.50%.

The applicable margin for the ABL Credit Facility is subject to adjustment based on our average excess availability under the ABL Credit Facility with two excess availability-based 25 basis point step downs.

In addition, the ABL Credit Agreement provides for a quarterly fee on the daily unused portion of each of the U.S. Commitment and the Canadian Commitment under the ABL Credit Facility, at a rate per annum that is subject to adjustment based on our average excess availability under the ABL Credit Facility, with one excess availability-based 12.5 basis point step down, and certain other customary fees.

(B) Prepayments

Amounts borrowed under the ABL Credit Facility may be repaid and reborrowed from time to time. The ABL Credit Facility does not amortize, and the entire outstanding principal amount (if any) of the ABL Credit Facility is due and payable on the maturity date thereof.

(C) Financial and Restrictive Covenants

The ABL Credit Agreement contains a number of customary negative covenants imposing significant restrictions on our business. These restrictions may affect our ability to operate our business and may limit our ability to take advantage of potential business opportunities as they arise. The restrictions these covenants place on us include limitations on our ability to:

- merge or consolidate with other companies;

- enter into certain restrictive agreements; or
- change our fiscal year.

The ABL Credit Facility has a springing financial covenant, which requires us to maintain a minimum fixed charge coverage ratio, to be tested quarterly (a) as of the last day of the most recently ended fiscal quarter, if excess availability under the ABL Credit Facility at any time is below a threshold equal to the lesser of (i) 10.0% of the aggregate borrowing base under the ABL Credit Facility, (ii) 10.0% of the aggregate commitments under the ABL Credit Facility, and (iii) \$30.0 million, and (b) thereafter on the last day of each subsequent fiscal quarter until excess availability exceeds such threshold for 30 consecutive days. As of June 30, 2024, Dynasty Acquisition was not required to maintain this ratio under the ABL Credit Agreement. In addition, our ABL Credit Agreement contains a negative covenant restricting certain activities of Holdings.

The ABL Credit Agreement contains customary representations and warranties and customary affirmative covenants, including, but not limited to, delivery of financial and other information to the administrative agent, borrowing base certificates and other collateral reporting, field examinations and appraisals, notice to the administrative agent upon the occurrence of certain material events, annual lender calls (upon request), payment of material taxes and other claims, preservation of existence, maintenance of properties and insurance, compliance with applicable laws and regulations, maintenance of books and records, access to properties and records for inspection by the administrative agent, compliance with environmental laws and regulations, further assurances and provision of additional collateral and guarantees, and requirements with respect to changes to our material lines of business and transactions with affiliates.

(D) Events of Default

The ABL Credit Agreement contains customary events of default, subject to certain grace periods and materiality thresholds, including, among other things, failure to make payments when due, noncompliance with covenants, representations and warranties being incorrect or misleading in any material respect when made, defaults under certain other indebtedness, bankruptcy or certain insolvency events, material judgments, invalidity of certain loan documentation, and a “change of control” (as defined in the ABL Credit Agreement).

(iii) General

(A) Guarantee and Security

All obligations of Dynasty Acquisition under our Senior Secured Credit Facilities are jointly and severally guaranteed by U.S. Loan Parties. All obligations of the Canadian Borrower under our Senior Secured Credit Facilities are jointly and severally guaranteed by the U.S. Loan Parties and the Canadian Loan Parties.

The obligations under the ABL Credit Facility and the guarantees of those obligations (as well as any interest-hedging or other swap agreements and cash management arrangements with the lenders and/or their affiliates under the ABL Credit Facility and certain other cash management banks) are secured by:

- a first priority pledge by the Loan Parties of the ABL Priority Collateral; and
- a second priority pledge in the Term Loan/RCF Priority Collateral.

[Table of Contents](#)

The obligations under the Credit Facilities and the guarantees of those obligations are secured by a first priority pledge by the Loan Parties on the Term Loan/RCF Priority Collateral and a second priority pledge (as well as any interest hedging or other swap agreements and cash management arrangements with the lenders and/or their affiliates under the Credit Facilities) by the Loan Parties on the ABL Priority Collateral, in each case, subject to certain exceptions and permitted liens.

The lien priority, relative rights and other creditors' rights in respect of the ABL Credit Facility and the Credit Facilities are set forth in a customary intercreditor agreement.

Senior Notes

General

In connection with the Acquisition, on April 4, 2019, Dynasty Acquisition issued in a private placement \$640.0 million aggregate principal amount of senior unsecured PIK toggle notes due 2027 (the "Senior Notes"), pursuant to an indenture, dated as of April 4, 2019, by and among Dynasty Acquisition, as issuer, the guarantors party thereto and U.S. Bank National Association, as trustee (the "Trustee") (as amended and supplemented from time to time, the "Indenture").

For interest periods ending on or prior to April 4, 2020, Dynasty Acquisition was entitled to elect to pay 100% of the interest with respect to such interest periods by increasing the outstanding principal amount of the Senior Notes (such interest, "PIK Interest") at a rate per annum equal to 11.00%, and for interest periods ending on or prior to April 4, 2021, Dynasty Acquisition was entitled to elect to pay 50% of the interest with respect to such interest periods in cash and 50% of the interest in PIK Interest at a rate per annum equal to 10.50%.

For interest periods ending after April 4, 2021, Dynasty Acquisition is required to pay interest on the Senior Notes in cash at a rate per annum equal to 10.00%. Dynasty Acquisition pays interest on the Senior Notes on January 4, April 4, July 4 and October 4 of each year. The Senior Notes mature on April 4, 2027.

On March 29, 2024, Dynasty Acquisition redeemed \$200.0 million in aggregate principal amount of the Senior Notes. As of June 30, 2024, \$475.5 million aggregate principal amount of the Senior Notes were outstanding, including accrued PIK Interest.

Ranking; Guarantee

The Senior Notes are unsecured senior indebtedness of Dynasty Acquisition, are effectively subordinated to all of Dynasty Acquisition's secured indebtedness to the extent of the value of the assets securing such indebtedness and are structurally subordinated to all indebtedness and other liabilities of Dynasty Acquisition's subsidiaries that do not guarantee the Senior Notes, including indebtedness under the Credit Facilities.

The Senior Notes are guaranteed by Dynasty Intermediate Co., Inc., a Delaware corporation, and each of the current and subsequently acquired wholly owned domestic subsidiaries of Dynasty Acquisition, subject to certain customary exclusions.

Redemption

Beginning on April 4, 2023, Dynasty Acquisition may redeem the Senior Notes, at any time and from time to time, in whole or in part, at a redemption price equal to 100% of the principal amount thereof, plus accrued and unpaid interest, if any, to but not including the redemption date.

Covenants

The Indenture contains covenants that, among other things, limit Dynasty Acquisition's ability and the ability of its restricted subsidiaries to incur more indebtedness or issue certain preferred shares or shares of

[Table of Contents](#)

disqualified stock, pay dividends, redeem stock or make other distributions, make investments, create restrictions on the ability of Dynasty Acquisition's restricted subsidiaries to pay dividends to Dynasty Acquisition or make other intercompany transfers, create liens, transfer or sell assets, merge or consolidate, enter into certain transactions with affiliates, and designate subsidiaries as unrestricted subsidiaries. Upon the occurrence of certain events constituting a change of control, Dynasty Acquisition is required to make an offer to repurchase all of the Senior Notes (unless otherwise redeemed) at a purchase price equal to 101% of their principal amount, plus accrued and unpaid interest, if any, to but not including the repurchase date. If Dynasty Acquisition or a restricted subsidiary of Dynasty Acquisition sells assets under certain circumstances and does not reinvest the proceeds or repay certain debt, it must use the proceeds to make an offer to purchase the Senior Notes at a price equal to 100% of their principal amount, plus accrued and unpaid interest, if any, to but not including the date fixed for closing of such offer.

Events of Default

Events of default under the Indenture include: the nonpayment of principal or interest when due; failure to perform or observe any negative covenant, the notices covenant or the preservation of existence covenant (solely with respect to Dynasty Acquisition) therein; failure to perform or observe any other covenant or agreement contained in the Senior Notes or the Indenture and such failure continues for 30 days after receipt by Dynasty Acquisition of written notice thereof from the Trustee or the note holders, as applicable; inaccuracy of representations or warranties in any material respect; cross-default and cross-acceleration to any other indebtedness with a principal amount in excess of \$40.0 million; certain bankruptcy or insolvency events; certain material judgments; certain ERISA events; invalidity of any material provision of the Indenture, the Senior Notes and related guarantees and certain other documentation relating to the Senior Notes; and the failure of any guarantee of Dynasty Intermediate Co., Inc. or a material subsidiary guarantor to be in full force and effect.

SHARES ELIGIBLE FOR FUTURE SALE

The sale of a substantial amount of our common stock in the public market after this offering could adversely affect the prevailing market price of our common stock. Furthermore, all of our common stock outstanding prior to the consummation of this offering will be subject to the contractual and legal restrictions on resale described below. The sale of a substantial amount of common stock in the public market after these restrictions lapse, or the expectation that such a sale may occur, could adversely affect the prevailing market price of our common stock and our ability to raise equity capital in the future.

Upon consummation of this offering, we expect to have _____ shares of common stock authorized and _____ shares of common stock outstanding, assuming no exercise of outstanding options and that the underwriters have not exercised their option to purchase additional shares. Substantially all of the remaining _____ shares outstanding will be restricted from immediate resale under the lock-up agreements between our current stockholders and the underwriters in this offering. Generally, the balance of our outstanding shares of common stock not held by the public will also be “restricted securities” within the meaning of Rule 144 under the Securities Act, and the sale of those shares will be subject to the limitations and restrictions that are described below. Shares of our common stock that are not restricted securities and are purchased by our affiliates will be “control securities” under Rule 144. Restricted securities may be sold in the public market only if registered under the Securities Act or if they qualify for an exemption from registration under Rule 144 or Rule 701 under the Securities Act. These rules are summarized below. Control securities may be sold in the public market subject to the restrictions set forth in Rule 144, other than the holding period requirement.

Upon the expiration of the lock-up agreements described below, and subject to the provisions of Rule 144, all of the shares of our common stock that are restricted securities or are held by our affiliates as of the date of this prospectus, will be available for sale in the public market. The sale of these restricted securities is subject, in the case of shares held by affiliates, to the volume restrictions contained in Rule 144.

Lock-up Agreements

In connection with this offering, we, our directors and executive officers and holders of substantially all of our outstanding shares of our common stock have agreed with the underwriters to enter into lock-up agreements described in “Underwriting (Conflicts of Interest),” pursuant to which shares of our common stock outstanding after this offering will be restricted from immediate resale in accordance with the terms of such lock-up agreements without the prior written consent of _____. Under these agreements, subject to limited exceptions, neither we nor any of our directors or executive officers or these holders may directly or indirectly sell, dispose of, hedge or otherwise transfer the economic consequences of ownership of any shares of common stock or securities convertible into or exchangeable or exercisable for shares of common stock. These restrictions will be in effect for a period of _____ days after the date of this prospectus. Certain transfers or dispositions can be made sooner, provided the transferee becomes bound to the terms of the lock-up. See “Underwriting (Conflicts of Interest)” for a description of the lock-up agreements.

Rule 144

In general, under Rule 144 as in effect on the date of this prospectus, beginning 90 days after the consummation of this offering, a person (or persons whose common stock is required to be aggregated), who is an affiliate, and who has beneficially owned our common stock for at least six months, is entitled to sell in any three-month period a number of shares that does not exceed the greater of:

- 1% of the number of shares of our common stock then outstanding, which will equal approximately _____ shares immediately after consummation of this offering (_____ shares if the underwriters fully exercise their option to purchase additional shares); or
- the average weekly trading volume in our common stock on the NYSE during the four calendar weeks preceding the filing of a notice on Form 144 with respect to that sale.

[Table of Contents](#)

Sales by our affiliates under Rule 144 are also subject to manner of sale provisions and notice requirements and to the availability of current public information about us. An “affiliate” is a person that directly, or indirectly through one or more intermediaries, controls or is controlled by, or is under common control with an issuer.

Under Rule 144, a person (or persons whose shares are aggregated) who is not deemed to have been an affiliate of ours at any time during the 90 days preceding a sale, and who has beneficially owned the shares proposed to be sold for at least six months (including the holding period of any prior owner other than an affiliate), would be entitled to sell those shares subject only to availability of current public information about us, and after beneficially owning such shares for at least twelve months, would be entitled to sell an unlimited number of shares without restriction. To the extent that our affiliates sell their common stock, other than pursuant to Rule 144 or a registration statement, the purchaser’s holding period for the purpose of effecting a sale under Rule 144 commences on the date of transfer from the affiliate.

Rule 701

In general, under Rule 701 as in effect on the date of this prospectus, any of our employees, directors, officers, consultants or advisors who purchased shares from us in reliance on Rule 701 in connection with a compensatory stock or option plan or other written agreement before the effective date of this offering, or who purchased shares from us after that date upon the exercise of options granted before that date, are eligible to resell such shares 90 days after the effective date of this offering in reliance upon Rule 144. If such person is not an affiliate, such sale may be made subject only to the manner of sale provisions of Rule 144. If such a person is an affiliate, such sale may be made under Rule 144 without compliance with the holding period requirement, but subject to the other Rule 144 restrictions described above. However, substantially all Rule 701 shares are subject to lock-up agreements as described above and will become eligible for sale in compliance with Rule 144 only upon the expiration of the restrictions set forth in those agreements.

Stock Plans

We intend to file a registration statement or statements on Form S-8 under the Securities Act covering shares of common stock subject to outstanding equity awards and reserved for issuance under our equity incentive plans and ESPP. This registration statement is expected to be filed as soon as practicable after the closing date of this offering. Shares issued upon the exercise of stock options after the effective date of the applicable Form S-8 registration statement will be eligible for resale in the public market without restriction, subject to Rule 144 limitations applicable to affiliates and the lock-up agreements described above.

Registration Rights

Following this offering, certain of our stockholders will, under certain circumstances, have the right to require us to register their shares for future sale. See “Certain Relationships and Related Party Transactions—Related Party Transactions—Partnership Agreement and Stockholders Agreement.”

MATERIAL U.S. FEDERAL INCOME TAX CONSEQUENCES TO NON-U.S. HOLDERS

The following discussion is a summary of the material U.S. federal income tax consequences to Non-U.S. Holders (as defined below) of the purchase, ownership and disposition of our common stock issued pursuant to this offering, but does not purport to be a complete analysis of all potential tax effects. The effects of other U.S. federal tax laws, such as estate and gift tax laws, and any applicable state, local or non-U.S. tax laws are not discussed. This discussion is based on the Code, Treasury Regulations promulgated thereunder, judicial decisions, and published rulings and administrative pronouncements of the IRS, in each case in effect as of the date hereof. These authorities may change or be subject to differing interpretations. Any such change or differing interpretation may be applied retroactively in a manner that could adversely affect a Non-U.S. Holder of our common stock. We have not sought and will not seek any rulings from the IRS regarding the matters discussed below. There can be no assurance the IRS or a court will not take a contrary position to that discussed below regarding the tax consequences of the purchase, ownership and disposition of our common stock.

This discussion is limited to Non-U.S. Holders that hold our common stock as a “capital asset” within the meaning of Section 1221 of the Code (generally, property held for investment). This discussion does not address all U.S. federal income tax consequences relevant to a Non-U.S. Holder’s particular circumstances, including the impact of the Medicare contribution tax on net investment income. In addition, it does not address consequences relevant to Non-U.S. Holders subject to special rules, including, without limitation:

- U.S. expatriates and former citizens or long-term residents of the United States;
- persons subject to the alternative minimum tax;
- persons holding our common stock as part of a hedge, straddle or other risk reduction strategy or as part of a conversion transaction or other integrated investment;
- banks, insurance companies and other financial institutions;
- brokers, dealers or traders in securities;
- “controlled foreign corporations,” “passive foreign investment companies,” and corporations that accumulate earnings to avoid U.S. federal income tax;
- partnerships or other entities or arrangements treated as partnerships for U.S. federal income tax purposes (and investors therein);
- tax-exempt organizations or governmental organizations;
- persons deemed to sell our common stock under the constructive sale provisions of the Code;
- persons who hold or receive our common stock pursuant to the exercise of any employee stock option or otherwise as compensation;
- persons subject to special tax accounting rules as a result of any item of gross income with respect to our common stock being taken into account in an applicable financial statement;
- tax-qualified retirement plans; and
- “qualified foreign pension funds” as defined in Section 897(l)(2) of the Code and entities all of the interests of which are held by qualified foreign pension funds.

If an entity or arrangement treated as a partnership for U.S. federal income tax purposes holds our common stock, the tax treatment of a partner in the partnership will depend on the status of the partner, the activities of the partnership and certain determinations made at the partner level. Accordingly, partnerships holding our common stock and the partners in such partnerships should consult their tax advisors regarding the U.S. federal income tax consequences to them.

THIS DISCUSSION IS FOR INFORMATIONAL PURPOSES ONLY AND IS NOT TAX ADVICE. INVESTORS SHOULD CONSULT THEIR TAX ADVISORS WITH RESPECT TO THE APPLICATION OF THE U.S. FEDERAL INCOME TAX LAWS TO THEIR PARTICULAR SITUATIONS AS WELL AS ANY TAX CONSEQUENCES OF THE PURCHASE, OWNERSHIP AND DISPOSITION OF OUR COMMON STOCK ARISING UNDER THE U.S. FEDERAL ESTATE OR GIFT TAX LAWS OR UNDER THE LAWS OF ANY STATE, LOCAL OR NON-U.S. TAXING JURISDICTION OR UNDER ANY APPLICABLE INCOME TAX TREATY.

Definition of a Non-U.S. Holder

For purposes of this discussion, a “Non-U.S. Holder” is any beneficial owner of our common stock that is neither a “U.S. person” nor an entity treated as a partnership for U.S. federal income tax purposes. A U.S. person is any person that, for U.S. federal income tax purposes, is or is treated as any of the following:

- an individual who is a citizen or resident of the United States;
- a corporation created or organized under the laws of the United States, any state thereof, or the District of Columbia;
- an estate, the income of which is subject to U.S. federal income tax regardless of its source; or
- a trust that (1) is subject to the primary supervision of a U.S. court and the control of one or more “United States persons” (within the meaning of Section 7701(a)(30) of the Code), or (2) has a valid election in effect to be treated as a United States person for U.S. federal income tax purposes.

Distributions

As described in the section entitled “Dividend Policy,” we do not anticipate declaring or paying dividends to holders of our common stock in the foreseeable future. However, if we do make distributions of cash or property on our common stock, such distributions will constitute dividends for U.S. federal income tax purposes to the extent paid from our current or accumulated earnings and profits, as determined under U.S. federal income tax principles. Amounts not treated as dividends for U.S. federal income tax purposes will constitute a return of capital and first be applied against and reduce a Non-U.S. Holder’s adjusted tax basis in its common stock, but not below zero. Any excess will be treated as capital gain and will be treated as described below under “—Sale or Other Taxable Disposition.”

Subject to the discussion below on effectively connected income, dividends paid to a Non-U.S. Holder of our common stock will be subject to U.S. federal withholding tax at a rate of 30% of the gross amount of the dividends (or such lower rate specified by an applicable income tax treaty, provided the Non-U.S. Holder furnishes a valid IRS Form W-8BEN or W-8BEN-E (or other applicable documentation) certifying qualification for the lower treaty rate). A Non-U.S. Holder that does not timely furnish the required documentation, but that qualifies for a reduced treaty rate, may obtain a refund of any excess amounts withheld by timely filing an appropriate claim for refund with the IRS. Non-U.S. Holders should consult their tax advisors regarding their entitlement to benefits under any applicable income tax treaty.

If dividends paid to a Non-U.S. Holder are effectively connected with the Non-U.S. Holder’s conduct of a trade or business within the United States (and, if required by an applicable income tax treaty, the Non-U.S. Holder maintains a permanent establishment in the United States to which such dividends are attributable), the Non-U.S. Holder will be exempt from the U.S. federal withholding tax described above. To claim the exemption, the Non-U.S. Holder must furnish to the applicable withholding agent a valid IRS Form W-8ECI, certifying that the dividends are effectively connected with the Non-U.S. Holder’s conduct of a trade or business within the United States.

Any such effectively connected dividends will be subject to U.S. federal income tax on a net income basis at the regular graduated rates. A Non-U.S. Holder that is a corporation also may be subject to a branch profits tax at

[Table of Contents](#)

a rate of 30% (or such lower rate specified by an applicable income tax treaty) on such effectively connected dividends, as adjusted for certain items. Non-U.S. Holders should consult their tax advisors regarding any applicable tax treaties that may provide for different rules.

Sale or Other Taxable Disposition

A Non-U.S. Holder will not be subject to U.S. federal income tax on any gain realized upon the sale or other taxable disposition of our common stock unless:

- the gain is effectively connected with the Non-U.S. Holder's conduct of a trade or business within the United States (and, if required by an applicable income tax treaty, the Non-U.S. Holder maintains a permanent establishment in the United States to which such gain is attributable);
- the Non-U.S. Holder is a nonresident alien individual present in the United States for 183 days or more during the taxable year of the disposition and certain other requirements are met; or
- our common stock constitutes a U.S. real property interest ("USRPI") by reason of our status as a U.S. real property holding corporation ("USRPHC") for U.S. federal income tax purposes.

Gain described in the first bullet point above generally will be subject to U.S. federal income tax on a net income basis at the regular graduated rates. A Non-U.S. Holder that is a corporation also may be subject to a branch profits tax at a rate of 30% (or such lower rate specified by an applicable income tax treaty) on such effectively connected gain, as adjusted for certain items.

Gain described in the second bullet point above will be subject to U.S. federal income tax at a rate of 30%, which may be offset by U.S. source capital losses of the Non-U.S. Holder (even though the individual is not considered a resident of the United States), provided the Non-U.S. Holder has timely filed U.S. federal income tax returns with respect to such losses.

With respect to the third bullet point above, we believe we currently are not, and do not anticipate becoming, a USRPHC. Because the determination of whether we are a USRPHC depends, however, on the fair market value of our USRPIs relative to the fair market value of our non-U.S. real property interests and our other business assets, there can be no assurance we currently are not a USRPHC or will not become one in the future. Even if we are or were to become a USRPHC, gain arising from the sale or other taxable disposition by a Non-U.S. Holder of our common stock will not be subject to U.S. federal income tax if our common stock is "regularly traded," as defined by applicable Treasury Regulations, on an established securities market, and such Non-U.S. Holder owned, actually and constructively, 5% or less of our common stock throughout the shorter of the five-year period ending on the date of the sale or other taxable disposition or the Non-U.S. Holder's holding period.

Non-U.S. Holders should consult their tax advisors regarding potentially applicable income tax treaties that may provide for different rules.

Information Reporting and Backup Withholding

Information returns will be filed with the IRS in connection with payments of dividends and the proceeds from a sale or other disposition of our common stock. A Non-U.S. Holder may have to comply with certification procedures to establish that it is not a U.S. person in order to avoid information reporting and backup withholding requirements. The certification procedures required to claim a reduced rate of withholding under a treaty generally will satisfy the certification requirements necessary to avoid the backup withholding as well. Backup withholding is not an additional tax. The amount of any backup withholding from a payment to a Non-U.S. Holder will be allowed as a credit against such holder's U.S. federal income tax liability and may entitle such holder to a refund, provided that the required information is timely furnished to the IRS.

[Table of Contents](#)

Copies of information returns that are filed with the IRS may also be made available under the provisions of an applicable treaty or agreement to the tax authorities of the country in which the Non-U.S. Holder resides or is established.

Additional Withholding Requirements (FATCA)

Under the Foreign Account Tax Compliance Act (“FATCA”), a 30% U.S. federal withholding tax may apply to any dividends paid on our securities to (i) a “foreign financial institution” (as specifically defined in the Code) which does not provide sufficient documentation, typically on IRS Form W-8BEN-E, evidencing either (x) an exemption from FATCA, or (y) its compliance (or deemed compliance) with FATCA (which may alternatively be in the form of compliance with an intergovernmental agreement with the U.S.) in a manner which avoids withholding, or (ii) a “non-financial foreign entity” (as specifically defined in the Code), which does not provide sufficient documentation, typically on IRS Form W-8BEN-E, evidencing either (x) an exemption from FATCA, or (y) adequate information regarding certain substantial U.S. beneficial owners of such entity (if any). If a dividend payment is both subject to withholding under FATCA and subject to the withholding tax discussed above under “Distributions,” the withholding under FATCA may be credited against, and therefore reduce, such other withholding tax. An intergovernmental agreement between the U.S. and an applicable foreign country may modify these requirements.

Under certain circumstances, a Non-U.S. Holder might be eligible for refunds or credits of such taxes. FATCA currently applies to dividends paid on our common stock. The Treasury Secretary has issued proposed regulations providing that the withholding provisions under FATCA do not apply with respect to gross proceeds from a sale or other disposition of our securities, which may be relied upon by taxpayers until final regulations are issued. You should consult your own tax advisors regarding these requirements and whether they may be relevant to your ownership and disposition of our common stock.

The underwriters and the representatives are collectively referred to as the “underwriters” and the “representatives,” respectively. The underwriters are offering the shares of common stock subject to their acceptance of the shares from us and subject to prior sale. The underwriting agreement provides that the obligations of the several underwriters to pay for and accept delivery of the shares of common stock offered by this prospectus are subject to the approval of certain legal matters by their counsel and to certain other conditions. The underwriters are obligated to take and pay for all of the shares of common stock offered by this prospectus if any such shares are taken. However, the underwriters are not required to take or pay for the shares covered by the underwriters’ option to purchase additional shares described below.

The underwriters initially propose to offer part of the shares of common stock directly to the public at the offering price listed on the cover page of this prospectus and part to certain dealers at a price that represents a concession not in excess of \$ _____ per share under the public offering price. After the initial offering of the shares of common stock, the offering price and other selling terms may from time to time be varied by the representatives. The offering of the shares of common stock by the underwriters is subject to receipt and acceptance and subject to the underwriters’ right to reject any order in whole or in part.

We have granted the underwriters an option for a period of 30 days from the date of this prospectus, to purchase up to _____ additional shares of common stock at the initial public offering price listed on the cover page of this prospectus, less underwriting discounts and commissions. To the extent the option is exercised, each underwriter will become obligated, subject to certain conditions, to purchase about the same percentage of the additional shares of common stock as the number listed next to the underwriter’s name in the preceding table bears to the total number of shares of common stock listed next to the names of all underwriters in the preceding table.

Table of Contents

The following table shows the per share and total public offering price, underwriting discounts and commissions to be paid to the underwriters by us, and proceeds before expenses to us. These amounts are shown assuming both no exercise and full exercise of the underwriters' option to purchase up to an additional _____ shares of common stock.

	<u>Per Share</u>	<u>Total</u>	
		<u>No Exercise</u>	<u>Full Exercise</u>
Public offering price	\$	\$	\$
Underwriting discounts and commissions to be paid by us	\$	\$	\$
Proceeds, before expenses, to us	\$	\$	\$

The estimated offering expenses payable by us, exclusive of the underwriting discounts and commissions, are approximately \$ _____. We have agreed to reimburse the underwriters for expense relating to clearance of this offering with the Financial Industry Regulatory Authority up to \$ _____ and other expenses up to \$ _____.

The underwriters have informed us that they do not intend sales to discretionary accounts to exceed 5% of the total number of shares of common stock offered by them.

We intend to apply to have the shares of common stock listed on the NYSE under the trading symbol "SARO."

We and all directors and executive officers and the holders of our outstanding stock and stock options have agreed that, subject to customary conditions, without the prior written consent of _____ on behalf of the underwriters, we and they will not, and will not publicly disclose an intention to, during the period ending _____ days after the date of this prospectus (the "restricted period"):

- offer, pledge, sell, contract to sell, sell any option or contract to purchase, purchase any option or contract to sell, grant any option, right or warrant to purchase, lend or otherwise transfer or dispose of, directly or indirectly, any shares of common stock or any securities convertible into or exercisable or exchangeable for shares of common stock;
- file any registration statement with the SEC relating to the offering of any shares of common stock, or any securities convertible into or exercisable or exchangeable for shares of common stock; or
- enter into any swap or other arrangement that transfers to another, in whole or in part, any of the economic consequences of ownership of the common stock;

whether any such transaction described above is to be settled by delivery of common stock or such other securities, in cash or otherwise. In addition, we and each such person agrees that, without the prior written consent of _____ on behalf of the underwriters, we or such other person will not, during the restricted period, make any demand for, or exercise any right with respect to, the registration of any shares of common stock or any security convertible into or exercisable or exchangeable for common stock.

In order to facilitate the offering of the common stock, the underwriters may engage in transactions that stabilize, maintain or otherwise affect the price of the common stock. Specifically, the underwriters may sell more shares than they are obligated to purchase under the underwriting agreement, creating a short position. A short sale is covered if the short position is no greater than the number of shares available for purchase by the underwriters under the option to purchase additional shares. The underwriters can close out a covered short sale by exercising the option to purchase additional shares or purchasing shares in the open market. In determining the source of shares to close out a covered short sale, the underwriters will consider, among other things, the open market price of shares compared to the price available under the option to purchase additional shares. The

[Table of Contents](#)

underwriters may also sell shares of common stock in excess of the option to purchase additional shares, creating a naked short position. The underwriters must close out any naked short position by purchasing shares in the open market. A naked short position is more likely to be created if the underwriters are concerned that there may be downward pressure on the price of the common stock in the open market after pricing that could adversely affect investors who purchase in this offering. As an additional means of facilitating this offering, the underwriters may bid for, and purchase, shares of common stock in the open market to stabilize the price of the common stock.

The underwriters may also engage in other activities that stabilize, maintain or otherwise affect the price of the common stock, including the imposition of penalty bids. This means that if the representatives of the underwriters purchase common stock in the open market in stabilizing transactions or to cover short sales, the representatives can require the underwriters that sold those shares as part of this offering to repay the underwriting discount received by them.

These activities may raise or maintain the market price of the common stock above independent market levels or prevent or retard a decline in the market price of the common stock. The underwriters are not required to engage in these activities and may end any of these activities at any time. The underwriters may carry out these transactions on the NYSE, in the over-the-counter market or otherwise.

We and the underwriters have agreed to indemnify each other against certain liabilities, including liabilities under the Securities Act.

A prospectus in electronic format may be made available on websites maintained by one or more underwriters participating in this offering. The representatives may agree to allocate a number of shares of common stock to underwriters for sale to their online brokerage account holders. Internet distributions will be allocated by the representatives to underwriters that may make Internet distributions on the same basis as other allocations.

The underwriters and their respective affiliates are full service financial institutions engaged in various activities, which may include securities trading, commercial and investment banking, financial advisory, investment management, investment research, principal investment, hedging, financing and brokerage activities. Certain of the underwriters and their respective affiliates have, from time to time, performed, and may in the future perform, various financial advisory and investment banking services for us, for which they received or will receive customary fees and expenses. For instance, we have engaged certain underwriters and/or their affiliates as financial advisors to certain ongoing alternative financing activities and strategies of the Company, for which such underwriters and/or their respective affiliates will be entitled to customary fees and expenses. The financial incentives associated with these engagements may cause potential conflicts of interest. In addition, certain of the underwriters and their affiliates are arrangers, agents, bookrunners and/or lenders under the 2023 Term Loan Facilities and our Credit Facilities. Certain of the underwriters or their affiliates that have a lending relationship with us routinely hedge their credit exposure to us consistent with their customary risk management policies. A typical such hedging strategy would include these underwriters or their affiliates hedging such exposure by entering into transactions which consist of either the purchase of credit default swaps or the creation of short positions in our securities. Certain of the underwriters may offer and sell the shares of common stock through one or more of their respective affiliates or other registered broker-dealers or selling agents. “Wolfe | Nomura Alliance” is the marketing name used by Wolfe Research Securities and Nomura Securities International, Inc. in connection with certain equity capital markets activities conducted jointly by the firms. Both Nomura Securities International, Inc. and WR Securities, LLC are serving as underwriters in the offering described herein. In addition, WR Securities, LLC and certain of its affiliates may provide sales support services, investor feedback, investor education, and/or other independent equity research services in connection with this offering.

In addition, in the ordinary course of their various business activities, the underwriters and their respective affiliates may make or hold a broad array of investments and actively trade debt and equity securities (or related

derivative securities) and financial instruments (including bank loans) for their own account and for the accounts of their customers and may at any time hold long and short positions in such securities and instruments. Such investment and securities activities may involve our securities and instruments. The underwriters and their respective affiliates may also make investment recommendations or publish or express independent research views in respect of such securities or instruments and may at any time hold, or recommend to clients that they acquire, long or short positions in such securities and instruments.

Pricing of the Offering

Prior to this offering, there has been no public market for our common stock. The initial public offering price was determined by negotiations between us and the representatives. Among the factors considered in determining the initial public offering price were the information set forth in this prospectus and otherwise available to the representatives, an assessment of our management, the general condition of the securities markets at the time of this offering, the recent market prices of, and demand for, publicly traded common stock of generally comparable companies, our future prospects and those of our industry in general, our sales, earnings and certain other financial and operating information in recent periods, the price-earnings ratios, price-sales ratios and other factors deemed relevant by the underwriters and us.

Neither we nor the underwriters can assure investors that an active trading market will develop for our common stock, or that the common stock will trade in the public market at or above the initial public offering price.

European Economic Area

In relation to each Member State of the European Economic Area (each, a “Member State”), no offer of shares may be made to the public in that Member State other than:

(a) to any legal entity which is a qualified investor as defined in the Prospectus Regulation (as defined below);

(b) to fewer than 150 natural or legal persons (other than qualified investors as defined in the Prospectus Regulation), subject to obtaining the prior consent of the representatives; or

(c) in any other circumstances falling within Article 1(4) of the Prospectus Regulation, provided that no such offer of shares of common stock shall require us or any of our representatives to publish a prospectus pursuant to Article 3 of the Prospectus Regulation or supplement a prospectus pursuant to Article 23 of the Prospectus Regulation and each person who initially acquires any shares or to whom any offer is made will be deemed to have represented, acknowledged and agreed to and with each of the representatives and us that it is a “qualified investor” as defined in the Prospectus Regulation.

In the case of any shares of common stock being offered to a financial intermediary as that term is used in Article 5 of the Prospectus Regulation, each such financial intermediary will be deemed to have represented, acknowledged and agreed that the shares acquired by it in the offer have not been acquired on a nondiscretionary basis on behalf of, nor have they been acquired with a view to their offer or resale to, persons in circumstances which may give rise to an offer of any shares of common stock to the public other than their offer or resale in a Member State to qualified investors as so defined or in circumstances in which the prior consent of the representatives has been obtained to each such proposed offer or resale.

For the purposes of this provision, the expression an “offer of shares of common stock to the public” in relation to any shares of common stock in any Member State means the communication in any form and by means of sufficient information on the terms of the offer and the shares of common stock to be offered so as to enable an investor to decide to purchase shares of common stock, and the expression “Prospectus Regulation” means Regulation (EU) 2017/1129 (as amended).

United Kingdom

No shares of common stock have been offered or will be offered pursuant to the offering to the public in the United Kingdom prior to the publication of a prospectus in relation to the shares of common stock which has been approved by the Financial Conduct Authority, except that the shares of common stock may be offered to the public in the United Kingdom at any time:

(a) to any legal entity which is a qualified investor as defined under Article 2 of the UK Prospectus Regulation (as defined below);

(b) to fewer than 150 natural or legal persons (other than qualified investors as defined under Article 2 of the UK Prospectus Regulation), subject to obtaining the prior consent of any underwriter for any such offer; or

(c) in any other circumstances falling within Section 86 of the Financial Services and Markets Act 2000 (“FSMA”);

provided that no such offer of the shares of common stock shall require any underwriter to publish a prospectus pursuant to Section 85 of the FSMA or supplement a prospectus pursuant to Article 23 of the UK Prospectus Regulation.

[Table of Contents](#)

For the purposes of this provision, the expression an “offer to the public” in relation to the shares in the United Kingdom means the communication in any form and by any means of sufficient information on the terms of the offer and any shares to be offered so as to enable an investor to decide to purchase or subscribe for any shares and the expression “UK Prospectus Regulation” means Regulation (EU) 2017/1129 as it forms part of domestic law by virtue of the European Union (Withdrawal) Act 2018 and each person who initially acquires any shares of common stock or to whom any offer is made will be deemed to have represented, warranted and agreed to and with each of the international placement agents and the Company that it is a qualified investor within the meaning of Article 2(e) of the UK Prospectus Regulation.

Each person in the UK who receives any communication in respect of, or who acquires any of our shares of common stock under, the offers to the public contemplated in this prospectus, or to whom our shares of common stock are otherwise made available, will be deemed to have represented, warranted, acknowledged and agreed to and with each international placement agent, the Company and the underwriters that it and any person on whose behalf it acquires our shares of common stock is: (i) a qualified investor within the meaning of Article 2(e) of the UK Prospectus Regulation; and (ii) in the case of any of our shares of common stock by it as a financial intermediary, as that term is used in Article 5(1) of the UK Prospectus Regulation, (A) our shares of common stock acquired by it in the offer have not been acquired on behalf of, nor have they been acquired with a view to their offer or resale to, persons in the UK other than qualified investors, as that term is defined in the UK Prospectus Regulation, or in circumstances in which the prior consent of the international placement agents has been given to the offer or resale; or (B) where our shares of common stock have been acquired by it on behalf of persons in the UK other than qualified investors, the offer of those shares of common stock fall within one of the exemptions listed in points (b) and (d) to Article 1(4) of the UK Prospectus Regulation.

In this section, the expression an “offer” of shares of common stock to the public in relation to any shares of common stock means the communication in any form and by any means of sufficient information on the terms of the offer and the shares of common stock to be offered so as to enable an investor to decide to purchase or subscribe for the shares of common stock.

This prospectus is only for distribution to and directed at: (i) in the United Kingdom, persons having professional experience in matters relating to investments falling within Article 19(5) of the Financial Services and Markets Act 2000 (Financial Promotion) Order 2005 (as amended) (the “Order”) and high net worth entities falling within Article 49(2)(a) to (d) of the Order; (ii) are persons falling within Article 49(2)(a) to (d) (“high net worth companies, unincorporated associations etc.”) of the Financial Promotion Order; (iii) persons who are outside the United Kingdom; and (iv) persons to whom an invitation or inducement to engage in investment activity (within the meaning of Section 21 of the FSMA) in connection with the issue or sale of any securities may otherwise lawfully be communicated or caused to be communicated (all such persons together being referred to as “Relevant Persons”). Report of Independent Registered Public Accounting Firm

To the stockholder and board of directors of Dynasty Parent Co., Inc.

Opinion on the Financial Statements

We have audited the accompanying consolidated balance sheets of Dynasty Parent Co., Inc. and its subsidiaries (together, the Company) as of December 31, 2023 and 2022, and the related consolidated statements of operations, comprehensive income (loss), stockholder's equity and cash flows for each of the three years in the period ended December 31, 2023, including the related notes (collectively referred to as the consolidated financial statements). In our opinion, the consolidated financial statements present fairly, in all material respects, the financial position of the Company as of December 31, 2023 and 2022, and the results of its operations and its cash flows for each of the three years in the period ended December 31, 2023 in conformity with accounting principles generally accepted in the United States of America.

Basis for Opinion

These consolidated financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on the Company's consolidated financial statements based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (PCAOB) and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits of these consolidated financial statements in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement, whether due to error or fraud.

Our audits included performing procedures to assess the risks of material misstatement of the consolidated financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the consolidated financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements. We believe that our audits provide a reasonable basis for our opinion.

Critical Audit Matters

The critical audit matter communicated below is a matter arising from the current period audit of the consolidated financial statements that was communicated or required to be communicated to the audit committee and that (i) relates to accounts or disclosures that are material to the consolidated financial statements and (ii) involved our especially challenging, subjective, or complex judgments. The communication of critical audit matters does not alter in any way our opinion on the consolidated financial statements, taken as a whole, and we are not, by communicating the critical audit matter below, providing a separate opinion on the critical audit matter or on the accounts or disclosures to which it relates.

Revenue recognition—fixed price and time and material contracts

As described in Note 2 (f) to the consolidated financial statements, the Company's maintenance contracts with customers include fixed price and time and material contracts. For the year ended December 31, 2023, a significant portion of the Company's revenue from contracts with customers of \$4.5 billion is from fixed price and time and material contracts. The revenues for these types of contracts are recognized over time by measuring the progress towards satisfaction of the performance obligations using costs. Management believes that costs are an appropriate measure of progress towards satisfaction of the performance obligation since these measures reasonably depict the progress of the work effort. To determine the revenue recognized at each period end for contracts in progress, management has elected to use a portfolio approach by applying an estimated margin by engine platform to the contract costs incurred. The estimated margin by engine platform is based on average historical margins on similar completed contracts. Management applies judgment when determining the estimated margin by engine platform, which includes evaluating the appropriateness of using average historical margins by engine platform for completed contracts on similar contracts in progress.

The principal considerations for our determination that performing procedures relating to revenue recognition for fixed price and time and material contracts is a critical audit matter are (i) the judgment by management when determining the estimated margin by engine platform, which includes evaluating the appropriateness of using average historical margins by engine platform for completed contracts on similar contracts in progress, and (ii) the auditor judgment and high degree of auditor effort in performing procedures related to the revenue recognized for contracts in progress at the period end.

Addressing the matter involved performing procedures and evaluating audit evidence in connection with forming our overall opinion on the consolidated financial statements. These procedures included testing the effectiveness of controls relating to the accumulation of costs per contract, or agreeing the accumulation of costs per contract to supporting documents on a sample basis. These procedures also included, among others, (i) testing management's process for determining the revenue recognized, and (ii) evaluating the reasonableness of the estimated margin by engine platform. Evaluating the reasonableness of the estimated margin by engine platform involved, for a sample of contracts in progress, (i) comparing management's estimated margin by engine platform to historical average margins of similar completed contracts, and (ii) considering evidence obtained in other areas of the audit.

DYNASTY PARENT CO., INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

1 Nature of operations and basis of presentation

Operations

Dynasty Parent Co., Inc. (the “Company”) was incorporated on September 5, 2018, in the state of Delaware and is an independent provider of aftermarket services for fixed and rotary wing aircraft gas turbine engines and auxiliary power units (“APUs”) to the commercial, business and military aircraft markets. The Company also provides aftermarket and upgrade services for business aviation and helicopter airframes and avionics, providing customers within those markets with comprehensive value-added solutions.

Basis of presentation

The accompanying consolidated financial statements are prepared in accordance with the accounting principles generally accepted in the United States of America (“U.S. GAAP”) and include the accounts of Dynasty Parent Co., Inc. and its subsidiaries.

2 Summary of significant accounting policies

a) ***Principles of consolidation***

The consolidated financial statements include the accounts of the Company and its subsidiaries. All intercompany accounts and transactions have been eliminated. Non-controlling interests in the results and equity of subsidiaries are shown separately in the consolidated statement of operations, statement of comprehensive income, statement of changes in stockholder’s equity and balance sheet respectively.

The continuous assessment of variable interest entities (“VIEs”) puts emphasis on a qualitative rather than quantitative analysis to determine the primary beneficiary of a VIE. A VIE must be consolidated if the Company has both (i) the power to direct the activities of the VIE that most significantly impact the entity’s economic performance, and (ii) the obligation to absorb losses or the right to receive benefits from the VIE that could potentially be significant to the VIE.

The Company is involved in an entity that qualifies as a VIE. This entity is a trust account in which the customer deposits cash related to an engine repair and maintenance agreement, generally in advance of the services to be performed under the contract, based on an agreed upon engine operating fee. The financial arrangement results in the Company receiving financial benefits from the VIE, however, it does not empower the Company to direct the activities of the VIE that most significantly impact the VIEs’ economic performance. Consequently, the VIE is not consolidated into the financial results of the Company.

The VIE had restricted cash equivalents of \$57.6 million and \$10.4 million as at December 31, 2023 and December 31, 2022, respectively.

b) ***Segment information***

The Company determined its operating segments after considering the Company’s organizational structure and the information regularly reviewed by the chief operating decision maker (“CODM”) to evaluate financial performance and allocate resources. The Company’s chief executive officer, who is the CODM, reviews financial information on an operating segment basis for purposes of evaluating financial performance and allocating resources. Based on these factors, the Company determined that it operates and manages its business as two operating segments: i) Engine Services and ii) Component Repair Services and, accordingly, has two reportable segments for financial reporting purposes.

DYNASTY PARENT CO., INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

c) ***Translation of foreign currencies***

The functional currency of the Company and its subsidiaries is the U.S. dollar as revenues, expenses, cash flows, financing and intra-entity transactions are predominantly in U.S. dollars, with exception of SAComponent Services (Ireland) Limited which the functional currency is the Euro. The reporting currency of the Company is U.S. Dollar.

Transactions in currencies other than the functional currency are recorded at the exchange rate prevailing on the date of the transaction. Monetary assets and liabilities denominated in foreign currencies are remeasured in the functional currency at the exchange rates in effect as at the consolidated balance sheet dates. Non-monetary assets and liabilities denominated in foreign currencies are measured in the functional currency at the exchange rate in effect at the date of the transaction. All gains and losses from the remeasurement of assets and liabilities denominated in currencies other than the respective functional currency are included in the Consolidated Statements of Operations.

Translation of functional currencies to reporting currency for assets and liabilities is recorded using the exchange rates at each balance sheet date, revenue and expenses are translated at average rates prevailing during the reporting period or at the date of the transaction, stockholders' equity is translated at historical rates. Adjustments resulting from translating functional currency into reporting currency are recorded as a separate component of Accumulated Other Comprehensive Income (Loss) in the Consolidated Statements of Stockholder's Equity.

d) ***Business combinations***

Business combinations are accounted for using the acquisition method of accounting, in accordance with ASC 805, Business Combinations. The acquisition method requires identifiable assets acquired and liabilities assumed to be recognized and measured, with limited exceptions, at fair value on the acquisition date, the date the acquirer obtains control of the acquired business. The amount by which the purchase price paid exceeds the net fair value of assets acquired and liabilities assumed is recorded as goodwill.

The determination of estimated fair values requires judgment and involves the use of significant estimates and assumptions, including assumptions with respect to future cash inflows and outflows, discount rates, and asset lives, among other items. The fair values presented are subject to adjustments during a measurement period of up to one year from the acquisition date. The measurement period provides the Company with the ability to adjust the fair values of acquired assets for new information that is obtained about circumstances that existed as of the acquisition date.

Transactions costs associated with business combinations are expensed as they are incurred.

e) ***Use of accounting estimates***

The preparation of consolidated financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities as at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting periods. Estimates are used when accounting for the allowance for expected credit losses, slow moving or obsolete inventory, recognizing revenue over time, the accounting for engine utilization contracts, establishment of useful lives for long-lived assets and impairment of goodwill and other long-lived assets, purchase price accounting related to business acquisitions, employee benefit plans, stock-based compensation, income taxes, provisions for losses on contracts, warranty reserves, insurance claims and other contingencies, among others. The Company evaluates and updates its assumptions and estimates on an ongoing basis. Actual results could differ from those estimates. The relevant assumptions and estimates used by the Company are described within the accounting policies disclosed within this note.

DYNASTY PARENT CO., INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

f) ***Revenue recognition***

The Company has three significant types of maintenance contracts with customers: fixed price contracts, time and material contracts and engine utilization contracts. The performance obligations in the contracts can include: (i) repair services and parts/modules embodied and (ii) engine rental revenue.

The Company has customer contracts that are started and completed within the same year, as well as contracts derived from long-term agreements and programs that can span several years. The Company holds long-term agreements with many of its major customers which define specific program requirements. Purchase orders (or authorizations to proceed) are issued under these agreements to reflect presently enforceable rights and obligations for the services being purchased. The units for accounting purposes (“accounting contract”) are typically determined by the purchase order. Management considers a number of factors when determining the existence of an accounting contract and the related performance obligations that include, but are not limited to, the nature and substance of the business exchange, the contractual terms and conditions, the promised products and services, the termination provisions in the contract, presently enforceable rights and obligations of the parties to the contract, whether the promised products and services are distinct or capable of being distinct within the context of the contract, as well as how and when products and services are transferred to the customer. Changes in estimates of revenue, cost of revenue, and the related impact to operating profit are recognized prospectively.

The majority of the Company’s accounting contracts have a single performance obligation as the promise is to provide services to maintain, repair or overhaul an engine. The transaction price of a contract reflects the consideration the Company expects to receive for fully satisfying the performance obligation in the contract.

The Company typically provides warranties on all services to provide assurance to the customers that the services meet the specifications in the contract. Generally, warranties are not priced separately because customers cannot purchase them independently of the services under contract so they do not create performance obligations. Provisions for estimated expenses are accrued at the time of sale and are recorded as cost of revenue.

Fixed price and time and material contracts

Revenue is recognized as control of promised products or services transfer to a customer and is recognized in an amount that reflects the consideration that the Company expects to receive in exchange for those products or services. Revenue is recognized over time as work progresses and the Company is entitled to the reimbursement of costs plus a reasonable profit for work performed for which the Company has no alternate use. As performance obligations are satisfied over time, the Company recognizes revenue using an input method with revenue amounts being recognized proportionately as costs are incurred relative to total expected costs to satisfy the performance obligation. The Company believes that costs incurred are an appropriate measure of progress towards satisfaction of the performance obligation since this measure reasonably depicts the progress of the work effort. To determine the revenue recognized at each period end for contracts in progress, the Company has elected to use a portfolio approach by applying an estimated margin by engine platform to the contract costs incurred. The estimated margin by engine platform is based on average historical margins on similar completed contracts. Judgment is required when determining the estimated margin by engine platform, which includes evaluating the appropriateness of using average historical margins by engine platform for completed contracts on similar contracts in progress. The Company’s fixed price and time and material contracts with customers generally require payment under normal commercial terms after delivery. Payment terms are typically within 30 to 120 days of delivery.

DYNASTY PARENT CO., INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Engine Utilization Contracts

Engine utilization contracts are agreements in which the Company will provide a stand ready service of scheduled and unscheduled maintenance events. Revenue is recognized over time using an input method with revenue amounts being recognized proportionately as costs are incurred relative to total expected costs to satisfy the performance obligation. The Company identifies and estimates the variable consideration of the total contract revenue and costs of the engine utilization contract. The estimates used are based on the Company's expected value with respect to the customer's utilization of engines during the contract and only recognized to the extent that it is probable that a significant reversal in the amount of cumulative revenue recognized will not occur when the uncertainty associated with the variable consideration is subsequently resolved. As a result, such estimates may be materially impacted by changes in the customer's engine utilization including, as a result of general economic slowdowns, fleet retirements and changes in the customer's agreements. As a significant change in one or more of these estimates could affect the profitability of a contract, estimates are reviewed and updated on a quarterly basis. Revenue and profit in future periods of contract performance is recognized using the adjusted estimate. The Company's engine utilization contracts with customers generally require monthly payments under normal commercial terms based on flight hours. The timing of satisfaction of performance obligations and actual receipt of payment from a customer may differ and affect the balance of contract assets and contract liabilities. The Company's current contracts do not include any significant financing components as the timing of the transfer of the underlying products and services under contract are at the customer's discretion.

For contracts that are deemed to be loss contracts, the Company establishes forward loss reserves for total estimated costs that are in excess of total estimated consideration in the period in which they become known. These reserves are based on estimates for accounting contracts.

Engine rental

The Company owns rental engines which it leases to satisfy customers short-term requirements. The leases are classified as operating and variable lease payments are recognized as revenue based on the hours flown multiplied by the appropriate hourly rate. The leases are renewable with fixed terms, which generally vary from one to twelve months.

Included in cost of revenue is rental engine depreciation of \$2.5 million, \$2.0 million, and \$3.6 million for the years ended December 31, 2023, December 31, 2022, and December 31, 2021.

g) ***Contract assets and contract liabilities***

Contract assets primarily represent revenues recognized for performance obligations that have been satisfied but for which amounts have not been billed. Current contract assets are those for which performance obligations are expected to be fully satisfied within 12 months of contract origination. Contract liabilities represents advance payments and billings in excess of revenue recognized. These amounts are recorded as contract liabilities until such performance obligations are satisfied, either over time as costs are incurred or at a point in time when deliveries are made. Contract assets and contract liabilities are determined on a contract-by-contract basis.

h) ***Cash***

The Company's cash position represents cash held in bank accounts. These assets are generally available to the Company on a daily basis and are highly liquid in nature.

DYNASTY PARENT CO., INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

i) ***Accounts receivable***

Accounts receivable are stated net of an allowance for expected credit losses. The Company maintains an allowance for expected credit losses to reflect the expected uncollectible amounts of accounts receivable based on past collection history and specific risks identified. In determining the required allowance, the Company considers factors such as general and industry-specific economic conditions, customer credit history, and customers' current and expected future financial performance. The majority of customers are recurring customers with an established payment history. Certain customers are required to undergo extensive credit checks prior to delivery of products or services. Regular evaluations of customer payment experience, current financial condition, and risk analysis are performed. The Company may require collateral in the form of security interest in assets or letters of credit for transactions executed on other than normal trade terms. The allowance for expected credit loss provision is recorded as an element of selling, general and administrative expenses. Accounts receivable together with the associated allowance are written off when there is no realistic prospect of future recovery and all collateral has been realized or transferred to the Company. If, in a subsequent year, the write-off is recovered, the recovery is recognized in the Consolidated Statements of Operations.

j) ***Inventories***

Inventories are recorded at the lower of cost and net realizable value with cost being determined on a first-in first-out basis. Costs include materials, direct labor, and an allocation of overhead in the case of work in process. The Company writes down its inventories for estimated obsolescence or unmarketable inventory on a part-by-part basis using aging profiles. Aging profiles are determined based upon assumptions about future demand and market conditions. If actual future demand or market conditions are less favorable than those projected, inventory adjustments may be required. Should future demand or market conditions prove to be different than the estimates, the Company's cost of revenue may increase.

k) ***Property, plant and equipment***

Property, plant and equipment are recorded at cost less accumulated depreciation, which includes costs for significant improvements as well as those that increase the useful lives of existing assets. The cost of routine maintenance, repairs and minor renewals is expensed as incurred. When property, plant and equipment are retired or sold, the net carrying amount is eliminated and any gain or loss on disposition is recognized in the Consolidated Statements of Operations for the respective period. Depreciation is provided over the estimated useful lives of the assets or for leased assets, the lesser of this and the terms of the lease, using the straight-line method, as summarized below:

Buildings	5 to 40 years
Computer equipment and software	1 to 3 years
Machinery and equipment	3 to 20 years
Leasehold improvements	Shorter of the economic life or term of the lease – 1 to 22 years
Rental engines	Based on hours flown
Land	Not depreciated

l) ***Intangible assets***

Intangible assets comprise of separately acquired intangible assets that are initially recognized at cost and intangible assets acquired in a business combination that are recognized at their fair value at acquisition

DYNASTY PARENT CO., INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

date. Fees paid for Original Equipment Manufacturers (“OEM”) authorizations and licenses are capitalized and amortized on a straight-line basis over the life of the contract. Customer relationships, Technology and Trademark intangible assets are amortized on a straight-line basis over their estimated useful lives.

The amortization periods for the Company’s intangible assets are summarized below:

Customer relationships	10 to 25 years
OEM authorizations and licenses	3 to 30 years
Technology and other	10 to 15 years
Trademarks	15 years

m) ***Impairment of long-lived assets***

The Company reviews its long-lived assets for possible impairment when events or circumstances indicate that the carrying value of the asset group may not be recoverable. Assumptions and estimates used in the evaluation of impairment may affect the carrying value of long-lived assets, which could result in impairment charges. If the total of the undiscounted future cash flows is less than the carrying amount of the asset group, an impairment loss, if any, is recognized as the difference between the estimated fair value and the carrying value of the asset group.

There was no impairment of long-lived assets for the year ended December 31, 2023. During the year ended December 31, 2022, a \$5.8 million non-cash impairment charge of long-lived assets is included “Cost of revenues” in the Consolidated Statements of Operations. Refer to Note 7, “Property, plant and equipment, net” and Note 8, “Intangible assets, net”, for further disclosures. There was no impairment of long-lived assets for the year ended December 31, 2021.

n) ***Goodwill***

Goodwill represents the excess of the purchase price and related costs over the value assigned to net tangible and identifiable assets of businesses acquired and accounted for under the purchase method. Goodwill is not amortized, but is subject to impairment testing. Impairment testing is performed annually or when there is indication that a triggering event has occurred, such as an operating loss or a significant adverse change in the Company’s business. The Company has elected to perform its annual impairment testing as of October 1 of each year. For goodwill impairment testing, the Company has the option to first perform a qualitative assessment to determine whether the existence of events or circumstances leads to a determination that it is more likely than not that the fair value is less than its carrying amount. If the Company determines that it is not more likely than not, no additional test is required. However, if the Company concludes otherwise or elects not to perform the qualitative assessment then a quantitative impairment test is performed by comparing the fair value of the reporting unit with its carrying value, including goodwill. Projections used in impairment testing include the use of future cash flow and operating projections, which by their nature, are subjective. If the Company determines that the carrying value exceeds the fair value, an impairment to goodwill is recognized equal to the excess, and limited to the total amount of goodwill allocated to the reporting unit, as a charge in the Consolidated Statements of Operations.

The Company completed its annual goodwill impairment test during the years ended December 31, 2023, December 31, 2022 and December 31, 2021 by performing a qualitative analysis and determined that no impairment had occurred.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

o) ***Income taxes***

Deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between financial statement carrying amounts of existing assets and liabilities and their respective tax bases. Deferred tax assets are reduced by a valuation allowance to record the deferred tax assets at an amount expected to, more likely than not, be recoverable. Deferred tax assets and liabilities are estimated using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The Company does not provide taxes on undistributed earnings of foreign subsidiaries that are considered to be permanently reinvested. A portion of the tax impact of these undistributed earnings has been included in the current income tax provision of the consolidated financial statements to date due to the U.S. Global Intangible Low Tax Income (“GILTI”) rules created under the Tax Cuts and Jobs Act of 2017. The undistributed earnings as of January 1, 2018, were subject to the one-time transition tax on the mandatory deemed repatriation of cumulative foreign earnings under the Tax Cuts and Jobs Act of 2017.

The Company uses a comprehensive model to recognize, measure, present and disclose in its consolidated financial statements uncertain tax positions that the Company has taken or expects to take on a tax return (including a decision on whether to file a return in a particular jurisdiction). The consolidated financial statements will reflect expected future tax consequences of such positions presuming the taxing authorities’ full knowledge of the position and all relevant facts, but without considering time values.

p) ***Leases***

The Company’s lease arrangements primarily pertain to production facilities, office buildings, land, equipment and vehicles. Contractual agreements which provide control over the use of an asset are evaluated to determine if the agreement is, or contains, a lease at its inception date. The Company evaluates the likelihood of exercise of lease renewal options, and includes those in the lease term that are considered reasonably certain. The lease is classified as an operating or finance lease using the classification criteria set forth in ASC 842.

The Company recognizes a right of use asset and corresponding lease liability based on the present value of lease payments over the lease term. The net lease payments are discounted using the Company’s incremental borrowing rate at lease commencement considering credit risk, the lease term, and other available information as of the commencement date if the rate is not implicit in the lease agreement. Variable lease payments that depend on an index or rate are included in the calculation of operating right-of-use assets and lease liabilities using the index or rate at the lease commencement date. Future differences between the variable lease payments based on an index or rate at the lease commencement date and a subsequent date, or other variable lease payments that do not depend on an index or rate, are recorded as lease expense as they occur. The Company expenses non-lease components and leases with terms of twelve months or less as incurred. The Company’s leases do not contain any material residual value guarantees or restrictive covenants. The Company has an immaterial amount of sublease arrangements where they account for the lessee and lessor component respectively.

Right of use assets which qualify as a finance lease are capitalized and included within property, plant and equipment and depreciated over the economic life of the asset or the lease term, whichever is shorter. Interest is charged to the Consolidated Statements of Operations over the period of the lease using a constant interest rate. Depreciation of finance leases is included in the depreciation of the applicable property, plant and equipment category. Right of use assets which qualify as an operating lease are recorded as an “Operating lease right-of-use asset” and an “Operating lease liability” on the Consolidated Balance Sheets and are expensed on a straight-line basis over the life of the agreement to the Consolidated Statements of Operations.

DYNASTY PARENT CO., INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

q) ***Pension***

The Company contributes to a number of defined contribution pension plans. The Company's contributions to the defined contribution pension plans are charged to the Consolidated Statements of Operations as incurred.

The Company also contributes to defined benefit plans in France and the United Kingdom. Pension expense on the defined benefit plans are based on management's assumptions and consists of: the actuarially computed costs of pension benefits in respect of the current year's service; expected return on plan assets and imputed interest on pension obligations; and amortization of experience gains and losses, assumption changes and plan amendments over the expected average remaining service life of the employees group. In addition, the Company is required to recognize as a component of other comprehensive income (loss) the actuarial gains and losses and the prior service costs and credits that arise during the year but which are not immediately recognized as components of net periodic benefit costs. The amortization of actuarial gains and losses is determined by using a 10% corridor of the greater of the market value of assets or the accumulated postretirement benefit obligation. Total unamortized gains and losses in excess of the corridor are amortized over the average remaining future service. The funded status of the defined benefit pension plan is recognized as an asset or liability in the consolidated financial statements.

r) ***Warranty costs***

The Company provides reserves to account for estimated costs associated with current and future warranty claims. Warranty claims arise when a product the Company services fails to perform to required specifications during the relevant warranty period. The warranty reserve is provided for by increasing cost of revenue by an estimate based on current and historical warranty claims and associated repair costs.

s) ***Stock-based compensation***

The Company grants equity-based awards to employees as compensation. The equity-based awards vest upon a liquidity event. Compensation expense will be recorded at the time the liquidity event becomes probable based on the grant date fair value of the award.

t) ***Government grants***

Government grants are recognized when there is reasonable assurance that the grant will be received and all conditions will be complied with. The grant is recognized over the periods necessary to match the grant on a systematic basis to the costs that it is intended to compensate.

u) ***Financial instruments***

Financial assets and liabilities are recorded on the Consolidated Balance Sheets when the Company becomes a party to the financial instrument. The Company classifies its financial assets and liabilities as (i) measured subsequently at fair value, either through profit and loss or through other comprehensive income (loss), and (ii) measured at amortized cost. The classification of the financial asset or liability is dependent on the business model and the nature of the cash flows associated with the financial asset or liability. The Company will only change the classification of financial assets when the model for managing those financial assets has changed.

The Company's financial instruments include cash, accounts receivable, accounts payable, accrued interest, due to and advances to related parties, long-term debt consisting of Term Loans and Senior Notes, recorded at amortized cost. Interest rate swaps, interest rate caps, and foreign exchange contracts are accounted for as cash flow hedges.

DYNASTY PARENT CO., INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Concentration of credit risk

Financial instruments that potentially subject the Company to concentrations of credit risk consist principally of accounts receivable and cash. The Company has assessed the credit risk and believes that the concentration of credit risk associated with accounts receivable is minimal because it has significant revenues from well-established customers and the Company carries credit insurance for certain customers to mitigate its credit exposure. Cash is invested in bank deposit accounts and are generally available to the Company on a daily basis. The risk associated with the Company's cash is mitigated by the fact that these amounts are placed with commercial financial institutions.

The Company only enters into derivatives with major financial institutions. The Company could be exposed to loss in the event of non-performance by the counterparty. However, credit ratings and concentration of risk of the financial institution are monitored on a continuing basis and present no significant credit risk to the Company.

v) ***Fair value of financial instruments***

The carrying amounts of cash, accounts receivable, accounts payable, accrued interest and advances to and due to related parties, approximate their fair value due to the short-term maturity of these financial instruments. The fair values of the Term Loans, Senior Notes, interest rate swaps, interest rate caps and foreign exchange contracts are based on observable market information.

w) ***Derivative financial instruments***

The Company uses derivative financial instruments primarily to reduce its exposure to adverse fluctuations in interest rates and foreign exchange. When entered into, the Company formally designates and documents the financial instrument as a hedge of a specific underlying exposure, as well as the risk management objectives and strategies for undertaking the hedge transactions. The Company formally assesses both at the inception and at least quarterly thereafter, whether the financial instruments that are used in hedging transactions are effective at offsetting changes in either the fair value or cash flows of the related underlying exposure.

The Company is required to recognize all derivative instruments as either assets or liabilities in the Consolidated Balance Sheets at fair value. The accounting for changes in the fair value of a derivative instrument depends on whether it has been designated and qualifies as part of an effective hedging relationship and, further, on the type of hedging relationship. At the inception of the hedging relationship, the Company must designate the derivative instrument as a fair value hedge, cash flow hedge or a hedge of a net investment in a foreign operation. This designation is based upon the exposure being hedged.

For derivatives designated and that qualify as cash flow hedges of interest rate risk, the gain or loss on the derivative is recorded in Accumulated Other Comprehensive Income (Loss) and subsequently reclassified to Interest Expense as interest payments are made on the Company's variable-rate debt.

For derivatives designated and that qualify as cash flow hedges of foreign exchange risk, the gain or loss on the derivative is recorded in Accumulated Other Comprehensive Income (Loss) and subsequently reclassified to Selling, General and Administrative Expenses as foreign exchange trades are made.

For derivatives that do not qualify for hedge accounting, changes in the fair value of derivative instruments are recorded in the Consolidated Statements of Operations.

The Company has established strict counterparty credit guidelines and enters into transactions only with financial institutions of investment grade or better.

DYNASTY PARENT CO., INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

The Company has elected to apply the hedge accounting expedients, issued under ASU 2020-04 Reference Rate Reform, related to probability and the assessments of effectiveness for future LIBOR-indexed cash flows to assume that the index upon which future hedged transactions will be based matches the index on the corresponding derivatives. Application of these expedients preserves the presentation of derivatives consistent with past presentation.

x) ***Deferred finance charges***

The Company incurs finance charges in connection with the loan agreements and senior notes. Certain costs associated with these arrangements were deferred and amortized using the straight-line method over the respective term of the debt. Deferred charges are reported on the Consolidated Balance Sheets as a direct deduction from long-term debt. To the extent that debt is extinguished before its scheduled maturity date, associated deferred financing charges are expensed immediately in proportion to the amount of the debt extinguishment.

y) ***Deferred Offering Costs***

The Company capitalizes certain legal and other third-party fees that are directly associated with in-process equity financings as deferred offering costs until such financings are consummated. After consummation of an equity financing, these costs are recorded in stockholders' equity as a reduction of additional paid-in capital generated as a result of the offering. If an in-process equity financing is abandoned, the deferred offering costs will be expensed immediately as a charge to operating expenses in the Consolidated Statements of Operations. As of December 31, 2023 and 2022, the Company did not record any deferred offering costs in the Consolidated Balance Sheets.

z) ***Insurance and other reserves***

The Company maintains insurance for product liability, casualty, property, cybersecurity, business interruption and health claims. Most of the Company's insurance arrangements include a level of self-insurance. Reserves are established based on the use of current trends and historical data for other claims. These estimates are based on historical information along with certain assumptions about future events.

aa) ***Legal costs***

Costs associated with the Company's involvement in legal proceedings are expensed as incurred.

bb) ***Net income (loss) per share***

Basic net income (loss) per share attributable to stockholder is calculated by dividing the net income (loss) attributable to stockholder by the weighted average number of common shares that were outstanding during the period without consideration of potentially dilutive common stock. Diluted net income (loss) per share attributable to stockholder reflects the potential dilution that could occur if securities or other contracts to issue common stock were exercised or converted into common stock or resulted in the issuance of common stock that then shared in the earnings of the Company unless inclusion of such shares would be anti-dilutive.

For periods in which the Company reports net losses, the calculation of diluted net loss per share gives effect to common stock equivalents; however, potential common shares are excluded if their effect is anti-dilutive. The Company reported a net loss for the years ended December 31, 2023, 2022 and 2021, therefore basic net loss per share attributable to stockholder is the same as diluted net loss per share attributable to stockholder for the years ended December 31, 2023, 2022 and 2021.

cc) ***Recently adopted accounting pronouncements***

In March 2020, the Financial Accounting Standards Board (“FASB”) issued an Accounting Standard Update (“ASU”) 2020-04, Reference Rate Reform (Topic 848): Facilitation of the Effects of Reference Rate Reform on Financial Reporting, to provide practical expedients and exceptions for applying generally accepted accounting principles to contracts and hedging relationships affected by reference rate reform if certain criteria are met. The amendments apply only to contracts and hedging relationships that reference LIBOR or another reference rate expected to be discontinued because of reference rate reform. The amendments in these ASUs were effective as of March 12, 2020 although temporary relief was provided allowing reporting entities to elect to apply the optional expedients in the guidance through to December 31, 2024. The Company adopted Topic 848 in 2023, and now uses the Secured Overnight Financing Rate (SOFR). The adoption did not have a material impact on the Company’s consolidated financial statements and disclosures.

In October 2021, the FASB issues ASU 2021-08, Accounting for Contract Assets and Contract Liabilities from Contracts with Customers. This ASU requires contract assets and contract liabilities acquired in a business combination to be recognized and measured by the acquirer on the acquisition date in accordance with ASU 2014-09, Revenue from Contract with Customers (Topic 606). Generally, this ASU results in the acquirer recognizing the contract assets and contract liabilities at the same amounts recorded by the acquiree. Historically, such amounts were recognized by the acquirer at fair value in accordance with acquisition accounting. The ASU is effective for fiscal years beginning after December 15, 2023, with early adoption permitted. The Company early adopted this standard in fiscal 2023 and it did not have a material impact on the Company’s consolidated financial statements and disclosures.

dd) ***Recently issued accounting pronouncements – not yet adopted***

In November 2023, the FASB issued ASU 2023-07, Segment Reporting (Topic 280): Improvements to Reportable Segment Disclosures. The ASU aims to improve reportable segment disclosure requirements, primarily through enhanced disclosures about significant segment expenses with disclosure of significant segment expenses that are regularly provided to the chief operating decision maker and included within each reported measure of segment profit or loss. The update also requires disclosure regarding the chief operating decision maker and expands the interim segment disclosure requirements. The guidance is effective for fiscal years beginning after December 15, 2023, and interim periods within fiscal years beginning after December 15, 2024, with early adoption permitted. The Company is currently evaluating the impact on its financial statements.

In December 2023, the FASB issued ASU 2023-09, Income Taxes (Topic 740): Improvements to Income Tax Disclosures, to enhance the transparency and decision usefulness of income tax disclosures primarily related to the tax rate reconciliation and income taxes paid information. For public companies the amendments in this ASU are effective for annual periods beginning after December 15, 2024 and for all other entities the amendments are effective for annual periods beginning after December 15, 2025. The amendments should be applied on a prospective basis. Early adoption and retrospective application are permitted. The Company does not expect the amendments in this update to have a material impact on its consolidated financial statements and related disclosures.

In 2021, the Organization for Economic Cooperation and Development (“OECD”) released Pillar Two Global Anti-Base Erosion model rules (“Pillar Two Rules”), designed to ensure large corporations are taxed at a minimum rate of 15% in all countries of operation. Although the U.S. and Canada have not yet enacted legislation implementing Pillar Two Rules, other countries where the Company does business have enacted legislation implementing Pillar Two Rules which are effective from January 1, 2024. The Company is continuing to evaluate the Pillar Two Rules and the potential impact on fiscal 2024 and future periods.

Contract liabilities	<u>\$355,651</u>	<u>\$210,078</u>	<u>\$145,573</u>

Changes in contract assets and contract liabilities primarily result from the timing difference between our performance of services and payments from customers. The change in contract assets and contract liabilities are primarily driven by an increased volume of business which resulted in an increase in deferred revenue.

Changes in the Company's contract liabilities were as follows:

	As at December 31,	
	<u>2023</u>	<u>2022</u>
Balance, beginning of the year	\$ 210,078	\$ 205,682

Revenue recognized	(222,590)	(128,522)
Balance, end of the year	<u>\$ 355,651</u>	<u>\$ 210,078</u>

Remaining performance obligations

As of December 31, 2023, the Company had approximately \$355.7 million of remaining performance obligations. The Company expects that the majority of contract liabilities will be recognized as revenue over the next 12 months and remainder will be recognized over the next three years. The amount of remaining performance obligations that are expected to be recognized as revenue beyond 12 months, primarily relate to the Company's long-term engine utilization contracts where the customer payments based on flight hours may differ from the timing of satisfaction of performance obligations. The expected timing of the performance obligations is dependent on the timing of the customer's maintenance requirements and as such, the timing of the revenue recognition is subject to estimation uncertainty.

The Company’s initial Credit Agreement, issued April 4, 2019, provided the Company with an aggregate \$2,145.0 million in term loan facilities, comprised of two tranches, referred to as the 2019 Term Loan B-1 Facility and the 2019 Term Loan B-2 Facility (“2019 Term Loan Facilities”), with identical terms, less a 0.5% discount, and a \$150.0 million revolving credit facility (“Revolver”). The Company provided as collateral for the Credit Agreement substantially all of the assets of its wholly-owned subsidiaries. The Credit Facilities are secured by a first priority pledge in all of the equity interests of restricted subsidiaries directly owned by the Loan Parties (subject to certain exceptions) and substantially all other assets of the Loan Parties, subject to certain exceptions and permitted liens (the “Term Loan/RCF Priority Collateral”); and a second priority pledge of the ABL Priority Collateral, in each case, subject to certain exceptions and permitted liens. The loan facilities of the initial Credit Agreement matured on April 4, 2026.

On February 12, 2020, the Company amended its Credit Agreement providing an additional \$200.0 million incremental term loans. In addition, the amendment reduced the applicable interest margin from the LIBOR rate plus a range of 3.75% to 4.00% to the LIBOR rate plus a range of 3.25% to 3.50%. The original issue discount and deferred charges are amortized over the term of the loan agreement.

On July 1, 2021, the Company amended its Credit Agreement to increase the term loan facilities by \$275.0 million in the form of a new tranche (“2021 Term Loan Facility”) less a 3.0% discount. The 2021

DYNASTY PARENT CO., INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Term Loan Facility bore interest at the LIBOR rate, subject to a LIBOR floor of 1.0%, plus 5.75%. The original issue discount and deferred charges are amortized over the term of the loan agreement. The 2021 Term Loan Facility was due on maturity on April 4, 2026.

On December 22, 2022, the Credit Agreement was amended to replace LIBOR as the Credit Agreement's reference rate with the Adjusted Term SOFR Rate, which is equal to the Secured Overnight Financing Rate ("SOFR"), plus an adjustment of 0.10%. All other terms of the Company's Credit Agreement remained unchanged. The 2019 Term Loan Facilities and the 2021 Term Loan Facility bore interest at the SOFR rate, plus an adjustment of 0.10%, plus 3.50%, and SOFR plus an adjustment of 0.10%, subject to a SOFR floor of 1.0%, plus 5.75%, respectively, prior to the August 2023 amendments described below.

On August 24, 2023, the Company amended the Credit Agreement to combine the 2019 Term Loan Facilities and the 2021 Term Loan Facility to 2023 Term Loan Facilities in the amount of \$2,575.0 million less a 1.0% discount. The new 2023 Term Loan Facilities comprise two tranches, referred to as the 2023 Term Loan B-1 Facility and Term Loan B-2 Facility, with identical terms that were entered into by subsidiaries of the Company. The new 2023 Term Loan Facilities incur interest at the Term SOFR Rate plus 3.75% to 4.00% or the Base Prime Rate plus 2.75% to 3.00%, maturing on August 24, 2028. As at December 31, 2023, the applicable SOFR rate was 5.46%. All other terms of the Company's Credit Agreement remained unchanged. As a result of the amendment, both a debt modification and a debt extinguishment arose. The Company recognized \$0.8 million in deferred charges related to the 2023 Term Loan Facilities which are recorded as a reduction of long-term debt on the Consolidated Balance Sheets. The Company also recognized a loss on the extinguishment of debt of \$6.2 million, representing the write-off of the unamortized deferred finance charges and original issue discount related to the extinguished portion of the 2019 Term Loan Facilities and 2021 Term Loan Facility, while \$22.8 million of the unamortized deferred finance charges and original issue discount relating to the modified debt continued to be deferred. In addition, \$19.9 million in third party fees related to the modified portion of the 2019 Term Loan Facilities were expensed as these costs did not meet the criteria for deferral.

As at December 31, 2023, the 2023 Term Loan Facilities had an aggregate carrying value of \$2,516.0 million, which is net of a \$26.9 million discount and \$19.2 million of deferred charges. The 2023 Term Loan Facilities are denominated and repayable in installments of approximately \$6.4 million per quarter and the remainder due on maturity. The 2023 Term Loan Facilities bore interest at 9.36% as at December 31, 2023.

As at December 31, 2022, the 2019 Term Loan Facilities had an aggregate carrying value of \$2,239.8 million, which is net of a \$3.9 million discount and \$25.5 million of deferred charges. The 2019 Term Loan Facilities and the 2021 Term Facility loan bore interest at 7.92% and 10.17%, respectively, as at December 31, 2022.

On May 1, 2023, the Company amended the Credit Agreement to replace the Revolving Credit Facility with a maturity date of April 4, 2024, with a new revolving facility "2023 Extended Revolving Tranche", maturing January 2, 2026. All other terms of the Company's Credit Agreement remained unchanged. As a result of the amendment, the Company recognized an additional \$0.2 million in deferred finance charges which are recorded as a reduction of long-term debt on the Consolidated Balance Sheets.

On August 24, 2023, the Company amended the Credit Agreement and extended the maturity date of 2023 Extended Revolving Tranche to May 1, 2028. All other terms of the Company's Credit Agreement remained unchanged.

As at December 31, 2023 and December 31, 2022, the Revolver had no outstanding loans under this agreement, and \$1.5 million and \$1.8 million of deferred charges, respectively. The Revolver bears interest at the Adjusted Term SOFR rate plus 3.125% to 3.50%. The applicable rates on borrowing under the credit

agreement are based on the Consolidated First Lien Net Leverage Ratio. The Revolver is subject to a maximum Consolidated First Lien Net Leverage Ratio that is tested at the end of any fiscal quarter if the total Revolving Credit Loans outstanding on such date exceed 35.0% of the aggregate amount of all Revolving Credit Commitments.

The Company's Asset Based Loan ("ABL Credit Facility") allows the Company to borrow funds based on a calculation derived from its asset base, up to a maximum of \$400.0 million (of which up to \$75.0 million is available for letters of credit), with (i) an aggregate principal amount of up to \$240.0 million available to be borrowed in U.S. Dollars or certain alternative currencies (the "U.S. Commitment") and (ii) an aggregate principal amount of up to \$160.0 million available to be borrowed in U.S. Dollars or Canadian Dollars (the "Canadian Commitment"), in each case, subject to (a) borrowing base availability under the applicable commitment, (b) reallocation of such amounts between jurisdictions in accordance with the terms of the ABL Credit Agreement and (c) certain sub limits for alternative currencies. The asset base used to determine the level of borrowing is the collateral for the ABL Credit Agreement. Amounts borrowed under the ABL Credit Facility may be repaid and reborrowed from time to time.

On May 1, 2023, the Company amended the ABL Credit Facility to replace LIBOR as a reference rate with the Adjusted Term SOFR Rate, which is equal to the Term SOFR rate, plus an adjustment of 0.10%, and the term was extended to May 1, 2028. As a result of the amendment, the Company wrote-off \$0.2 million of the unamortized deferred finance charges related to the initial ABL Credit Facility. In addition, the Company recognized \$1.8 million in deferred finance charges which are recorded as a reduction of long-term debt on the Consolidated Balance Sheets.

As at December 31, 2023, the Company did not have borrowings under the ABL Credit Facility, and \$2.4 million of deferred charges. During the year, \$250.0 million was withdrawn and repaid to fund the acquisition of Western Jet, the investment in the OEM license for the LEAP-1A and LEAP-1B engine platforms, and other operating costs. As at December 31, 2022, the Company did not have borrowings under this agreement with \$1.5 million of deferred charges. At the Company's discretion, the borrowings under the ABL bear interest at the Adjusted Term SOFR rate plus 1.50% to 2.00%, Prime Lending Rate plus 0.50% to 1.00%, or the Base Rate on Canadian borrowings plus 0.50% to 1.00%, with the spread dependent on the amount of the borrowing and is subject to certain financial covenants. The ABL Credit Facility is denominated and repayable in U.S. dollars. The ABL Credit Facility is secured by a first priority pledge by the U.S. Loan Parties and the Canadian Loan Parties (collectively, the "Loan Parties") of all accounts receivable, inventory, engines and certain related assets, deposit accounts and securities accounts (including cash) and investment property (other than equity interests) and all instruments, chattel paper, contracts, guarantees, letters of credit, supporting obligations, documents, commercial tort claims, and general intangibles related to the foregoing, in each case, of the Loan Parties, subject to certain exceptions and permitted liens (the "ABL Priority Collateral"); and a second priority pledge in the Term Loan/RCF Priority Collateral.

The ABL Credit Facility has an annual commitment fee of 0.250% to 0.375% based on the excess availability of the credit agreement. The ABL Credit Facility contains financial covenants which must be calculated immediately prior to or during the continuance of a trigger period. The trigger period is a period where borrowing availability is less than the greater of 10% of the line cap and \$30.0 million. The net ABL Credit Facility borrowing availability was \$379.4 million as at December 31, 2023 and \$391.5 million as at December 31, 2022.

In addition, senior unsecured notes (the "Senior Notes") were issued with an interest rate of 10.0%, maturing on April 4, 2027. As at December 31, 2023, the Senior Notes had a carrying value of \$665.0 million, which is net of \$10.4 million of deferred charges and as at December 31, 2022 the Senior Notes had a carrying value of \$661.8 million, which is net of \$13.6 million of deferred charges. The

deferred charges are amortized over the term of the indenture using the straight-line method, which approximates the effective interest rate method.

The Senior Notes were issued on April 4, 2019 at a principal amount of \$640.0 million. On April 4, 2020, the Company elected to defer payment on 100% of the accrued interest at 11% per annum, increasing the principal amount to \$657.8 million. On July 4, 2020, the Company elected to defer payment on 50% of the accrued interest at 10.5% per annum, increasing the principal amount to \$666.5 million. On October 4, 2020, the Company elected to defer the payment on 50% of the accrued interest at 10.5% per annum, increasing the principal amount to \$675.5 million. The Senior Notes may be redeemed in whole or in part at a premium that will decrease over time plus accrued and unpaid interest to, but not including, the date of redemption. The Senior Notes are guaranteed on a senior basis by all of the Company's domestic subsidiaries that provide guarantees under the Company's senior credit agreements.

The Company's weighted average interest rate of borrowings under its senior credit agreements was 9.1% for the year ended December 31, 2023 and 6.5% for the year ended December 31, 2022.

Certain of these agreements contain non-financial covenants that restrict both the Company's ability to raise additional financings in the future and the Company's ability to pay dividends.

Accumulated other comprehensive income (loss) as at December 31, 2023 and December 31, 2022 has been reported net of a \$2.4 million deferred tax asset and a \$2.7 million deferred tax liability, respectively.

The Company has the intent and ability to assert that undistributed foreign earnings are indefinitely or “permanently” reinvested outside the U.S. The Company is aware that there may be withholding taxes on an actual distribution of the undistributed foreign earnings. If the undistributed earnings were not considered permanently reinvested, deferred tax liabilities would have been provided for any applicable income taxes and withholding taxes payable in various countries, which would not be significant. A determination of the unrecognized deferred tax liabilities on the other outside basis differences reinvested indefinitely at December 31, 2023 is not practicable due to the complexities in the calculations.

The items accounting for the difference between income taxes computed at the U.S. statutory rate and the expense (benefit) for income taxes for continuing operations are as follows:

The Company has adopted a position of indefinitely reinvesting earnings in its foreign operations. Despite the Company’s position of indefinitely reinvesting earnings in its foreign operations, the Tax Cuts and Jobs Act of 2017 made significant changes to the way U.S. multinationals’ foreign profits are taxed. Global Intangible Low Tax Income (“GILTI”), was introduced as an outbound anti-base erosion provision.

	<i>(In thousands)</i>

The total increase in valuation allowance was \$31.9 million, \$29.5 million and \$29.7 million for the years ending December 31, 2023, 2022 and 2021, respectively. A "more likely than not" criterion is applied when evaluating the realizability of a deferred tax asset. A valuation allowance of \$94.8 million as at December 31, 2023 and \$62.9 million as at December 31, 2022 has been recorded against the foreign net operating losses in various countries and U.S. Section 163(j) interest expense carryforwards as the Company has determined that it is more likely than not that the amount of the deferred tax assets will not be realized. A portion of the foreign losses may be carried forward indefinitely, as well as the U.S. Section 163(j) limitation. The ultimate realization of deferred tax assets is dependent upon the generation of future taxable income during the periods in which those temporary differences become deductible. The Company considers the scheduled reversal of deferred tax liabilities, available taxes in the carryback periods, projected future taxable income and tax planning strategies in making this assessment.

DYNASTY PARENT CO., INC.

Contingent liabilities

The Company is involved, from time to time, in legal actions and claims arising in the ordinary course of business. Although predicting the outcome of legal actions and claims is difficult, based on current knowledge and consultation with legal counsel, the Company does not expect the outcome of these matters, either individually or in aggregate, to have a material adverse effect on the Company's consolidated financial position.

From time to time, the Company enters into contracts that contain liquidated damage provisions, which provide for the payment of damages to the Company's customers in the event of non-compliance with certain contractually-specified terms and conditions. The Company evaluates its exposure to these provisions on a contract-by-contract basis, and records provisions for such contractual provisions when it has been determined that a loss is probable and estimable. As at December 31, 2023 and December 31, 2022 the provision is nominal.

The Company has facilities that are located on land that has been used for industrial purposes for an extended period of time. The Company has not been named as a defendant to any environmental suit. Management believes that the Company is currently in substantial compliance with environmental laws. The Company incurs capital and operating costs relating to environmental compliance on an ongoing basis. The Company does not believe it will be required under existing environmental laws to expend amounts that would have a material adverse effect on its financial position or results of operations as a whole.

16 Related party transactions

The Company entered into a consulting agreement with Carlyle Investment Management L.L.C. (“Carlyle”), and Beamer Investment Inc. (“Beamer”), an affiliate of GIC Private Limited pursuant to which Carlyle and Beamer (“Consultants”) provide certain management, advisory and consulting services in relation to, among other things, development and execution of business strategy, analysis of industries and markets, acquisition and disposition strategy, business due diligence, business integration and other matters relating to the strategic and financial management of the business. The agreement will remain in effect for as long as (i) the Consultants own, directly or indirectly, at least 10% of the outstanding voting securities of the Company and (ii) a representative of the Consultant serves as a member of the board of directors or similar governing body of the Company. The agreement may be terminated at any time by written notice to the Company from the Consultant. Pursuant to this agreement, and subject to certain conditions, the Company pays Carlyle an annual fee of \$2.4 million and pays Beamer an annual fee of \$0.6 million payable in quarterly installments. Other services provided, other than consulting services can result in additional fees, and the Company will reimburse customary out-of-pocket expenses. Certain of the Company’s directors are also employees of Carlyle.

The Company expensed \$3.0 million for each of the years ending December 31, 2023, December 31, 2022 and December 31, 2021 for the advisory and consulting services, as well as an additional \$1.2 million during the year ended December 31, 2023 for arrangement fees paid under the credit agreement amendment. 17 Employee benefit plans

Defined contribution pension plans

The Company has several defined contribution plans covering substantially all of its employees. Costs for the defined contribution plans were \$21.8 million, \$19.5 million, and \$16.4 million for the years ended December 31, 2023, December 31, 2022, and December 31, 2021, respectively.

Defined benefit pension plans

The Company maintains defined benefit plans for certain employees in the United Kingdom and France.

In the United Kingdom, the Company maintains two defined benefit schemes which provide both pensions in retirement and death benefits to members. Pension benefits are related to the member’s final salary at retirement (or their career average revalued salary) and their length of service. The main scheme is the Vector Aerospace International Limited Pension Scheme (the “Scheme”). The other defined benefit scheme is the Vector Aerospace 1998 Pension Plan (the “Plan”). The Scheme and Plan are generally closed for new members, who participate in a separate defined contribution plan.

In France, the defined benefit plan is a government-mandated defined obligation that provides employees with retirement indemnities in the form of lump sums on the basis of the length of service and employee compensation levels. The plan is unfunded and benefits are paid when amounts become due, commencing when participants retire. Actuarial gains and losses of the year for long service awards are immediately recognized in the Consolidated Statements of Operations.

An actuarial valuation of the defined benefit plans was prepared as at December 31, 2023 and December 31, 2022.

The United Kingdom defined benefit plan assets are held in trust by the Trustees. The Trustees determine the investment strategy for the plan assets after taking advice from investment advisers and consulting with the Company. The assets chosen are invested in a diverse portfolio of investments in order to reduce investment risk. The allocation of investments is likely to change as a result of a range of factors such as changes in market conditions and the expected returns and risks. The current investment strategy includes target allocations for plan assets of approximately 22% to 27% of investments for liquid growth, 16% to 21% of alternative assets and 52% to 62% for liability-driven investing with a wide diversification of asset types and fund strategies. The Trustees recognize a number of risks involved in the investment of the plan assets and monitor and manage these risks on a regular basis, including through the use of derivatives, which are permitted within the investment strategy.

The Company has an established and well-documented process for determining fair values. Fair value is based upon quoted market prices, where available. If listed prices or quotes are not available, fair value is based upon models that primarily use, as inputs, market-based or independently sourced market parameters, including yield curves, interest rates, volatilities, equity or debt prices, foreign exchange rates and credit curves. While the Company believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different estimate of fair value at the reporting date. The authoritative literature establishes a three-level hierarchy to prioritize the inputs used in measuring fair value. The levels within the hierarchy are described in the table below with Level 1 having the highest priority and Level 3 having the lowest. The Net Asset Value (NAV) is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of units outstanding. A financial instrument's categorization within the valuation hierarchy is based upon the lowest level of input that is significant to the fair value measurement. Following is a description of the valuation methodologies used for the investments measured at fair value

- Cash - Cash is valued at the amount held on deposit by the custodian bank and is classified as Level 1 of the valuation hierarchy.

DYNASTY PARENT CO., INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

- Equity and fixed income funds - these funds are valued at the closing NAV values supplied by the fund managers at the reporting date based on the fair value of the underlying investments of the funds and are classified within Level 2 of the fair value hierarchy unless the determination of fair value of the underlying investments within the funds requires significant unobservable data in which case the funds are classified as Level 3 of the valuation hierarchy.
- Real estate and property funds - the NAV of these funds are valued based on appraisals of the underlying real estate investments. Such appraisals involve significant judgments with respect to estimates and assumptions and as a result these funds are classified within Level 3 of the valuation hierarchy
- Hedge funds - the NAV of these funds are valued using observable inputs including interest rate curves, credit spreads and volatilities and are classified within Level 2 of the valuation hierarchy
- Other assets - These investments are priced based on unobservable inputs and are classified as Level 3 of the valuation hierarchy.

Class B Units

Certain U.S. based management, employees and non-employee directors will be granted Class B units in Dynasty Parent Holdings, L.P. (the "Partnership"). The Partnership conducted no operations and was formed for the purpose of purchasing 100% interest of the Company. The Partnership has two classes of Partners: 96% Class A Partners representing initial investors and 4% Class B Partners representing certain management, employees and non-employee directors.

Certain management and employees will be granted options which entitles them to purchase shares in Dynasty Parent Co., Inc. The Class B units and options generally vest 50% based on the holder's continued employment ("Time-Based") and 50% based on the achievement of specified performance based measures ("Performance-Based") and subject to continued employment. Time-Based units and options vest immediately prior to the date of a liquidity event, subject to continued employment from the grant date through the date of the liquidity event. The Performance-Based units and options shall become eligible to vest subject to the achievement of certain performance measures. The eligible Performance-Based units and options vest immediately prior to the date of a liquidity event subject to continued employment from the grant date through the date of the liquidity event.

All Class B units and options are considered equity classified awards. Because the Class B units and options do not vest until a liquidity event, compensation expense will be recorded at the time of the liquidity event. When compensation is recognized it will be based on the grant-date fair value of the awards up to an amount of \$24.4 million if performance targets are met.

The Company uses an option pricing model to estimate the fair value of the Class B units and options. The fair value was determined by considering the ownership percentage in the Partnership, the preference of the Class A units and a discount for lack of marketability. The following assumptions for the option pricing model were used in determining the fair value of the Class B units at the initial grant date of April 4, 2019:

Risk free interest rate	1.84%
Expected volatility	37.50%
Expected time to liquidity	4.5 years
Dividend yield	0.00%
Discount for lack of marketability	30.0%

The Company has historically been a private company and lacks company-specific historical and implied volatility information for its stock. Therefore, the Company estimates its expected stock price volatility based on the historical volatility of publicly traded peer companies over look-back period similar to the

DYNASTY PARENT CO., INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

expected term and expects to continue to do so until such time as it has adequate historical data regarding the volatility of its own traded stock price. The expected term of the Class B unit awards and stock option awards is the period of time for which the Class B unit awards and the stock option awards are expected to be outstanding until exercise and considers time until an anticipated liquidity event. The risk-free interest rate is determined by reference to the U.S. Treasury yield curve in effect at the time of grant of the award for time periods approximately equal to the expected term of the award. Expected dividend yield is based on the fact that the Company has never paid cash dividends and does not expect to pay any cash dividends in the foreseeable future. In addition, the Company considered Class B units to be junior securities, without the same rights as Class A units of the Partnership, as such the 30% discount was applied for lack of marketability associated with the expected holding period of Class B units.

The calculation of the fair value of awards also requires an estimate of the Company's equity value. As the Company historically has been a privately held company with no trading history for its common stock to date, the estimated fair value of the Company's common stock has been determined by the Board of Directors, with input from management and valuations by third-party specialists. To determine the fair value, the Board of Directors considered most recently available third-party valuations of common stock and an assessment of additional objective and subjective factors that it believed were relevant and which may have changed from the date of the most recent valuation through the date of the grant. Additional factors include, among others, the nature and history of the Company's business; the Company's stage of development and commercialization; external market conditions; valuations of the Company's industry peers; and the likelihood of achieving a liquidity event, such as an initial public offering or sale of the Company. These third-party valuations are performed in accordance with the guidance outlined in the American Institute of Certified Public Accountants' Accounting and Valuation Guide, *Valuation of Privately-Held-Company Equity Securities Issued as Compensation*. The third-party common stock valuations are prepared using the market approach.

19 Fair value measurements

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The inputs used to measure fair value into the following hierarchy are determined as follows:

- Level 1 - Unadjusted quoted prices in active markets for identical assets or liabilities.
- Level 2 - Unadjusted quoted prices in active markets for similar assets or liabilities, or unadjusted quoted prices for identical or similar assets or liabilities in markets that are not active, or inputs other than quoted prices that are observable for the asset or liability.
- Level 3 - Unobservable inputs for the asset or liability.

For cash and cash equivalents, accounts receivable, income taxes receivable and accounts payable, the fair value approximates the carrying value due to the short maturity periods of these financial instruments. For long-term borrowings, the fair value is measured using Level 2 market values.

The interest rate swaps, interest rate caps and foreign exchange contracts are carried at fair value in the Consolidated Balance Sheets. The fair value measurement is classified within Level 2 of the fair value hierarchy, as the inputs to the derivative pricing model are generally observable and do not contain a high level of subjectivity. The fair value of the interest rate agreements are estimated using industry standard valuation models using market-based observable inputs.

20 Derivatives and hedging

The Company is exposed to, among other things, the impact of changes in interest rates and foreign currency exchanges rates in the normal course of business. The Company's objective in risk management is to utilize interest rate derivatives to add stability to interest expense and manage its exposure to interest rate movements, and utilize foreign exchange rate derivatives to add stability to foreign exchange expense and manage its exposure to exchange rate movements. To accomplish this objective, the Company primarily uses (i) interest-rate swaps and interest-rate caps as part of its interest rate risk management strategy and (ii) foreign currency forward contracts to protect against the foreign currency exchange rate risk inherent on forecasted transactions.

The Company uses derivative financial instruments only to the extent necessary to hedge identified business risks and does not enter into such transactions for trading purposes.

Interest-rate swap and interest-rate cap agreements

Interest-rate swaps designated as cash flow hedges involve the receipt of variable amounts from a counterparty in exchange for the Company making fixed-rate payments over the life of the agreements without exchange of the underlying notional amount. Interest-rate caps designated as cash flow hedges involve payment of a fixed premium to a counterparty in exchange for the company receiving a SOFR cap over the life of the agreement without exchange of the underlying notional amount.

During the years ended December 31, 2023, and December 31, 2022 such derivatives were used to hedge the variable cash flows associated with its long-term debt agreements.

Foreign currency forward exchange contracts

The Company has operations in Canada, as well as other countries outside of North America, and consequently the Consolidated Balance Sheets can be affected by movements in exchange rates for limited

balances denominated in foreign currency. Currency exposures can also arise from certain revenue and purchase transactions denominated in foreign currencies, primarily payroll costs which are in local currencies.

The Company enters into short term foreign exchange contracts throughout the year designated as a cash flow hedge to manage the exposure to changes in the exchange rate on its Canadian and United Kingdom payroll costs, requiring the Company to buy a notional amount of Canadian dollars and British Pounds Sterling. The contracts require the Company to buy a notional amount of the foreign currency at a set rate weekly from a reference date to maturity date, or until a maximum value is reached.

21 Government grants

In response to COVID-19, various government programs were announced to provide financial support for affected businesses. The Company recognized wage subsidies totaling \$2.4 million and \$2.8 million during the years ended December 31, 2022, and December 31, 2021, respectively. The Company received no financial support from government programs during the year ended December 31, 2023.

The subsidies are recorded as “Other income” in the Consolidated Statements of Operations. As at December 31, 2022, \$1.8 million was recorded as receivable in “Prepaid expenses and other current assets” in the Consolidated Balance Sheets.

24 Segment information

The Company's chief operating decision making officer ("CODM") is the Company's Chief Executive Officer. Effective May 2024, the Company's CODM reevaluated how the Company measures performance and allocates resources, and modified the Company's internal reporting, budgeting and forecasting and the responsibilities of his direct reports. As a result, The Company's previous Airlines and Fleets, Military, Helicopters and Energy and Business Aviation reportable segments are now combined into a new Engine Services reportable segment. The Company's Component Repair Services segment remains unchanged. Consistent with how the Company evaluates its performance and the way the Company is now organized internally, the Company now reports its activities in two segments: i) Engine Services, and ii) Component Repair Services. The comparative segment information in this note as well as Notes 3, 4 and 9 were revised to conform to the change in reportable segments.

Our chief operating decision maker evaluates the performance of our segments based on Segment Revenue and Segment Adjusted EBITDA. Management believes Segment Revenue and Segment Adjusted EBITDA are indicative of operational performance and ongoing profitability and are used to evaluate the operating performance of the Company's segments and for planning and forecasting purposes, including the allocation of resources and capital. No asset information is provided to the CODM on the reportable segments.

The Company defines Segment Adjusted EBITDA as net income (loss) before interest expense, income tax expense (benefit), depreciation and amortization directly attributable to each operating segment and adjusted for certain non-cash items that the Company may record each period, as well as non-recurring items such as acquisition costs, integration and severance costs, refinance fees, business transformation costs and other discrete expenses, when applicable.

The Company's Engine Services segment provides a full suite of aftermarket services, including maintenance, repair and overhaul, on-wing and field service support, asset management, and engineering and related solutions to customers in the commercial aerospace, military & helicopter, and business aviation

DYNASTY PARENT CO., INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

end markets. Revenue in the Engine Services segment is primarily derived from the repair and overhaul of a wide variety of gas turbine engines and auxiliary power units that power fixed and rotary wing aircraft. The Company also provides complementary maintenance, repair, upgrade and other related services for airframes and avionics systems in the business aviation and helicopter end markets. Cost of revenue consists primarily of cost of materials, direct labor and overhead.

The Company's Component Repair Services segment provides engine component and accessory repairs to the Commercial Aerospace, Military & Helicopter, and Other, including land and marine, and oil and gas end markets. Revenue in the Component Repair Services segment is derived from the engine piece part and accessory repairs that we perform, repair development engineering and other related services, and some engine new part manufacturing. Cost of revenue consists primarily of cost of materials, direct labor and overhead.

Our segment disclosure includes intersegment revenues, which primarily consist of subcontract services between segments. These intersegment transactions are recorded by each segment at amounts that approximate fair value as if the transactions were between third parties, and therefore, impact segment performance. However, the revenue and corresponding cost of revenue are eliminated on consolidation. The elimination of such intersegment transactions is included within intersegment revenue in the table below. The revenue is eliminated with the segment receiving the subcontract services. The segment providing services retains revenue while the segment receiving the services records the elimination.

Selected financial information for each segment is as follows:

NOTES TO THE CONDENSED FINANCIAL STATEMENTS (Parent Company)

1. Business

Dynasty Parent Co., Inc. (the “Company” or “Parent Company”) was incorporated on September 5, 2018, in the state of Delaware.

2. Accounting Policies

These condensed Parent Company only financial statements have been prepared in accordance with Rule 12-04 of Regulation S-X, as stipulated by Rule 5-04, Section I from Regulation S-X. The ability of the Parent Company’s operating subsidiaries to pay dividends is restricted due to the terms of the Credit Agreement (as defined in Note 11, “Long-term debt,” to the audited consolidated financial statements) and indenture.

A statement of cash flows has not been included in these condensed financial statements because there was no cash activity for the Parent Company in the periods presented.

Parent Company is a holding company that conducts substantially all of its business operations through its subsidiaries. These condensed Parent Company only financial statements have been prepared using the same accounting principles and policies described in the notes to the consolidated financial statements, with the only exception being that the Parent Company accounts for investments in its subsidiaries using the Parent Company’s proportionate share of the subsidiary as the basis of accounting. These condensed financial statements should be read in conjunction with the consolidated financial statements and related notes thereto.

Use of estimates

Preparation of the condensed financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying disclosures. Those estimates are inherently subject to change, and actual results may ultimately differ from those estimates.

26 Subsequent events

Subsequent events have been evaluated by the Company up to and including June 7, 2024, the date the consolidated financial statements were available to be issued.

2 Summary of significant accounting policies

a) Recently issued accounting pronouncements – not yet adopted

In November 2023, the FASB issued ASU 2023-07, *Segment Reporting (Topic 280): Improvements to Reportable Segment Disclosures*. The ASU aims to improve reportable segment disclosure requirements, primarily through enhanced disclosures about significant segment expenses with disclosure of significant segment expenses that are regularly provided to the chief operating decision maker and included within each reported measure of segment profit or loss. The update also requires disclosure regarding the chief operating decision maker and expands the interim segment disclosure requirements. The guidance is effective for fiscal years beginning after December 15, 2023, and interim periods within fiscal years beginning after December 15, 2024, with early adoption permitted. The Company is currently evaluating the impact on its consolidated financial statements.

In December 2023, the FASB issued ASU 2023-09, *Income Taxes (Topic 740): Improvements to Income Tax Disclosures* to enhance the transparency and decision usefulness of income tax disclosures primarily related to the tax rate reconciliation and income taxes paid information. The Company is continuing to evaluate the potential impact by the Pillar Two legislation and the new EIFEL regime.

Changes in contract assets and contract liabilities primarily result from the timing difference between our performance of services and payments from customers.

Changes in the Company's contract liabilities were as follows:

	<u>June 30, 2024</u>	<u>June 30, 2023</u>
	<i>(In thousands)</i>

Remaining performance obligations

As of June 30, 2024, the Company had approximately \$276.7 million of remaining performance obligations. The Company expects that the majority of contract liabilities will be recognized as revenue over the next 12 months and remainder will be recognized over the next three years. The amount of remaining performance obligations that are expected to be recognized as revenue beyond 12 months, primarily relate to the Company's long-term engine utilization contracts where the customer payments based on flight hours may differ from the timing of satisfaction of performance obligations. The expected timing of the performance obligations is dependent on the timing of the customer's maintenance requirements and as such, the timing of the revenue recognition is subject to estimation uncertainty.

Long-term debt	<u>\$3,247,133</u>	<u>\$ 3,172,108</u>

On March 25, 2024, the Company amended the Credit Agreement to refinance the \$2,562.1 million existing 2023 Term Loans and provide the Company with an incremental \$200.0 million as new 2024 Term Loans.

DYNASTY PARENT CO., INC.
NOTES TO UNAUDITED CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS

In addition, the amendment reduced the applicable interest rate to the Term SOFR Rate plus 3.25% to 3.50% or the Base Prime Rate plus 2.25% to 2.50%. All other terms of the Company's Credit Agreement remained unchanged. The incremental proceeds from the 2024 Term Loans were used toward the partial redemption of the Senior Notes. As a result of the amendment, the Company recognized a loss on the extinguishment of debt of \$0.7 million, representing the write-off of the unamortized deferred finance charges related to the extinguished portion of the 2023 Term Loans. In addition, \$4.9 million in third party fees related to the modified portion of the Term Loans were expensed as these costs did not meet the criteria for deferral. The Company recognized \$0.1 million in deferred charges which are recorded as a reduction of long-term debt on the Unaudited Condensed Consolidated Balance Sheets. The original issue discount and deferred charges are amortized over the term of the loan agreement using the straight-line method, which approximates the effective interest rate method.

As at June 30, 2024, the 2024 Term Loans had a carrying value of \$2,714.3 million, which is net of a \$24.3 million discount and \$16.6 million of deferred charges, and as at December 31, 2023, the 2023 Term Loans had a carrying value of \$2,516.0 million, which is net of \$26.9 million of discounts and \$19.2 million of deferred charges. The 2024 Term Loans are denominated and repayable in installments of approximately \$6.6 million per quarter and the remainder due on maturity. The 2024 Term Loans bore interest at 8.84% as at June 30, 2024, and the 2023 Term Loans bore interest at 9.36% as at December 31, 2023.

As at June 30, 2024 and December 31, 2023, the 2023 Revolving Credit Facility had no outstanding loans under this agreement, and \$1.3 million and \$1.4 million of deferred charges, respectively. The 2023 Revolving Credit Facility bears interest at the Adjusted Term SOFR rate plus 3.125% to 3.50%. The applicable rates on borrowing under the credit agreement are based on the Consolidated First Lien Net Leverage Ratio. The 2023 Revolving Credit Facility is subject to a maximum Consolidated First Lien Net Leverage Ratio that is tested at the end of any fiscal quarter if the total Revolving Credit Loans outstanding on such date exceed 35.0% of the aggregate amount of all Revolving Credit Commitments.

On May 28, 2024, the Company amended the Asset Base Loan ("ABL Credit Facility") to replace CDOR as a reference rate for Canadian dollar-denominated loans under the Canadian Commitment with a Term CORRA-based rate, plus a credit spread adjustment ranging from 0.29547% to 0.32138% (subject to a 0.0% floor).

As at June 30, 2024, the Company had borrowings of \$75.0 million under the ABL Credit Facility, and \$2.1 million of deferred charges. As at December 31, 2023, the Company did not have borrowings under this agreement with \$2.4 million of deferred charges. At the Company's discretion, the borrowings under the ABL Credit Facility bear interest at the Adjusted Term SOFR rate plus 1.50% to 2.00%, Prime Lending Rate plus 0.50% to 1.00%, or the Base Rate on Canadian borrowings plus 0.50% to 1.00%, with the spread dependent on the amount of the borrowing and is subject to certain financial covenants. The ABL Credit Facility is denominated and repayable in U.S. dollars and matures on May 1, 2028.

The ABL Credit Facility has an annual commitment fee of 0.250% to 0.375% based on the excess availability of the credit agreement. The ABL Credit Facility contains financial covenants which must be calculated immediately prior to or during the continuance of a trigger period. The trigger period is a period where borrowing availability is less than the greater of 10% of the line cap and \$30.0 million. The net ABL Credit Facility borrowing availability was \$306.1 million as at June 30, 2024 and \$379.4 million as at December 31, 2023.

On March 25, 2024, the Company redeemed \$200.0 million of the Senior Notes. As a result of the redemption, the Company recognized a loss on the redemption of \$2.9 million, representing the write-off of the unamortized deferred finance charges related to the redeemed portion of the Senior Notes.

The Company has included a valuation allowance impacting the effective rate for the current period increasing it approximately 43.2%. Currently, there are not any ongoing audits or examinations with any tax jurisdictions.

In 2021, the Organization for Economic Cooperation and Development ("OECD") released Pillar Two Global Anti-Base Erosion model rules ("Pillar Two Rules"), designed to ensure large corporations are taxed at a minimum rate of 15% in all countries of operation. On June 20, 2024, as part of Bill C-69, Canada enacted its Pillar Two legislation effective January 1, 2024. Canada Bill C-59 was also enacted on June 20, 2024 and included the excessive interest and financing expenses limitation (EIFEL) regime effective for tax years beginning on or after September 30, 2023. The Company is continuing to evaluate the potential impact by the Pillar Two legislation and the new EIFEL regime.

10 Commitments and contingencies

Contingent liabilities

The Company has several defined contribution plans covering substantially all of its employees. Costs for the defined contribution plans were \$12.3 million and \$10.4 million for the six months ended June 30, 2024 and 2023, respectively.

Defined benefit pension plans

The Company maintains defined benefit plans for certain employees in the United Kingdom and France.

In the United Kingdom, the Company maintains two defined benefit schemes which provide both pensions in retirement and death benefits to members. Pension benefits are related to the member's final salary at retirement (or their career average revalued salary) and their length of service. The main scheme is the Vector Aerospace International Limited Pension Scheme (the "Scheme"). The other defined benefit scheme is the Vector Aerospace 1998 Pension Plan (the "Plan"). The Scheme and Plan are generally closed for new members, who participate in a separate defined contribution plan.

In France, the defined benefit plan is a government-mandated defined obligation that provides employees with retirement indemnities in the form of lump sums on the basis of the length of service and employee compensation levels. The plan is unfunded and benefits are paid when amounts become due, commencing when participants retire. Actuarial gains and losses of the year for long service awards are immediately recognized in the Consolidated Statements of Operations.

Costs for the defined benefit plans were \$0.3 million for the six months ended June 30, 2024 and 2023, respectively.

14 Fair value measurements

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The inputs used to measure fair value into the following hierarchy are determined as follows:

Level 1 - Unadjusted quoted prices in active markets for identical assets or liabilities.

DYNASTY PARENT CO., INC.
NOTES TO UNAUDITED CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS

Level 2 - Unadjusted quoted prices in active markets for similar assets or liabilities, or unadjusted quoted prices for identical or similar assets or liabilities in markets that are not active, or inputs other than quoted prices that are observable for the asset or liability.

Level 3 - Unobservable inputs for the asset or liability.

For cash and cash equivalents, accounts receivable, income taxes receivable and accounts payable, the fair value approximates the carrying value due to the short maturity periods of these financial instruments. For long-term borrowings, the fair value is measured using Level 2 market values.

The interest rate swaps, interest rate caps and foreign exchange contracts are carried at fair value in the Condensed Consolidated Balance Sheets. The fair value measurement is classified within Level 2 of the fair value hierarchy, as the inputs to the derivative pricing model are generally observable and do not contain a high level of subjectivity. The fair value of the interest rate agreements are estimated using industry standard valuation models using market-based observable inputs.

The following table summarizes the carrying amounts and fair values of financial instruments:

15 Derivatives and hedging

The Company is exposed to, among other things, the impact of changes in interest rates and foreign currency exchange rates in the normal course of business. The Company's objective in risk management is to utilize interest rate derivatives to add stability to interest expense and manage its exposure to interest rate movements, and utilize foreign exchange rate derivatives to add stability to foreign exchange expense and manage its exposure to exchange rate movements. To accomplish this objective, the Company primarily uses (i) interest-rate swaps and interest-rate caps as part of its interest rate risk management strategy and (ii) foreign currency forward contracts to protect against the foreign currency exchange rate risk inherent on forecasted transactions.

The Company uses derivative financial instruments only to the extent necessary to hedge identified business risks and does not enter into such transactions for trading purposes.

Interest-rate swap and interest-rate cap agreements

Interest-rate swaps designated as cash flow hedges involve the receipt of variable amounts from a counterparty in exchange for the Company making fixed-rate payments over the life of the agreements without exchange of the underlying notional amount. Interest-rate caps designated as cash flow hedges involve payment of a fixed premium to a counterparty in exchange for the company receiving a SOFR cap over the life of the agreement without exchange of the underlying notional amount.

During the six months ended June 30, 2024, and 2023 such derivatives were used to hedge the variable cash flows associated with its long-term debt agreements.

For the interest-rate caps, monthly premiums and differences received between the hedged interest rate and the interest rate cap are recorded to interest expense in the Consolidated Statements of Operations in the same period that the related interest is recorded for the Company's long-term debt agreements.

Foreign currency forward exchange contracts

The Company has operations in Canada, as well as other countries outside of North America, and consequently the Condensed Consolidated Balance Sheets can be affected by movements in exchange rates for limited balances denominated in foreign currency. Currency exposures can also arise from certain revenue and purchase transactions denominated in foreign currencies, primarily payroll costs which are in local currencies.

The Company enters into short term foreign exchange contracts throughout the year designated as a cash flow hedge to manage the exposure to changes in the exchange rate on its Canadian and United Kingdom

payroll costs, requiring the Company to buy a notional amount of Canadian dollars and British Pounds Sterling. The contracts require the Company to buy a notional amount of the foreign currency at a set rate weekly from a reference date to maturity date, or until a maximum value is reached.

DYNASTY PARENT CO., INC.
NOTES TO UNAUDITED CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS

The Company did not have any dilutive securities for the six months ended June 30, 2024 and 2023. Therefore, the weighted average number of common shares outstanding used to calculate both basic and diluted net income (loss) per share attributable to stockholder is the same. The Company has contingently issuable shares, issuable upon the Company's completion of a liquidity event which has not occurred as of June 30, 2024, and are therefore excluded from the calculation of net income (loss) per share.

18 Segment information

The Company's chief operating decision making officer ("CODM") is the Company's Chief Executive Officer. Effective May 2024, the Company's CODM reevaluated how the Company measures performance and allocates resources, and modified the Company's internal reporting, budgeting and forecasting and the responsibilities of his direct reports. As a result, The Company's previous Airlines and Fleets, Military, Helicopters and Energy and Business Aviation reportable segments are now combined into a new Engine Services reportable segment. The Company's Component Repair Services segment remains unchanged. Consistent with how the Company evaluates its performance and the way the Company is now organized internally, the Company now reports its activities in two segments: i) Engine Services, and ii) Component Repair Services. The comparative segment information in this note has been revised to conform to the new reportable segments.

Our chief operating decision maker evaluates the performance of our segments based on segment Revenue and segment Adjusted EBITDA. Management believes segment Adjusted EBITDA is indicative of operational performance and ongoing profitability and is used to evaluate the operating performance of the Company's segments and for planning and forecasting purposes, including the allocation of resources and capital. No asset information is provided to the CODM on the reportable segments.

The Company defines Segment Adjusted EBITDA as net income (loss) before interest expense, income tax expense (benefit), depreciation and amortization directly attributable to each operating segment and adjusted for certain non-cash items that the Company may record each period, as well as non-recurring items such as acquisition costs, integration and severance costs, refinance fees, business transformation costs and other discrete expenses, when applicable.

The Company's Engine Services segment provides a full suite of aftermarket services, including maintenance, repair and overhaul, on-wing and field service support, asset management, and engineering and related solutions to customers in the commercial aerospace, military & helicopter, and business aviation end markets. Revenue in the Engine Services segment is primarily derived from the repair and overhaul of a wide variety of gas turbine engines and auxiliary power units that power fixed and rotary wing aircraft. The Company also provides complementary maintenance, repair, upgrade and other related services for airframes and avionics systems in the business aviation and helicopter end markets. Cost of revenue consists primarily of cost of materials, direct labor and overhead.

The Company's Component Repair Services segment provides engine component and accessory repairs to the Commercial Aerospace, Military & Helicopter, and Other, including land and marine, and oil and gas end markets. Revenue in the Component Repair Services segment is derived from the engine piece part and accessory repairs that we perform, repair development engineering and other related services, and some engine new part manufacturing. Cost of revenue consists primarily of cost of materials, direct labor and overhead.

Our segment disclosure includes intersegment revenues, which primarily consist of subcontract services between segments. The revenue and corresponding cost of revenue are eliminated on consolidation. The elimination of such intersegment transactions is included within intersegment revenue in the table below.

DYNASTY PARENT CO., INC.
NOTES TO UNAUDITED CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS

The revenue is eliminated with the segment receiving the subcontract services. The segment providing services retains revenue while the segment receiving the services records the elimination.

Item 14. Indemnification of Directors and Officers

Section 102 of the Delaware General Corporation Law (the "DGCL") allows a corporation to eliminate the personal liability of a director to the corporation or its stockholders for monetary damages for breach of fiduciary duty as a director, except in cases where the director breached his or her duty of loyalty to the corporation or its stockholders, failed to act in good faith, engaged in intentional misconduct or a knowing violation of the law, willfully or negligently authorized the unlawful payment of a dividend or approved an unlawful stock redemption or repurchase or obtained an improper personal benefit. Our amended and restated certificate of incorporation contains a provision which eliminates directors' personal liability as set forth above.

Our amended and restated certificate of incorporation and amended and restated bylaws will provide in effect that we shall indemnify our directors and officers to the fullest extent permitted by the DGCL or any other applicable law. Section 145 of the DGCL provides that a Delaware corporation has the power to indemnify its directors, officers, employees and agents in certain circumstances. Section 145(a) of the DGCL empowers a corporation to indemnify any director, officer, employee or agent, or former director, officer, employee or agent, who was or is a party, or is threatened to be made a party to any threatened, pending or completed action, suit or proceeding, whether civil, criminal, administrative or investigative (other than an action by or in the right of the corporation), against expenses (including attorneys' fees), judgments, fines and amounts paid in settlement actually and reasonably incurred in connection with such action, suit or proceeding provided that such director, officer, employee or agent acted in good faith and in a manner he or she reasonably believed to be in, or not opposed to, the best interests of the corporation and, with respect to any criminal action or proceeding, provided that such director, officer, employee or agent had no reasonable cause to believe that his or her conduct was unlawful.

Section 145(b) of the DGCL empowers a corporation to indemnify any director, officer, employee or agent, or former director, officer, employee or agent, who was or is a party or is threatened to be made a party to any threatened, pending or completed action or suit by or in the right of the corporation to procure a judgment in its favor by reason of the fact that such person acted in any of the capacities set forth above, against expenses

[Table of Contents](#)

(including attorneys' fees) actually and reasonably incurred in connection with the defense or settlement of such action or suit provided that such person acted in good faith and in a manner he or she reasonably believed to be in or not opposed to the best interests of the corporation, except that no indemnification may be made in respect of any claim, issue or matter as to which such person shall have been adjudged to be liable to the corporation unless and only to the extent that the Court of Chancery shall determine that despite the adjudication of liability such person is fairly and reasonably entitled to indemnity for such expenses which the court shall deem proper.

Section 145 of the DGCL further provides that to the extent that a director or officer or employee of a corporation has been successful in the defense of any action, suit or proceeding referred to in subsections (a) and (b) or in the defense of any claim, issue or matter therein, he or she shall be indemnified against expenses (including attorneys' fees) actually and reasonably incurred by him or her in connection therewith; that indemnification provided by Section 145 shall not be deemed exclusive of any other rights to which the party seeking indemnification may be entitled; and the corporation is empowered to purchase and maintain insurance on behalf of a director, officer, employee or agent of the corporation against any liability asserted against him or her or incurred by him or her in any such capacity or arising out of his or her status as such whether or not the corporation would have the power to indemnify him or her against such liabilities under Section 145; and that, unless indemnification is ordered by a court, the determination that indemnification under subsections (a) and (b) of Section 145 is proper because the director, officer, employee or agent has met the applicable standard of conduct under such subsections shall be made by (1) a majority vote of the directors who are not parties to such action, suit or proceeding, even though less than a quorum, or (2) if there are no such directors, or if such directors so direct, by independent legal counsel in a written opinion, or (3) by the stockholders.

We have in effect insurance policies for general officers' and directors' liability insurance covering all of our officers and directors. In addition, we intend to enter into indemnification agreements with our directors and officers. These indemnification agreements may require us, among other things, to indemnify each such director or officer for certain expenses, including attorneys' fees, judgments, fines and settlement amounts incurred by such director or officer in any action or proceeding arising out of his or her service as one of our directors or officers.

Item 17. Undertakings

Insofar as indemnification for liabilities arising under the Securities Act of 1933, as amended (the "Securities Act") may be permitted to directors, officers and controlling persons of the Registrant pursuant to the foregoing provisions, or otherwise, the Registrant has been advised that in the opinion of the Securities and Exchange Commission such indemnification is against public policy as expressed in the Securities Act and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities (other than the payment by the Registrant of expenses incurred or paid by a director, officer or controlling person of the Registrant in the successful defense of any action, suit or proceeding) is asserted by such director, officer or

[Table of Contents](#)

controlling person in connection with the securities being registered, the Registrant will, unless in the opinion of its counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question whether such indemnification by it is against public policy as expressed in the Securities Act and will be governed by the final adjudication of such issue.

The undersigned Registrant hereby undertakes that:

(1) For purposes of determining any liability under the Securities Act, the information omitted from the form of prospectus filed as part of this registration statement in reliance upon Rule 430A and contained in a form of prospectus filed by the Registrant pursuant to Rule 424(b)(1) or (4) or 497(h) under the Securities Act shall be deemed to be part of this registration statement as of the time it was declared effective.

(2) For the purpose of determining any liability under the Securities Act, each post-effective amendment that contains a form of prospectus shall be deemed to be a new registration statement relating to the securities offered therein and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.

(b) If at any time any change in GAAP or the application thereof, or any election by the Issuer to report in IFRS in lieu of GAAP for financial reporting purposes, would affect the computation or interpretation of any financial ratio, basket, requirement or other provision set forth in any Note Document, and either the Issuer or the Controlling Party shall so request, the Controlling Party and the Issuer shall negotiate in good faith to amend such ratio, basket, requirement or other provision to preserve the original intent thereof in light of such change in GAAP or the application thereof (subject, prior to the Disposition Date, to the approval of the GS Purchasers and, from and after the Disposition Date, to the approval of the Required Holders in each case not to be unreasonably withheld, conditioned or delayed); *provided* that, until so amended, (i) (A) such ratio, basket, requirement or other provision shall continue to be computed or interpreted in accordance with GAAP or the application thereof prior to such change therein and (B) the Issuer shall provide to the Trustee and the Holders a written reconciliation in form and substance reasonably satisfactory to the Controlling Party, between calculations of such ratio, basket, requirement or other provision made before and after giving effect to such change in GAAP or the application thereof or (ii) the Issuer may elect to fix GAAP (for purposes of such ratio, basket, requirement or other provision) as of another later date notified in writing to the Trustee and the Controlling Party from time to time.

(c) Notwithstanding anything to the contrary contained herein, all such financial statements shall be prepared, and all financial covenants contained herein or in any other Note Document shall be calculated, in each case, without giving effect to any election under FASB ASC 825 (or any similar accounting principle) permitting a Person to value its financial liabilities at the fair value thereof.

SECTION 1.05 Rounding. Any financial ratios required to be satisfied in order for a specific action to be permitted under this Indenture shall be calculated by dividing the appropriate component by the other component, carrying the result to one decimal place more than the number of decimal places by which such ratio is expressed herein (the "applicable decimal place") and rounding the result up or down to the applicable decimal place.

SECTION 1.06 References to Agreements, Laws, Etc. Unless otherwise expressly provided herein, (a) references to agreements (including the Note Documents) and other contractual instruments shall be deemed to include all subsequent amendments, restatements, extensions, supplements and other modifications thereto, but only to the extent that such amendments, restatements, extensions, supplements and other modifications are not prohibited by any Note Document; and (b) references to any Law shall include all statutory and regulatory provisions consolidating, amending, replacing, supplementing or interpreting such Law.

Where any person gives a certificate (or other document), makes any statement or makes a representation in each case on behalf of any of the parties to the Note Documents pursuant to any provision thereof and such certificate, document, statement or representation proves to be incorrect, the individual shall incur no personal liability in consequence of such certificate, document, statement or undertaking being incorrect (save in the case of fraud, gross negligence or willful misconduct, in which case any liability of such individual shall be determined in accordance with applicable Law).

SECTION 1.09 Timing of Payment or Performance. When the payment of any obligation or the performance of any covenant, duty or obligation is stated to be due or performance required on a day which is not a Business Day, the date of such payment or performance shall extend to the immediately succeeding Business Day.

SECTION 1.10 Pro Forma Calculation. Notwithstanding anything to the contrary herein (subject to Section 1.03(i)), the Consolidated Interest Expense, the Consolidated Total Net Leverage Ratio, the Consolidated Senior Secured Net Debt Ratio, the Fixed Charge Coverage Ratio, Consolidated Net Income, Consolidated EBITDA, Four Quarter Consolidated EBITDA and Consolidated Total Assets shall be calculated on a Pro Forma Basis with respect to each Specified Transaction occurring during the applicable four quarter period to which such calculation relates, and/or subsequent to the end of such four-quarter period (including, with respect to any proposed Investment or acquisition pursuant to Rule 2.7 of The City Code on Takeovers and Mergers (or a similar arrangement) for which committed financing is obtained or is sought to be obtained, the relevant determination or calculation may be made with respect to an event occurring or intended to occur subsequent to such four-quarter period). Notwithstanding anything to the contrary contained herein, for purposes of calculating any leverage ratio herein in connection with the incurrence of any Indebtedness, there shall be no netting of the cash proceeds proposed to be received in connection with the incurrence of such Indebtedness.

SECTION 1.11 Calculation of Baskets. If any of the baskets set forth in this Indenture are exceeded solely as a result of fluctuations to Four Quarter Consolidated EBITDA and/or Consolidated Total Assets for the most recently completed fiscal quarter after the last time such baskets were calculated for any purpose under this Indenture, such baskets will not be deemed to have been exceeded solely as a result of such fluctuations.

SECTION 1.12 Currency Equivalents Generally.

(b) For purposes of determining the Consolidated Total Net Leverage Ratio, the Consolidated Senior Secured Net Debt Ratio, the Fixed Charge Coverage Ratio and the Consolidated Total Net Leverage Ratio, amounts denominated in a currency other than Dollars will be converted to Dollars at the Exchange Rate as of the date of determination, and will, in the case of Indebtedness, be the weighted average exchange rates used for determining Consolidated EBITDA for the relevant period; *provided* that if any Note Party has entered into any currency Swap Contracts in respect of any borrowings, the dollar amount of such borrowings shall be determined by first taking into account the effects of that currency Swap Contract.

(c) Notwithstanding the foregoing provisions of this Section 1.12 and for the avoidance of doubt, all cash payments made pursuant to this Indenture, any Note or any other Note Document shall be made in Dollars.

ARTICLE II

(b) Global Notes. Notes issued in global form will be substantially in the form of Exhibit A hereto (including the Global Note Legend thereon and the "Schedule of Increases or Decreases in the Global Note" attached thereto). Notes issued in definitive form will be substantially in the form of Exhibit A hereto (but without the Global Note Legend thereon and without the "Schedule of Increases or Decreases in the Global Note" attached thereto). Each Global Note will represent such of the outstanding Notes as will be specified therein and each shall provide that it represents the aggregate principal amount of outstanding Notes from time to time endorsed thereon and that the aggregate principal amount of outstanding Notes represented thereby may from time to time be reduced or increased, as appropriate, to reflect exchanges, redemptions and PIK Payments. Any endorsement of a Global Note to reflect the amount of any increase or decrease in the aggregate principal amount of outstanding Notes represented thereby shall be made by the Trustee or the Notes Custodian, at the direction of the Trustee, in accordance with Section 2.06(g) (or, in the case of any increase resulting from a PIK Payment, in accordance with the applicable provisions of this Indenture (including Section 2.01(g) and the Notes).

hereof) and (B) an Officer's Certificate from the Issuer, the Regulation S Temporary Global Note Legend shall be deemed removed from the Regulation S Temporary Global Note, and the beneficial interests in the Regulation S Temporary Global Note shall automatically become beneficial interests in the Regulation S Permanent Global Note pursuant to the Applicable Procedures. The aggregate principal amount of the Regulation S Temporary Global Note and the Regulation S Permanent Global Note may from time to time be increased or decreased by adjustments made on the records of the Trustee and the Depositary or its nominee, as the case may be, as hereinafter provided.

(e) Euroclear and Clearstream Procedures Applicable. The provisions of the "Operating Procedures of the Euroclear System" and "Terms and Conditions Governing Use of Euroclear" and the "General Terms and Conditions of Clearstream Banking" and "Customer Handbook" of Clearstream shall be applicable to transfers of beneficial interests in the Regulation S Temporary Global Note and the Regulation S Permanent Global Notes that are held by Participants through Euroclear or Clearstream.

(f) Applicable Procedures. The Applicable Procedures shall be applicable to beneficial interests in the Global Notes that are held by Participants through the Depositary.

(g) PIK Payments. If the Issuer is permitted to exercise the 100% PIK Option or 50% PIK Option for any Interest Period and does so exercise the 100% PIK Option or 50% PIK Option with respect to such Interest Period, the Issuer shall pay the applicable amount of PIK Interest for such Interest Period in respect of each outstanding Note on the Interest Payment Date in respect of such Interest Period by increasing the principal amount of each such outstanding Note at the end of such Interest Period by an amount equal to the PIK Interest applicable to each such outstanding Note (rounded up to the nearest whole Dollar), and an adjustment shall be made by the Trustee to reflect such increase, with respect to Global Notes, in the "Schedule of Increases or Decreases in the Global Note" and, with respect to Definitive Notes, on the books and records of the Trustee (a "PIK Payment"). Following any increase in the principal amount of the outstanding Notes as a result of a PIK Payment, the Notes will bear interest on such increased principal amount from and after the date of such PIK Payment. Unless the context otherwise requires, for all purposes under this Indenture (including for purposes of calculating any redemption price or redemption amount), references to the "principal" and the "principal amount" of any Notes includes any increase in the principal amount thereof due to the addition of PIK Interest thereto as a result of any PIK Payment. If the Issuer is permitted to exercise the 100% PIK Option or 50% PIK Option for any Interest Period and desires to exercise the 100% PIK Option or 50% PIK Option for such Interest Period, the Issuer must deliver a notice to the Trustee no later than the day that is five Business Days prior to the Interest Payment Date for such Interest Period, which notice indicates (x) which PIK Option is being exercised for such Interest Period and (y) the amount of PIK Interest and cash interest that will be paid in respect of such Interest Period on such Interest Payment Date (such notice, a "PIK Notice").

SECTION 2.02 Execution and Authentication. One Responsible Officer of the Issuer shall sign the Notes for the Issuer by manual, facsimile or pdf signature. If the Responsible Officer whose signature is on a Note no longer holds that office at the time the Trustee authenticates the Note, the Note shall be valid nevertheless.

A Note shall not be valid until an authorized officer of the Trustee manually authenticates the Note. The signature of the Trustee on a Note shall be conclusive evidence that such Note has been duly and validly authenticated and issued under this Indenture. A Note shall be dated the date of its authentication.

The Trustee will, upon receipt of a written order of the Issuer signed by one Responsible Officer of the Issuer (an “Issuer Order”), authenticate (x) on the Issue Date, Initial Notes for original issue in an aggregate principal amount of \$640,000,000 and (y) following the Issue Date, Additional Notes for original issue in an aggregate principal amount not to exceed \$100,000,000; *provided* that no Additional Notes may be authenticated, issued or delivered unless (i) the Indebtedness represented thereby would be permitted by Section 4.02, (ii) the applicable Additional Notes are being issued to finance one or more acquisitions or similar Investments and (iii) after giving pro forma effect to the issuance of the applicable Additional Notes, the GS Entities (in the aggregate) would continue to Beneficially Own the Required Amount. Notwithstanding anything to the contrary in this Indenture or the other Note Documents, (x) the aggregate principal amount of the Initial Notes that may be issued, authenticated and delivered under this Indenture may not exceed \$640,000,000, (y) the aggregate principal amount of Additional Notes that may be issued, authenticated and delivered under this Indenture may not exceed \$100,000,000 and (z) for the avoidance of doubt, the aggregate principal amount of Notes that may be issued, authenticated and delivered under this Indenture may not exceed \$740,000,000; *provided* that nothing in this sentence will restrict the making of PIK Payments or the issuance of any Notes pursuant to Section 2.07 or Section 2.09 or the immediately following paragraph of this Section 2.02 (it being understood however that in no event will the aggregate principal amount of Notes outstanding at any time under this Indenture exceed \$740,000,000 (exclusive of PIK Payments)).

In case the Issuer, pursuant to Section 4.03 shall be consolidated or merged or amalgamated with or into any other Person or shall convey, transfer, lease or otherwise dispose of all or substantially all of its properties and assets to any Person, and the successor Person resulting from such consolidation, or surviving such merger or amalgamation, or into which the Issuer shall have been merged, or the Person which shall have received a conveyance, transfer, lease or other disposition as aforesaid, shall have executed an indenture supplemental hereto with the Trustee pursuant to Section 4.03, any of the Notes authenticated or delivered prior to such consolidation, merger, amalgamation, conveyance, transfer, lease or other disposition may (but shall not be required), from time to time, at the request of the successor Person, be exchanged for other Notes executed in the name of the successor Person with such changes in phraseology and form as may be appropriate to reflect such successor Person, but otherwise in substance of like tenor as the Notes surrendered for such exchange and of like principal amount; and the Trustee, upon the Issuer Order of the successor Person, shall authenticate and make available for delivery Notes as specified in such order for the purpose of such exchange. If Notes shall at any time be authenticated and delivered in any new name of a successor Person pursuant to this Section 2.02 in exchange or substitution for or upon registration of transfer of any Notes, such successor Person, at the option of the Holders but without expense to them, shall provide for the exchange of all Notes at the time outstanding for Notes authenticated and delivered in such new name.

To the extent Additional Notes are permitted to be issued under this Indenture and are so issued, they shall rank *pari passu* with the existing Notes and shall be consolidated with and form a single class with the existing Notes and shall have identical terms as the Initial Notes, other than with respect to the date of issuance, issue price, amount of interest payable on the first interest payment date applicable thereto and transfer restrictions; *provided* that the Additional Notes will not be issued with the same “CUSIP” or “ISIN”, if any, as any Notes then existing unless such Additional Notes are fungible with such Notes then existing for U.S. federal income tax purposes. Any Additional Notes shall be issued pursuant to a supplemental indenture to this Indenture.

SECTION 2.03 Registrar, Transfer Agent and Paying Agent. The Issuer shall maintain an office or agency where Notes may be presented for registration (the “Registrar”), an office or agency where Notes may be presented for transfer or for exchange (the “Transfer Agent”) and an office or agency where Notes may be presented for payment (the “Paying Agent”). The Registrar shall keep a register of the Notes and of their transfer and exchange (the “Notes Register”). The Issuer may have one or more co-registrars and one or more additional paying agents. The term “Paying Agent” includes any additional paying agent and the term “Registrar” includes any co-registrar.

The Issuer shall notify the Trustee in writing of the name and address of any Paying Agent, Transfer Agent or Registrar not a party to this Indenture. If the Issuer fails to maintain a Registrar, Transfer Agent or Paying Agent, the Trustee shall act as such. The Issuer or any of its Subsidiaries may act as Paying Agent, Registrar or Transfer Agent.

The Issuer initially appoints The Depository Trust Company (“DTC”) to act as Depository with respect to the Global Notes.

The Issuer initially appoints the Trustee to act as the Registrar and the Paying Agent under this Indenture and as Notes Custodian with respect to the Global Notes.

SECTION 2.04 Paying Agent to Hold Money in Trust. The Issuer will require each Paying Agent other than the Trustee to agree in writing that the Paying Agent will hold in trust for the benefit of Holders or the Trustee all money held by the Paying Agent for the payment of principal, premium, if any, or interest on the Notes, and will notify the Trustee of any default by the Issuer in making any such payment. While any such default continues, the Trustee may require a Paying Agent to pay all money held by it to the Trustee. The Issuer at any time may require a Paying Agent to pay all money held by it to the Trustee. Upon payment over to the Trustee of all amounts that it is obligated to pay, the Paying Agent (if other than the Issuer or a Subsidiary of the Issuer) will have no further liability for the money. If the Issuer or a Subsidiary of the Issuer acts as Paying Agent, it will segregate and hold in a separate trust fund for the benefit of the Holders all money held by it as Paying Agent. Upon any bankruptcy or reorganization proceedings relating to the Issuer, the Trustee will serve as Paying Agent for the Notes.

SECTION 2.05 Holder Lists. The Trustee shall preserve in as current a form as is reasonably practicable the most recent list available to it of the names and addresses of Holders. If the Trustee is not the Registrar, the Issuer and each of the Guarantors, shall furnish or cause the Registrar to furnish to the Trustee, in writing at least five Business Days before each Interest Payment Date and at such other times as the Trustee may request in writing, a list in such form and as of such date as the Trustee may reasonably require of the names and addresses of Holders and the Issuer.

SECTION 2.06 Transfer and Exchange.

(a) Transfer and Exchange of Global Notes. A Global Note may not be transferred except as a whole by the Depository to a nominee of the Depository, by a nominee of the Depository to the Depository or to another nominee of the Depository, or by the Depository or any such nominee to a successor Depository. A beneficial interest in a Global Note may not be exchanged for a Definitive Note unless:

(1) the Depository notifies the Issuer that it is unwilling or unable to continue to act as Depository for such Global Note and the Issuer fails to appoint a successor Depository within 120 days of such notice; or

(2) there has occurred and is continuing an Event of Default with respect to the Notes and a holder requests that its beneficial interests in the applicable Global Note be exchanged for a Definitive Note in writing delivered through the Depository.

Upon the occurrence of any of the preceding events in clause (1) or (2) above, Definitive Notes delivered in exchange for any Global Note or beneficial interests therein shall be registered in the names, and issued in any authorized denomination, requested by or on behalf of the Depository (in accordance with customary procedures).

Global Notes also may be exchanged or replaced, in whole or in part, as provided in Section 2.07 and 2.09. Every Note authenticated and delivered in exchange for, or in lieu of, a Global Note or any portion thereof, pursuant to this Section 2.06 or Section 2.07 or 2.09, shall be authenticated and delivered in the form of, and shall be, a Global Note, except for Definitive Notes issued subsequent to any of the events in clause (1) or (2) above and pursuant to Section 2.06(b)(2)(B) and Section 2.06(c). A Global Note may not be exchanged for another Note other than as provided in this Section 2.06(a); *provided, however*, beneficial interests in a Global Note may be transferred and exchanged as provided in Section 2.06(b) or (c).

(b) Transfer and Exchange of Beneficial Interests in the Global Notes. The transfer and exchange of beneficial interests in the Global Notes will be effected through the Depository, in accordance with the provisions of this Indenture and the Applicable Procedures. Beneficial interests in the Restricted Global Notes will be subject to restrictions on transfer comparable to those set forth herein to the extent required by the Securities Act. Transfers of beneficial interests in the Global Notes also will require compliance with either subparagraph (1) or (2) below, as applicable, as well as one or more of the other following subparagraphs, as applicable:

(1) Transfer of Beneficial Interests in the Same Global Note. Beneficial interests in any Restricted Global Note may be transferred to Persons who take delivery thereof in the form of a beneficial interest in the same Restricted Global Note in accordance with the transfer restrictions set forth in the Private Placement Legend; *provided, however*, that prior to the expiration of the Restricted Period, transfers of beneficial interests in the Regulation S Temporary Global Note may not be made to a U.S. Person or for the account or benefit of a U.S. Person (other than pursuant to Rule 144A). Beneficial interests in any Unrestricted Global Note may be transferred to Persons who take delivery thereof in the form of a beneficial interest in an Unrestricted Global Note. No written orders or instructions shall be required to be delivered to the Registrar to effect the transfers described in this Section 2.06(b)(1).

(2) All Other Transfers and Exchanges of Beneficial Interests in Global Notes. In connection with all transfers and exchanges of beneficial interests that are not subject to Section 2.06(b)(1), the transferor of such beneficial interest must deliver to the Registrar either:

(A) both:

(i) a written order from a Participant given to the Depository in accordance with the Applicable Procedures directing the Depository to credit or cause to be credited a beneficial interest in another Global Note in an amount equal to the beneficial interest to be transferred or exchanged; and

(ii) instructions given by the Depository in accordance with the Applicable Procedures containing information regarding the Participant account to be credited with such increase; or

(B) both:

(i) a written order from a Participant given to the Depository in accordance with the Applicable Procedures directing the Depository to cause to be issued a Definitive Note in an amount equal to the beneficial interest to be transferred or exchanged; and

(ii) instructions given by the Depository to the Registrar containing information regarding the Person in whose name such Definitive Note shall be registered to effect the transfer or exchange referred to in clause (i) above;

provided that in no event shall Definitive Notes be issued upon the transfer or exchange of beneficial interests in the Regulation S Temporary Global Note prior to (A) the expiration of the applicable Restricted Period and (B) the receipt by the Registrar of any certification required pursuant to Rule 903(b)(3)(ii)(B) under the Securities Act.

Upon satisfaction of all of the requirements for transfer or exchange of beneficial interests in Global Notes contained in this Indenture and the Notes or otherwise applicable under the Securities Act, the Trustee shall adjust the principal amount of the relevant Global Note(s) pursuant to Section 2.06(g).

(3) Transfer of Beneficial Interests to Another Restricted Global Note. A beneficial interest in any Restricted Global Note may be transferred to a Person who takes delivery thereof in the form of a beneficial interest in another Restricted Global Note if the transfer complies with the requirements of Section 2.06(b)(2) and the Registrar receives the following:

(A) if the transferee will take delivery in the form of a beneficial interest in the 144A Global Note, a certificate in the form of Exhibit B hereto, including the certifications in item (1) thereof;

(4) Transfer and Exchange of Beneficial Interests in a Restricted Global Note for Beneficial Interests in an Unrestricted Global Note. A beneficial interest in any Restricted Global Note may be exchanged by any holder thereof for a beneficial interest in an Unrestricted Global Note or transferred to a Person who takes delivery thereof in the form of a beneficial interest in an Unrestricted Global Note if the exchange or transfer complies with the requirements of Section 2.06(b)(2) and the Registrar receives the following:

(A) if the holder of such beneficial interest in a Restricted Global Note proposes to exchange such beneficial interest for a beneficial interest in an Unrestricted Global Note, a certificate from such holder substantially in the form of Exhibit C hereto, including the certifications in item (1)(a) thereof; or

(B) if the holder of such beneficial interest in a Restricted Global Note proposes to transfer such beneficial interest to a Person who shall take delivery thereof in the form of a beneficial interest in an Unrestricted Global Note, a certificate from such holder substantially in the form of Exhibit B hereto, including the certifications in item (4) thereof;

and, in each such case set forth in this Section 2.06(b)(4), if the Issuer or Registrar so requests or if the Applicable Procedures so require, an Opinion of Counsel in form reasonably acceptable to the Issuer and Registrar to the effect that such exchange or transfer is in compliance with the Securities Act and that the restrictions on transfer contained herein and in the Private Placement Legend are no longer required in order to maintain compliance with the Securities Act.

If any such transfer or exchange is effected pursuant to subparagraph (4) above at a time when an Unrestricted Global Note has not yet been issued, the Issuer shall issue and, upon receipt of an Issuer Order in accordance with Section 2.02, the Trustee shall authenticate one or more Unrestricted Global Notes in an aggregate principal amount equal to the aggregate principal amount of beneficial interests transferred or exchanged pursuant to subparagraph (4) above. Beneficial interests in an Unrestricted Global Note cannot be exchanged for, or transferred to Persons who take delivery thereof in the form of a beneficial interest in a Restricted Global Note.

(c) Transfer and Exchange of Beneficial Interests for Definitive Notes.

(1) Beneficial Interests in Restricted Global Notes to Restricted Definitive Notes. If any holder of a beneficial interest in a Restricted Global Note proposes to exchange such beneficial interest for a Restricted Definitive Note or to transfer such beneficial interest to a Person who takes delivery thereof in the form of a Restricted Definitive Note, then, upon occurrence of any of the events in clause (1) or (2) of Section 2.06(a) and receipt by the Registrar of the following documentation:

(2) Beneficial Interests in Restricted Global Notes to Unrestricted Definitive Notes. A holder of a beneficial interest in a Restricted Global Note may exchange such beneficial interest for an Unrestricted Definitive Note or may transfer such beneficial interest to a Person who takes delivery thereof in the form of an Unrestricted Definitive Note only upon the occurrence of any of the events in clauses (1) or (2) of Section 2.06(a) and if the Registrar receives the following:

(A) if the holder of such beneficial interest in a Restricted Global Note proposes to exchange such beneficial interest for an Unrestricted Definitive Note, a certificate from such holder substantially in the form of Exhibit C hereto, including the certifications in item (1)(b) thereof; or

(B) if the holder of such beneficial interest in a Restricted Global Note proposes to transfer such beneficial interest to a Person who shall take delivery thereof in the form of an Unrestricted Definitive Note, a certificate from such holder substantially in the form of Exhibit B hereto, including the certifications in item (4) thereof;

and, in each such case set forth in this Section 2.06(c)(2), if the Issuer or Registrar so requests or if the Applicable Procedures so require, an Opinion of Counsel in form reasonably acceptable to the Issuer and Registrar to the effect that such exchange or transfer is in compliance with the Securities Act and that the restrictions on transfer contained herein and in the Private Placement Legend are no longer required in order to maintain compliance with the Securities Act.

The Trustee shall cause the aggregate principal amount of the applicable Global Note to be reduced accordingly pursuant to Section 2.06(g), and the Issuer shall execute and the Trustee shall authenticate and mail to the Person designated in the instructions a Definitive Note in the appropriate principal amount. Any Unrestricted Definitive Note issued in exchange for a beneficial interest in a Restricted Global Note pursuant to this Section 2.06(c)(2) shall be registered in such name or names and in such authorized denomination or denominations as the holder of such beneficial interest shall instruct the Registrar through instructions to the Registrar from or through the Depository and the applicable Participant. (4) Beneficial Interests in Regulation S Temporary Global Note to Definitive Notes. Notwithstanding Sections 2.06(c)(1)(A) and (C), a beneficial interest in the Regulation S Temporary Global Note may not be exchanged for a Definitive Note or transferred to a Person who takes delivery thereof in the form of a Definitive Note prior to (A) the expiration of the applicable Restricted Period and (B) the receipt by the Registrar of any certification required pursuant to Rule 903(b)(3)(ii)(B) under the Securities Act, except in the case of a transfer pursuant to an exemption from the registration requirements of the Securities Act other than Rule 903 or Rule 904.

(d) Transfer and Exchange of Definitive Notes for Beneficial Interests.

(1) Restricted Definitive Notes to Beneficial Interests in Restricted Global Notes. If any Holder of a Restricted Definitive Note proposes to exchange such Note for a beneficial interest in a Restricted Global Note or to transfer such Restricted Definitive Note to a Person who takes delivery thereof in the form of a beneficial interest in a Restricted Global Note, then, upon receipt by the Registrar of the following documentation:

the Trustee will cancel the Restricted Definitive Note and increase or cause to be increased the aggregate principal amount of, the applicable Restricted Global Note.

(2) Restricted Definitive Notes to Beneficial Interests in Unrestricted Global Notes. A Holder of a Restricted Definitive Note may exchange such Note for a beneficial interest in an Unrestricted Global Note or transfer such Restricted Definitive Note to a Person who takes delivery thereof in the form of a beneficial interest in an Unrestricted Global Note only if the Registrar receives the following:

A Holder of an Unrestricted Definitive Note may exchange such Note for a beneficial interest in an Unrestricted Global Note or transfer such Definitive Notes to a Person who takes delivery thereof in the form of a beneficial interest in an Unrestricted Global Note at any time. Upon receipt of a request for such an exchange or transfer, the Trustee will cancel the applicable Unrestricted Definitive Note and increase or cause to be increased the aggregate principal amount of one of the Unrestricted Global Notes.

If any such exchange or transfer from a Definitive Note to a beneficial interest is effected pursuant to subparagraph (1) or (2) above at a time when an Unrestricted Global Note has not yet been issued, the Issuer will issue and, upon receipt of an Issuer Order in accordance with Section 2.02, the Trustee will authenticate one or more Unrestricted Global Notes in an aggregate principal amount equal to the principal amount of Definitive Notes so transferred.

(e) Transfer and Exchange of Definitive Notes for Definitive Notes. Upon request by a Holder of Definitive Notes and such Holder's compliance with the provisions of this Section 2.06(e), the Registrar will register the transfer or exchange of Definitive Notes. In addition, the requesting Holder must provide any additional certifications, documents and information, as applicable, required pursuant to the following provisions of this Section 2.06(e).

(h) General Provisions Relating to Transfers and Exchanges.

(1) To permit registrations of transfers and exchanges, the Issuer will execute and the Trustee will authenticate Global Notes and Definitive Notes upon receipt of an Issuer Order in accordance with Section 2.02 or at the Registrar's request.

(2) No service charge will be made to a holder of a beneficial interest in a Global Note or to a Holder of a Definitive Note for any registration of transfer or exchange, but the Issuer may require payment of a sum sufficient to cover any transfer tax or similar governmental charge payable in connection therewith (other than any such transfer taxes or similar governmental charge payable upon exchange or transfer pursuant to Section 2.09, 4.03, 4.04, 5.06, 5.09 or 9.05 or the penultimate paragraph of Section 2.02).

(3) Neither the Registrar nor the Issuer shall be required to register the transfer of or exchange any Note selected for redemption in whole or in part, except the unredeemed portion of any Note being redeemed in part.

(4) All Global Notes and Definitive Notes issued upon any registration of transfer or exchange of Global Notes or Definitive Notes shall be the valid obligations of the Issuer, evidencing the same debt, and entitled to the same benefits under this Indenture, as the Global Notes or Definitive Notes surrendered upon such registration of transfer or exchange.

(5) The Issuer shall not be required (A) to issue, to register the transfer of or to exchange any Notes during a period beginning at the opening of business on a Business Day 15 days before the transmission of a notice of redemption of the Notes to be redeemed pursuant to Section 5.03 and ending at the close of business on the day of such transmission, (B) to register the transfer of or to exchange any Note so selected for redemption in whole or in part, except the unredeemed portion of any Note being redeemed in part, (C) to register the transfer of or to exchange a Note between a Record Date and the next succeeding Interest Payment Date or (D) to register the transfer of or to exchange any Notes selected for redemption or tendered (and not withdrawn) for repurchase in connection with a Change of Control Offer or an Asset Sale Offer.

(6) Prior to due presentment for the registration of a transfer of any Note, the Trustee, any applicable agent and the Issuer shall deem and treat the Person in whose name any Note is registered as the absolute owner of such Note for the purpose of receiving payment of principal of (and premium, if any) and interest on such Notes and for all other purposes, and none of the Trustee, any such agent or the Issuer shall be affected by notice to the contrary.

(7) Upon surrender for registration of transfer of any Note at the office or agency of the Issuer designated pursuant to Section 3.06, the Issuer shall execute, and the Trustee shall authenticate and mail, in the name of the designated transferee or transferees, one or more replacement Notes of any authorized denomination or denominations of a like aggregate principal amount.

(8) At the option of the Holder, subject to Section 2.06(a), Notes may be exchanged for other Notes of any authorized denomination or denominations of a like aggregate principal amount upon surrender of the Notes to be exchanged at such office or agency. Whenever any Global Notes or Definitive Notes are so surrendered for exchange, the Issuer shall execute, and the Trustee shall authenticate and deliver, the replacement Global Notes and Definitive Notes to which the Holder making the exchange is entitled in accordance with the provisions of Section 2.02.

(9) All certifications, certificates and Opinions of Counsel required to be submitted to the Registrar pursuant to this Section 2.06 to effect a registration of transfer or exchange may be submitted by facsimile or by electronic transmission or mail.

(10) The Trustee shall have no obligation or duty to monitor, determine or inquire as to compliance with any restrictions on transfer imposed under this Indenture or under applicable law with respect to any transfer of any interest in any Note (including any transfers between or among Participants or Beneficial Owners of interests in any Global Note) other than to require delivery of such certificates and other documentation or evidence as are expressly required by, and to do so if and when expressly required by the terms of, this Indenture, and to examine the same to determine substantial compliance as to form with the express requirements hereof. Neither the Trustee nor any applicable agent shall have any responsibility or liability for any actions taken or not taken by the Depositary.

SECTION 2.07 Mutilated, Destroyed, Lost or Stolen Notes. If a mutilated Note is surrendered to the Registrar or if the Holder of a Note claims that the Note has been lost, destroyed or wrongfully taken, the Issuer shall issue and the Trustee shall authenticate a replacement Note if the requirements of Section 8-405 of the Uniform Commercial Code are met, such that the Holder (a) satisfies the Issuer and the Trustee that such Note has been lost, destroyed or wrongfully taken within a reasonable time after such Holder has notice of such loss, destruction or wrongful taking and the Registrar has not registered a transfer prior to receiving such notification, (b) makes such request to the Issuer and the Trustee prior to the Note being acquired by a protected purchaser as defined in Section 8-303 of the Uniform Commercial Code (a “protected purchaser”) and (c) satisfies any other reasonable requirements of the Trustee; *provided, however*, if after the delivery of such replacement Note, a protected purchaser of the Note for which such replacement Note was issued presents for payment or registration such replaced Note, the Trustee and/or the Issuer shall be entitled to recover such replacement Note from the Person to whom it was issued and delivered or any Person taking therefrom, except a protected purchaser, and shall be entitled to recover upon the security or indemnity provided therefor to the extent of any loss, damage, cost or expense incurred by the Issuer or the Trustee in connection therewith. Such Holder shall furnish an indemnity bond sufficient in the judgment of the (i) Trustee to protect the Trustee and (ii) the Issuer to protect the Issuer, the Trustee, the Paying Agent and the Registrar, from any loss which any of them may suffer if a Note is replaced, and, in the absence of notice to the Issuer, any Guarantor or the Trustee that such Note has been acquired by a protected purchaser, the Issuer shall execute, and upon receipt of an Issuer Order, the Trustee shall authenticate and make available for delivery, in exchange for any such mutilated Note or in lieu of any such destroyed, lost or stolen Note, a new Note of like tenor and principal amount, bearing a number not contemporaneously outstanding.

In case any such mutilated, destroyed, lost or stolen Note has become or is about to become due and payable, the Issuer in its discretion may, instead of issuing a new Note, pay such Note.

Upon the issuance of any new Note under this Section 2.07, the Issuer may require that such Holder pay a sum sufficient to cover any tax or other governmental charge that may be imposed in relation thereto and any other expenses (including the fees and expenses of counsel and of the Trustee) in connection therewith.

Subject to the proviso in the initial paragraph of this Section 2.07, every new Note issued pursuant to this Section 2.07, in lieu of any mutilated, destroyed, lost or stolen Note shall constitute an original additional contractual obligation of the Issuer, any Guarantor (if applicable) and any other obligor upon the Notes, whether or not the mutilated, destroyed, lost or stolen Note shall be at any time enforceable by anyone, and shall be entitled to all benefits of this Indenture equally and proportionately with any and all other Notes duly issued hereunder.

The provisions of this Section 2.07 are exclusive and shall preclude (to the extent lawful) all other rights and remedies with respect to the replacement or payment of mutilated, destroyed, lost or stolen Notes.

SECTION 2.08 Outstanding Notes. Notes outstanding at any time are all Notes authenticated by the Trustee except for those cancelled by it, those delivered to it for cancellation, those paid pursuant to Section 2.07 and those described in this Section 2.08 as not outstanding. A Note does not cease to be outstanding in the event the Issuer or an Affiliate of the Issuer holds the Note; *provided, however*, that (i) for purposes of determining which are outstanding for consent or voting purposes hereunder, the provisions of Section 11.05 shall apply and (ii) in determining whether the Trustee shall be protected in making a determination whether the Holders of the requisite principal amount of outstanding Notes are present at a meeting of Holders of Notes for quorum purposes or have consented to or voted in favor of any request, demand, authorization, direction, notice, consent, waiver, amendment or modification hereunder, or relying upon any such quorum, consent or vote, only Notes which a Trust Officer of the Trustee actually knows to be held by the Issuer or an Affiliate of the Issuer shall not be considered outstanding.

If a Note is replaced pursuant to Section 2.07 (other than a mutilated Note surrendered for replacement), it ceases to be outstanding unless the Trustee and the Issuer receives proof satisfactory to them that the replaced Note is held by a protected purchaser. A mutilated Note ceases to be outstanding upon surrender of such Note and replacement pursuant to Section 2.07.

If the Issuer (when acting as Paying Agent) segregates and holds in trust, in accordance with this Indenture, on a Redemption Date or maturity date, money sufficient to pay all principal, premium, if any, and accrued interest payable on that date with respect to the Notes (or portions thereof) to be redeemed or maturing, as the case may be, and the Paying Agent is not prohibited from paying such money to the Holders on that date pursuant to the terms of this Indenture, then on and after that date such Notes (or portions thereof) cease to be outstanding and interest on them ceases to accrue.

SECTION 2.09 Temporary Notes. In the event that Definitive Notes are to be issued under the terms of this Indenture, until such Definitive Notes are ready for delivery, the Issuer may prepare and the Trustee shall authenticate temporary Notes. Temporary Notes shall be substantially in the form, and shall carry all rights, of Definitive Notes but may have variations that the Issuer considers appropriate for temporary Notes. Without unreasonable delay, the Issuer shall prepare and the Trustee shall authenticate Definitive Notes. After the preparation of Definitive Notes, the temporary Notes shall be exchangeable for Definitive Notes upon surrender of the temporary Notes at any office or agency maintained by the Issuer for that purpose and such exchange shall be without charge to the Holder. Upon surrender for cancellation of any one or more temporary Notes, the Issuer shall execute, and the Trustee shall, upon receipt of an Issuer Order, authenticate and make available for delivery in exchange therefor, one or more Definitive Notes representing an equal principal amount of Notes. Until so exchanged, the Holder of temporary Notes shall in all respects be entitled to the same benefits under this Indenture as a Holder of Definitive Notes.

SECTION 2.10 Cancellation. The Issuer at any time may deliver Notes to the Trustee for cancellation. The Registrar and the Paying Agent shall forward to the Trustee any Notes surrendered to them for registration of transfer, exchange or payment. The Trustee and no one else shall cancel all Notes surrendered for registration of transfer, exchange, payment or cancellation and dispose of such Notes in accordance with its internal policies and customary procedures (subject to the record retention requirements of the Exchange Act and the Trustee). If the Issuer or any Guarantor acquires any of the Notes, such acquisition shall not operate as a redemption or satisfaction of the Indebtedness represented by such Notes unless and until the same are surrendered to the Trustee for cancellation pursuant to this Section 2.10. The Issuer may not issue new Notes to replace Notes it has paid or delivered to the Trustee for cancellation for any reason other than in connection with a transfer or exchange.

At such time as all beneficial interests in a Global Note have either been exchanged for Definitive Notes, transferred, redeemed, repurchased or canceled, such Global Note shall be returned to the Trustee for cancellation or retained and canceled by the Trustee. At any time prior to such cancellation, if any beneficial interest in a Global Note is exchanged for Definitive Notes, transferred in exchange for an interest in another Global Note, redeemed, repurchased or canceled, the principal amount of Notes represented by such Global Note shall be reduced and an adjustment shall be made on the books and records of the Trustee (if it is then the Notes Custodian for such Global Note) with respect to such Global Note, by the Paying Agent or the Notes Custodian, at the direction of the Trustee, to reflect such reduction.

SECTION 2.11 Payment of Interest; Defaulted Interest. Interest on any Note which is payable, and is punctually paid or duly provided for, on any Interest Payment Date shall be paid to the Person in whose name such Note (or one or more Predecessor Notes) is registered at the close of business on the regular Record Date for such payment at the office or agency of the Issuer maintained for such purpose pursuant to Section 2.03.

Any interest on any Note which is payable, but is not paid when the same becomes due and payable (and such nonpayment continues beyond the applicable cure period set forth in Section 6.01(a)(ii)) shall forthwith cease to be payable to the Holder on the regular Record Date, and such defaulted interest and (to the extent lawful) interest on such defaulted interest at the rate borne by the Notes and as provided in Section 6.03 (such defaulted interest and interest thereon herein, including any interest required to be paid under Section 6.03, collectively called "Defaulted Interest") shall be paid by the Issuer, at its election in each case, as provided in clause (a) or (b) below:

(a) The Issuer may elect to make payment of any Defaulted Interest to the Persons in whose names the Notes (or their respective Predecessor Notes) are registered at the close of business on a Special Record Date (as defined below) for the payment of such Defaulted Interest, which shall be fixed in the following manner. The Issuer shall notify the Trustee in writing of the amount of Defaulted Interest proposed to be paid on each Note and the date (not less than 30 days after such notice) of the proposed payment (the "Special Interest Payment Date"), and at the same time the Issuer shall deposit with the Trustee an amount of money equal to the aggregate amount proposed to be paid in respect of such Defaulted Interest or shall make arrangements satisfactory to the Trustee for such deposit prior to the date of the proposed payment, such money when deposited to be held in trust for the benefit of the Persons entitled to such Defaulted Interest as provided in this Section 2.11(a). Thereupon the Issuer shall fix a record date (the "Special Record Date") for the payment of such Defaulted Interest, which date shall be not more than 20 calendar days and not less than 15 calendar days prior to the Special Interest Payment

Date and not less than 10 calendar days after the receipt by the Trustee of the notice of the proposed payment. The Issuer shall promptly notify the Trustee in writing of such Special Record Date, and in the name and at the expense of the Issuer, the Trustee shall cause notice of the proposed payment of such Defaulted Interest and the Special Record Date and Special Interest Payment Date therefor to be given in the manner provided for in Section 11.01, not less than 10 calendar days prior to such Special Record Date. Notice of the proposed payment of such Defaulted Interest and the Special Record Date and Special Interest Payment Date therefor having been so given, such Defaulted Interest shall be paid on the Special Interest Payment Date to the Persons in whose names the Notes (or their respective Predecessor Notes) are registered at the close of business on such Special Record Date and shall no longer be payable pursuant to the provisions in Section 2.11(b).

(b) The Issuer may make payment of any Defaulted Interest in any other lawful manner not inconsistent with the requirements of any securities exchange on which the Notes may be listed, and upon such notice as may be required by such exchange, if, after written notice given by the Issuer to the Trustee of the proposed payment pursuant to this Section 2.11(b), such manner of payment shall be deemed practicable by the Trustee.

Subject to the foregoing provisions of this Section 2.11, each Note delivered under this Indenture upon registration of, transfer of or in exchange for or in lieu of any other Note shall carry the rights to interest accrued and unpaid, and to accrue, which were carried by such other Note.

SECTION 2.12 CUSIP and ISIN Numbers. The Issuer in issuing the Notes may use “CUSIP” and/or “ISIN” numbers and, if so, the Trustee shall use “CUSIP” and/or “ISIN” numbers in notices of redemption or purchase as a convenience to Holders; *provided, however*, that any such notice may state that no representation is made as to the correctness of such numbers either as printed on the Notes or as contained in any notice of a redemption or purchase and that reliance may be placed only on the other identification numbers printed on the Notes, and any such redemption or purchase shall not be affected by any defect in or omission of such “CUSIP” or “ISIN” numbers. The Issuer shall promptly notify the Trustee in writing of any change in the “CUSIP” or “ISIN” numbers.

Delivery of such reports, information and documents to the Trustee is for informational purposes only and the Trustee’s receipt of such shall not constitute constructive notice of any information contained therein or determinable from information contained therein, including the Issuer’s compliance with any of its covenants hereunder (as to which the Trustee is entitled to rely exclusively on Officers’ Certificates).

SECTION 3.02 Certificates: Other Information. The Issuer shall deliver to the Trustee and the Holders, and, prior to the Disposition Date, the GS Purchasers concurrently with the delivery of the financial statements referred to in Sections 3.01(a) and (b), an Officer’s Certificate stating that a review of the activities of Holdings, the Issuer and the Restricted Subsidiaries during the applicable fiscal period to which the financial statements being delivered concurrently with such Officer’s Certificate relate has been made under the supervision of the signing Responsible Officer with a view to determining whether Holdings, the Issuer and the Restricted Subsidiaries have kept, observed, performed and fulfilled their respective obligations under the Note Documents, and further stating, as to the Responsible Officer signing such certificate, that to the best of his or her knowledge Holdings, the Issuer and their Restricted Subsidiaries have kept, observed, performed and fulfilled their obligations under the Note Documents and there does not exist or continue, as of the date of such certificate, any condition or event which constitutes a Default or Event of Default (or, if such condition or event exists, specifying the nature and period of existence thereof and what action the Issuer has taken or is taking or proposes to take with respect thereto).

Documents required to be delivered pursuant to Section 3.01 or 3.02 may be delivered electronically and if so delivered, shall be deemed to have been delivered on the date (i) on which the Issuer posts such documents, or provides a link thereto on the Issuer's website on the Internet at the website addresses listed in (or updated in accordance with) Section 11.01; or (ii) on which such documents are posted on the Issuer's behalf on IntraLinks/IntraAgency or another relevant website, if any, to which each Holder, Beneficial Owner of Notes and the Trustee have or have been given the opportunity to access (whether a commercial, third-party website or whether sponsored by the Trustee); *provided* that the Issuer shall notify (which may be by facsimile or electronic mail) the Trustee, the Holders and the Beneficial Owners of Notes of the posting of any such documents and shall provide to the Trustee and, if prior to the Disposition Date and requested by the GS Purchasers, the GS Purchasers by electronic mail electronic versions (i.e., soft copies) of such documents. Each Holder and Beneficial Owner of Notes shall be solely responsible for timely accessing posted documents and the Trustee shall have no obligation whatsoever to determine whether or not such documents have been posted or delivered.

SECTION 3.03 Notices. The Issuer shall, promptly after a Responsible Officer obtains actual knowledge thereof, notify the Trustee (with a copy to the Holders and, prior to the Disposition Date, the GS Purchasers):

(a) of the occurrence of any Default or Event of Default (it being understood that any delivery of a notice of Default shall automatically cure any Default or Event of Default then existing with respect to any failure to deliver such notice), which notice shall specify the nature thereof, the period of existence thereof and what action the Issuer has taken or proposes to take with respect thereto; *provided* that a notice of Default shall be delivered within 30 days of such Default and no such notice shall be required if the Default shall have been cured within 30 days of its occurrence;

(b) of the institution of any material litigation not previously disclosed by the Issuer to the Holders, or any material development in any material litigation that is reasonably likely to be adversely determined, and would, in either case, if adversely determined be reasonably expected to have a Material Adverse Effect;

(c) of the occurrence of any ERISA Event, where there is any reasonable likelihood of the imposition of liability on the Issuer or any of its Restricted Subsidiaries as a result thereof that would be reasonably expected to have a Material Adverse Effect; and

(d) of the occurrence of any Foreign Benefit Event, where there is any reasonable likelihood of the imposition of liability on the Issuer or any of its Restricted Subsidiaries as a result thereof that would be reasonably expected to have a Material Adverse Effect.

Each notice pursuant to this Section 3.03 shall be accompanied by a statement of a Responsible Officer of the Issuer setting forth details of the occurrence referred to therein and stating what action the Issuer has taken and proposes to take with respect thereto.

SECTION 3.04 Additional Information. For so long as any Notes remain outstanding and are "restricted securities" with the meaning of Rule 144, shall furnish to the Holders and prospective investors, upon their written request, the information required to be delivered pursuant to Rule 144A(d)(4) under the Securities Act.

SECTION 3.05 Payment of Notes. The Issuer shall pay the principal of, premium, if any, and interest on the Notes on the dates and in the manner provided in the Notes and in this Indenture. Principal, premium, if any, and interest shall be considered paid on the date due if by 10:00 a.m., New York City time, on such date the Trustee or the Paying Agent (other than the Issuer or any Affiliate thereof) holds in accordance with this Indenture money sufficient to pay all principal, premium, if any, and interest then due and the Trustee or the Paying Agent, as the case may be, is not prohibited from paying such money to the Holders on that date pursuant to the terms of this Indenture; *provided* that if the Issuer exercises a PIK Option with respect to any Interest Period, the applicable amount of PIK Interest in respect of such Interest Period shall be considered paid on the date due if in accordance with the terms hereof and of the Notes, a PIK Payment is made in respect of such amount of PIK Interest. The Issuer shall also pay additional interest to the extent required to be paid pursuant to Section 6.03. All payments made on the Notes shall be made free and clear of deduction or withholding for Taxes, except as otherwise required by Law.

SECTION 3.06 Maintenance of Office or Agency. The Issuer shall maintain an office or agency where the Notes will be payable and where, if applicable, the Notes may be surrendered for registration of transfer or exchange and where notices and demands to or upon the Issuer in respect of the Notes and this Indenture may be served. The corporate trust office of the Trustee, which initially shall be located at the notice address for the Trustee set forth in Section 11.01, Attention: Dynasty Acquisition Co., Inc. Administrator, shall be such office or agency of the Issuer unless the Issuer shall designate and maintain some other office or agency for one or more of such purposes. The Issuer will give prompt written notice to the Trustee of any change in the location of any such office or agency. If at any time the Issuer shall fail to maintain any such required office or agency or shall fail to furnish the Trustee with the address thereof, such presentations and surrenders may be made or served at the corporate trust office of the Trustee, and the Issuer hereby appoints the Trustee as its agent to receive all such presentations and surrenders.

The Issuer may also from time to time designate one or more other offices or agencies where the Notes may be presented or surrendered for any or all such purposes and may from time to time rescind any such designation. The Issuer will give prompt written notice to the Trustee of any such designation or rescission and any change in the location of any such other office or agency. The office of Trustee shall not be an office or agency of the Issuer for service of process on the Issuer, which office or agency is as set forth in Section 11.18.

SECTION 3.07 Payment of Obligations. The Issuer shall, and shall cause each of its Restricted Subsidiaries to, timely pay, discharge or otherwise satisfy, as the same shall become due and payable, all obligations and liabilities in respect of taxes, assessments and governmental charges or levies imposed upon it or upon its income or profits or in respect of its property, except, in each case, to the extent (a) any such tax, assessment, charge or levy is being contested in good faith and by appropriate actions diligently conducted and for which appropriate reserves have been established in accordance with GAAP or (b) the failure to pay or discharge the same would not reasonably be expected, individually or in the aggregate, to have a Material Adverse Effect.

SECTION 3.08 Preservation of Existence, Etc.. The Issuer shall, and shall cause of each of its Restricted Subsidiaries to,

(a) preserve, renew and maintain in full force and effect its legal existence under the Laws of the jurisdiction of its incorporation or organization except in a transaction permitted by Section 4.03 or 4.04;

(b) take all reasonable action to obtain, preserve, renew and keep in full force and effect those of its rights, licenses, permits, privileges (including its good standing, if such concept is applicable in its jurisdiction of organization), permits, licenses and franchises necessary or desirable in the normal conduct of its business, except to the extent that failure to do so could not reasonably be expected to have a Material Adverse Effect or as otherwise permitted hereunder; and

(c) use commercially reasonable efforts to preserve or renew all of its registered copyrights, patents, trademarks, trade names and service marks, the non-preservation of which would reasonably be expected to have a Material Adverse Effect or as otherwise permitted hereunder, *provided* that nothing in this [Section 3.08](#) shall require the preservation, renewal or maintenance of, or prevent the abandonment by, the Issuer or Restricted Subsidiary of any registered copyrights, patents, trademarks, trade names and service marks that the Issuer or Restricted Subsidiary reasonably determines is not useful to its business or no longer commercially desirable.

[SECTION 3.09 Maintenance of Properties.](#) Except if the failure to do so could not reasonably be expected to have, individually or in the aggregate, a Material Adverse Effect, the Issuer shall, and shall cause each of its Restricted Subsidiaries to, maintain, preserve and protect all of its tangible properties and equipment that are necessary in the operation of its business in good working order, repair and condition, ordinary wear and tear excepted and casualty or condemnation excepted.

[SECTION 3.10 Maintenance of Insurance.](#) Except if the failure to do so could not reasonably be expected to have a Material Adverse Effect, the Issuer shall, and shall cause each of its Restricted Subsidiaries to, maintain in full force and effect, with insurance companies that the Issuer believes (in the good faith judgment of the management of the Issuer) are financially sound and responsible at the time the relevant coverage is placed or renewed, insurance in at least such amounts (after giving effect to any self-insurance which the Issuer believes (in the good faith judgment of management of the Issuer) is reasonable and prudent in light of the size and nature of its business) and against at least such risks (and with such risk retentions) as are usually insured against in the same general area by companies engaged in businesses similar to those engaged by the Issuer and its Restricted Subsidiaries.

[SECTION 3.11 Compliance with Laws.](#) The Issuer shall, and shall cause each of its Restricted Subsidiaries to, comply with all applicable Laws (including, without limitation, ERISA, the USA PATRIOT Act, Anti-Corruption Laws and Canadian Anti-Terrorism Laws) in all material respects and all orders, writs, injunctions and decrees of any Governmental Authority applicable to it or to its business or property, except if the failure to comply therewith, either individually or in the aggregate, would not reasonably be expected to have a Material Adverse Effect.

[SECTION 3.12 Change of Control.](#)

(a) If a Change of Control occurs, unless the Issuer or a third party has previously or concurrently delivered or mailed a redemption notice with respect to all the outstanding Notes under [Section 5.07](#), the Issuer shall make an offer to purchase all of the Notes pursuant to the offer described in this [Section 3.12](#) (the "[Change of Control Offer](#)") at a price in cash (the "[Change of Control Payment](#)") equal to 101% of the aggregate principal amount thereof, plus accrued and unpaid interest, if any, to but excluding the date of repurchase, subject to the right of Holders of Notes of record on the relevant Record Date to receive interest due on the relevant Interest Payment Date. Within 30 days following any Change of Control, the Issuer will deliver notice of such Change of Control Offer electronically or by first-class mail, with a copy to the Trustee, to each Holder of Notes at the address of such Holder appearing in the security register or otherwise in accordance with the procedures of DTC, describing the transaction or transactions that constitute the Change of Control and with the following information:

(i) that a Change of Control Offer is being made pursuant to this Section 3.12, and that all Notes properly tendered pursuant to such Change of Control Offer will be accepted for payment by the Issuer;

(ii) the purchase price and the purchase date, which will be no earlier than 30 days nor later than 60 days from the date such notice is delivered, except in the case of a conditional Change of Control Offer made in advance of a Change of Control as described in clause (viii) below (the "Change of Control Payment Date");

(iii) that any Note not properly tendered will remain outstanding and continue to accrue interest in accordance with the terms of this Indenture and the Notes;

(iv) that unless the Issuer defaults in the payment of the Change of Control Payment, all Notes accepted for payment pursuant to the Change of Control Offer will cease to accrue interest, on the Change of Control Payment Date;

(v) that Holders electing to have any Notes purchased pursuant to a Change of Control Offer will be required to surrender such Notes, with the form entitled "Option of Holder to Elect Purchase" on the reverse of such Notes completed, to the Paying Agent specified in the notice at the address specified in the notice prior to the close of business on the third Business Day preceding the Change of Control Payment Date;

(vi) that Holders will be entitled to withdraw their tendered Notes and their election to require the Issuer to purchase such Notes; *provided* that the Paying Agent receives, not later than the close of business on the second Business Day prior to the expiration date of the Change of Control Offer, a facsimile transmission or letter setting forth the name of the Holder of the Notes, the principal amount of Notes tendered for purchase, and a statement that such Holder is withdrawing its tendered Notes and its election to have such Notes purchased;

(vii) that Holders whose Notes are being purchased only in part will be issued new Notes and such new Notes will be equal in principal amount to the unpurchased portion of the Notes surrendered, which unpurchased portion of the Notes must be equal to at least \$1.00 or any integral multiple of \$1.00 in excess of \$1.00;

(viii) if such notice is delivered prior to the occurrence of a Change of Control, stating that a definitive agreement is in place for such Change of Control and the Change of Control Offer is conditional on the occurrence of such Change of Control and that the Change of Control Payment Date may be delayed until such condition shall be satisfied (or waived by the Issuer in its sole discretion) (including more than 60 days after the date such notice was mailed or delivered, including by electronic transmission), and that such Change of Control Payment Date may not occur and that such notice may be rescinded in the event that any or all such conditions are not satisfied (or waived by the Issuer in its sole discretion) by the Change of Control Payment Date, or by the Change of Control Payment Date as so delayed or such notice may be rescinded at any time in the Issuer's discretion if in the good faith judgment of the Issuer any or all of such conditions will not be satisfied. In addition, the Issuer may provide in such notice that payment of the redemption price and performance of the Issuer's obligations with respect to such redemption may be performed by another Person; and

(ix) the other instructions, as determined by the Issuer, consistent with this Section 3.12, that a Holder must follow.

The Paying Agent will promptly deliver to each Holder of the Notes tendered the Change of Control Payment for such Notes, and the Trustee will promptly authenticate and mail (or cause to be transferred by book-entry) to each Holder a new Note equal in principal amount to any unpurchased portion of the Notes surrendered, if any; *provided* that each such new Note will be in a principal amount of \$1.00 or an integral multiple of \$1.00 in excess thereof.

If the Change of Control Payment Date is on or after a Record Date and on or before the related Interest Payment Date, any accrued and unpaid interest up to (but not including) the Change of Control Payment Date shall be paid to the Person in whose name a tendered Note accepted for purchase is registered at the close of business on such Record Date.

(b) On the Change of Control Payment Date, the Issuer will, to the extent permitted by law,

(i) accept for payment all Notes issued by it or portions thereof properly tendered pursuant to the Change of Control Offer,

(ii) deposit with the Paying Agent an amount equal to the aggregate Change of Control Payment in respect of all Notes or portions thereof so tendered, and

(iii) deliver, or cause to be delivered, to the Trustee for cancellation the Notes so accepted together with an Officer's Certificate to the Trustee stating that such Notes or portions thereof have been tendered to and purchased by the Issuer.

(c) The Issuer will not be required to make a Change of Control Offer following a Change of Control if (1) a third party makes the Change of Control Offer in the manner, at the times and otherwise in compliance with the requirements set forth in this Indenture applicable to a Change of Control Offer made by the Issuer and purchases all Notes validly tendered and not withdrawn under such Change of Control Offer or (2) a notice of redemption of all outstanding Notes has been given pursuant to this Indenture as described under Section 5.03, unless and until there is a default in the payment of the redemption price on the applicable Redemption Date or the redemption is not consummated due to the failure of a condition precedent contained in the applicable redemption notice to be satisfied. Notwithstanding anything to the contrary in this Section 3.12, a Change of Control Offer may be made in advance of a Change of Control, conditional upon such Change of Control, if a definitive agreement is in place for such Change of Control at the time of making of the Change of Control Offer.

(d) A Change of Control Offer may be made at the same time as consents are solicited with respect to an amendment, supplement or waiver of this Indenture, Notes and/or Guarantees (but the Change of Control Offer may not condition tenders on the delivery of such consents).

(e) The Issuer will comply, to the extent applicable, with the requirements of Rule 14e-1 under the Exchange Act and any other securities laws, rules and regulations thereunder to the extent such laws, rules or regulations are applicable in connection with the repurchase of Notes pursuant to a Change of Control Offer. To the extent that the provisions of any securities laws, rules or regulations conflict with the provisions of this Indenture, the Issuer will comply with the applicable securities laws and regulations and shall not be deemed to have breached its obligations described in this Indenture by virtue thereof.

(f) Other than as specifically provided in this Section 3.12, any purchase pursuant to this Section 3.12 shall be made pursuant to the applicable provisions of Section 5.01 through 5.06

(g) The Issuer's obligation to make an offer to repurchase the Notes pursuant to this [Section 3.12](#) may be waived or modified (at any time, including after a Change of Control) with the written consent of the Holders of a majority in principal amount of the Notes then outstanding.

SECTION 3.13 Books and Records. The Issuer shall, and shall cause each of its Restricted Subsidiaries to, maintain books of record and account, in a manner to allow financial statements to be prepared in all material respects in conformity with GAAP consistently applied in respect of all financial transactions and matters involving the assets and business of the Issuer or, if applicable, Holdings or such Restricted Subsidiary, as the case may be (it being understood and agreed that Non-U.S. Subsidiaries may maintain individual books and records in conformity with generally accepted accounting principles that are applicable in their respective jurisdiction of organization and that such maintenance shall not constitute a breach of the representations and warranties under the Note Purchase Agreement or the covenants hereunder or under the Note Purchase Agreement, as applicable).

SECTION 3.14 Compliance with Environmental Laws.

Except, in each case, to the extent that the failure to do so could not reasonably be expected to have a Material Adverse Effect, the Issuer shall, and shall cause each of its Restricted Subsidiaries to, (a) comply, and take commercially reasonable efforts to cause all lessees operating or occupying its properties to comply with all Environmental Laws and Environmental Permits; (b) obtain, maintain and renew all applicable Environmental Permits necessary for its operations and properties; and (c) to the extent required under Environmental Laws, conduct any investigation, mitigation, study, sampling and testing, and undertake any cleanup, removal or remedial, corrective or other action necessary to respond to and remove and clean up all Hazardous Materials from any of its properties, in accordance with the requirements of applicable Environmental Laws; *provided, however*, that neither the Issuer nor any Restricted Subsidiary shall be required to undertake any such cleanup, removal, remedial, corrective or other action to the extent that its obligation to do so is being contested in good faith and by proper proceedings and appropriate reserves are being maintained with respect to such circumstances in accordance with GAAP.

SECTION 3.15 Covenant to Guarantee Note Obligations(a) . Upon the formation or acquisition of any new U.S. Subsidiary that is a Wholly Owned Subsidiary by the Issuer or any of its Restricted Subsidiaries (*provided* that each of (i) any Subsidiary Redesignation resulting in an Unrestricted Subsidiary becoming a Restricted Subsidiary and (ii) any Excluded Subsidiary ceasing to be an Excluded Subsidiary but remaining a Restricted Subsidiary (including a Controlled Non-U.S. Subsidiary or a FSHCO ceasing to be an Excluded Subsidiary) shall be deemed to constitute the acquisition of a Restricted Subsidiary for purposes of this [Section 3.15](#)), the Issuer shall, at the Issuer's expense, within 90 days after such formation or acquisition or such longer period as the Controlling Party may agree in its reasonable discretion, cause each such Subsidiary that is not an Excluded Subsidiary to deliver to the Trustee and, prior to the Disposition Date, the GS Purchasers, (a) a supplemental indenture substantially in the form of [Exhibit E](#) hereto pursuant to which each such Subsidiary shall become a Guarantor under this Indenture and providing for a Guarantee by each such Subsidiary on the same terms and conditions as those set forth in this Indenture and applicable to the other Guarantors and (b) an executed joinder agreement in the form of Exhibit A to the Intercompany Subordination Agreement. Within 90 days after the request of the Controlling Party, or such longer period as the Controlling Party may agree in its reasonable discretion, the Issuer shall, and shall cause its Restricted Subsidiaries to, deliver to the Controlling Party Organization Documents and resolutions. In addition, at any time from time to time, the Issuer shall, and shall cause its Restricted Subsidiaries to, promptly execute and deliver any and all further instruments and documents and take all such other action as the Controlling Party in its reasonable judgment may deem necessary or desirable in obtaining the full benefits of the Guarantees.

SECTION 3.16 Designation of Subsidiaries. The Board of Directors of the Issuer, Holdings or any Parent Holding Company may designate any Subsidiary of the Issuer (including any existing Subsidiary of the Issuer and any newly acquired or newly formed Subsidiary of the Issuer, but excluding the Issuer or any direct or indirect parent of the Issuer) to be an Unrestricted Subsidiary unless such Subsidiary or any of its Subsidiaries owns any Equity Interests or Indebtedness of, or owns or holds any Lien on any property of, the Issuer or any other Subsidiary of the Issuer that is not a Subsidiary of the Subsidiary to be so designated; *provided, however*, that the Subsidiary to be so designated and its Subsidiaries do not at the time of designation have any Indebtedness pursuant to which the lender has recourse to any of the assets of the Issuer or any of its Restricted Subsidiaries that is not a Subsidiary of the Subsidiaries to be so designated other than the Equity Interests of such Unrestricted Subsidiary; *provided, further*, however, that (i) immediately after giving effect to such designation no Event of Default under Section 6.01(a), (f) or (g) shall have occurred and be continuing as a result of such designation and (ii) on a Pro Forma Basis after giving effect to such designation, the Fixed Charge Coverage Ratio of the Issuer is not less than 2.00 to 1.00; *provided, further*, however, that either:

- (a) the Subsidiary to be so designated has total consolidated assets of \$1,000 or less; or
- (b) if such Subsidiary has consolidated assets greater than \$1,000, then such designation would be permitted under Section 4.05.

The Board of Directors of the Issuer, Holdings or any Parent Holding Company may designate any Unrestricted Subsidiary to be a Restricted Subsidiary (a "Subsidiary Redesignation"); *provided, however*, that on a Pro Forma Basis after giving effect to such Subsidiary Redesignation, the Fixed Charge Coverage Ratio of the Issuer is not less than 2.00 to 1.00. Any Indebtedness of such Subsidiary and any Liens encumbering its assets at the time of such designation shall be deemed newly incurred or established, as applicable, at such time.

Any such designation by the Board of Directors of the Issuer, Holdings or any Parent Holding Company shall be evidenced to the Trustee by promptly delivering to the Trustee a copy of the resolution of the Board of Directors of the Issuer, Holdings or any Parent Holding Company, as applicable, giving effect to such designation and an Officer's Certificate certifying that such designation complied with the foregoing provisions.

Notwithstanding the foregoing, (i) no Subsidiary of the Issuer may be designated as an Unrestricted Subsidiary if such Subsidiary is a "Restricted Subsidiary" (or any comparable term) under any Credit Agreement or other Indebtedness of the Issuer or any of its Restricted Subsidiaries with an aggregate outstanding principal amount in excess of \$150.0 million and (ii) simultaneously with any Subsidiary of the Issuer being designated as a "Restricted Subsidiary" (or any comparable term) under any Credit Agreement or Indebtedness of the Issuer or any of its Restricted Subsidiaries with an aggregate outstanding principal amount in excess of \$150.0 million, such Subsidiary shall be designated as a Restricted Subsidiary.

For the avoidance of doubt, neither the Issuer nor any Borrower under any Credit Agreement may be designated as an Unrestricted Subsidiary at any time.

SECTION 3.17 Maintenance of Ratings. (c) For purposes of determining compliance with this Section 4.02, (i) in the event that an item of Indebtedness, Disqualified Stock or Preferred Stock (or any portion thereof) meets the criteria of more than one of the categories of Permitted Debt or is entitled to be Incurred or issued as Ratio Debt, the Issuer shall, in its sole discretion, at the time of Incurrence or issuance, divide, classify or reclassify, or at any later time divide, classify or reclassify, such item of Indebtedness, Disqualified Stock or Preferred Stock (or any portion thereof) in any manner that complies with this Section 4.02; *provided* that (x) (i) all Indebtedness under the Senior Credit Agreement Incurred (or, in the case of the revolving portion of the Senior Credit Agreement, deemed to be Incurred pursuant to clause (y) below) on the Issue Date shall be deemed to have been Incurred, in the case of the term loans under the Senior Credit Agreement, pursuant to Section 4.02(b)(i)(A), and, in the case of the revolving portion of the Senior Credit Agreement, pursuant to Section 4.02(b)(i)(B) and (ii) all Indebtedness under the ABL Credit Agreement Incurred on or after the Issue Date will be deemed to have been Incurred pursuant to Section 4.02(b)(i)(C), and the Issuer shall not be permitted to reclassify all or any portion of the Indebtedness Incurred (or deemed to be Incurred) pursuant to Section 4.02(b)(i)(A), (B) or (C) and (y) the entire committed amount of the revolving portion of the Senior Credit Agreement on the Issue Date shall be deemed to have been Incurred on the Issue Date pursuant to Section 4.02(b)(i)(B) as if such entire committed amount were outstanding funded Indebtedness in the amount of such commitment on the Issue Date and such entire committed amount of the revolving portion of the Senior Credit Agreement shall be deemed to constitute outstanding funded Indebtedness in the amount of such commitment from and after the Issue Date under Section 4.02(b)(i)(B) irrespective of the actual funded borrowings thereunder, it being understood that (1) actual revolving borrowings in respect of (and not in excess of) such entire committed amount deemed to be outstanding may be drawn and redrawn on any subsequent date without further testing under this Section 4.02 and (2) any subsequent permanent reductions in such committed amount shall be deemed to correspondingly reduce the amount of Indebtedness Incurred and outstanding under Section 4.02(b)(i)(B) in respect of such committed amount. Accrual of interest or dividends, the accretion of accreted value, the accretion or amortization of original issue discount, the payment of interest or dividends in the form of additional Indebtedness (including any PIK Interest) with the same terms, the payment of dividends on Disqualified Stock or Preferred Stock in the form of additional shares of Disqualified Stock or Preferred Stock of the same class, the accretion of liquidation preference and increases in the amount of Indebtedness, Disqualified Stock or Preferred Stock outstanding solely as a result of fluctuations in the exchange rate of currencies or increases in the value of property securing Indebtedness will not be deemed to be an Incurrence of Indebtedness or issuance of Disqualified Stock or Preferred Stock for purposes of this Section 4.02. Any guarantees of, or obligations in respect of letters of credit relating to, Indebtedness that are otherwise included in the determination of a particular amount of Indebtedness shall not be included in the determination of such amount of Indebtedness; *provided* that the Incurrence of the Indebtedness represented by such guarantee or letter of credit, as the case may be, was in compliance with this Section 4.02.

For purposes of determining compliance with any Dollar-denominated restriction on the Incurrence of Indebtedness or the issuance of Disqualified Stock or Preferred Stock, the Dollar-equivalent principal amount or liquidation preference, as applicable, of Indebtedness, Disqualified Stock or Preferred Stock denominated in a foreign currency shall be calculated based on the relevant currency exchange rate in effect on the date such Indebtedness was Incurred, in the case of term debt, or first committed or first Incurred (whichever yields the lower Dollar-equivalent), in the case of revolving credit debt or debt financing to fund an acquisition, or first issued in the case of Disqualified Stock or Preferred Stock; *provided* that if such Indebtedness, Disqualified Stock or Preferred Stock is Incurred to refinance other Indebtedness, Disqualified Stock or Preferred Stock, as the case may be, denominated in a foreign currency, and such refinancing would cause the applicable Dollar-denominated restriction to be exceeded if calculated at the relevant currency exchange rate in effect on the date of such refinancing, such Dollar-denominated restriction shall be deemed not to have been exceeded so long as the principal amount or liquidation preference, as applicable, of such Refinancing Indebtedness does not exceed the principal amount or liquidation preference, as applicable, of such Indebtedness, Disqualified Stock or Preferred Stock, as the case may be, being refinanced (plus any Refinancing Expenses).

The principal amount or liquidation preference, as applicable, of any Indebtedness Incurred or Disqualified Stock or Preferred Stock issued to refinance other Indebtedness, Disqualified Stock or Preferred Stock, as the case may be, if Incurred or issued in a different currency from the Indebtedness, Disqualified Stock or Preferred Stock being refinanced, shall be calculated based on the currency exchange rate applicable to the currencies in which such respective Indebtedness, Disqualified Stock or Preferred Stock is denominated that is in effect on the date of such refinancing.

SECTION 4.03 Fundamental Changes. (b) Within 450 days after the Issuer's or any Restricted Subsidiary's receipt of the Net Cash Proceeds of any Asset Sale, the Issuer or such Restricted Subsidiary may apply an amount equal to the Net Cash Proceeds (the "Applicable Proceeds") from such Asset Sale, at its option:

(i) to reduce obligations under the Senior Credit Agreement and, in the case of revolving loans, to correspondingly reduce commitments with respect thereto;

(iv) to make an investment (including capital expenditures) in any one or more businesses, properties (other than working capital assets) or assets (other than working capital assets) that replace the businesses, properties and/or assets that are the subject of such Asset Sale, with any such investment made by way of a capital or other lease valued at the present value of the minimum amount of payments under such lease (as determined by the Issuer in good faith);

(v) to make an investment in any one or more businesses, assets (other than working capital assets), or property or capital expenditures, in each case used or useful in a Similar Business; or

(vi) any combination of the foregoing;

provided that the Issuer and its Restricted Subsidiaries will be deemed to have complied with the provisions described in clause (iii), (iv) or (vi) of this Section 4.04(b) if and to the extent that, within 450 days after the Asset Sale that generated the Net Cash Proceeds, the Issuer or such Restricted Subsidiary, as applicable, has entered into and not abandoned or rejected a binding agreement to make an investment in compliance with the provision described in clause (iii), (iv) or (vi) of this Section 4.04(b), and that investment is thereafter completed within 180 days after the end of such 450-day period. Such 450-day period (as may be extended pursuant to this Section 4.04(b)) shall constitute the "Proceeds Application Period".

(c) Notwithstanding anything to the contrary set forth herein, to the extent that any of or all the Net Cash Proceeds of any Asset Sales by a Non-U.S. Subsidiary (a "Foreign Disposition") (x) is prohibited or delayed by applicable local law from being repatriated to the United States or (y) would, if applied in a manner described in this Section 4.04, result in adverse tax consequences, as determined by the Issuer in good faith, the portion of such Net Cash Proceeds so affected will not be required to be applied in compliance with this Section 4.04, and such amounts may be retained by the applicable Non-U.S. Subsidiary; *provided* that clause (x) of this paragraph shall apply to such amounts so long, but only so long, as the applicable local law will not permit repatriation to the United States (the Issuer hereby agreeing to use commercially reasonable efforts to cause the applicable Non-U.S. Subsidiary to take all actions reasonably required by the applicable local law, applicable organizational impediments or other impediment to permit such repatriation to the United States), and if such repatriation of any of such affected Net Cash Proceeds is permitted under the applicable local law and is not subject to clause (y) of

this paragraph, then, such repatriation will be promptly effected and such repatriated Net Cash Proceeds will be applied (net of additional taxes payable or reserved against as a result thereof) in compliance with this [Section 4.04](#). The time periods set forth in this [Section 4.04](#) shall not start until such time as the Net Cash Proceeds may be repatriated to the United States (whether or not such repatriation actually occurs).

(d) Pending the final application of any such amount of Net Cash Proceeds, the Issuer or such Restricted Subsidiary may temporarily reduce Indebtedness under a revolving credit facility, if any, or otherwise invest or utilize such Net Cash Proceeds in any manner not prohibited by this Indenture. If, with respect to any Asset Sale (or series of related Asset Sales), at the expiration of the Proceeds Application Period with respect to such Asset Sale (or series of related Asset Sales), there remains Applicable Proceeds in excess of the greater of \$50.0 million and 11.25% of Four Quarter Consolidated EBITDA (such amount of Applicable Proceeds that are in excess of the greater of \$50.0 million and 11.25% of Four Quarter Consolidated EBITDA, "[Excess Proceeds](#)"), then subject to the limitations with respect to Foreign Dispositions set forth in [Section 4.04\(c\)](#), the Issuer shall make an offer (an "[Asset Sale Offer](#)") no later than ten Business Days after the expiration of the Proceeds Application Period to all Holders and, if required by the terms of any other Pari Passu Indebtedness, to all holders of such other Pari Passu Indebtedness, to purchase the maximum principal amount of such Notes and such other Pari Passu Indebtedness, as appropriate, on a pro rata basis, that may be purchased out of such Excess Proceeds, if any, at an offer price, in the case of the Notes, in cash in an amount equal to 100.0% of the principal amount thereof, plus accrued and unpaid interest, if any, to (but not including) the date fixed for the closing of such offer and, in the case of such other Pari Passu Indebtedness, in cash in an amount equal to 100% of the principal amount thereof (or in the event such other Pari Passu Indebtedness was issued with original issue discount, 100.0% of the accreted value thereof) or such lesser price with respect to such other Pari Passu Indebtedness as may be provided by the terms of such other Pari Passu Indebtedness, plus accrued and unpaid interest, if any, to (but not including) the date fixed for the closing of such offer, in each case, in accordance with the procedures set forth in this Indenture and the agreement governing such other Pari Passu Indebtedness.

(e) The Issuer may satisfy the foregoing obligations set forth in [Section 4.04\(d\)](#) with respect to any Asset Sale by making an Asset Sale Offer at any time prior to the expiration of the application period.

(f) To the extent that the aggregate amount of Notes and any other Pari Passu Indebtedness tendered or otherwise surrendered in connection with an Asset Sale Offer made with Excess Proceeds is less than the amount offered in an Asset Sale Offer, the Issuer may use any remaining Excess Proceeds (any such amount, "[Retained Declined Proceeds](#)") for any purpose not otherwise prohibited by this Indenture. If the aggregate principal amount of Notes and other Pari Passu Indebtedness tendered or otherwise surrendered by holders thereof exceeds the amount offered in an Asset Sale Offer, the Issuer shall select the applicable Notes (and the Issuer or its agents shall select such other Pari Passu Indebtedness) to be purchased in the manner described below. Upon completion of any such Asset Sale Offer, the amount of Applicable Proceeds and Excess Proceeds shall be reset at zero. To the extent the Excess Proceeds exceed the outstanding aggregate principal amount of the Notes (and, if required by the terms thereof, all other Pari Passu Indebtedness), the Issuer need only make an Asset Sale Offer up to the outstanding aggregate principal amount of Notes (and any other such Pari Passu Indebtedness), and any additional Excess Proceeds shall not be subject to this [Section 4.04](#) and shall be permitted to be used for any purpose in the Issuer's discretion.

(g) The Issuer will comply with the requirements of Rule 14e-1 under the Exchange Act and any other securities laws and regulations to the extent such laws or regulations are applicable in connection with the purchase of the Notes pursuant to an Asset Sale Offer. To the extent that the provisions of any securities laws or regulations conflict with the provisions of this Indenture, the Issuer will comply with the applicable securities laws and regulations and shall not be deemed to have breached their obligations under this [Section 4.04](#) by virtue thereof.

(h) If more Notes are tendered pursuant to an Asset Sale Offer than the Issuer is required to purchase, selection of such Notes for purchase will be made in compliance with the requirements of the principal national securities exchange, if any, on which the Notes are listed (so long as the Paying Agent knows of such listing) or if such Notes are not listed, on a pro rata basis based on the total amount of Notes and other Pari Passu Indebtedness tendered in connection with an Asset Sale Offer (with adjustments so that only Notes in denominations of the minimum of \$1.00 or integral multiples of \$1.00 in excess thereof shall be purchased, by lot or by such other method as the Paying Agent shall deem fair and appropriate (and in such manner as complies with applicable legal requirements and, in the case of Global Notes, the procedures of the Depositary); *provided* that the selection of Notes for purchase shall not result in a Holder with a principal amount of Notes less than the minimum denomination of \$1.00. No Note will be repurchased in part if less than the minimum denomination of such Note would be left outstanding.

(i) Notices of an Asset Sale Offer shall be sent by first class mail, postage prepaid, or sent electronically, at least ten days but not more than 60 days before the purchase date to each Holder of Notes at such Holder's registered address or otherwise in accordance with the procedures of DTC. If any Note is to be purchased in part only, any notice of purchase that relates to such Note shall state the portion of the principal amount thereof that has been or is to be purchased.

(j) A new Note in principal amount equal to the unpurchased portion of any Note (other than a Global Note) purchased in part will be issued in the name of the Holder thereof upon cancellation of the Note. On and after the purchase date, unless the Issuer defaults in payment of the purchase price, interest shall cease to accrue on Notes or portions thereof purchased.

Holdings shall not conduct, transact or otherwise engage in any material business or operations, *provided* that the following shall be permitted in any event: (i) its ownership of the Capital Stock of the Issuer and the Restricted Subsidiaries and any Subsidiary of Holdings (that is not the Issuer or a Subsidiary of the Issuer) which is formed solely for purposes of acting as a co-obligor with respect to any Qualified Holding Company Indebtedness and which does not conduct, transact or otherwise engage in any material business or operation, and, in each case, activities incidental thereto; (ii) the entry into, and the performance of its obligations with respect to the Loan Documents, the ABL Loan Documents, this Indenture and any documents arising thereunder or in connection therewith, any documentation relating to any permitted refinancing of the foregoing or documentation relating to the Indebtedness otherwise permitted by this Section 4.10 and the guarantees permitted by clause (v) below; (iii) the consummation of the Transactions or the Permitted Canadian Transaction; (iv) the performing of activities (including, without limitation, cash management activities) and the entry into documentation with respect thereto, in each case, permitted by this Indenture for Holdings to enter into and perform; (v) the payment of dividends and distributions (and other activities in lieu thereof permitted by this Indenture), the making of contributions to the capital of its Subsidiaries and guarantees of Indebtedness permitted to be incurred hereunder by the Issuer or any of the Restricted Subsidiaries (including, for the avoidance of doubt, Indebtedness permitted to be incurred pursuant to Section 4.02) and the guarantees of other obligations not constituting Indebtedness; (vi) the maintenance of its legal existence (including the ability to incur fees, costs and expenses relating to such maintenance and performance of activities relating to its officers, directors, managers and employees and those of its Subsidiaries); (vii) the entry into the Acquisition Agreement and the other agreements contemplated thereby and the performing of its obligations with respect thereto; (viii) the performing of activities in preparation for and consummating any public offering of its common stock or any other issuance or sale of its Capital Stock (other than Disqualified Stock) including converting into another type of legal entity; (ix) the participation in tax, accounting and other administrative matters, including compliance with applicable Laws and legal, tax and accounting matters related thereto and activities relating to its officers, directors, managers and employees; (x) the holding of any cash and Cash Equivalents (but not operating any property); (xi) the entry into and performance of its obligations with respect to contracts and other arrangements, including the providing of indemnification to officers, managers, directors and employees; and (xii) any activities incidental to the foregoing. ARTICLE V
REDEMPTION OF SECURITIES

SECTION 5.01 Notices.

(a) If the Issuer elects to redeem Notes pursuant to the optional redemption provisions of Section 5.07, it must furnish to the Trustee, at least two Business Days for Global Notes and ten calendar days for Definitive Notes before notice of redemption is required to be mailed or caused to be mailed to Holders pursuant to Section 5.03, an Officer's Certificate setting forth:

- (i) the clause of this Indenture pursuant to which the redemption shall occur;
- (ii) the Redemption Date;
- (iii) the principal amount of Notes to be redeemed; and
- (iv) the redemption price.

The Issuer may also include a request in such Officer's Certificate that the Trustee give the notice of redemption in the Issuer's name and at its expense and setting forth the information to be stated in such notice as provided in Section 5.03. The Issuer shall deliver to the Trustee, such documentation and records as shall enable the Trustee to select the Notes to be redeemed pursuant to Section 5.02.

SECTION 5.02 Selection of Notes to Be Redeemed or Purchased. If less than all of the Notes are to be redeemed at any time, the Trustee shall select Notes for redemption in compliance with the requirements of the principal national securities exchange, if any, on which such Notes are listed (so long as the Trustee knows of such listing), or if such Notes are not so listed, on a pro rata basis, by lot or by such other method as the Trustee shall deem fair and appropriate (and in such manner as complies with applicable legal requirements and, in the case of Global Notes, the Applicable Procedures of the Depository in minimum denominations of \$1.00). If any Note is to be purchased or redeemed in part only, the notice of purchase or redemption relating to such Note shall state the portion of the principal amount thereof that has been or is to be purchased or redeemed. A new Note in principal amount equal to the unredeemed portion thereof shall be issued in the name of the Holder thereof upon cancellation of the original Note in accordance with Section 5.07. On and after the Redemption Date, interest will cease to accrue on Notes or portions thereof called for redemption so long as the Issuer has deposited with the Trustee or the Paying Agent funds sufficient to pay the principal of and premium, if any, plus accrued and unpaid interest, if any, on Notes to be redeemed.

The Trustee shall promptly notify the Issuer in writing of Notes selected for redemption and, in the case of any Notes selected for partial redemption, the principal amount thereof to be redeemed.

For all purposes of this Indenture, unless the context otherwise requires, all provisions relating to redemption of Notes shall relate, in the case of any Note redeemed or to be redeemed only in part, to the portion of the principal amount of such Note which has been or is to be redeemed.

SECTION 5.03 Notice of Redemption. The Issuer shall deliver to each Holder's registered address or otherwise in accordance with the Applicable Procedures of the Depositary, a notice of redemption to each Holder whose Notes are to be redeemed not less than ten nor more than 60 days prior to a date fixed for redemption (a "Redemption Date"); *provided, however*, that redemption notices may be delivered more than 60 days prior to a Redemption Date if (a) the notice is issued pursuant to Article VIII or (b) in the case of a redemption that is subject to one or more conditions precedent, the date of redemption is extended. At the Issuer's written request (given at least two Business Days before such notice is to be sent), the Trustee may give notice of redemption in the Issuer's names and at the Issuer's expense.

All notices of redemption shall be prepared by the Issuer and shall state:

- (a) the Redemption Date;
- (b) the redemption price and the amount of accrued interest to, but excluding the Redemption Date payable as provided in Section 5.05, if any,
- (c) if less than all outstanding Notes are to be redeemed, the identification of the particular Notes (or portion thereof) to be redeemed, as well as the aggregate principal amount of Notes to be redeemed and the aggregate principal amount of Notes to be outstanding after such partial redemption,
- (d) in case any Note is to be redeemed in part only, the notice which relates to such Note shall state that on and after the Redemption Date, upon surrender of such Note, the Holder shall receive, without charge, a new Note or Notes of authorized denominations for the principal amount thereof remaining unredeemed,
- (e) that on the Redemption Date the redemption price (and accrued interest to, but excluding, the Redemption Date payable as provided in Section 5.05, if any) shall become due and payable upon each such Note, or the portion thereof, to be redeemed, and, unless the Issuer defaults in making the redemption payment, that interest on Notes called for redemption (or the portion thereof) shall cease to accrue on and after said date,
- (f) the place or places where such Notes are to be surrendered for payment of the redemption price and accrued interest, if any,
- (g) the name and address of the Paying Agent,
- (h) that Notes called for redemption must be surrendered to the Paying Agent to collect the redemption price,
- (i) the CUSIP or ISIN number, as applicable, and that no representation is made as to the accuracy or correctness of the CUSIP or ISIN number, if any, listed in such notice or printed on the Notes,
- (j) the Section of this Indenture pursuant to which the Notes are to be redeemed, and
- (k) any applicable conditions precedent.

At the Issuer's request, the Trustee shall give the notice of redemption in the Issuer's name and at its expense; *provided, however*, that the Issuer shall have delivered to the Trustee, at least two Business Days prior to when the notice of the redemption is to be given, an Officer's Certificate requesting that the Trustee give such notice and setting forth the information to be stated in such notice as provided in the preceding paragraph. Such Officer's Certificate shall state that all conditions precedent to the delivery of such notice have been complied with.

SECTION 5.04 Effect of Notice of Redemption. Once notice of redemption is sent in accordance with Section 5.03, Notes called for redemption become irrevocably due and payable on the Redemption Date at the redemption price. Notice of any redemption of the Notes in connection with a corporate transaction may, at the Issuer's discretion, be given prior to the completion thereof and any such redemption or notice may, at the Issuer's discretion, be subject to one or more conditions precedent, including, but not limited to, completion of the related transaction. If such redemption or purchase is so subject to satisfaction of one or more conditions precedent, such notice shall describe each such condition, and if applicable, shall state that, in the Issuer's discretion, the Redemption Date may be delayed until such time as any or all such conditions shall be satisfied, or such redemption or purchase may not occur and such notice may be rescinded in the event that any or all such conditions shall not have been satisfied by the Redemption Date, or by the Redemption Date as so delayed. In addition, the Issuer may provide in such notice that payment of the redemption price and performance of the Issuer's obligations with respect to such redemption may be performed by another Person.

SECTION 5.05 Deposit of Redemption Price. Prior to 10:00 a.m., New York City time, on the redemption or purchase date, the Issuer will deposit with the Trustee or with the Paying Agent an amount of money sufficient to pay the redemption price of, and accrued interest on, all the Notes which are to be redeemed on that date. The Trustee or the Paying Agent will promptly return to the Issuer any money deposited with the Trustee or the Paying Agent by the Issuer in excess of the amounts necessary to pay the redemption price of, and accrued interest, if any, on, all Notes to be redeemed or purchased.

If the Issuer complies with the provisions of the preceding paragraph, on and after the Redemption Date, interest will cease to accrue on the Notes or the portions of Notes called for redemption. If a Note is redeemed on or after an interest Record Date but on or prior to the related Interest Payment Date, then any accrued and unpaid interest shall be paid to the Person in whose name such Note was registered at the close of business on such Record Date. If any Note called for redemption is not so paid upon surrender for redemption or purchase because of the failure of the Issuer to comply with the preceding paragraph, interest shall be paid on the unpaid principal, from the Redemption Date until such principal is paid, and to the extent lawful on any interest not paid on such unpaid principal, in each case at the rate provided in the Notes and in Section 3.05.

SECTION 5.06 Notes Redeemed in Part. Any Note which is to be redeemed only in part (pursuant to the provisions of this Article V) shall be surrendered at the office or agency of the Issuer maintained for such purpose pursuant to Section 2.03 (with, if the Issuer so requires, due endorsement by, or a written instrument of transfer in form satisfactory to the Issuer duly executed by, the Holder thereof or such Holder's attorney duly authorized in writing), and the Issuer shall execute, and the Trustee, upon receipt of an Issuer Order shall authenticate and make available for delivery to the Holder of such Note at the expense of the Issuer, a new Note or Notes, of any authorized denomination as requested by such Holder, in an aggregate principal amount equal to and in exchange for the unredeemed portion of the principal of the Note so surrendered; *provided* that each such new Note shall be in a minimum principal amount of \$1.00 and integral multiples of \$1.00 in excess thereof.

SECTION 5.07 Optional Redemption.

(a) At any time prior to the First Call Date, the Issuer may redeem the Notes, upon notice in accordance with Section 5.03, in whole or in part, at its option, at a redemption price equal to 100% of the principal amount of such Notes redeemed plus the Applicable Premium as of, and accrued and unpaid interest, if any, to but excluding, the Redemption Date, subject to the rights of Holders of Notes on the relevant Record Date to receive interest due on the relevant Interest Payment Date.

(b) Except pursuant to paragraph (a) of this Section 5.07, the Notes will not be redeemable prior to the First Call Date.

(c) At any time and from time to time on and after the First Call Date, the Issuer may redeem the Notes, upon notice in accordance with Section 5.03, in whole or in part, at a redemption price equal to the percentage of principal amount set forth below plus accrued and unpaid interest, if any, on the Notes redeemed, to, but excluding, the applicable Redemption Date (subject to the rights of Holders of Notes on the relevant Record Date to receive interest due on the relevant Interest Payment Date), if redeemed during the twelve-month period beginning on April 4 of the year indicated below:

<u>Year</u>	<u>Percentage</u>
2021	105.0%
2022	102.5%
2023 and thereafter	100.0%

(d) Unless the Issuer defaults in the payment of the redemption price, interest will cease to accrue on the Notes or portions thereof called for redemption on the applicable Redemption Date.

(e) Notwithstanding the foregoing, in connection with any tender offer for the Notes, (including pursuant to a Change of Control Offer or Asset Sale Offer), if Holders of not less than 90% of the aggregate principal amount of the then outstanding Notes validly tender and do not withdraw such Notes in a Change of Control Offer and the Issuer, or any third party making such a tender offer in lieu of the Issuer, purchase all of the Notes validly tendered and not withdrawn by such Holders, then all of the Holders of the Notes will be deemed to have consented to such offer and, accordingly, the Issuer or such third party will have the right, upon notice given not less than 10 nor more than 60 days' notice, given not more than 30 days following such purchase, to redeem all Notes that remain outstanding following such purchase at a price equal to the price paid to each other Holder, plus accrued and unpaid interest on the Notes that remain outstanding to, but excluding, the date of redemption (subject to the right of the Holders of record on the relevant Record Date to receive interest due on an Interest Payment Date that is on or prior to the Redemption Date).

(f) Any redemption pursuant to this Section 5.07 shall be made pursuant to the provisions of Section 5.01 through 5.06.

SECTION 5.08 Mandatory Redemption; Open Market Purchases. The Issuer is not required to make mandatory redemption or sinking fund payments with respect to the Notes. The Issuer or its Affiliates may at any time and from time to time purchase Notes. Any such purchases may be made through open market or privately negotiated transactions with third parties or pursuant to one or more tender or exchange offers or otherwise, upon such terms and at such prices, as well as with such consideration, as the Issuer or any such Affiliates may determine.

SECTION 5.09 Offer to Repurchase. In the event that, pursuant to Section 4.04, the Issuer is required to commence an offer to all Holders to purchase the Notes (an "Offer to Repurchase"), they shall follow the procedures specified below:

(a) The Offer to Repurchase shall remain open for a period of at least ten days following its commencement and not more than 60 days, except to the extent that a longer period is required by applicable law or as permitted by this Indenture (the "Offer Period"). No later than five Business Days

after the termination of the Offer Period (the “Purchase Date”), the Issuer shall apply all Excess Proceeds in accordance with Section 4.04 (the “Offer Amount”) to the purchase of Notes and such other Pari Passu Indebtedness, if any (in each instance, on a pro rata basis, if applicable), or, if less than the Offer Amount has been tendered, all Notes and other Indebtedness tendered in response to the Offer to Repurchase. Payment for any Notes so purchased shall be made pursuant to Section 3.05.

(b) If the Purchase Date is on or after a Record Date, and on or before the related Interest Payment Date, any accrued and unpaid interest, if any, shall be paid to the Person in whose name a Note is registered at the close of business on such Record Date, and no additional interest shall be payable to Holders who tender Notes pursuant to the Offer to Repurchase.

(c) Upon the commencement of an Offer to Repurchase, the Issuer shall send, by first class mail (or electronically for Global Notes), a notice to the Trustee, the Paying Agent or Registrar and each of the Holders. The notice shall contain all instructions and materials necessary to enable such Holders to tender Notes pursuant to the Offer to Repurchase. The notice, which shall govern the terms of the Offer to Repurchase, shall state:

- (i) that the Offer to Repurchase is being made pursuant to this Section 5.09 and Section 4.04, and the length of time the Offer to Repurchase shall remain open;
- (ii) the Offer Amount, the purchase price and the Purchase Date;
- (iii) that any Note not tendered or accepted for payment shall continue to accrue interest;
- (iv) that, unless the Issuer defaults in making such payment, any Note accepted for payment pursuant to the Offer to Repurchase shall cease to accrue interest after the Purchase Date;
- (v) that Holders electing to have a Note purchased pursuant to an Offer to Repurchase may elect to have Notes purchased in a minimum amount of \$1.00 or an integral multiple of \$1.00 in excess thereof only;
- (vi) that Holders electing to have Notes purchased pursuant to any Offer to Repurchase shall be required to surrender the Note, with the form entitled “Option of Holder to Elect Purchase” attached to the Notes completed, or transfer by book-entry transfer, to the Issuer, a Depositary, if appointed by the Issuer, or a Paying Agent at the address specified in the notice at least three Business Days before the Purchase Date;
- (vii) that Holders shall be entitled to withdraw their election if the Issuer, the Depositary or the Paying Agent, as the case may be, receives, not later than on the expiration of the Offer Period, a telegram, telex, facsimile transmission or letter setting forth the name of the Holder, the principal amount of Notes the Holder delivered for purchase and a statement that such Holder is withdrawing his election to have such Notes purchased;
- (viii) that, if the aggregate principal amount of Notes and, if applicable, other Pari Passu Indebtedness, if any, surrendered by Holders thereof exceeds the Offer Amount, the Trustee or the Paying Agent shall select the Notes and, if applicable, the Issuer shall select such other Pari Passu Indebtedness to be purchased or prepaid, on a pro rata basis based on the principal amount of Notes and other Pari Passu Indebtedness, if any, surrendered (with such adjustments as may be deemed appropriate by the Issuer so that only Notes in minimum denominations of \$1.00 or integral multiples of \$1.00 in excess thereof shall be purchased); and

(ix) that Holders whose Notes were purchased only in part shall be issued new Notes equal in principal amount to the unpurchased portion of the Notes surrendered (or transferred by book-entry transfer).

(d) On or before the Purchase Date, the Issuer shall, to the extent lawful, accept for payment, on a pro rata basis to the extent necessary, the Offer Amount of Notes or portions thereof tendered pursuant to the Offer to Repurchase, or if less than the Offer Amount has been tendered, all Notes tendered, and shall deliver or cause to be delivered to the Trustee or the Paying Agent, the Notes properly accepted together with an Officer's Certificate stating that such Notes or portions thereof were accepted for payment by the Issuer in accordance with the terms of this Section 5.09. The Issuer, the Depository or the Paying Agent, as the case may be, shall promptly (but in any case not later than five days after the Purchase Date) mail or deliver to each tendering Holder an amount equal to the purchase price of the Notes tendered by such Holder and accepted by the Issuer for purchase, and the Issuer shall promptly issue a new Note, and the Trustee, upon written request from the Issuer, shall authenticate and mail or deliver (or cause to be transferred by book entry) such new Note to such Holder, in a principal amount equal to any unpurchased portion of the Note surrendered. Any Note not so accepted shall be promptly mailed or delivered by the Issuer to the Holder thereof. The Issuer shall publicly announce the results of the Offer to Repurchase on the Purchase Date.

If an Event of Default (other than an Event of Default specified in [Section 6.01\(f\)](#) or [\(g\)](#) with respect to the Issuer or any other Note Party) occurs and is continuing, (x) the Trustee, by written notice to the Issuer, may declare, or (y) the Applicable Holders, by written notice to the Issuer and the Trustee, may declare, the principal of, premium, if any, and accrued and unpaid interest on all the Notes to be due and payable. Upon such a declaration, such principal, premium and accrued and unpaid interest will be due and payable immediately.

If an Event of Default described in [Section 6.01\(f\)](#) or [\(g\)](#) with respect to the Issuer or any other Note Party occurs, the principal of, premium, if any, and accrued and unpaid interest, if any, on all the Notes will become and be immediately due and payable without any declaration or other act on the part of the Trustee or any Holders.

SECTION 6.03 Other Remedies. At any time when an Event of Default under [Section 6.01\(a\)](#), [\(f\)](#) or [\(g\)](#) exists, interest, to the fullest extent permitted by law, shall accrue (x) on the aggregate principal amount of the Notes then outstanding at a rate that is 2.00% per annum above the rate then borne by the Notes and (y) on all overdue interest and other amounts at a rate that is 2.00% per annum above the rate then borne by the principal outstanding to which such interest or other amount relates. Any additional interest that accrues by virtue of the operation of this [Section 6.03](#) shall be payable in cash on demand and, to the extent applicable, in accordance with [Section 2.11](#).

If an Event of Default occurs and is continuing, the Trustee may pursue any available remedy by proceeding at law or in equity to collect the payment of principal of, or premium, if any, or interest on the Notes or to enforce the performance of any provision of the Notes or this Indenture.

The Trustee may maintain a proceeding even if it does not possess any of the Notes or does not produce any of them in the proceeding. A delay or omission by the Trustee or any Holder in exercising any right or remedy accruing upon an Event of Default shall not impair the right or remedy or constitute a waiver of or acquiescence in the Event of Default. No remedy is exclusive of any other remedy. All available remedies are cumulative.

SECTION 6.04 Waiver of Past Defaults. The Required Holders by written notice to the Trustee may, on behalf of all of the Holders, (a) waive, by their consent (including, without limitation, consents obtained in connection with a purchase of, or tender offer or exchange offer for, Notes), an existing Default or Event of Default and its consequences under this Indenture except (i) a Default or Event of Default in the payment of the principal of, or premium, if any, or interest on a Note or (ii) a Default or Event of Default in respect of a provision that under Section 9.02 cannot be amended without the consent of each Holder affected and (b) rescind any acceleration with respect to the Notes and its consequences if (1) such rescission would not conflict with any judgment or decree of a court of competent jurisdiction, (2) all existing Events of Default have been cured or waived except nonpayment of principal, premium, if any, or interest that has become due solely because of the acceleration, (3) to the extent the payment of such interest is lawful, interest on overdue installments of interest, premium, if any, and overdue principal, which has become due otherwise than by such declaration of acceleration, has been paid, including any additional interest required to be paid pursuant to Section 6.03, (4) the Issuer has paid the Trustee its compensation and reimbursed the Trustee for its reasonable expenses, disbursements and advances in accordance with Section 7.06 and (5) in the event of the cure or waiver of an Event of Default of the type described in clause (e) of Section 6.01, the Trustee shall have received an Officer's Certificate and an Opinion of Counsel stating that such Event of Default has been cured or waived. No such rescission shall affect any subsequent Default or impair any right consequent thereto. When a Default or Event of Default is waived, it is deemed cured, but no such waiver shall extend to any subsequent or other Default or Event of Default or impair any consequent right.

SECTION 6.05 Control by Majority. The Required Holders may direct the time, method and place of conducting any proceeding for any remedy available to the Trustee or of exercising any trust or power conferred on the Trustee. However, the Trustee may refuse to follow any direction that conflicts with law or this Indenture or the Notes or, subject to Section 7.01 and 7.02, that the Trustee determines is unduly prejudicial to the rights of other Holders (it being understood that the Trustee does not have an affirmative duty to ascertain whether or not any actions are unduly prejudicial to such Holders) or would involve the Trustee in personal liability; *provided, however*, that the Trustee may take any other action deemed proper by the Trustee that is not inconsistent with such direction. Prior to taking any such action hereunder, the Trustee shall be entitled to indemnification satisfactory to it against all losses, liabilities and expenses that may be caused by taking or not taking such action.

SECTION 6.06 Limitation on Suits. Subject to Section 6.07, no Holder may pursue any remedy with respect to this Indenture or the Notes unless:

- (i) such Holder has previously given the Trustee written notice that an Event of Default is continuing;
- (ii) the Applicable Holders have requested in writing to the Trustee to pursue the remedy;
- (iii) such Holders have offered in writing to the Trustee security or indemnity satisfactory to the Trustee against any loss, liability or expense;
- (iv) the Trustee has not complied with such request within 60 days after the receipt of the written request and the offer of security or indemnity; and
- (v) the Required Holders have not given the Trustee a written direction that, in the opinion of the Trustee, is inconsistent with such request within such 60-day period.

A Holder may not use this Indenture to prejudice the rights of another Holder or to obtain a preference or priority over another Holder (it being understood that the Trustee does not have an affirmative duty to ascertain whether or not such actions or forbearances are unduly prejudicial to such Holders).

SECTION 6.07 Rights of Holders to Receive Payment. Notwithstanding any other provision of this Indenture (including, without limitation, Section 6.06), the contractual right expressly set forth in the Note Documents of any Holder to receive payment of principal of, premium, if any, or interest, if any, on the Notes held by such Holder, on or after the respective due dates expressed or provided for in the Notes, or to institute suit for the enforcement of any such payment on or after such respective dates, shall not be impaired without the consent of such Holder.

SECTION 6.08 Collection Suit by Trustee. If an Event of Default specified in Section 6.01(a) occurs and is continuing, the Trustee may recover judgment in its own name and as trustee of an express trust against the Issuer for the whole amount then due and owing (together with interest on any unpaid interest, if any, to the extent lawful) and the amounts provided for in Section 7.06.

SECTION 6.09 Trustee May File Proofs of Claim. The Trustee may file such proofs of claim and other papers or documents as may be necessary or advisable in order to have the claims of the Trustee (including any claim for the reasonable compensation, expenses, disbursements and advances of the Trustee, its agents and counsel) and the Holders allowed in any judicial proceedings relative to the Issuer, Holdings, the Issuer's Subsidiaries or its or their respective creditors or properties and, unless prohibited by law or applicable regulations, may be entitled and empowered to participate as a member of any official committee of creditors appointed in such matter and may vote on behalf of the Holders in any election of a trustee in bankruptcy or other Person performing similar functions, and any Custodian in any such judicial proceeding is hereby authorized by each Holder to make payments to the Trustee and, in the event that the Trustee shall consent to the making of such payments directly to the Holders, to pay to the Trustee any amount due it for the compensation, expenses, disbursements and advances of the Trustee, its agents and its counsel, and any other amounts due the Trustee under Section 7.06.

No provision of this Indenture shall be deemed to authorize the Trustee to authorize or consent to or accept or adopt on behalf of any Holder any plan of reorganization, arrangement, compromise, adjustment or composition affecting the Notes or the rights of any Holder thereof or to authorize the Trustee to vote in respect of the claim of any Holder in any such proceeding.

SECTION 6.10 Priorities.

(a) If the Trustee collects any money or property pursuant to this Article VI it shall pay out the money or property in the following order:

FIRST: to the Trustee for amounts due to it under Section 7.06;

SECOND: to Holders for amounts due and unpaid on the Notes for principal of, or premium, if any, and interest, ratably, without preference or priority of any kind, according to the amounts due and payable on the Notes for principal of, or premium, if any, and interest, respectively;

THIRD: without duplication, to the GS Purchasers for any other Note Obligations owing to the GS Purchasers under the Note Documents; and

FOURTH: to the Issuer, or to the extent the Trustee collects any amount for any Guarantor, to such Guarantor.

(b) The Trustee may fix a record date and payment date for any payment to Holders pursuant to this Section 6.10. At least 15 days before such record date, the Issuer shall send or cause to be sent to each Holder and the Trustee a notice that states the record date, the payment date and amount to be paid.

SECTION 6.11 Undertaking for Costs. In any suit for the enforcement of any right or remedy under this Indenture or in any suit against the Trustee for any action taken or omitted by it as Trustee, a court in its discretion may require the filing by any party litigant in the suit of an undertaking to pay the costs of the suit, and the court in its discretion may assess reasonable costs, including reasonable attorneys' fees and expenses, against any party litigant in the suit, having due regard to the merits and good faith of the claims or defenses made by the party litigant. This Section 6.11 does not apply to a suit by the Trustee, a suit by the Issuer, a suit by a Holder pursuant to Section 6.07 or a suit by Holders of more than 10% in outstanding principal amount of the Notes.

ARTICLE VII TRUSTEE

SECTION 7.01 Duties of Trustee.

(a) If an Event of Default has occurred and is continuing, the Trustee shall exercise the rights and powers vested in it by this Indenture and use the same degree of care and skill in its exercise as a prudent Person would exercise or use under the circumstances in the conduct of such Person's own affairs.

(b) Except during the continuance of an Event of Default:

(i) the Trustee undertakes to perform such duties and only such duties as are specifically set forth as duties of the Trustee in this Indenture, the Notes or the other Note Documents and no implied covenants or obligations shall be read into this Indenture against the Trustee; and

(ii) in the absence of bad faith on its part, the Trustee may conclusively rely, as to the truth of the statements and the correctness of the opinions expressed therein, upon certificates, opinions or orders furnished to the Trustee and conforming to the requirements of this Indenture or the other Note Documents, as the case may be. However, in the case of any such certificates or opinions which by any provisions hereof are specifically required to be furnished to the Trustee, the Trustee shall examine such certificates and opinions to determine whether or not they conform to the requirements of this Indenture, or the other Note Documents, as the case may be (but need not confirm or investigate the accuracy of mathematical calculations or other facts stated therein).

(c) No provision of this Indenture shall be construed to relieve the Trustee from liability for its own grossly negligent action, its own grossly negligent failure to act or its own willful misconduct, except that:

(i) this paragraph does not limit the effect of paragraph (b) of this Section 7.01;

(ii) the Trustee shall not be liable for any error of judgment made in good faith by a Trust Officer unless it is proved that the Trustee was grossly negligent in ascertaining the pertinent facts;

(iii) the Trustee shall not be liable with respect to any action it takes or omits to take in good faith in accordance with a direction received by it pursuant to Section 6.05; and

(iv) No provision of this Indenture or the other Note Documents shall require the Trustee to expend or risk its own funds or otherwise incur financial liability in the performance of any of its duties hereunder or thereunder or in the exercise of any of its rights or powers, if it shall have reasonable grounds to believe that repayment of such funds or adequate security or indemnity against such risk or liability is not reasonably assured to it.

(d) Every provision of this Indenture that in any way relates to the Trustee is subject to paragraphs (a), (b) and (c) of this Section 7.01.

(e) The Trustee shall not be liable for interest or investment income on any money received by it except as the Trustee may agree in writing with the Issuer.

(f) Money held in trust by the Trustee need not be segregated from other funds except to the extent required by law or Article VIII.

(g) Every provision of this Indenture relating in any way to the Trustee or to the conduct or affecting the liability of or affording protection to the Trustee shall be subject to the provisions of this Section 7.01.

SECTION 7.02 Rights of Trustee. Subject to Section 7.01:

(a) The Trustee may conclusively rely on and shall be fully protected in acting or refraining from acting upon any resolution, certificate, statement, instrument, opinion, report, notice, request, direction, consent, order, approval, bond, debenture or other paper or document (whether in its original, electronic or facsimile form) believed by it to be genuine and to have been signed or presented by the proper Person. The Trustee need not investigate any fact or matter stated in the document. The Trustee shall receive and retain financial reports and statements of the Issuer as provided herein, but shall have no duty to review or analyze such reports or statements, or any other document or information, to determine compliance with covenants or other obligations of the Issuer. Delivery of such reports, information and documents to the Trustee is for informational purposes only, and the Trustee's receipt of such shall not constitute constructive notice of any information contained therein, including the Issuer's compliance with any of its covenants hereunder (as to which the Trustee is entitled to rely exclusively on Officer's Certificates). Unless otherwise expressly provided herein, any resolution, certificate, statement, instrument, opinion, report, notice, request, direction, consent, order, approval, or other communication to or for the Trustee (in any of its capacities hereunder), shall be made in writing

(b) Before the Trustee acts or refrains from acting, it may require an Officer's Certificate. The Trustee shall not be liable for any action it takes or omits to take in good faith in reliance on an Officer's Certificate.

(c) The Trustee may execute any of the trusts and powers hereunder or perform any duties hereunder either directly or by or through its attorneys and agents and shall not be responsible for the misconduct or negligence of any agent or attorney appointed with due care by it hereunder.

(d) The Trustee shall not be liable for any action it takes or omits to take in good faith which it believes to be authorized or within its rights or powers conferred upon it by this Indenture.

(e) The Trustee may consult with counsel of its selection, and the advice or opinion of counsel relating to this Indenture or the other Note Documents shall be full and complete authorization and protection from liability in respect of any action taken, omitted or suffered by it hereunder or under the Notes in good faith and in reliance on the advice or opinion of such counsel.

(f) The Trustee shall not be deemed to have notice of any Default or Event of Default unless a Trust Officer of the Trustee has actual knowledge thereof or unless written notice of any event which is in fact such a Default or Event of Default is received by the Trustee from the Issuer or the Applicable Holders at the corporate trust office of the Trustee specified in [Section 3.06](#), and such notice states that such event constitutes a Default or Event of Default under the Notes and this Indenture, and in the absence of any such notice, the Trustee may conclusively assume that no such Default or Event of Default exists.

(g) The rights, privileges, protections, immunities and benefits given to the Trustee, including, without limitation, its right to be indemnified, are extended to, and shall be enforceable by, the Trustee in each of its capacities hereunder, and shall extend to the Trustee's officers, directors, attorneys, employees, agents, custodians and other Persons employed to act hereunder.

(h) The Trustee shall be under no obligation to exercise any of the rights or powers vested in it by this Indenture or the other Note Documents at the request, order or direction of any of the Holders pursuant to the provisions of this Indenture, unless such Holders shall have offered to the Trustee security or indemnity satisfactory to the Trustee against the costs, losses, liabilities and expenses which may be incurred therein or thereby.

(i) The Trustee shall not be deemed to have knowledge of any fact or matter unless such fact or matter is actually known to a Trust Officer of the Trustee and such Trust Officer actually knows how such fact or matter pertains to this Indenture or the Notes.

(j) Whenever in the administration of this Indenture or the other Note Documents the Trustee shall deem it desirable that a matter be proved or established prior to taking, suffering or omitting any action hereunder or thereunder, the Trustee (unless other evidence be herein specifically prescribed) may, in the absence of bad faith or willful misconduct on its part, conclusively rely upon an Officer's Certificate.

(k) The Trustee shall not be bound to make any investigation into the facts or matters stated in any resolution, certificate, statement, instrument, report, notice, request, direction, consent, order, bond, debenture, coupon or other paper or document, but the Trustee, in its discretion, may make such further inquiry or investigation into such facts or matters as it may see fit, and, if the Trustee shall determine to make such further inquiry or investigation, it shall be entitled to examine, during business hours and upon reasonable notice, the books, records and premises of the Issuer and the Restricted Subsidiaries, personally or by agent or attorney at the sole cost of the Issuer and shall incur no liability or additional liability of any kind by reason of such inquiry or investigation.

(l) The Trustee shall not be required to give any bond or surety in respect of the performance of its powers and duties hereunder.

(m) The Trustee may request that the Issuer delivers an Officer's Certificate setting forth the names of individuals and/or titles of officers authorized at such time to take specified actions pursuant to this Indenture or the other Note Documents.

(n) In no event shall the Trustee be liable to any Person for special, punitive, indirect, consequential or incidental loss or damage of any kind whatsoever (including, but not limited to, lost profits), even if the Trustee has been advised of the likelihood of such loss or damage.

(o) Unless otherwise specifically provided in this Indenture, any demand, request, direction or notice from the Issuer shall be sufficient if signed by one Responsible Officer of the Issuer.

(p) The permissive rights of the Trustee enumerated hereunder shall not be construed as duties.

(q) The Trustee shall be entitled to treat the GS Purchasers as the Controlling Party unless and until it receives written notice from the Issuer that the Disposition Date has occurred.

SECTION 7.03 Individual Rights of Trustee. The Trustee in its individual or any other capacity may become the owner or pledgee of Notes and may otherwise deal with the Issuer, the Guarantors or their respective Affiliates with the same rights it would have if it were not Trustee. Any Paying Agent, Registrar, co-registrar or co-paying agent may do the same with like rights. However, the Trustee must comply with Section 7.09. In addition, the Trustee shall be permitted to engage in transactions with the Issuer; *provided, however*, that if the Trustee acquires any conflicting interest it must eliminate such conflict within 90 days of acquiring such conflicting interest or resign.

SECTION 7.04 Trustee's Disclaimer. The Trustee shall not be responsible for and makes no representation as to the validity or adequacy of this Indenture or the Notes, shall not be accountable for the Issuer's use of the proceeds from the sale of the Notes, shall not be responsible for the use or application of any money received by any Paying Agent other than the Trustee or any money paid to the Issuer pursuant to the terms of this Indenture and shall not be responsible for any statement of the Issuer in this Indenture or in any document issued in connection with the sale of the Notes or in the Notes other than the Trustee's certificate of authentication.

SECTION 7.05 Notice of Defaults. If a Default or Event of Default occurs and is continuing and if a Trust Officer has actual knowledge thereof, the Trustee shall send electronically or by first class mail to each Holder at the address set forth in the Notes Register notice of the Default or Event of Default within 30 days after it is actually known to a Trust Officer. Except in the case of a Default or Event of Default in payment of principal of, or premium, if any, or interest on any Note (including payments pursuant to the optional redemption or required repurchase provisions of such Note), the Trustee may withhold the notice if and so long as it in good faith determines that withholding the notice is in the interests of Holders.

SECTION 7.06 Compensation and Indemnity. The Issuer shall pay to the Trustee from time to time compensation for its services hereunder and under the other Note Documents as the Issuer and the Trustee shall, from time to time, agree, in writing, and during the occurrence of any Event of Default, in accordance with the Trustee's then-current fee schedule for default administration. The Trustee's compensation shall not be limited by any law on compensation of a trustee of an express trust. The Issuer and the Guarantors, jointly and severally, shall reimburse the Trustee upon request for all reasonable out-of-pocket expenses incurred or made by it, including, but not limited to, costs of collection, costs of preparing reports, certificates and other documents, costs of preparation and mailing of notices to Holders and costs incurred in performing its services under this Indenture. Such expenses shall include the reasonable compensation and expenses, disbursements and advances of the agents, counsel, accountants and experts of the Trustee. The Issuer and the Guarantors, jointly and severally, shall indemnify the Trustee, its officers, directors, employees and agents against any and all fees, loss, liability, damages, claims or expense, including taxes (other than taxes based upon the income of the Trustee) (including

reasonable attorneys' and agents' fees and expenses) incurred by it without willful misconduct or gross negligence, as determined by a court of competent jurisdiction, on its part in connection with the administration of this trust and the performance of its duties hereunder and under the Notes, including the fees, costs and expenses of enforcing this Indenture (including this [Section 7.06](#)) and the Notes and of defending itself against any claims (whether asserted by any Holder, the Issuer or otherwise). The Trustee shall notify the Issuer promptly of any claim for which it may seek indemnity of which it has received written notice. Failure by the Trustee to so notify the Issuer shall not relieve the Issuer or the Guarantors of their obligations hereunder. The Issuer and the Guarantors shall defend the claim and the Trustee shall provide reasonable cooperation at the Issuer's and Guarantors' expense in the defense. The Trustee shall have the right to employ separate counsel in any such action or proceeding and participate in the investigation and defense thereof, and the Issuer shall pay the reasonable fees and expenses of such separate counsel; *provided, however*, that the Trustee may only employ separate counsel at the expense of the Issuer if in the judgment of the Trustee (i) a conflict of interest exists or potentially exists by reason of common representation or (ii) there are legal defenses available to the Trustee that are different from or are in addition to those available to the Issuer or if all parties commonly represented do not agree as to the action (or inaction) of counsel.

To secure the Issuer's payment obligations in this [Section 7.06](#), the Trustee shall have a lien prior to the Notes on all money or property held or collected by the Trustee (other than money or property held in trust to pay principal of and premium and interest on the Notes). Such lien shall survive the satisfaction and discharge of this Indenture. The Trustee's respective right to receive payment of any amounts due under this [Section 7.06](#) shall not be subordinate to any other liability or Indebtedness of the Issuer.

The Issuer's and the Guarantors' payment obligations pursuant to this [Section 7.06](#) shall survive the satisfaction and discharge of this Indenture and the resignation or removal of the Trustee. Without prejudice to any other rights available to the Trustee under applicable law, when the Trustee incurs fees, expenses or renders services after the occurrence of an Event of Default specified in [Section 6.01\(f\)](#), the fees and expenses (including the reasonable fees and expenses of its counsel) are intended to constitute expenses of administration under any Debtor Relief Law.

SECTION 7.07 Replacement of Trustee. The Trustee may resign at any time by so notifying the Issuer in writing not less than 30 days prior to the effective date of such resignation. The Required Holders may remove the Trustee by so notifying the removed Trustee in writing not less than 30 days prior to the effective date of such removal and may appoint a successor Trustee with the Issuer's written consent, which consent will not be unreasonably withheld. The Issuer shall remove the Trustee if:

- (i) the Trustee fails to comply with [Section 7.09](#);
- (ii) the Trustee is adjudged bankrupt or insolvent;
- (iii) a receiver or other public officer takes charge of the Trustee or its property; or
- (iv) the Trustee otherwise becomes incapable of acting.

If the Trustee resigns or is removed by the Issuer or by the Required Holders and such Holders do not reasonably promptly appoint a successor Trustee as described in the preceding paragraph, or if a vacancy exists in the office of the Trustee for any reason (the Trustee in such event being referred to herein as the retiring Trustee), the Issuer shall promptly appoint a successor Trustee.

A successor Trustee shall deliver a written acceptance of its appointment to the retiring Trustee and to the Issuer. Thereupon the resignation or removal of the retiring Trustee shall become effective, and the successor Trustee shall have all the rights, powers and duties of the Trustee under this Indenture. The successor Trustee shall send a notice of its succession to Holders. The retiring Trustee shall, at the expense of the Issuer, promptly transfer all property held by it as Trustee to the successor Trustee, subject to the lien provided for in Section 7.06.

If a successor Trustee does not take office within 60 days after the retiring Trustee resigns or is removed, the retiring Trustee or the Holders of at least 10% in principal amount of the Notes may petition, at the Issuer's expense, any court of competent jurisdiction for the appointment of a successor Trustee.

If the Trustee fails to comply with Section 7.09, any Holder, who has been a bona fide Holder of a Note for at least six months, may petition any court of competent jurisdiction for the removal of the Trustee and the appointment of a successor Trustee.

Notwithstanding the replacement of the Trustee pursuant to this Section 7.07, the Issuer's obligations under Section 7.06 shall continue for the benefit of the retiring Trustee. The predecessor Trustee shall have no liability for any action or inaction of any successor Trustee.

SECTION 7.08 Successor Trustee by Merger. If the Trustee consolidates with, merges or converts into, or transfers all or substantially all its corporate trust business or assets to, another corporation or banking association, the resulting, surviving or transferee corporation or banking association without any further act shall be the successor Trustee.

In case at the time such successor or successors by merger, conversion or consolidation to the Trustee shall succeed to the trusts created by this Indenture, any of the Notes shall have been authenticated but not delivered, any such successor to the Trustee may adopt the certificate of authentication of any predecessor trustee, and deliver such Notes so authenticated; and in case at that time any of the Notes shall not have been authenticated, any successor to the Trustee may authenticate such Notes either in the name of any predecessor hereunder or in the name of the successor to the Trustee; *provided* that the right to adopt the certificate of authentication of any predecessor Trustee or authenticate Notes in the name of any predecessor Trustee shall only apply to its successor or successors by merger, consolidation or conversion.

SECTION 7.09 Eligibility; Disqualification. This Indenture shall always have a Trustee hereunder that is a corporation organized and doing business under the laws of the United States or of any state thereof that is authorized under such laws to exercise corporate trustee power, that is subject to supervision or examination by federal or state authorities and that has a combined capital and surplus of at least \$50.0 million as set forth in its most recent annual report of condition.

SECTION 7.10 Trustee's Application for Instruction from the Issuer. Any application by the Trustee for written instructions from the Issuer may, at the option of the Trustee, set forth in writing any action proposed to be taken or omitted by the Trustee under this Indenture and the date on and/or after which such action shall be taken or such omission shall be effective. The Trustee shall not be liable for any action taken by, or omission of, the Trustee in accordance with a proposal included in such application on or after the date specified in such application (which date shall not be less than three Business Days after the date any Responsible Officer of the Issuer actually receive such application, unless any such Responsible Officer shall have consented in writing to any earlier date) unless prior to taking any such action (or the effective date in the case of an omission), the Trustee shall have received written instructions in response to such application specifying the action to be taken or omitted.

ARTICLE VIII
DISCHARGE OF INDENTURE; DEFEASANCE

SECTION 8.01 Satisfaction and Discharge; Defeasance.

(a) This Indenture shall be satisfied and discharged and shall cease to be of further effect with respect to the outstanding Notes (except as provided in Section 8.01(c) below) when:

(i) either (i) all the Notes theretofore authenticated and delivered (other than Notes pursuant to Section 2.07 which have been replaced or paid and Notes for whose payment money has theretofore been deposited in trust or segregated and held in trust by the Issuer and thereafter repaid to the Issuer or discharged from such trust) have been delivered to the Trustee for cancellation or (ii) all of the Notes not previously delivered to the Trustee for cancellation (a) have become due and payable, (b) will become due and payable at their Stated Maturity within one year or (c) have been called for redemption or are to be called for redemption within one year under arrangements satisfactory to the Trustee for the giving of notice of a full redemption by the Trustee in the name, and at the expense, of the Issuer, and the Issuer or any Guarantor has deposited or caused to be deposited with the Trustee (or such entity designated as an agent by the Issuer for such purpose) in a manner that is not revocable by the Issuer or any of its Affiliates cash in Dollars or U.S. Government Obligations or a combination thereof, in an amount sufficient to pay and discharge the entire Indebtedness on the Notes not theretofore delivered to the Trustee for cancellation, for principal of, premium, if any, and interest on the Notes to the date of maturity or redemption, as the case may be, together with irrevocable instructions from the Issuer directing the Trustee to apply such funds to the payment thereof at maturity or redemption, as the case may be;

(ii) the Issuer and/or the Guarantors have paid all other sums then due and payable under this Indenture; and

(iii) the Issuer has delivered to the Trustee an Officer's Certificate and an Opinion of Counsel stating that all conditions precedent under this Indenture relating to the satisfaction and discharge of this Indenture have been complied with.

(b) Subject to Sections 8.01(c) and 8.02, the Issuer, at any time, may, with respect to the Notes, terminate (i) all their obligations under the Notes and this Indenture and have each Guarantor's obligation discharged with respect to its Guarantee of the Notes ("legal defeasance option") and cure all then-existing Events of Default with respect to the Notes or (ii) their obligations with respect to the Notes under Sections 3.01, 3.02, 3.08 (other than 3.08(a) with respect to the Issuer only), 3.09, 3.10, 3.11, 3.12, 3.13, 3.14, 3.15, 3.16, 3.17, 3.18, Article IV (except Section 4.03 shall still apply to the Issuer) (collectively, the "Defeased Provisions"), Sections 6.01(b) (with respect to any Default under the Defeased Provisions), 6.01(c) (with respect to any Default under the Defeased Provisions), 6.01(d), 6.01(e), 6.01(h), 6.01(i), 6.01(j) and 6.01(k) ("covenant defeasance option"). The Issuer may exercise its legal defeasance option notwithstanding its prior exercise of their covenant defeasance option. In the event that the Issuer exercises its legal defeasance option or its covenant defeasance option with respect to the Notes, the obligations of each Guarantor under its Guarantee of such Notes shall be terminated simultaneously with the termination of the applicable obligations of the Issuer being terminated.

If the Issuer exercises its legal defeasance option with respect to the Notes, payment of the Notes so defeased may not be accelerated because of an Event of Default with respect thereto. If the Issuer exercises its covenant defeasance option with respect to the Notes, payment of the Notes so defeased may not be accelerated because of an Event of Default specified in Sections 6.01(b) (with respect to the Defeased Provisions), 6.01(c) (with respect to the Defeased Provisions), 6.01(d), 6.01(e), 6.01(h), 6.01(i), 6.01(j) and 6.01(k).

Upon satisfaction of the conditions set forth herein and upon request of the Issuer, the Trustee shall acknowledge in writing the discharge of those obligations that the Issuer terminate.

(c) Notwithstanding clauses (a) and (b) above, the Issuer's obligations in Sections 2.03, 2.04, 2.05, 2.06, 2.07, 2.08, 2.10, 2.11, 7.06 and 7.07 and in this Article VIII shall survive with respect to the Notes until the Notes have been paid in full. Thereafter, the Issuer's obligations in Sections 7.06, 8.05 and 8.06 shall survive such satisfaction and discharge.

SECTION 8.02 Conditions to Defeasance.

(a) The Issuer may exercise its legal defeasance option or its covenant defeasance option only if:

(i) the Issuer irrevocably deposits or causes to be deposited with the Trustee (or such entity designated as agent by the Issuer for such purpose) cash in Dollars or U.S. Government Obligations or a combination thereof in an amount that, in the opinion of an internationally recognized certified public accounting firm, is sufficient to pay the principal, premium (if any) and interest on the Notes to redemption or maturity, as the case may be; *provided* that if such redemption is made pursuant to Section 5.07(a) (or any corresponding paragraph of a Global Note or a Definitive Note) then (x) the amount of cash in Dollars or U.S. Government Obligations that the Issuer must irrevocably deposit or cause to be deposited will be determined using an assumed Applicable Premium calculated as of the date of such deposit, as calculated by the Issuer in good faith, and (y) the Issuer must irrevocably deposit or cause to be deposited additional cash in Dollars in trust on the Redemption Date as necessary to pay the Applicable Premium as determined on such date;

(ii) the Issuer delivers to the Trustee a certificate from an internationally recognized firm of independent accountants expressing their opinion that the payments of principal and interest when due and without reinvestment on the deposited U.S. Government Obligations, plus any deposited cash in Dollars without investment shall provide cash at such times and in such amounts as shall be sufficient to pay principal, premium, if any, and interest when due on all the Notes to maturity or redemption, as the case may be;

(iii) 91 days pass after the deposit is made and during the 91-day period no Default specified in Section 6.01(f) with respect to the Issuer occurs which is continuing at the end of the period;

(iv) the deposit does not constitute a default under any other agreement binding on the Issuer;

(v) the Issuer delivers to the Trustee an Opinion of Counsel to the effect that the trust resulting from the deposit does not constitute, or is qualified as, a regulated investment advisor under the Investment Advisors Act of 1940;

(vi) the Issuer delivers to the Trustee an Opinion of Counsel to the effect that the Holders shall not recognize income, gain or loss for U.S. federal income tax purposes as a result of such deposit and defeasance and shall be subject to U.S. federal income tax on the same amounts, in the same manner and at the same times as would have been the case if such deposit and defeasance had not occurred (and, in the case of the legal defeasance option only, such Opinion of Counsel must be based on a ruling of the IRS or change in applicable U.S. federal income tax law after the Issue Date); and

(vii) the Issuer delivers to the Trustee an Officer's Certificate and an Opinion of Counsel, each stating that all conditions precedent to the defeasance and discharge of the Notes to be so defeased and discharged as contemplated by this Article VIII have been complied with.

Before or after a deposit, the Issuer may make arrangements satisfactory to the Trustee for the redemption of such Notes at a future date in accordance with Article V.

SECTION 8.03 Application of Trust Money. The Trustee shall hold in trust money or U.S. Government Obligations deposited with it pursuant to this Article VIII. It shall apply the deposited money and the money from U.S. Government Obligations through the Trustee (or such entity designated as agent by the Issuer for such purpose) and in accordance with this Indenture to the payment of principal of and interest and premium, if any, on the Notes.

SECTION 8.04 Repayment to Issuer. Anything herein to the contrary notwithstanding, the Trustee (or such entity designated as agent by the Issuer for such purpose), as applicable, shall deliver or pay to the Issuer from time to time upon Issuer Order any money or U.S. Government Obligations held by it as provided in this Article VIII which, in the opinion of an internationally recognized firm of independent public accountants expressed in a written certification thereof delivered to the Trustee (or such entity designated as agent by the Issuer for such purpose), as applicable, are in excess of the amount thereof which would then be required to be deposited to effect legal defeasance option or covenant defeasance option, as applicable; *provided* that the Trustee (or such entity designated as agent by the Issuer for such purpose) shall liquidate any U.S. Government Obligations at the written instruction of the Issuer in order to comply with the provisions of this Section 8.04.

Subject to any applicable abandoned property law, the Trustee shall pay to the Issuer upon written request any money held by it for the payment of principal of or interest on the Notes that remains unclaimed for two years, and, thereafter, Holders entitled to the money must look to the Issuer for payment as general creditors.

SECTION 8.05 Indemnity for Government Obligations. The Issuer shall pay and shall indemnify the Trustee to the Trustee's satisfaction (or such entity designated as agent by the Issuer for such purpose) against any tax, fee or other charge imposed on or assessed against deposited U.S. Government Obligations or the principal and interest received on such U.S. Government Obligations.

SECTION 8.06 Reinstatement. If the Trustee (or such entity designated as agent by the Issuer for such purpose) is unable to apply any money or U.S. Government Obligations in accordance with this Article VIII by reason of any legal proceeding or by reason of any order or judgment of any court or governmental authority enjoining, restraining or otherwise prohibiting such application, the obligations of the Issuer and each Guarantor under this Indenture, the Notes and the Guarantees shall be revived and reinstated as though no deposit had occurred pursuant to this Article VIII until such time as the Trustee (or such entity designated as agent by the Issuer for such purpose) is permitted to apply all such money or U.S. Government Obligations in accordance with this Article VIII; *provided, however*, that, if the Issuer or any of the Guarantors has made any payment of interest on or principal of any Notes because of the reinstatement of its obligations, the Issuer or any Guarantor, as the case may be, shall be subrogated to the rights of the Holders of such Notes to receive such payment from the money or U.S. Government Obligations held by the Trustee (or such entity designated as agent by the Issuer for such purpose).

ARTICLE IX
AMENDMENTS

SECTION 9.01 Without Consent of Holders. Notwithstanding Section 9.02 of this Indenture, the Issuer, any Guarantor (with respect to its Guarantee), as applicable, and the Trustee may amend, supplement or modify this Indenture, the Notes and the Guarantees (x) prior to the Disposition Date (I) without the consent of any Holder if such amendment, supplement or modification is for the purpose set forth in clause (v)(A) below and (II) with only the written consent of the GS Purchasers (or a designee appointed in writing by the GS Purchasers) if such amendment, supplement or modification is for any purpose set forth in clauses (i) through (xii) below (other than clause (v)(A) below) and (y) from and after the Disposition Date, without the consent of any Holder if such amendment, supplement or modification is for any purpose set forth in clauses (i) through (xii) below:

- (i) to cure any ambiguity, omission, mistake, defect or inconsistency identified in an Officer's Certificate delivered to the Trustee;
- (ii) to comply with Section 4.03;
- (iii) to provide for the assumption by a successor Person of the obligations of the Issuer or any Guarantor under this Indenture and the Notes or Guarantee, as the case may be;
- (iv) to provide for uncertificated Notes in addition to or in place of certificated Notes; *provided* that the uncertificated Notes are issued in registered form for purposes of Section 163(f) of the Code;
- (v) (A) to add or release Guarantees in accordance with the terms of this Indenture or (B) to add co-issuers of the Notes to the extent it does not result in adverse tax consequences to the Holders;
- (vi) to secure the Notes;
- (vii) to add to the covenants of the Issuer for the benefit of the Holders or to surrender any right or power herein conferred upon the Issuer or any Guarantor;
- (viii) to make any change that does not adversely affect the rights of any Holder in any material respect upon delivery to the Trustee of an Officer's Certificate certifying the absence of such adverse effect;
- (ix) to comply with any requirement of the SEC in connection with any qualification of this Indenture under the TIA;
- (x) to make any amendment to the provisions of this Indenture relating to the transfer and legending of the Notes as permitted by this Indenture, including, without limitation, to facilitate the issuance and administration of the Notes; *provided, however*, that (i) compliance with this Indenture as so amended would not result in Notes being transferred in violation of the Securities Act or any applicable securities law and (ii) such amendment does not materially and adversely affect the rights of Holders to transfer Notes;

(xi) to evidence and provide for the acceptance of appointment by a successor Trustee; *provided* that the successor Trustee is otherwise qualified and eligible to act as such under the terms of this Indenture; or

(xii) to provide for or confirm the issuance of Additional Notes in accordance with this Indenture.

SECTION 9.02 With Consent of Holders.

(a) This Indenture, the Notes and the Guarantees may be amended or supplemented with the consent of the Holders of at least a majority in aggregate principal amount of the Notes then outstanding (including, without limitation, consents obtained in connection with a purchase of, or tender offer or exchange offer for the Notes). Any Default or Event of Default or compliance with any provision of this Indenture, the Notes and the Guarantees may, in each case, be waived as provided in Section 6.04. However, without the consent of each Holder of Notes, no amendment, supplement or waiver may (with respect to any Notes held by a non-consenting Holder):

(i) reduce the percentage of the aggregate principal amount of Notes whose Holders must consent to an amendment, supplement or waiver;

(ii) reduce the principal of or change the Stated Maturity of any Note;

(iii) waive a Default or Event of Default in the payment of principal of or premium, if any, or interest on the Notes, except a rescission of acceleration of the Notes with respect to a nonpayment default by the Holders of at least a majority in aggregate principal amount of the Notes and a waiver of the payment default that resulted from such acceleration;

(iv) reduce the premium payable upon the redemption of any Note or change the time at which any Note may be redeemed as described under Section 5.07 or Paragraph 5 of the form of Note set forth in Exhibit A hereto (or any corresponding paragraph of a Global Note or a Definitive Note) (other than, in each case, any change to the notice periods with respect to such redemption);

(v) make any Note payable in money other than that stated in such Note;

(vi) impair the contractual right expressly set forth in the Note Documents of any Holder to receive payment of principal of, premium, if any, or interest on the Notes held by such Holder, on or after the respective due dates expressed or provided for in the Notes, or to institute suit for the enforcement of any such payment on or after such respective dates;

(vii) make any change in the provisions of this Indenture relating to waivers of past Defaults of Events of Default or the rights of Holders to receive payments of principal of or premium, if any, or interest on the Notes;

(viii) other than in a transaction permitted under Section 4.03 or Section 4.04, release all or substantially all of the aggregate value of the Guarantees or all or substantially all of the Guarantors;

(ix) make the Notes or any Guarantee subordinated in right of payment to any other obligations; or

(x) make any change in the amendment or waiver provisions of this Indenture that require each Holder's consent as described in clauses (i) through (ix) above.

(b) The consent of the Holders shall not be necessary under this Section 9.02 to approve the particular form of any proposed amendment. It shall be sufficient if such consent approves the substance of the proposed amendment. For the avoidance of doubt, no amendment to, or deletion of, any of the covenants contained in Article III or IV of this Indenture (other than Section 3.05) shall be deemed to impair or affect any rights of Holders to receive payment of principal of, or premium, if any, or interest in respect of the Notes.

(c) Promptly after an amendment under this Section 9.02 becomes effective, the Issuer shall mail or electronically deliver to the Holders a notice briefly describing such amendment. The failure of the Issuer to deliver such notice, or any defect therein, shall not in any way impair or affect the validity of an amendment under this Section 9.02.

SECTION 9.03 Note Purchase Agreement. For the avoidance of doubt and notwithstanding anything to the contrary in Section 9.01 or 9.02 or otherwise in this Article IX, this Article IX (other than this Section 9.03) shall not apply to the Note Purchase Agreement, it being understood that the Note Purchase Agreement may be amended, restated, supplemented or otherwise modified, and the terms thereof may be waived, in each case, in accordance with the terms set forth in the Note Purchase Agreement.

SECTION 9.04 Revocation and Effect of Consents and Waivers. A consent to an amendment or a waiver by a Holder of a Note shall bind the Holder and every subsequent Holder of that Note or portion of the Note that evidences the same debt as the consenting Holder's Note, even if notation of the consent or waiver is not made on the Note. After an amendment or waiver becomes effective, it shall bind every Holder unless it makes a change described in clauses (i) through (x) of Section 9.02(a), in which case the amendment or waiver or other action shall bind each Holder of Notes who has consented to it and every subsequent Holder of a Note that evidences the same debt as the consenting Holder's Notes. Any amendment, other than an amendment that in the sole determination of the Trustee adversely affects the rights, duties, liabilities or immunities of the Trustee or a waiver, in each case, made pursuant to Section 9.02 shall become effective with respect to the Notes upon receipt by the Trustee of the requisite number of written consents.

The Issuer may, but shall not be obligated to, fix a record date for the purpose of determining the Holders entitled to give their consent or take any other action described above or required or permitted to be taken pursuant to this Indenture. If a record date is fixed, then notwithstanding the immediately preceding paragraph, those Persons who were Holders at such record date (or their duly designated proxies), and only those Persons, shall be entitled to give such consent or to take any such action, whether or not such Persons continue to be Holders after such record date.

SECTION 9.05 Notation on or Exchange of Notes. If an amendment changes the terms of a Note, the Trustee, at the written request of the Issuer, may require the Holder of such Note to deliver it to the Trustee. The Trustee, at the written request of the Issuer, may place an appropriate notation on the Note regarding the changed terms and return it to the Holder. Alternatively, if the Issuer so determines, the Issuer in exchange for the Note shall issue and the Trustee shall authenticate a new Note that reflects the changed terms. Failure to make the appropriate notation or to issue a new Note shall not affect the validity of such amendment.

SECTION 9.06 Trustee to Sign Amendments. The Trustee shall sign any amendment, supplement or waiver authorized pursuant to this Article IX if the amendment, supplement or waiver does not, in the sole determination of the Trustee, adversely affect the rights, duties, liabilities or immunities of the Trustee. If it does, the Trustee may but need not sign it. In signing any amendment, supplement or waiver pursuant to this Article IX, the Trustee shall be entitled to receive, and (subject to Section 7.01 and 7.02) shall be fully protected in relying upon, an Officer's Certificate and an Opinion of Counsel stating that such amendment, supplement or waiver is authorized or permitted by or complies with this Indenture and that all conditions precedent to such amendment required by this Indenture have been complied with and, in the case of the Opinion of Counsel, that such amendment, supplement or waiver is the legally valid and binding obligation of the Issuer, enforceable against the Issuer in accordance with its terms, subject to customary exceptions. Notwithstanding the foregoing, no Opinion of Counsel will be delivered to the GS Purchasers or required for the Trustee to execute any amendment or supplement adding a new Guarantor or a new co-issuer under this Indenture or releasing a Guarantee by a Guarantor pursuant to Section 10.02.

ARTICLE X
GUARANTEE

SECTION 10.01 Guarantee. Each Guarantor hereby fully, unconditionally and irrevocably guarantees, as primary obligor and not merely as surety, jointly and severally with each other Guarantor, to each Holder of the Notes and the Trustee the full and punctual payment when due, whether at maturity, by acceleration, by redemption or otherwise, of the principal of, premium, if any, and interest on the Notes, fees, expenses, indemnities and all other Note Obligations and liabilities of the Issuer under this Indenture and the other Note Documents (including, without limitation, interest accruing after the filing of any petition or application in bankruptcy, or the commencement of any insolvency, reorganization or like proceeding, relating to the Issuer or any Guarantor whether or not a claim for post-filing or post-petition interest is allowed in such proceeding and the obligations under Section 7.06) (all the foregoing being hereinafter collectively called the "Guaranteed Note Obligations"). Each Guarantor agrees that its Guarantee of the Guaranteed Note Obligations is a senior obligation of such Guarantor and will rank equally in right of payment with other Indebtedness of such Guarantor, except to the extent such other Indebtedness is subordinate to the Guaranteed Note Obligations, in which case the obligations of the Guarantors under the Guarantees will rank senior in right of payment to such other Indebtedness.

To evidence its Guarantee set forth in this Section 10.01, each Guarantor hereby agrees that this Indenture shall be executed on behalf of such Guarantor by a Responsible Officer of such Guarantor.

Each Guarantor hereby agrees that its Guarantee set forth in this Section 10.01 shall remain in full force and effect notwithstanding the absence of the endorsement of any notation of such Guarantee on the Notes.

If a Responsible Officer whose signature is on this Indenture no longer holds that office at the time the Trustee authenticates the Note, the Guarantee shall be valid nevertheless.

Each Guarantor further agrees (to the extent permitted by law) that the Guaranteed Note Obligations may be extended or renewed, in whole or in part, without notice or further assent from it, and that it will remain bound under this Article X notwithstanding any extension or renewal of any Guaranteed Note Obligation.

Each Guarantor waives presentation to, demand of payment from and protest to the Issuer of any of the Guaranteed Note Obligations and also waives notice of protest for nonpayment. Each Guarantor waives notice of any default under the Notes or the Guaranteed Note Obligations.

Each Guarantor further agrees that its guarantee herein constitutes a Guarantee of payment when due (and not a guarantee of collection) and waives any right to require that any resort be had by any Holder to any security held for payment of the Guaranteed Note Obligations.

Except as set forth in Section 10.02, the obligations of each Guarantor hereunder shall not be subject to any reduction, limitation, impairment or termination for any reason (other than payment of the Guaranteed Note Obligations in full), including any claim of waiver, release, surrender, alteration or compromise, and shall not be subject to any defense of setoff, counterclaim, recoupment or termination whatsoever or by reason of the invalidity, illegality or unenforceability of the Guaranteed Note Obligations or otherwise. Without limiting the generality of the foregoing, the Guaranteed Note Obligations of each Guarantor herein shall not be discharged or impaired or otherwise affected by (a) the failure of the Trustee or any Holder to assert any claim or demand or to enforce any right or remedy against the Issuer or any other Person under this Indenture, the Notes or any other agreement or otherwise; (b) any extension or renewal of any thereof; (c) any rescission, waiver, amendment or modification of any of the terms or provisions of this Indenture, the Notes or any other agreement; (d) the release of any security held by the Trustee or any Holder for the Guaranteed Note Obligations; (e) the failure of the Trustee or any Holder to exercise any right or remedy against any other Guarantor; (f) any change in the ownership of the Issuer; (g) any default, failure or delay, willful or otherwise, in the performance of the Guaranteed Note Obligations; or (h) any other act or thing or omission or delay to do any other act or thing which may or might in any manner or to any extent vary the risk of any Guarantor or would otherwise operate as a discharge of such Guarantor as a matter of law or equity.

Each Guarantor agrees that its Guarantee herein shall remain in full force and effect until payment in full of all the Guaranteed Note Obligations or such Guarantor is released from its Guarantee in compliance with Section 10.02 or Article VIII. Each Guarantor further agrees that its Guarantee herein shall continue to be effective or be reinstated, as the case may be, if at any time payment, or any part thereof, of principal of, premium, if any, or interest on any of the Guaranteed Note Obligations is rescinded or must otherwise be restored by any Holder upon the bankruptcy, insolvency or reorganization of the Issuer or otherwise.

In furtherance of the foregoing and not in limitation of any other right which any Holder has at law or in equity against any Guarantor by virtue hereof, upon the failure of the Issuer to pay any of the Guaranteed Note Obligations when and as the same shall become due, whether at maturity, by acceleration, by redemption or otherwise, each Guarantor hereby promises to and will, upon receipt of written demand by the Trustee, forthwith pay, or cause to be paid, in cash, to the Holders or the Trustee on behalf of the Holders an amount equal to the sum of (i) the unpaid amount of such Guaranteed Note Obligations then due and owing and (ii) accrued and unpaid interest on such Guaranteed Note Obligations then due and owing (but only to the extent not prohibited by law) (including interest accruing after the filing of any petition or application in bankruptcy or the commencement of any insolvency, reorganization or like proceeding relating to the Issuer or any Guarantor whether or not a claim for post-filing or post-petition interest is allowed in such proceeding).

Each Guarantor further agrees that, as between such Guarantor, on the one hand, and the Holders, on the other hand, (x) the maturity of the Guaranteed Note Obligations guaranteed hereby may be accelerated as provided in this Indenture for the purposes of its Guarantee herein, notwithstanding any stay, injunction or other prohibition preventing such acceleration in respect of the Guaranteed Note Obligations guaranteed hereby and (y) in the event of any such declaration of acceleration of such Guaranteed Note Obligations, such Guaranteed Note Obligations (whether or not due and payable) shall forthwith become due and payable by the Guarantor for the purposes of this Guarantee.

Each Guarantor also agrees to pay any and all fees, costs and expenses (including attorneys' fees and expenses) incurred by the Trustee or the Holders in enforcing any rights under this Section 10.01.

Each Guarantor assumes all responsibility for being and keeping itself informed of the Issuer's and each other Guarantor's financial condition and assets, and of all other circumstances bearing upon the risk of nonpayment of the Guaranteed Note Obligations and the nature, scope and extent of the risks that such Guarantor assumes and incurs hereunder, and agrees that none of the Trustee or any Holder will have any duty to advise such Guarantor of information known to it or any of them regarding such circumstances or risks.

SECTION 10.02 Limitation on Liability; Termination, Release and Discharge.

(a) Any term or provision of this Indenture to the contrary notwithstanding, the obligations of each Guarantor hereunder will be limited to the maximum amount as will, after giving effect to all other contingent and fixed liabilities of such Guarantor and after giving effect to any collections from or payments made by or on behalf of any other Guarantor in respect of the obligations of such other Guarantor under its Guarantee or pursuant to its contribution obligations under this Indenture, not render the obligations of such Guarantor under its Guarantee subject to avoidance under applicable law as a fraudulent conveyance, fraudulent transfer or unjust preference, including under federal, foreign, state or provincial law and otherwise void or voidable under any similar laws affecting the rights of creditors generally.

(b) Each of the Holders hereby irrevocably authorizes the Trustee to release any Subsidiary Guarantor from its obligations under this Indenture and its Guarantee if (x) such Subsidiary Guarantor both (i) ceases to be a Restricted Subsidiary or otherwise becomes an Excluded Subsidiary as a result of a transaction or designation permitted hereunder and (ii) is not a guarantor of the obligations of a U.S. Entity, or co-issuer or co-borrower with a U.S. Entity, as applicable, under any Credit Agreement or under the documentation governing any Indebtedness with an aggregate outstanding principal amount in excess of \$150.0 million and (y) the Issuer makes a written request to the Trustee (with a copy, prior to the Disposition Date, to the GS Purchasers) requesting that such Subsidiary Guarantor be released from its obligations under this Indenture and its Guarantee, which request shall include a written certification by the Issuer to the Trustee that the conditions described in the foregoing clause (x) have been satisfied.

(c) Each Guarantor shall be automatically released from its obligations under this Indenture and its Guarantee upon the satisfaction and discharge of this Indenture in accordance with Article VIII or the exercise by the Issuer of its legal defeasance option or its covenant defeasance option in accordance with Article VIII, in each case, as provided in Article VIII.

(d) If the guarantee by a Restricted Subsidiary of the U.S. Obligations under the Senior Loan Documents and the Note Obligations under the Note Documents is not entitled to be released pursuant to the express terms of the Senior Loan Documents or the Note Documents but the Administrative Agent, pursuant to a request by the Issuer, exercises its discretion under the Senior Loan Documents and agrees to release, and does so release, the guarantee by such Restricted Subsidiary of the U.S. Obligations under the Loan Documents, the Guarantee of such Restricted Subsidiary of the Note Obligations under the Note Documents shall be released if the Initial GS Purchasers provide their express written consent to such release (such consent not to be unreasonably withheld or delayed).

(e) With respect to any release of any Guarantee, upon receipt of an Officer's Certificate stating that all conditions precedent under this Indenture and the other Note Documents to such release have been met and that it is proper for the Trustee to execute and deliver the documents requested in writing by the Issuer in connection with such release, and any instruments of termination, satisfaction,

discharge or release prepared by the Issuer and the Trustee shall execute, deliver or acknowledge (at the Issuer's expense) such instruments or releases to evidence the release and discharge of any Guarantee permitted to be released pursuant to this Indenture. The Trustee shall not be liable for any such release undertaken in reliance upon any such Officer's Certificate, and notwithstanding any term hereof or in any other Note Document to the contrary, the Trustee shall not be under any obligation to execute and deliver any such instrument of release, satisfaction, discharge or termination, unless and until it receives such Officer's Certificate.

(f) The release of a Guarantor from its Guarantee and its obligations under this Indenture in accordance with the provisions of this Section 10.02 shall not preclude the future applications of Section 3.15 to such Person.

SECTION 10.03 Right of Contribution. Each Guarantor hereby agrees that to the extent that any Guarantor shall have paid more than its proportionate share of any payment made on the obligations under its Guarantee, such Guarantor shall be entitled to seek and receive contribution from and against the Issuer or any other Guarantor who has not paid its proportionate share of such payment. The provisions of this Section 10.03 shall in no respect limit the obligations and liabilities of each Guarantor to the Trustee and the Holders and each Guarantor shall remain liable to the Trustee and the Holders for the full amount guaranteed by such Guarantor hereunder.

SECTION 10.04 No Subrogation. Notwithstanding any payment or payments made by each Guarantor hereunder, no Guarantor shall be entitled to be subrogated to any of the rights of the Trustee or any Holder against the Issuer or any other Guarantor or any collateral security or guarantee or right of offset held by the Trustee or any Holder for the payment of the Guaranteed Note Obligations, nor shall any Guarantor seek or be entitled to seek any contribution or reimbursement from the Issuer or any other Guarantor in respect of payments made by such Guarantor hereunder, until all amounts owing to the Trustee and the Holders by the Issuer on account of the Guaranteed Note Obligations are paid in full. If any amount shall be paid to any Guarantor on account of such subrogation rights at any time when all of the Guaranteed Note Obligations shall not have been paid in full, such amount shall be held by such Guarantor in trust for the Trustee and the Holders, segregated from other funds of such Guarantor, and shall, forthwith upon receipt by such Guarantor, be turned over to the Trustee in the exact form received by such Guarantor (duly indorsed by such Guarantor to the Trustee, if required), to be applied against the Guaranteed Note Obligations.

SECTION 10.05 Subordination.

(a) Notwithstanding any provision of this Indenture to the contrary, all rights of the Guarantors under Section 10.04 and all other rights of indemnity, contribution or subrogation under applicable law or otherwise shall be fully subordinated to the payment in full in cash of the Note Obligations. No failure on the part of the Issuer or any Guarantor to make the payments required by Section 10.04 (or any other payments required under applicable law or otherwise) shall in any respect limit the obligations and liabilities of any Guarantor with respect to its obligations hereunder, and each Guarantor shall remain liable for the full amount of the obligations of such Guarantor hereunder.

(b) Each Guarantor hereby agrees that all Indebtedness owed by it to any Subsidiary shall be fully subordinated to the payment in full in cash of the Note Obligations in accordance with the Intercompany Subordination Agreement.

(iv) a statement as to whether or not, in the opinion of such individual, such covenant or condition has been complied with.

SECTION 11.05 When Notes Disregarded. In determining whether the Holders of the required aggregate principal amount of Notes have concurred in any direction, waiver or consent, Notes owned by the Issuer, any Guarantor or any Affiliate of them shall be disregarded and deemed not to be outstanding, except that, for the purpose of determining whether the Trustee shall be protected in relying on any such direction, waiver or consent, only Notes which a Trust Officer of the Trustee actually knows are so owned shall be so disregarded. Also, subject to the foregoing, only Notes outstanding at the time shall be considered in any such determination.

SECTION 11.06 Rules by Trustee, Paying Agent and Registrar. The Trustee may make reasonable rules for action by, or at meetings of, Holders. The Registrar and the Paying Agent may make reasonable rules for their functions.

SECTION 11.07 Legal Holidays. A “Legal Holiday” is a day that is not a Business Day. If a payment date is a Legal Holiday, payment shall be made on the next succeeding day that is not a Legal Holiday, and no interest shall accrue for the intervening period. If a regular Record Date is a Legal Holiday, the Record Date shall be the prior day that is not a Legal Holiday.

SECTION 11.08 Governing Law. THIS INDENTURE, THE NOTES AND THE GUARANTEES SHALL BE GOVERNED BY, AND CONSTRUED IN ACCORDANCE WITH, THE LAWS OF THE STATE OF NEW YORK.

SECTION 11.09 Jurisdiction. The Issuer and the Guarantors agree that any suit, action or proceeding against the Issuer or a Guarantor brought by any Holder or the Trustee arising out of or based upon this Indenture, the Guarantee or the Notes may be instituted in any state or Federal court in the Borough of Manhattan, New York, New York, and any appellate court from any thereof, and each of them irrevocably submits to the non-exclusive jurisdiction of such courts in any suit, action or proceeding. The Issuer and the Guarantors irrevocably waive, to the fullest extent permitted by law, any objection to any suit, action, or proceeding that may be brought in connection with this Indenture, the Guarantee or the Notes, including such actions, suits or proceedings relating to securities laws of the United States of America or any state thereof, in such courts whether on the grounds of venue, residence or domicile or on the ground that any such suit, action or proceeding has been brought in an inconvenient forum. The Issuer and the Guarantors agree that final judgment in any such suit, action or proceeding brought in such court shall be conclusive and binding upon the Issuer or the Guarantors, as the case may be, and may be enforced in any court to the jurisdiction of which the Issuer or the Guarantors, as the case may be, are subject by a suit upon such judgment.

Nothing in this Indenture or in any other Note Document shall affect any right that the Trustee or any Holder may otherwise have to bring any action or proceeding relating to this Indenture or any other Note Document against any Note Party or its properties in the courts of any jurisdiction (i) for purposes of enforcing a judgment, (ii) in connection with exercising remedies against collateral in a jurisdiction in which such collateral is located, (iii) in connection with any pending bankruptcy, insolvency or similar proceeding in such jurisdiction or (iv) to the extent the courts referred to in the previous paragraph do not have jurisdiction over such legal action or proceeding or the parties or property subject thereto.

SECTION 11.10 Waivers of Jury Trial. **EACH OF THE NOTE PARTIES, THE TRUSTEE AND (BY THEIR ACCEPTANCE OF NOTES) HOLDERS HEREBY IRREVOCABLY AND UNCONDITIONALLY WAIVES, TO THE FULLEST EXTENT PERMITTED BY APPLICABLE LAW, ANY AND ALL RIGHT TO TRIAL BY JURY IN ANY LEGAL ACTION OR PROCEEDING ARISING OUT OF OR RELATING TO THIS INDENTURE OR THE OTHER NOTE DOCUMENTS.**

SECTION 11.11 USA PATRIOT Act. The parties hereto acknowledge that in accordance with Section 326 of the USA PATRIOT Act, the Trustee like all financial institutions and in order to help fight the funding of terrorism and money laundering, is required to obtain, verify, and record information that identifies each Person or legal entity that establishes a relationship or opens an account. The parties to this Indenture agree that they will provide the Trustee with such information as each may request in order to satisfy the requirements of the USA PATRIOT Act.

SECTION 11.12 No Recourse Against Others. No director, officer, employee, incorporator or equity holder of the Issuer or any of their respective Subsidiaries or Affiliates, as such (other than the Issuer and the Guarantors), shall have any liability for any obligations of the Issuer or the Guarantors under the Notes, the Guarantees or this Indenture or for any claim based on, in respect of, or by reason of such obligations or their creation. Each Holder by accepting a Note waives and releases all such liability. The waiver and release are part of the consideration for issuance of the Notes. Such waiver may not be effective to waive liabilities under the federal securities laws and it is the view of the SEC that such a waiver is against public policy.

SECTION 11.13 Successors. All agreements of the Issuer and each Guarantor in this Indenture and the Notes shall bind their respective successors. All agreements of the Trustee in this Indenture shall bind its successors.

SECTION 11.14 Multiple Originals. The parties may sign any number of copies of this Indenture. Each signed copy shall be an original, but all of them together represent the same agreement. The exchange of copies of this Indenture and of signature pages by facsimile or pdf transmission shall constitute effective execution and delivery of this Indenture as to the parties hereto and may be used in lieu of the original Indenture for all purposes. Signatures of the parties hereto transmitted by facsimile or pdf shall be deemed to be their original signatures for all purposes.

SECTION 11.15 Table of Contents; Headings. The table of contents, cross-reference table and headings of the Articles and Sections of this Indenture have been inserted for convenience of reference only, are not intended to be considered a part hereof and shall not modify or restrict any of the terms or provisions hereof.

SECTION 11.16 Force Majeure. In no event shall the Trustee be responsible or liable for any failure or delay in the performance of its obligations hereunder arising out of or caused by, directly or indirectly, forces beyond its control, including, without limitation, strikes, work stoppages, accidents, acts of war or terrorism, civil or military disturbances, nuclear or natural catastrophes or acts of God, and interruptions, loss or malfunctions of utilities, communications or computer (software and hardware) services, it being understood that the Trustee shall use reasonable best efforts which are consistent with accepted practices in the banking industry to resume performance as soon as practicable under the circumstances.

SECTION 11.17 Severability. In case any provision in this Indenture or in the Notes shall be invalid, illegal or unenforceable, the validity, legality and enforceability of the remaining provisions shall not in any way be affected or impaired thereby.

SECTION 11.18 Service of Process. Each of Holdings, the Issuer, the Guarantors and the Trustee irrevocably consents to service of process in the manner provided for notices in Section 11.01. Nothing in this Indenture will affect the right of any party hereto to serve process in any other manner permitted by applicable law.

Section 4.12 Subsidiaries; Capital Stock. As of the Closing Date, after giving effect to the Transactions, there are no Restricted Subsidiaries other than those specifically disclosed in Schedule 4.12, and all of the outstanding Capital Stock in such Restricted Subsidiaries that are owned by a Note Party have been validly issued, are fully paid and non-assessable (other than for those Restricted Subsidiaries that are limited liability companies and limited partnerships and to the extent such concepts are not applicable in the relevant jurisdiction) and are owned free and clear of all Liens except for Permitted Liens.

Section 4.13 Margin Regulations; Investment Company Act.

(a) None of the Note Parties is engaged, nor will any such Note Party engage, principally or as one of its important activities, in the business of purchasing or carrying Margin Stock, or extending credit for the purpose of purchasing or carrying Margin Stock. Neither the issuance of the Initial Notes hereunder nor the use of proceeds thereof will violate any regulations of the FRB, including the provisions of Regulations T, U or X of the FRB. No proceeds of the Initial Notes will be used to purchase or carry any Margin Stock or to extend credit to others for the purpose of purchasing or carrying any Margin Stock; *provided* that this sentence shall not be included in any representation or warranty in connection with the establishment of any new issuances unless otherwise agreed by the Issuer and the applicable GS Purchasers under any such transaction.

To the knowledge of the Issuer, each Note Party owns, licenses or possesses the right to use, all of the trademarks, service marks, trade names, copyrights, patents and other intellectual property rights (collectively, “IP Rights”) that are necessary for the operation of its respective business, as currently conducted, except to the extent such failure to own, license or possess, either individually or in the aggregate, could not reasonably be expected to have a Material Adverse Effect and provided that the foregoing shall not deem to constitute a representation that the Note Parties do not infringe or violate the IP Rights held by any other Person. Each of Holdings, the Issuer and each of their respective Subsidiaries is (i) in compliance with applicable Sanctions Laws and Regulations and (ii) in compliance, in all material respects, with applicable anti-money laundering laws and regulations. Neither the issuance of the Initial Notes nor the use of proceeds therefrom, will violate or result in the violation of any Sanctions Laws and Regulations by any Note Party.

(b) OFAC. None of (I) Holdings, the Issuer or any other Note Party and (II) the Restricted Subsidiaries that are not Note Parties or, to the knowledge of Holdings and the Issuer, any director, manager, officer, agent or employee of Holdings, the Issuer or any of their respective Restricted Subsidiaries, in each case, (i) is a person whose property or interest in property is blocked or subject to blocking pursuant to Section 1 of the Executive Order, (ii) engages in any dealings or transactions prohibited by Section 2 of the Executive Order, or is otherwise associated with any such person in any manner that violates Section 2 of the Executive Order or (iii) is a Sanctioned Person. Section 4.19 Anti-Corruption Laws.

No part of the proceeds of any Initial Note will, directly or, to the knowledge of the Issuer indirectly, be used for any improper payments to any governmental official or employee, political party, official of a political party, candidate for political office, or anyone else acting in an official capacity, or any other party (if applicable) in order to obtain, retain or direct business or obtain any improper advantage, in violation of the United States Foreign Corrupt Practices Act of 1977, as amended (the “Anti-Corruption Laws”). (a) Subject to compliance by the Initial GS Purchasers with the representations and warranties set forth in Article 5, it is not necessary in connection with the offer and sale of the Securities in the manner contemplated by this Agreement, to register the Securities issued on the Closing Date under the Securities Act or to qualify an indenture relating to the Securities under the Trust Indenture Act of 1939.

(b) None of the Issuer or its Affiliates or any Person acting on any of their behalf (other than the Initial GS Purchasers and their Affiliates, as to whom the Issuer makes no representation or warranty) directly or indirectly, has offered, sold or solicited any offer to buy and will not, directly or indirectly, offer, sell or solicit any offer to buy, any security of a type or in a manner which would be integrated with the sale of the Securities issued on the Closing Date and require the Securities issued on the Closing Date to be registered under the Securities Act. None of the Issuer or its Affiliates or any Person acting on any of their behalf (other than the Initial GS Purchasers and their Affiliates, as to whom the Issuer makes no representation or warranty) has engaged or will engage in any form of general solicitation or general advertising (within the meaning of Rule 502(c) under the Securities Act) in connection with the offering of the Securities issued on the Closing Date. (a) It is either: (A) a Qualified Institutional Buyer, (B) an institutional accredited investor (as such term is defined in Rule 501(a)(1), (2), (3) or (7)) or (C) a non-U.S. Person (as such term is defined in Regulation S under the Securities Act) and will not acquire the Initial Notes for the account or benefit of any U.S. Person;

(d) It understands that the exemption from registration afforded by Rule 144 (the provisions of which are known to such Initial GS Purchaser) promulgated under the Securities Act depends on the satisfaction of various conditions, and that, if applicable, Rule 144 may afford the basis for sales only in limited amounts;

(e) Except as disclosed, it did not employ any broker or finder in connection with the transactions contemplated in this Agreement and no fees or commissions are payable to the Initial GS Purchasers (it being understood and agreed that a Closing Payment does not constitute a fee or commission);

(g) It either (A) is, and for so long as it holds any Notes, will be, a “venture capital operating company” or wholly owned by a “venture capital operating company” or (B) does not have, and for so long as it holds any Notes, will not have, “significant equity participation” by “benefit plan investors” pursuant to the Plan Asset Regulation. The terms “venture capital operating company” and “benefit plan investor” shall have the meaning assigned to such term in the Plan Asset Regulation.

Section 7.1 Board Observer Rights.

(a) Prior to the Disposition Date, each of the TopCos, Holdings and the Issuer shall cause, at the request of BSCH (in its capacity under this Section 7.1, the “Board Observer Appointment Entity”), one Eligible Person selected by the Board Observer Appointment Entity to be appointed on behalf of the Board Observer Appointment Entity as a non-voting observer (a “Non-Voting Observer”) to each Applicable Governing Body of (i) each TopCo, (ii) Holdings, (iii) the Issuer and (iv) any direct or indirect Subsidiary of the Issuer (each of the entities described in subclauses (i) through (iv) being herein called an “Entity”); *provided* that the Non-Voting Observer shall not be appointed to any committees of any Entity other than any Executive Committee of such Entity, to which the Non-Voting Observer shall be appointed on behalf of the Board Observer Appointment Entity as a non-voting observer.

(b) The Non-Voting Observer (i) shall be entitled to be present at all meetings of the Applicable Governing Body of each Entity and be notified of any meeting of any such Applicable Governing Body, including such meeting's time and place, in the same manner as members of the Applicable Governing Body of such Entity and (ii) shall be provided copies of all materials distributed to all members of the Applicable Governing Body of each Entity in their capacity as such concerning the business and operations of such Entity (e.g., monthly management reports including operational performance metrics and other financial and performance information provided to all members of such Applicable Governing Body in their capacities as members of such Applicable Governing Body) at substantially the same time as the members of the Applicable Governing Body of such Entity and be entitled to participate in discussions with such Applicable Governing Body of such Entity; *provided, however*, that the Non-Voting Observer shall not be a member of the Applicable Governing Body of such Entity and, accordingly, shall not be permitted to vote at any meeting of the Applicable Governing Body of such Entity or be counted for purposes of determining whether there is a sufficient quorum for any such Applicable Governing Body to conduct its business; *provided further*, that the rights of the Non-Voting Observer to attend any meetings (or any portion thereof) and receive materials shall be limited as necessary to the extent the applicable Entity determines in good faith that (x) the subject matter to be addressed at the meeting is strategically sensitive or otherwise sensitive, (y) such attendance or receipt of materials would result in a reasonable likelihood that there would be (1) a conflict of interest that would affect the Applicable Governing Body, (2) an adverse effect on the attorney-client privilege or similar privilege of the Applicable Governing Body, (3) a breach of fiduciary duties of any member of the Applicable Governing Body under applicable law or (4) a breach of confidentiality obligations of any Entity to third parties (not entered into in contemplation of the foregoing) or any law applicable to any Entity or (z) the information being discussed at such meetings, or included in such materials, relates to the strategy, negotiating positions or similar matters relating to the relationship of the applicable Entity and/or any of its respective Affiliates, on the one hand, with the holders of indebtedness issued by such Entity and/or their respective Affiliates, on the other hand, *provided* that if the rights of the Non-Voting Observer are limited pursuant to this proviso, the applicable Entity shall notify the Board Observer Appointment Entity and the Non-Voting Observer of such limitation in writing (an "Observance Limitation Notification") a reasonable time in advance of imposing such limitation and such Observance Limitation Notification shall set forth: (i) such limitation and reasons therefor and (ii) to the extent reasonably practicable, a reasonable description of the applicable information in a manner that would not give rise to the applicable prejudice of interests or the applicable conflict of interest, adverse effect on the attorney-client privilege, breach of applicable fiduciary duty or breach of confidentiality obligation or law; *provided further* that if the applicable Entity desires to impose such a limitation during any meeting of an Applicable Governing Body and was unable to reasonably anticipate prior to such meeting that it would impose such limitation, the delivery of the Observance Limitation Notification at the applicable meeting shall not be required.

(c) Each Entity, as applicable, will reimburse the Non-Voting Observer for all reasonable travel and other out-of-pocket expenses relating to its role as Non-Voting Observer and relating to its attendance of meetings of the Applicable Governing Body of such Entity.

(d) Applicable Governing Body Information shall be subject to the confidentiality provisions set forth in Section 9.15(b).

(e) At least one Entity will hold regular meetings of their respective Applicable Governing Body no less than three times each calendar year and the same prior notice of the date of each such meeting will be provided to the Board Observer Appointment Entity as is provided to the other members of the Applicable Governing Body.

(f) At any time prior to the Disposition Date, in the event of a vacancy caused by the resignation or other cessation of service of any Non-Voting Observer with respect to any Entity, upon nomination by the Board Observer Appointment Entity of another board observer in accordance with Section 7.1(a), such Entity shall cause the appointment of such Person as the new Non-Voting Observer of the Applicable Governing Body of such Entity; *provided* that such other board observer shall be an Eligible Person.

(g) In connection with its right to appoint the Non-Voting Observer to the Applicable Governing Body of each Entity pursuant to Section 7.1(a) (the “Appointment Right”), the Board Observer Appointment Entity hereby represents and warrants on and as of the Closing Date that (x) it is not a “foreign person” (as defined under 31 C.F.R. § 800.216), (y) it has not entered into any agreement or arrangement with any other Person related to appointment of the Non-Voting Observer (except as set forth herein) and (z) it has not assigned the appointment right to any “foreign person” or other Person or entered into any agreement that would permit any such “foreign person” or other Person to exercise the Appointment Right on its behalf.

Section 7.2 Assistance in Private Sale of Notes. At any time from and after the Closing Date, upon request by any GS Purchasers, the Issuer and the Guarantors shall use commercially reasonable efforts to assist such GS Purchasers in any resale of Notes without registration under the Securities Act by: (i) providing direct contact between senior management and advisors and prospective purchasers; (ii) responding to inquiries of, and providing answers to, prospective purchasers; (iii) providing assistance in completion of the prospective purchasers’ due diligence review; and (iv) hosting one or more meetings of prospective purchasers at the Issuer’s facilities or such other location selected by the Issuer; *provided* that all reasonable and documented out-of-pocket third-party expenses and costs incurred by the Issuer and the Guarantors relating to the provision of such assistance shall be paid by the applicable GS Purchaser (or GS Purchasers); *provided further*, that (I) such assistance shall not require the Issuer or the other Note Parties to prepare or provide an offering memorandum, projections or pro forma financial statements, (II) in no event shall the Issuer or the other Note Parties be required to provide any such assistance if such resale would, in the Issuer’s reasonable judgment, violate applicable securities laws and (III) in no event shall the Issuer or the other Note Parties be required to disclose the existence of or facts surrounding any proposed or pending material corporate transaction involving Holdings or any of its Subsidiaries if the Issuer determines in good faith that it is in the best interests of the Issuer not to make such disclosure.

Section 7.3 DTC Eligibility. From and after the Closing Date, the Issuer will use its commercially reasonable efforts, upon issuance thereof and while outstanding, to ensure that the Notes be eligible for clearance and settlement through the facilities of the DTC, and to cause the Notes to be evidenced by one or more Global Notes to be issued in the name of Cede & Co., as nominee for the DTC, pursuant to the DTC Agreement and do all other things necessary and appropriate to give effect to the foregoing provisions.

Section 7.4 Inspection Rights. The Note Parties shall, and shall require their Restricted Subsidiaries to, permit representatives of BSCH to visit and inspect any of its properties (subject to the rights of lessees or sublessees thereof and subject to any restrictions or limitations in the applicable lease, sublease or other written occupancy arrangement pursuant to which the Issuer or any Restricted Subsidiary is a party), to examine its corporate, financial and operating records, and make copies thereof or abstracts therefrom, and to discuss its affairs, finances and accounts with its directors, managers, officers, and independent public accountants (subject to such accountants’ customary policies and procedures), all at the reasonable expense of the Issuer and at such reasonable times during normal business hours and as often as may be reasonably desired, upon reasonable advance written notice to the Issuer; *provided* that, excluding any such visits and inspections during the continuation of an Event of Default, (i) BSCH shall not exercise such rights more often than one time during any calendar year and (ii) such exercise shall be at the Issuer’s expense; *provided further*, that when an Event of Default is continuing BSCH (or any of its representatives) may do any of the foregoing at the expense of the Issuer at any time and from time to time during normal business hours and upon reasonable advance written notice. BSCH shall give the Issuer the opportunity to participate in any

discussions with the Issuer's accountants. Notwithstanding anything to the contrary in this Section 7.4, neither the Issuer nor any Restricted Subsidiary will be required to disclose or permit the inspection or discussion of, any document, information or other matter (i) that constitutes non-financial trade secrets or non-financial proprietary information, (ii) in respect of which disclosure to BSCH (or its representatives or contractors) is prohibited by Law or any binding agreement or (iii) that is subject to attorney client or similar privilege or constitutes attorney work product.

Section 7.5 Additional Guarantors. The Note Parties will cause each Additional Guarantor to execute a counterpart to this Agreement in the form attached hereto as Exhibit D and to deliver such counterpart to the GS Purchasers substantially concurrently with execution of such Additional Guarantor of the supplemental indenture pursuant to which it shall have become a Subsidiary Guarantor.

Section 7.6 Canadian Indebtedness Limitation. Notwithstanding anything to the contrary herein, in the Indenture or in any other Note Document, the Note Parties shall not, without the prior written consent of the GS Purchasers, permit the Aggregate Canadian Liabilities Amount to, at any time, exceed the sum of (i) \$1,050,000,000 and (ii) the greater of (x) \$150,000,000 and (y) 33.0% of Four Quarter Consolidated EBITDA.

Section 7.7 Notice of Disposition Date; No Transfers to Certain Persons. The GS Purchasers (or any GS Purchaser on their behalf) shall notify the Issuer of the occurrence of the Disposition Date within 5 Business Days following the occurrence thereof, which notice shall be deemed validly given if, notwithstanding anything to the contrary set for in Article 9, transmitted by e-mail to the e-mail address of the Issuer set forth in Section 9.1(b). Notwithstanding anything to the contrary herein, the GS Purchasers shall not sell, pledge, assign, participate or otherwise transfer any Notes (or any interest therein) to any Disqualified Institution or a natural person.

ARTICLE 8 EXPENSES AND INDEMNIFICATION

Section 8.1 Costs and Expenses. The Issuer agrees:

(a) to pay or reimburse the GS Purchasers for all reasonable and documented out-of-pocket costs and expenses incurred in connection with the preparation, negotiation and execution of this Agreement and the other Note Documents (including reasonable expenses incurred in connection with due diligence and travel, courier, reproduction, printing and delivery expenses), and any amendment, waiver, consent or other modification of the provisions hereof and thereof, and the consummation and administration of the transactions contemplated hereby and thereby, including the reasonable fees, disbursements and other charges of counsel (limited to the reasonable, documented out-of-pocket fees, disbursements and other charges of one primary counsel to the GS Purchasers and, if reasonably necessary, one local counsel in each relevant jurisdiction (which may include a single special counsel acting in multiple jurisdictions, in each case, in jurisdictions material to the interests of the GS Purchasers) and special counsel for each relevant specialty), and

(b) to pay or reimburse the GS Purchaser for all reasonable documented out-of-pocket costs and expenses incurred in connection with the enforcement of any rights or remedies under this Agreement or the other Note Documents (including all such costs and expenses incurred during any legal proceeding, including any proceeding under any Debtor Relief Law or in connection with any workout or restructuring), including the fees, disbursements and other charges of counsel (limited to the reasonable fees, documented out-of-pocket disbursements and other charges of one counsel to the GS Purchasers taken as a whole, and, if reasonably necessary, of one local counsel in each relevant jurisdiction (which may include a single special counsel acting in multiple jurisdictions, in each case, in jurisdictions material to the interests of the GS Purchasers) and of special counsel for each relevant specialty and, in the event of any actual or perceived conflict of interest, one additional counsel in each relevant jurisdiction for each GS Purchaser subject to such conflict with the consent of the Issuer).

All amounts due under this Section 8.1 shall be paid within 30 days after invoiced or demand therefor (with a reasonably detailed invoice with respect thereto) (except for any such costs and expenses incurred prior to the Closing Date, which shall be paid on the Closing Date to the extent invoiced at least five Business Days prior to the Closing Date). This Section 8.1 shall not apply with respect to Taxes other than any Taxes arising from any non-Tax cost or expense.

Section 8.2 Indemnification by the Note Parties. The Issuer shall indemnify and hold harmless each GS Purchaser, the Board Observer Appointment Entity, the Non-Voting Observer, each of their respective Affiliates, and each partner, director, officer, employee, counsel, agent and representative of the foregoing and, in the case of any funds or other investment vehicles, trustees, managers and advisors and attorneys- in-fact (collectively, the “Indemnitees”) from and against (and will reimburse each Indemnitee, as and when incurred, for) any and all liabilities, obligations, losses, damages, penalties, claims, demands, actions, judgments, suits, costs (including settlement costs), disbursements, and reasonable and documented or invoiced out-of-pocket fees and expenses (including the reasonable and documented out-of-pocket fees, disbursements and other charges of (i) one counsel to the Indemnitees taken as a whole, (ii) in the case of an actual or perceived conflict of interest, where the Indemnitee affected by such conflict informs the Issuer and thereafter retains its own counsel, of another firm of counsel for each such affected Indemnitee, one local counsel in each jurisdiction material to the interests of such Indemnitee (which may include a single special counsel acting in multiple jurisdictions) and special counsel for such Indemnitee for each relevant specialty and (iii) if reasonably necessary, one local counsel in each jurisdiction material to the interests of the Indemnitees (which may include a single special counsel acting in multiple jurisdictions) and special counsel for each relevant specialty) of any kind or nature whatsoever which may at any time be imposed on, incurred by or asserted or awarded against any such Indemnitee in any way relating to or arising out of or in connection with or by reason of (x) any actual or prospective claim, litigation, investigation or proceeding in any way relating to, arising out of, in connection with or by reason of any of the following, whether based on contract, tort or any other theory (including any investigation of, preparation for, or defense of any pending or threatened claim, investigation, litigation or proceeding): (a) the execution, delivery, enforcement, performance or administration of any Note Document or any other agreement, letter or instrument delivered in connection with the transactions contemplated thereby or the consummation of the transactions contemplated thereby (including the exercise of any rights and the performance of any actions by the Board Observer Appointment Entity (in its capacity as such) or the Non-Voting Observer pursuant to Section 7.1) or (b) any issuance of Notes or the proposed use of the proceeds therefrom; *provided* that such indemnity shall not, as to any Indemnitee, be available to the extent that such liabilities, obligations, losses, damages, penalties, claims, demands, actions, judgments, suits, costs, disbursements, fees or related expenses are determined by a court of competent jurisdiction in a final and non-appealable judgment to have resulted from (A) the bad faith, gross negligence or willful misconduct of such Indemnitee or any of its Affiliates or controlling persons or any of the officers, directors, employees, agents, advisors, or members of any of the foregoing, (B) a material breach of the Note Documents by such GS Purchaser (or any of its respective Affiliates, partners, directors, officers, employees, counsel, agents and representatives), as the case may be, as determined by a court of competent jurisdiction in a final and non-appealable decision or (C) any dispute that is among Indemnitees (other than any dispute involving claims against an Indemnitee in its capacity as a GS Purchaser under the Note Documents) that, in the case of (A), (B) or (C) a court of competent jurisdiction has determined in a final and non-appealable judgment did not involve actions or omissions of the Issuer or its Subsidiaries or any of their respective Affiliates; or (y) any actual or alleged presence or Release of Hazardous Materials on or from any property currently or formerly owned or operated by the Issuer or its Subsidiaries and any other Environmental Liability related in any way to Holdings or any of its Subsidiaries, in all cases, *provided* that such indemnity shall not, as to any

Indemnitee, be available to the extent that such losses, claims, damages, liabilities or related expenses are determined by a court of competent jurisdiction by final and non-appealable judgment to have resulted from the gross negligence, bad faith or willful misconduct of such Indemnitee. No Indemnitee shall be liable for any damages arising from the use by others of any information or other materials obtained through information transmission systems (including electronic telecommunications) in connection with this Agreement or the other Note Documents unless determined by a court of competent jurisdiction in a final and non-appealable judgment to have resulted from the gross negligence, bad faith or willful misconduct of such Indemnitee, nor shall any Indemnitee or any Note Party have any liability for any special, punitive, indirect or consequential damages relating to this Agreement or any other Note Document or arising out of its activities in connection herewith or therewith (whether before or after the Closing Date); provided that such waiver of special, punitive, indirect or consequential damages shall not limit the indemnification obligations of the Note Parties under this Section 8.2. In the case of an investigation, litigation or other proceeding to which the indemnity in this Section 8.2 applies, such indemnity shall be effective whether or not such investigation, litigation or proceeding is brought by any Note Party, its directors, shareholders or creditors or an Indemnitee or any other Person, and whether or not any Indemnitee is otherwise a party thereto. Should any investigation, litigation or proceeding be settled, or if there is a judgment in any such investigation, litigation or proceeding, the Issuer shall indemnify and hold harmless each Indemnitee in the manner set forth above; provided that the Issuer shall not be liable for any settlement effected without the Issuer's prior written consent (such consent not to be unreasonably withheld, delayed or conditioned). All amounts due under this Section 8.2 shall be payable within 30 days after demand therefor. This Section 8.2 shall not apply with respect to Taxes other than any Taxes that represent losses, claims, damages, etc. arising from any non-Tax claim.

Section 8.3 Contribution. If for any reason the foregoing indemnification set forth in Section 8.2 is unavailable to any Indemnitee or insufficient in respect of any loss, claim, damage or liability referred to therein, then the Issuer, in lieu of indemnifying such Indemnitee thereunder, shall contribute to the amount paid or payable by such Indemnitee as a result of such loss, claim, damage or liability in such proportion as is appropriate to reflect the relative economic interests of (a) the Issuer and the other Note Parties, on the one hand, and (b) such Indemnitee, on the other hand, in the matters contemplated by this Agreement. The relative economic interests received by the Issuer and the other Note Parties, on the one hand, and such Indemnitee, on the other, shall be deemed to be in the same respective proportions as the net proceeds received by the Issuer from the sale of the Initial Notes and the Closing Payment or other compensation received by such Indemnitee in connection therewith, as provided in this Agreement, bear to the aggregate offering price of the Initial Notes. If, however, the allocation provided by the immediately preceding sentence is not permitted by applicable law, then, as well as the relative economic interests as set forth above, the amount of contribution shall also take into account the relative fault of (i) the Issuer and the other Note Parties, on the one hand, and (ii) such Indemnitee, on the other hand, with respect to such loss, claim, damage or liability and any other relevant equitable considerations. The Issuer, the other Note Parties and the GS Purchasers agree that it would not be just and equitable if contribution pursuant to this Section 8.3 were determined by pro rata allocation (even if the GS Purchasers were treated as one entity for such purpose) or by any other method of allocation which does not take into account the equitable considerations referred to in this Section 8.3.

Section 8.4 Survival. Notwithstanding anything to the contrary set forth in this Agreement or the other Note Documents, the agreements in this Article 8 will survive the execution and delivery of this Agreement and the other Note Documents, the issuance of the Initial Notes and any other Notes, the payment, repayment and/or transfer of any Note or obligation relating thereto, the enforcement, amendment and/or waiver of any provision of any Note Document and the discharge, defeasance and/or termination of the Notes and/or any other Note Document.

ARTICLE 9

Shannon, e-mail: Patrick.Shannon@lw.com.

Section 9.2 Benefit of Agreement and Assignments.

(a) Except as otherwise expressly provided herein, all covenants, agreements and other provisions contained in this Agreement by or on behalf of any of the parties hereto shall bind, inure to the benefit of and be enforceable by their respective successors and permitted assigns; *provided, however,* that (i) none of the Issuer, the TopCos or the Guarantors may assign or transfer any of its rights or obligations without the prior written consent of the other parties hereto and (ii) BSCH shall not assign its rights under Section 7.1 without the prior written consent of the Issuer.

(b) Nothing in this Agreement or in any other Note Document, express or implied, shall give to any Person (other than the parties hereto, the Non-Voting Observer (solely in respect of the rights set forth in Section 7.1 and this Article 9), Indemnitees and each of their respective successors and permitted assigns) any benefit or any legal or equitable right, remedy or claim under this Agreement. For the avoidance of doubt, any Holder of Notes or holder of beneficial interest therein that, in each case, is not a GS Purchaser or otherwise party hereto or an intended third-party beneficiary hereof (e.g., the Non-Voting Observer (solely in respect of the rights set forth in Section 7.1 and this Article 9) and Indemnitees), shall not be entitled to the benefits of this Agreement and shall not have any obligations under this Agreement.

(c) Notwithstanding anything to the contrary contained herein, any GS Purchaser may assign its commitments to purchase all or any portion of its Notes (or beneficial interests therein) or transfer its Notes (or beneficial interests therein) and/or any rights hereunder, either together or separately, (i) to any existing GS Purchaser or (ii) to any Other GS Entity, subject, in the case of clause (ii), to such Person, if not already a party, becoming a party hereto, evidenced by delivering an executed counterpart hereof in substantially the form of Exhibit E, and, upon execution of such counterpart, each such Person shall be deemed to be a party hereto as a GS Purchaser entitled to the full benefit and subject to the obligations of this Agreement as if such Person were initially a GS Purchaser hereunder.

Section 9.3 No Waiver; Remedies Cumulative. No failure or delay on the part of any party hereto in exercising any right, power or privilege hereunder or under the Notes and no course of dealing between any Note Party or each TopCo and any other party shall operate as a waiver thereof; nor shall any single or partial exercise of any right, power or privilege hereunder or under the Notes preclude any other or further exercise thereof or the exercise of any other right, power or privilege hereunder or thereunder. The rights and remedies provided herein and in the Notes are cumulative and not exclusive of any rights or remedies that the parties would otherwise have. No notice to or demand on any Note Party or each TopCo in any case shall entitle any such Note Party or each TopCo to any other or further notice or demand in similar or other circumstances or constitute a waiver of the rights of the other parties hereto to any other or further action in any circumstances without notice or demand.

Section 9.4 Amendments, Waivers and Consents. This Agreement may be amended, and the observance of any term hereof may be waived (either retroactively or prospectively), with the written consent of the Issuer and the Initial GS Purchasers. No amendment or waiver of this Agreement will extend to or affect any obligation, covenant or agreement not expressly amended or waived or thereby impair any right consequent thereon. As used herein, the term "Agreement" and references thereto shall mean this agreement as it may from time to time be amended, supplemented or modified.

Section 9.5 Counterparts. This Agreement may be executed in any number of counterparts, each of which when so executed and delivered shall be deemed an original, but all of which shall constitute one and the same instrument. It shall not be necessary in making proof of this Agreement to produce or account for more than one such counterpart. Each counterpart may consist of a number of copies hereof, each signed by less than all, but together signed by all, of the parties hereto.

Section 9.6 Reproduction. This Agreement, the Note Documents and all documents relating hereto and thereto, including: (a) consents, waivers and modifications that may hereafter be executed, (b) documents received by the GS Purchasers on the Closing Date (except the Notes themselves) and (c) financial statements, certificates and other information previously or hereafter furnished in connection herewith, may be reproduced by any photographic, photostatic, microfilm, microcard, miniature photographic or other similar process and any original document so reproduced may be destroyed. Each party hereto agrees and stipulates that, to the extent permitted by applicable law, any such reproduction shall be admissible in evidence as the original itself in any judicial or administrative proceeding (whether or not the original is in existence and whether or not such reproduction was made in the regular course of business) and any enlargement, facsimile or further reproduction of such reproduction shall likewise be admissible in evidence. This Section 9.6 shall not prohibit any party hereto or any holder of the Notes from contesting any such reproduction to the same extent that it could contest the original or from introducing evidence to demonstrate the inaccuracy of any such reproduction.

Section 9.7 Headings. The headings of the sections and subsections hereof are provided for convenience only and shall not in any way affect the meaning or construction of any provision of this Agreement.

Section 9.8 Survival of Covenants and Indemnities. All covenants and indemnities set forth herein shall survive the execution and delivery of this Agreement and the other Note Documents, the issuance of the Initial Notes and any other Notes and the enforcement, amendment and/or waiver of any provision of any Note Document and, except as otherwise expressly provided herein with respect to certain covenants, the payment, repayment and/or transfer of any Note or obligation relating thereto and the discharge, defeasance and/or termination of the Notes and/or any other Note Document.

Section 9.9 Governing Law; Jurisdiction; Consent to Service of Process; Waiver of Jury Trial.

(a) This Agreement shall be governed by, and construed in accordance with, the laws of the State of New York.

(b) Each party hereto hereby irrevocably and unconditionally submits, for itself and its property, to the exclusive jurisdiction of the Supreme Court of the State of New York sitting in New York County and of the United States District Court of the Southern District of New York, and any appellate court from any thereof, in any action or proceeding arising out of or relating to any Note Document, or for recognition or enforcement of any judgment, and each of the parties hereto hereby irrevocably and unconditionally agrees that all claims in respect of any such action or proceeding may be heard and determined in such New York State court or, to the extent permitted by law, in such federal court. Each of the parties hereto agrees that a final judgment in any such action or proceeding shall be conclusive and may be enforced in other jurisdictions by suit on the judgment or in any other manner provided by law. Nothing in this Agreement or any other Note Document shall affect any right that the Trustee, any Holder or any GS Purchaser may otherwise have to bring any action or proceeding relating to any Note Document against Holdings or the Issuer or the other Note Parties or their respective properties in the courts of any jurisdiction.

(c) Each party hereto hereby irrevocably and unconditionally waives, to the fullest extent it may legally and effectively do so, any objection that it may now or hereafter have to the laying of venue of any suit, action or proceeding arising out of or relating to any Note Document in any court referred to in Section 9.9(b) above. Each of the parties hereto hereby irrevocably waives, to the fullest extent permitted by law, the defense of an inconvenient forum to the maintenance of such action or proceeding in any such court.

(d) Each party to this Agreement irrevocably consents to service of process in the manner provided for notices in Section 9.1. Nothing in any Note Document will affect the right of any party to this Agreement to serve process in any other manner permitted by law.

(e) EACH PARTY HERETO HEREBY WAIVES, TO THE FULLEST EXTENT PERMITTED BY APPLICABLE LAW, ANY RIGHT IT MAY HAVE TO A TRIAL BY JURY IN ANY LEGAL PROCEEDING DIRECTLY OR INDIRECTLY ARISING OUT OF OR RELATING TO ANY NOTE DOCUMENT OR THE TRANSACTIONS CONTEMPLATED THEREBY (WHETHER BASED ON CONTRACT, TORT OR ANY OTHER THEORY). EACH PARTY HERETO (A) CERTIFIES THAT NO REPRESENTATIVE, AGENT OR ATTORNEY OF ANY OTHER PARTY HAS REPRESENTED, EXPRESSLY OR OTHERWISE, THAT SUCH OTHER PARTY WOULD NOT, IN THE EVENT OF LITIGATION, SEEK TO ENFORCE THE FOREGOING WAIVER AND (B) ACKNOWLEDGES THAT IT AND THE OTHER PARTIES HERETO HAVE BEEN INDUCED TO ENTER INTO THIS AGREEMENT BY, AMONG OTHER THINGS, THE MUTUAL WAIVERS AND CERTIFICATIONS IN THIS SECTION.

Section 9.10 Severability. If any provision of this Agreement is determined to be illegal, invalid or unenforceable, such provision shall be fully severable to the extent of such illegality, invalidity or unenforceability and the remaining provisions shall remain in full force and effect and shall be construed without giving effect to the illegal, invalid or unenforceable provisions.

Section 9.11 Entirety. This Agreement together with the other Note Documents represents the entire agreement of the parties hereto and thereto, and supersedes all prior agreements and understandings, oral or written, if any, relating to the Note Documents or the transactions contemplated herein or therein.

Section 9.12 Survival of Representations and Warranties. All representations and warranties made by the Note Parties and the TopCos herein shall survive the execution and delivery of this Agreement and the other Note Documents, the issuance, delivery and transfer of all or any portion of the Notes, and the payment of principal of the Notes, and any other obligations hereunder and under the other Note Documents, regardless of any investigation made at any time by or on behalf of the GS Purchasers.

Section 9.13 Construction. Each covenant contained herein shall be construed (absent express provision to the contrary) as being independent of each other covenant contained herein, so that compliance with any one covenant shall not (absent such an express contrary provision) be deemed to excuse compliance with any other covenant. Where any provision herein refers to action to be taken by any Person, or which such Person is prohibited from taking, such provision shall be applicable whether such action is taken directly or indirectly by such Person, whether or not expressly specified in such provision.

Section 9.14 Incorporation. All Schedules attached hereto are incorporated as part of this Agreement as if fully set forth herein.

Section 9.15 Confidentiality.

(a) Each of the GS Purchasers agrees to maintain the confidentiality of, and not disclose to any Person, the Information, except that Information may be disclosed (a) to its Affiliates and its and their respective limited partners, lenders, investors and managed accounts and to the respective directors, officers, managers, members, accountants, agents, employees, independent auditors, or other experts and advisors of it or any of the foregoing including accountants, auditors, legal counsel, and other advisors on a “need to know” basis solely in connection with the transactions contemplated hereby and who are informed of the confidential nature of the Information and are or have been advised of their obligation to keep the Information of this type confidential; (b) to the extent requested by any regulatory authority having jurisdiction over such GS Purchaser or its Affiliates or in connection with any pledge or assignment permitted under Section 9.2; (c) in any legal, judicial, administrative proceeding or other compulsory process or otherwise as required by applicable Laws or regulations or by any subpoena or similar legal process, in each case based upon the reasonable advice of the disclosing GS Purchaser’s legal counsel (in which case the disclosing GS Purchaser agrees (except with respect to any audit or examination conducted by bank accountants or any governmental bank regulatory authority exercising examination or regulatory authority), to the extent not prohibited by applicable Law, to promptly notify the Issuer prior to such disclosure); (d) to any other party to this Agreement; (e) in connection with the exercise of any remedies hereunder or under any other Note Document or any action or proceeding relating to this Agreement or any other Note Document or the enforcement of rights hereunder or thereunder; (f) subject to an agreement containing provisions substantially the same (or at least as restrictive) as those of this Section 9.15(a) (or as may otherwise be reasonably acceptable to the Issuer), to any actual or prospective purchaser, assignee or transferee of Notes (or beneficial interests therein); *provided* that no such disclosure shall be made by such GS Purchaser or any of its Affiliates to any such Person that is a Disqualified Institution; (g) with the written consent of Holdings; (h) to the extent such Information becomes publicly available other than as a result of a breach of this Section 9.15(a); (i) to any state, federal or foreign authority or examiner (including the National Association of Insurance Commissioners or any other similar organization) regulating any GS Purchaser or any Affiliate of any GS Purchaser; (j) to any rating agency involved in the evaluation, administration or monitoring of a GS Purchaser’s investment in the Notes so long such rating agency is subject to customary confidentiality obligations of professional practice or otherwise instructed to keep the same confidential; (k) to any contractual counterparty (or prospective contractual counterparty) in any swap, hedge, or similar agreement or to any such contractual counterparty’s (or prospective contractual counterparty’s) professional advisor (other than a Disqualified Institution); (l) in connection with establishing a “due diligence” defense in connection with any legal, judicial, administrative proceeding or other process; or (m) by any GS Purchaser to any other actual or prospective GS Purchaser; *provided* that

no such disclosure pursuant to this clause (m) shall be made by any GS Purchaser to any Disqualified Institution. In addition, the GS Purchasers may disclose the existence of this Agreement and information about this Agreement to market data collectors, similar service providers to the lending industry, and service providers to the GS Purchasers, in each case, in connection with the administration, management, evaluation and/or monitoring of the investment of the applicable GS Purchasers in the Notes; *provided* that such Person is advised and agrees to be bound by the provisions of this Section 9.15(a).

For purposes of this Section 9.15(a), “Information” means all information (other than Applicable Governing Body Information) received from any Note Party or any Subsidiary thereof relating to any Note Party or any Subsidiary thereof or their respective businesses, other than any such information that is publicly available to any GS Purchaser prior to disclosure by any Note Party other than as a result of a breach of this Section 9.15(a) by such GS Purchaser; *provided* that, for the avoidance of doubt, none of the Note Documents shall be deemed to be Information.

(b) Each of the GS Purchasers agrees to (and to cause the Non-Voting Observer to) maintain the confidentiality of, and not disclose to any Person, any Applicable Governing Body Information, except that Applicable Governing Body Information may be disclosed (a) to its Affiliates and its and their respective limited partners and investors, and to the respective directors, officers, employees, independent auditors and legal counsel of it or any of the foregoing on a “need-to-know” basis solely in connection with the monitoring, evaluation or administration of any GS Purchaser’s investment in the Notes and who are informed of the confidential nature of the Applicable Governing Body Information and are or have been advised of their obligation to keep the Applicable Governing Body Information or information of this type confidential; (b) to the extent requested by any regulatory authority having jurisdiction over any GS Purchaser or its Affiliates or the Non-Voting Observer; (c) in any legal, judicial, administrative proceeding or other compulsory process or otherwise as required by applicable Laws or regulations or by any subpoena or similar legal process, in each case based upon the reasonable advice of the disclosing GS Purchaser’s legal counsel or the Non-Voting Observer’s legal counsel (in which case the disclosing GS Purchaser or the Non-Voting Observer, as applicable, agrees (except with respect to any audit or examination conducted by bank accountants or any governmental bank regulatory authority exercising examination or regulatory authority), to the extent not prohibited by applicable Law, to promptly notify the Issuer prior to such disclosure); (d) with the written consent of Holdings; (e) to the extent such Information becomes publicly available other than as a result of a breach of this Section 9.15(b); (f) to any state, federal or foreign authority or examiner (including the National Association of Insurance Commissioners or any other similar organization) regulating any GS Purchaser or any Affiliate of any GS Purchaser or the Non-Voting Observer; or (g) by any GS Purchaser or the Non-Voting Observer to any actual or prospective GS Purchaser, *provided* that, no such disclosure pursuant to this clause (g) shall be made by any GS Purchaser or the Non-Voting Observer to any Disqualified Institution.

For purposes of this Section 9.15(b), “Applicable Governing Body Information” means information relating to any TopCo, any Subsidiary thereof or their respective businesses received by any GS Purchaser directly or indirectly (including from any Non-Voting Observer) from an Applicable Governing Body of any Entity to the extent resulting from the exercise by the Board Observer Appointment Entity of the Appointment Right and that, but for such exercise of the Appointment Right, such GS Purchaser would not be in possession of such information. For the avoidance of doubt, information that constitutes Applicable Governing Body Information will cease to be Applicable Governing Body Information if such information is (x) received by a GS Purchaser through a means other than the exercise by the Board Observer Appointment Entity of the Appointment Right (or any Non-Voting Observer’s receipt of such information as a result thereof), including pursuant to any other obligation to provide information or reports under this Agreement or the Indenture (at which point such information may nevertheless be “Information” subject to Section 9.15(a) if such information falls with such definition) or (y) becomes publicly available other than as a result of a breach by a GS Purchaser of this Section 9.15(b).

(c) Any Person required to maintain the confidentiality of Information or Applicable Governing Body Information as provided in Section 9.15(a) or Section 9.15(b) shall be considered to have complied with its obligation to do so if such Person has exercised the same degree of care to maintain the confidentiality of such Information or Applicable Governing Body Information as such Person would accord to its own confidential information; *provided* that the foregoing shall not relieve any Person from liability with respect to any disclosures of Information or Applicable Governing Body Information in breach of any obligations not to disclose Information or Applicable Governing Body Information as provided in Section 9.15(a) or Section 9.15(b).

(d) Each GS Purchaser and the Issuer acknowledges that (i) the Information may include material non-public information concerning Holdings or any of its Subsidiaries, (ii) it has developed compliance procedures regarding the use of material non-public information and (iii) it will handle such material non-public information in accordance with applicable Law, including United States federal and state securities Laws.

(e) Notwithstanding anything to the contrary set forth herein, each party (and each of their respective employees, representatives or other agents) may disclose to any and all Persons, without limitations of any kind, the tax treatment and tax structure of the Transactions and all materials of any kind (including opinions and other tax analyses) that are provided to any such party relating to such tax treatment and tax structure. However, any information relating to such tax treatment and tax structure shall remain subject to the applicable confidentiality provisions of this Section 9.15 (and the foregoing sentence shall not apply) to the extent reasonably necessary to enable the parties hereto, their respective Affiliates, and their respective Affiliates' partners, shareholders, directors, officers and employees to comply with applicable securities laws. For this purpose, "tax structure" means any facts relevant to the federal income tax treatment of the Transactions but does not include information relating to the identity of any of the parties hereto or any of their respective Affiliates.

Section 9.16 No Personal Obligations. Notwithstanding anything to the contrary contained herein or in any Note Document, it is expressly understood and the GS Purchasers expressly agree that nothing contained herein or in any other Note Document or in any other document contemplated hereby or thereby (whether from a covenant, representation, warranty or other provision herein or therein) shall create, or be construed as creating, any personal liability of any stockholder, director, officer or employee of the Issuer and its Subsidiaries in such Person's capacity as such, with respect to (a) any payment obligation of the Issuer or any of its Subsidiaries, (b) any obligation of the Issuer or any of its Subsidiaries to perform any covenant, undertaking, indemnification or agreement, either express or implied, contained herein or in any other Note Document, (c) any representation or warranty contained herein or any other Note Document, (d) any other claim or liability to the GS Purchasers under or arising under this Agreement or any other Note Document or in any other document contemplated hereby or thereby, or (e) any credit extended or loan made; *provided* that nothing herein shall be deemed to be a waiver of claims arising from fraud.

Section 9.17 Currency. Unless otherwise specified, all dollar amounts referred to in this Agreement are in Dollars.

Section 9.18 Qualified Intermediary. The GS Purchasers shall take all actions necessary to cause all payments of principal and interest made to the GS Purchasers to be made on their behalf to either (a) a financial institution described in Treasury Regulation section 1.1441-1(b)(2)(ii) or (b) a "qualified intermediary" (as defined in Treasury Regulation section 1.1441-1(e)(5)(ii)) that satisfies the requirements of Treasury Regulation section 1.1441-1(e)(5) (the Person described in clause (a) or (b) of this Section 9.18, the "GS Agent"). The GS Purchasers shall, or shall cause the GS Agent, to satisfy any withholding obligations pursuant to chapter 3 of the Code in respect of payments of, on or with respect to the Notes owned by the GS Purchasers. Failure of the GS Purchasers to comply with this Section 9.18 shall not be a defense to any of the Issuer's obligations under the Indenture or this Agreement, but for the avoidance of doubt the Issuer or its agent shall be entitled to withhold any amounts required by the Code from payments on the Notes, unless the Issuer or its agent is satisfied in its sole discretion that no such withholding is required.

Section 9.19 USA Patriot Act. The GS Purchasers hereby notify the Issuer that, pursuant to the requirements of the USA PATRIOT Act, the GS Purchasers may be required to obtain, verify and record information that identifies the Issuer, its Subsidiaries and the Guarantors, including their respective names and addresses other information that will allow the GS Purchasers to identify, the Issuer, its Subsidiaries and the Guarantors in accordance with the USA PATRIOT Act.

Section 9.20 Further Assurances. Each of the parties hereto shall, upon reasonable request of any other party hereto, do, make and execute all such documents, act, matters and things as may be reasonably required in order to give effect to the transactions contemplated hereby.

Section 9.21 Logo Use. Holdings and the Issuer hereby grant each GS Purchaser permission to use Holdings' and its Subsidiaries' names and logos in such GS Purchaser's or its Affiliates' marketing materials; *provided* that any such logos or other materials are used solely in a manner that is not intended to or reasonably likely to harm or disparage Holdings or any of its Subsidiaries or the reputation or goodwill of any of them.

Section 9.22 No Fiduciary Duties. Each TopCo and each of the Note Parties acknowledges and agrees that (i) the purchase and sale of the Securities pursuant to this Agreement is an arm's-length commercial transaction among the TopCos and the Note Parties, on the one hand, and the Initial GS Purchasers, on the other, (ii) in connection therewith and with the process leading to such transaction each Initial GS Purchaser is acting solely as principal and not the agent or fiduciary of either TopCo or any of the Note Parties, (iii) none of the GS Purchasers has assumed an advisory or fiduciary responsibility in favor of any TopCo or any Note Party with respect to the issuance contemplated hereby or the process leading thereto or any other obligation to any Note Party except the obligations expressly set forth in this Agreement and (iv) each of the Note Parties and the TopCos has consulted its own legal and financial advisors to the extent it deemed appropriate. Each of the Note Parties and the TopCos agrees that it will not claim that any GS Purchaser has rendered advisory services of any nature or respect, or owes a fiduciary or similar duty to any Note Party or TopCo, in connection with such transaction or the process leading thereto.

Section 9.23 Releases; Termination.

(a) A Subsidiary Guarantor shall be automatically released and discharged from its obligations hereunder (other than the provisions of Section 7.1) upon the consummation of any transaction permitted by the Indenture as a result of which such Guarantor is released from its Guarantee pursuant to, and in accordance with, the terms of Section 10.02 of the Indenture.

(b) This Agreement will terminate and will cease to be of further effect (other than the provisions of Article 8 and Sections 9.1, 9.2(a), 9.2(b), 9.2(c), 9.3 through 9.14, 9.16, 9.17, 9.19, 9.21, 9.22, 9.23 and Section 9.24) (x) upon the defeasance or discharge of all of the outstanding Notes, as provided in, and subject to the satisfaction of the conditions set forth in, Article VIII of the Indenture, as applicable or (y) on the first date occurring after the Closing Date on which none of the GS Purchasers Beneficially Owns any Notes.

Section 9.24 Sole Bookrunner. Notwithstanding anything to the contrary herein, the Sole Bookrunner (in its capacity as such) shall not have any rights, powers, obligations, liabilities, responsibilities or duties under this Agreement. For the avoidance of doubt, the immediately preceding sentence shall not limit or affect the status of the engagement letter dated as February 26, 2019 hereof between the Sole Bookrunner and Issuer or the provisions therein.
